Saved her Son's life.

The happiest mother in the little town of Ava, Mo., is Mrs. S. Ruppee. She writes: "One year ago my son was down with such serious lung trouble that our physician was unable to help him; when, by our druggist's advice I began giving him Dr. King's New Discovery, and I soon noticed improvement. I kept this treatment up for a few weeks when he was perfectly well. He has worked steadily since at carpenter work. Dr. King's New Discovery saved his life." Guaranteed best cough and cold cure by C. A. Wright, druggist. 50c and $1. Trial bottle free.

TECUMSEH GRANGE

The Tecumseh Grange No. 166 Prospering.

MRS. EUNICE D. HALL

As worthy Master and her lady assistants have taken interest in the work.

Tecumseh Grange Co. 166 is in a very properous condition. During the two years ending Dec. 31, 1906, all the officers of the Grange were ladies, with Mrs. Eunice D. Hall as Worthy Master

That Mrs. Hall and her assistants were zealous and untiring in their work for the good of the order, that possessed good executive ability and that they were fully capable in every way of managing the affairs of the Grange was demonstrated beyond question by the record of their two years' work and the excellent condition of the Grange at the end of the second year of their administration.

This year the officers were chosen from both sexes with C. H. Bramble as Worthy Master. It is not necessary to say that he is the right man in the right place. We have come to take it for granted that wherever he may be placed whether on the farm, as church trustee, Master of the Grange or member of the famous "Goosehollow quartette" Clem will always make good. All the other officials of the Grange are competent and wide awake. Last Friday night a class of ten consisting of Messrs. and Mesdames Perry VanValkenburg, Will Waldron, Fred Aylesworth and Lelah Rogers, Mrs. Lewis, Wilfred Waldron and Perry Lamkin took the third and fourth degree work and became full fledged Grangers.

Mr. Editor, if you want to meet the best looking, most level headed, biggest hearted, most whole-soul, hospitable body of people in grand old Michigan, go with me some Friday night in the near future and let me introduce you to the officers and the rank and file of Tecumseh Grange.

Gentle reader, if you want to be identified with an organization that has brains and push and energy and that really does things, better become a "jiner" and "jine" the Tecumseh Grange. C. H. S.

ENJOY EATING.

Good digestion can be readily gained with Mi-o-na stomach tablets.

It is torment to look upon a tempting dinner and be unable to eat freely that means distress and suffering.

Let us tell you how you can enjoy eating so that the heartiest meals will set well and cause no pain, distress or uncomfortable feeling.

If you cannot eat and enjoy three good, hearty, satisfying meals a day without any feeling of discomfort, your stomach is weak and needs the strength which Mi-o-na stomach tablets will give it. You cannot afford to delay treatment for the longer you allow the digestive organs to be weak, the harder it will be to get help.

The remarkable curative and strengthening power of Mi-o-na is attested by the guarantee which C. A. Wright gives with every 50c box. "I return the money if Mi-o-na fails to cure."

If you find that eating well cooked and properly chewed food is followed by heaviness and load on the stomach by bloating, gulping of acids and wind, distress, nervousness, headache, trouble to sleep or by any other symptoms of disordered or weak stomach, should begin the use of Mi-o-na at once. It is guaranteed by one of the best known druggists in Tecumseh to cure all disorders of the stomach or cost nothing. A guarantee like this means a good deal

WOMEN'S WOES.

Tecumseh women are finding relief at last.

It seems that women have more than a fair share of the aches and pains that afflict humanity: they must "keep up," must attend to duties in spite of backaches, headaches or dizzy spells, they must stoop over when to stoop means torture. They must walk and bend with racking pains from kidney ills. Kidneys cause more suffering than any other organ of the body. Keep them well and health is easily maintained. Read of a remedy for kidneys only and is endorsed by people you know.

Mrs Chas Stevenson, on Wyandotte street, Tecumseh, Mich., says: "I am glad to endorse Doan's Kidney Pills as they have been of great benefit to me When I was sick in bed with malaria fever I began to be troubled with sharp pains in my back and my kidneys were in bad shape. My nurse advised me to try Doan's Kidney Pills as they were an excellent remedy for such troubles. I got a box and began taking them. They proved to be just the remedy I required. In a short time the pains left, the secretions came back to their natural color and the gravel stones which had bothered me disappeared. I have since recommended Doan's Kidney Pills to all my friends and will continue to do so."

For sale by all dealers. Price 50 cents Foster-Milburn company, Buffalo, N Y., sole agents for the United States. Remember the name Doan's, and take no other.

Some men blame their wives every time it rains.

Doan's Regulets cure constipation, tone the stomach, stimulate the liver, promote digestion and appetite and easy passage of the bowels. Ask your druggist for them. 25c a box

A mob of women is less dangerous than a mob of men, but it sounds worse.

The News—No Pure Drug Cough Cure Laws would be needed, if all cough cures were like Dr. Shoop's Cough Cure is—and has been for 20 years. The National Law now requires that if any poisons enter into a cough mixture, it must be printed on the label or package.

For this reason mothers, and others, should insist on having Dr. Shoop's Cough Cure. No poisons marks on Dr. Shoop's labels—and none in the medicine, else it must by law be on the label. And its not only safe, but it is said to be by those that know it best, a truly remarkable cough remedy. Take no chance, particularly with your children. Insist on having Dr. Shoop's Cough Cure. Compare carefully the Dr. Shoop package with others and see. No poison marks there! You can always be on the safe side by demanding Dr. Shoop's Cough Cure. Simply refuse to accept any other. Sold by all dealers.

The Best Laxative for Children.

Parents should see to it that their children have one natural stool or movement of the bowels each day. Do not dose the child with salts or griping pills—as they are too powerful in effect, and literally tear their little bodies to pieces. Instead, give the bowels weakened and lazy children naturally than before. Laxative Iron-ox Tablets tone and strengthen the bowels, and stimulate all the little organs to healthy activity. Chocolate coated tablets, easy to take, never gripe or nauseate. 10c, 25c and $1.00.

Some people think a funeral a failure unless it has a lot of pathetic features.

Women as Well as Men Are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

CATARRH

To prove unquestionably, and beyond any doubt that Catarrh of the nose and throat can be cured, I am furnishing patients through druggists, small free Trial Boxes of Dr. Shoop's Catarrh Cure. I do this because I am so certain, that Dr. Shoop's Catarrh Cure will bring actual substantial help. Nothing certainly, is so convincing as a physical test of any article of real, genuine merit. But that article must possess true merit, else the test will condemn, rather than advance it. Dr. Shoop's Catarrh Cure is a snow white, healing antiseptic balm, put up in beautiful nickel capped glass jars at 50c. Such soothing agents as Oil Eucalyptus, Thymol, Menthol, etc., are incorporated into a velvety, cream like Petrolatum, imported by Dr. Shoop from Europe. If Catarrh of the nose and throat has extended to the stomach, then by all means also use internally, Dr. Shoop's Restorative. Stomach distress, a lack of general strength, bloating, belching, biliousness, bad taste, etc. surely call for Dr. Shoop's Restorative.

For uncomplicated catarrh only of the nose and throat nothing else, however, need be used but

"In 1897 I had a stomach disease. Some physicians said dyspepsia, some consumption. One said I would not live until spring. For four years I existed on boiled milk, soda biscuits and doctor's prescriptions I could not digest anything I ate; then I picked up one of your almanacs and it happened to be my life-saver. I bought a fifty-cent bottle of Kodol and the benefit I received from that bottle all the gold in Georgia could not buy. In two months I went back to my work, as a machinist and in three months I was well and hearty. May you live long and prosper." O. N. Cornell, Roding, Ga., 1906. VOL. LVII NO. 97 — TECUMSEH, MICHIGAN FRIDAY MARCH 8 1907 — WHOLE NO. 787

TECUMSEH

A Village in which the People take a Pardonable Pride.

A Great Manufacturing Centre.

WHERE THE RAILWAYS MEET.

A Bit of History and Illustrations of Prosperous Tecumseh, where nearly Three Thousand People reside among Surroundings of the Most Advantageous Character. Our Prosperous Manufacturers and Business Men who have made the Town.

CAPTION

Like a silver thread woven into a fabric of green, evolved from summer's sun and dews, the River Raisin intercepted here by Evans creek winds its way among fertile valleys, reflecting in its pellucid bosom, not the forms of others, which in the poet imagery of the Indians gave it name, but the chimneys and smokestacks of the numerous factories and workshops of its present identification with one of Michigan's largest and most progressive villages. The surrounding country comprises a grand succession of fertile and well-cultivated farms, upon which the annual abundant harvests repay the earnest toil of their owners. We might right here add that Lenawee county (in which Tecumseh was at one time its judicial county seat) is or was according to the U. S. census of 1890 rated as not only the most generally productive county in Michigan, but that it was also the best and most productive county in the United States. The village of Tecumseh, one of the most beautiful and best laid out places in the broad domain in the United States, is 58 miles south westward from Detroit, 36 miles from Toledo, Ohio; 33 miles from Jackson, and 12 miles from Adrian, the county seat, and is on the main line of the C. N. and D. P. & I. and two branch lines of the L. S. & M. S., both from Toledo to Jackson, and from Adrian to Dundee. The lowlands in nearby localities are devoted to celery culture, and from the products of that delectable vegetable, for which Tecumseh maintains the leading identity for quality even over that of Kalamazoo, the "far-famed celery city," the annual income aggregates fully a quarter million dollars. Rising gradually from the valleys is the crest upon which the village is built and around it in the distance are outlined against the horizon majestic hills along the River Raisin with their crowns of arboreal beauty.

The residence districts are replete with many elegant specimens of architecture, and well kept lawns and shade trees conspire to lend a charm of witching loveliness. The streets are broad and well kept and a grand park with its fine soldiers' monuments, a band stand, and grove of stalwart trees and picture shady nooks, invite the tired denizens to a blissful repose when summer holds its torrid sway. Few municipalities the size of Tecumseh afford a more delightful recreation than this pleasing park, which was set apart as such by our forefathers when platting this [illegible] of Michigan, and had carefully inspected the many locations which might prove desirable as the future site of their village home. It was not until early spring that they rested 'neath the spreading branches of some monarch of the forest, conscious that a wise selection had been made. Here in the beautiful valley of the Raisin they had found an unnamed Canaan, and when one of their number proposed that the prospective village be known as "Tecumseh," in honor of the aboriginal inhabitants' most mighty chieftain, the idea was hailed with unanimous favor. Thus, sprinkled by the dews of heaven, in the sanctuary of nature's God, our beautiful village, to which this article is devoted, received its christening. The editor of this issue of the Herald's special illustrated edition wishes to extend thanks for this sketch of Chief Tecumseh to Mr. J. H. Smith, the cashier of the Tecumseh State Savings Bank, from whose Historical Biographical Descriptive Book of Tecumseh was printed in 1895, this article was copied.

Nearly every religious denomination is represented in Tecumseh. The church edifices are modern in style of architectural appearance and having a good attendance. The Michigan school system is acknowledged to be among the very best in the country, and here the very best results are obtained. The buildings are substantially built, thus showing the great interest manifested in this direction by the board of education. The village is supplied with water from wells, the cost of the system being many thousand dollars. This furnishes the most approved system of fire prevention and a volunteer fire company equipped with modern apparatus gives the best protection. The electric light plant is fully equal to any demand and reasonable charges are maintained. On Chicago street are many imposing business blocks, which may be readily seen by the street scene cut here produced. With but few exceptions the photos for this edition were all made by our expert photographer, Mr. L. F. Abrams, proprietor of the Sunbeam Studio on East Chicago street, and the engravings were made by the Buckeye Engraving Co., of Toledo, Ohio, who are makers of high grade printing plates.

The Tecumseh cemetery is also one of the beauty spots of this fair little city and many of the handsome monuments were made by Mr. J. B. Marstellar, or by his late father, in our neighboring little village of [illegible]

CHICAGO STREET, TECUMSEH.

mination of all visitors. Tecumseh, named for the great Shawnee Indian chieftain, while at Fort Malden, near Amherstburg, Ontario, told the many villagers, with whom he had a friendly acquaintance, that he was born in Florida and that his father was a French general. At the time of his visit to Fort Malden, Tecumseh was 40 years of age, of light, symmetrical build, and of medium height; his complexion was of a light copper hue. He had a large aquiline nose and eyes which were bright and brown. He was cheerful, energetic and decided in manner. Tecumseh usually appeared neatly attired in a plain blue coat, a tanned deerskin jacket and long trousers of the latter material, while on his feet were leather moccasins ornamented with dyed porcupine quills. His only ornament consisted of a parti-colored wampum necklace from which hung a large silver medal, presented, it is said, by Governor General Lord Dorchester to an ancestor of the chieftain's. On gala days he wore the dress of a British brigadier general, with epaulettes on his shoulders and a red cap ornamented by a single eagle's feather.

It was at Fort Malden that General Brock first saw Tecumseh, of whom he formed a very high opinion, afterward writing of him, "A more sagacious or a more gallant warrior does not, I believe, exist." There is still living near Amherstburg or was 12 years ago an old French gentleman, Jean Baptiste Bertrand by name, who remembers Tecumseh well. He credits the great Shawnee with the possession of many excellent qualities, and says that he has known him to remain vigilant through an entire night in order to prevent the massacre of American prisoners by his savage cohorts. Tecumseh was a general favorite in Amherstburg, and stopped and talked with everyone he met, especially with the old ladies and the children. He was killed at the battle of the Thames, near what is now called Thamesville, Ontario, about one mile from that place, on October 5, 1813, a combat in which he displayed great heroism and bravery. 'Tis said he was buried near the spot where he fell. In 1824 several bold pioneers had penetrated to the then almost unexplored territory

firm.

Tecumseh supports two first class newspapers. The Tecumseh HERALD semi-weekly established in 1850, an independent paper, Geo. N. Stacy publisher, and the Tecumseh News, a republican paper established in 1884, Tom W. Mingay, proprietor, who came here about one year ago from Chelsea, Mich. This paper is issued every Thursday. Both papers, being well edited, a notice of the HERALD may be seen elsewhere in this issue.

The illustrations in this edition. The manufacturing interests of Tecumseh are mentioned at length, and a perusal of the articles will show the village to be favored with a diversified and substantial line of industry, which is both permanent and substantial. Their promoters are public-spirited and valuable citizens who take an interest in advancing the fortunes of Tecumseh and the manufacturer, either large or small, who contemplates locating here will find all the advantages of a modern city, with low taxation, and the people as a class hospitable, courteous and entertaining. The banking facilities include the Tecumseh State Savings Bank, mentioned at length in an article elsewhere in this issue, and the Lilley Bank. The railroads furnish direct communication to all points east, west, north and south. We have three hotels, good stores and a good citizenship, every requisite of comfort and pleasure. We have prepared the following articles concerning our progressive business men from accurate information and have sought to give all the justice due them. If our efforts in their behalf receive the commendation of the public then our work will not have been done in vain. These are the men who by their progressive spirit have made the town what it is today and they are entitled to the first consideration. A good citizen is a loyal citizen, and a loyal citizen takes an active interest in home affairs. The following sketches of Tecumseh business men have been prepared for the Herald to show the advantage the village offers as a trading point. In fact our people can find no valid excuse for visiting other cities to buy goods. The same opportunities exist here, and usually even lower prices can be had, as the expense of conducting business in Tecumseh is merely trivial when compared to large cities. All who read these notices and watch the Semi-Weekly Herald's advertising columns are fully informed of where and what to buy and what prices to pay. Home trading is the secret of the success of all thriving communities. To make ours the busiest little city of its size on earth, it is only necessary that the wealth of the community should be kept in circulation within its confines. Don't send your money to foreign markets. It will never come back. Spend it at home with your own merchants, then you will not only receive full value for it, but you will have a chance of getting it back in the regular course of business. Your neighbor's prosperity is just so much added to the general wealth of the community. Isn't it so? Think it over, then read the advertisements of our local merchants and purchase of them. Each in his particular line will give you the largest and best quality; and all have established reputations. Patronize home industry, and thus insure the prosperity of the place we call "Home, Sweet Home."

R. A. HEESEN, VILLAGE PRESIDENT.

HEESEN BROS. & CO.

Manufacturers of Job Castings and Feed Cookers, Tecumseh, Mich.

The traveller on the L. S. & M. S., the old Cincinnati Northern, (which is now a Lake Shore branch) and also the D. T. & I. railways as they are passing through Tecumseh in the southern section of the city near the junction of these three railroads, and also the railway station of the same, will notice a conspicuous building within a short distance from the depot. It is that of the Heesen Bros. & Co., manufacturers of Job Castings and Feed Cookers and its products find a market in many parts of the country. Started in 1872 by its present proprietors who commenced the manufacture, in a small way, of hog troughs and rings, in the rear of the hardware store that was later occupied by the late George Heesen & Son. It was the first invention of the kind in the market, and possessing real merit, the business grew and prospered. The quarters soon proved too small to accommodate the business, which was then moved to more commodious quarters in a building then standing on Pearl street south. This in turn was soon found too small, and in 1879 the establishment was then moved to a more commodious building on Pearl street north. In 1890 the firm added another industry to their growing business—that of the manufacture of high grade cast hollowware and light gray castings. With this added new business more room was required and additions were installed to the plant until finally more ground space was also required. In 1895 a new firm, consisting of Jno. Heesen, R. A. Heesen and Frank Nayland, was organized under the old firm name of Heesen Bros. & Co., which name still exists today. The present proprietors then foresaw wherein another useful article could also be manufactured and they then added an improved stock food cooker and steamer, an industry which in fact like all of their other previous industries had not sat up until that time been thought of. When all these inventions and improvements had been added to their already extensive business, the firm began to look around for a more commodious plant, but realizing it utterly impossible to secure one, they then decided to build a new plant of their own, and have it built specially for their line of goods they were then manufacturing. The firm then secured a plot of ground of two and half acres near the railroad tracks and junction of the roads above mentioned, [illegible] age of Tecumseh, he was born and raised here and is therefore well known to our citizens generally. The firm of Heesen Bros. & Co. have always taken an active interest in everything pertaining to the general welfare and building up of the home town of their birth. These gentlemen now have control of an industry that has not only become one of the chief institutions of Tecumseh, but also that of the world in the same line.

HEESEN BROS. OLD N. PEARL ST. PLANT.

The immense plant of the Heesen Bros. & Co., is a substantial one-story red brick building 50x300 feet in dimensions, which is fully equipped with all the latest and most improved machinery and appliances necessary for the conduct of their business, and employment is furnished to from 30 to 40 skilled hands and laborers the year round. The plant is provided with electric lights, steam heat, and the machinery is propelled by a 75-horse power steam engine. This manufactory has so successfully competed for business during all these years of its existence that it is now one of the leading industries of its kind in the world. To bring it up to this point, was, in the face of the rivalry and competition which invariably attend successful enterprise, no easy task, wherein a large capitalized stock company have often-times been made the only competitive feature to crush out a business controlling a lesser amount, therefore no easy task, and in the hands of men less capable than are the Heesen Bros. & Co., might have resulted in failure. With, however, the tenacity of purpose which has characterized whatever these gentlemen have undertaken, all difficulties were surmounted and the business was in a short time placed upon such a firm footing as to render it practically secure for all time. It has kept pace with the constantly growing demand for their wares of all kinds that they manufacture, many of which have had their origin in the fertile brains of their present owners. The specialties of their factory are Farmers' Stock Feed Cookers, Tank Heaters, Hog Ringers and Rings and Gray Iron Castings.

Mr. R. A. Heesen the secretary-treasurer and general manager of the firm is now the president of the village, he was also elected president of the Tecumseh State Savings Bank, which position he now holds. Mr. Heesen is a man of pleasing address, and is a gentleman in every sense of the word, and has a host of friends who wish him and his business associates every success.

Three per cent per annum on savings deposits, and compounded semi-annually, their large list of patrons in this department, showing the great confidence this institution enjoys, and every facility and equipment known to a first-class banking house is possessed. The management is progressive and neglects no point of efficiency demanded by modern commercial surance by loss by burglary, and this in addition to their strong vault and safe, absolutely insures their patrons against loss at any time, which at the same time, it carefully guards the interests of its depositors, scrupulously protecting them against any possibility of risk. Its executive officers are: C. R. Miller, president; J. Q. Look, vice president; J. H. Smith, cashier.

Personnel.—Mr. Miller is one of the strong financial men of Lenawee county, officer and director of many manufacturing enterprises and is the president of the Anthony Fence Co., in this village. Mr. Look has been connected with banking 20 years, with this bank eight years. Mr. Smith has been a bank cashier in Tecumseh for the past 20 years. He solicited the stock for the organization of the Tecumseh State Savings Bank, and on its organization was elected cashier, serving as such to the present time.

The directors are Joseph Russell, Charles A. Slayton, A. C. Aylesworth, C. R. Miller, L. G. North and J. Q. Look, all of whom are widely known in business and social circles, being men of the highest character and standing, citizens of praiseworthy and commendable character and public spirit, besides being men of many enviable and personal qualities and characteristics.

L. G. NORTH, M. D.

Office Over Postoffice—He Owns the Block.

One of the foremost men of medical service in this section of southern Michigan is Dr. L. G. North. He is a native of the state of New York, born in the year 1850. At the age of ten years he came to Lansing, with his parents, where he remained for about two years when they removed to Parma, in 1862, and from there they came to Tecumseh, Mich., in the year 1867. He spent two years in the high school and five years in a factory; began to study medicine in 1874 and graduated from the medical and surgical department of the University of Michigan, in the class of 1877. Since 1879 the doctor has been in general practice in Tecumseh, and by dint of hard study, energy and rare personal qualifications, he has risen in his profession. He is thorough and careful in all that he does, and in all the years he has been in practice he has won the confidence of the people and built up a large practice. His success in this direction has been due entirely to his own energy and merits. Dr. North is interested in several different enterprises in Tecumseh, notable among them being the Anthony Fence Company, the Tecumseh State Savings Bank, and several other institutions. He has been a member of the Tecumseh school board for 24 years and has always taken an active interest in school and church affairs, being a member of the Baptist church for the past 39 years. He has but recently remodelled the postoffice, in whose building it is located, making it now the finest postoffice in southern Michigan. The doctor resides at the corner of Pottawatamie and Democrat street. He is an honored and highly respected citizen of Tecumseh. His office hours are from 2 to 4 p. m.

SLAYTON & SON

Wholesale and Retail Dealers in Agricultural Implements, etc., Tecumseh, Mich.

Mr. C. A. Slayton the father and senior member of the above named firm has been a permanent resident of Tecumseh ever since a boy of thirteen years of age. He at that time came with his parents to Tecumseh from the town of Lyons, Wayne county, state of New York,

C. A. SLAYTON.

in the year 1861 and here he attended the public schools, afterwards he took up a commercial course in bookkeeping in a commercial college in Detroit. Returning to Tecumseh, young Slayton was engaged as bookkeeper by Messrs. Tindall & Slayton, for a number of years or until that firm dissolved partnership, when he bought a half interest in business with his father in the year 1869, the firm name then being changed to Slayton & Son. The father and son then carried on the business and it continued to grow in volume year by year until the year 1885, when the elder Slayton retired from business and the son, C. A. Slayton, bought his father's interest and became the sole owner of the enterprise which stands today in the front rank of any like business in southern Michigan. Thus it goes on from father again to son. This time and day the name of Slayton & Son again appears, only that the young man, C. A. Slayton of years ago, becomes now the senior member of the firm of Slayton & Son, the son of today being Elmer Slayton, a young man of sterling qualities now being about twenty-three years of age, and it might be said was about the same age as that of his father, Mr. C. A. Slayton, when he became partner with his father in the same business in 1869 and almost at the same location with the exception that the original place of business was but a few rods below the present plant. The firm of Slayton & Son of today are wholesale and retail dealers in grain, produce, agricultural implements and vehicles of all kinds—besides, the firm of Slayton & Son are the local retail dealers for the celebrated Anthony wire fence, manufactured in Tecumseh, that has the reputation of being the best farm wire fence now on the market. The firm have now, and have been for many years, the general agents for this section for the "Advance" Threshing Machines, Engines and Corn Huskers, made at Battle Creek, Mich. They also sell the "New Way" air cooled Gasoline Engines. Besides the firm handle the celebrated Dr. Holland's medicated stock salt, that is guaranteed to save the lambs from the deadly stomach worms. It is also good for horses, hogs and cattle, and a trial will convince any farmer of this fact.

Messrs Slayton & Son aside from being extensive agricultural, implement and buggy dealers, are also very extensive dealers in grain of all kinds, seed, flour and feed also beans, apples, potatoes and onions, also wood and coal, in fact they buy everything a farmer has to sell. The firm are also dealers in wagons, carriages, cutters, harness, blankets, robes, binder twine, salt lime fertilizers, cement, plastering, hair, pulp

plaster, in fact everything and anything that is saleable to the farmer, merchant or mechanic. In fact Slayton & Son are the merchants in their respective lines in southern Michigan. The business houses occupied by the firm are extensive and numerous, viz: the mammoth storehouse on Railway street near the corner of Chicago street, is a substantial red pressed brick structure, two story and basement, 100x160 feet in dimensions, all of which is utilized for the business; in the rear, across an alley, is a wareroom 30x125 feet. Nearly directly opposite the L. S. & M. S. depot is their elevator with a capacity of storing 15,000 bushels, for the storage of grain of all kinds with side tracks convenient for loading grain with an eight-horse power gas engine. Across the tracks from their elevator are located a large coal shed 35x85 feet, with a capacity of several hundred tons of coal with weigh scales, etc., in connection. Besides the firm have two other storehouses, 30x40 feet each. These are used principally for storage of salt, fertilizers, and kindred articles. Still another large storehouse is used by the firm which is 40x100 feet, for the storage of surplus agricultural implements, machinery, threshing machines, engines, and also for wood, this being located near the standpipe. The firm of Slayton & Son being live business men and unassuming gentlemen, thoroughly honorable in all their dealings. Mr. C. A. Slayton, the senior member of the firm, although he never aspired to public office, was elected as township clerk and compelled to serve for fourteen years. He was also a justice of the peace one term. He owns a fine home on Pottawatamie street. Both father and son have always taken a lively interest in everything pertaining to the welfare and building up of Tecumseh. Mr. Wm. Elmer Slayton, the son and junior member of the present firm, and more commonly called by his friends Elmer Slayton, after finishing his common school education here, attended Lake Forest Academy, Illinois, in 1898, and graduated from there in 1901. He then attended Lake Forest College, Illinois, one year, 1902, from there he attended the Detroit Business University and took a six-months' course in bookkeeping. In 1903 he entered his father's employ as bookkeeper thus following in his father's footsteps. On Oct. 3, 1904, he was admitted into the business as partner where he has been ever since. Both father and son are honorable and highly respected citizens of Tecumseh.

TECUMSEH LIBRARY.

E. M. COLLER

Music Dealer, Tecumseh.

While the caption of this article does not call for complimentary allusions, yet we feel as a matter of local pride we can speak more freely of this house than we otherwise would. Success in any business naturally carries with it good results, and for seventeen years while engaged in the music business in Tecumseh, Mr. E. M. Coller, has defied all competitors in this same line of business in this southern section of Michigan. Pianos and organs are among the few articles of commerce

in the purchase of which buyers must to some extent, rely upon the integrity of dealers, and it therefore becomes a matter of the most vital importance to patronize dealers whose reputation and standing in the community is a perfect guarantee of reliability. Mr. Coller's stock presents an unparalleled opportunity to obtain instruments coming from some of the best factories in the United States, each being warranted to give entire satisfaction. This house is headquarters for the following pianos and organs, viz: "Kroeger," "Shoninger," "Janssen," "R. S. Howard," and others. Organs, "Clough and Warren," "Needham" and Putnam, which comprise the largest line carried in this section. A full assortment of sheet music, books and general musical merchandise is also handled. The establishment which is located on East Chicago street occupies a substantial 2-story brick building; employment is furn-

ished one clerk the year round. Mr. Coller is also the general agent here for several leading makes of sewing machines of which the "White" is his leader. His store is an attractive one in all its appointments, and gives ample proof of the large trade which has been developed, and to which the liberal patronage has contributed. Mr. Coller since coming to Tecumseh, has become very popular with all classes and his popularity in business circles extends far and wide, and he is a man of recognized [illegible] in the music industry. Mr. E. M. Coller, also conducts a large branch music store in Addison, Michigan, where it is said he is also doing an extensive and lucrative business. He built a handsome residence here on east Kilbuck street last summer which certainly denotes thrift and prosperity. The Herald wishes him continued success in his business.

MARSTELLER GRANITE CO.

J. B. Marsteller, Manager, (Successors to S. F. Marsteller, Deceased). Established 1872, Clinton, Mich.

The above named granite and marble works, established by the father of the present proprietor away back in the year 1872, is one of the best known and most highly progressive monumental works in this section of southern Michigan. This company has installed all the latest and most improved machinery for doing high grade work, such as pneumatic machinery and all other tools

and appliances necessary for the conduct of the business. Fine carved work a specialty. Mr. J. B. Marsteller, proprietor and general manager of the works, was born and raised in the business and fully understands every detail of the work. He deals in all kinds of granite and marble monuments, tablets and cemetery work generally. We here with mention a few of the many jobs that either he or his late father has erected in the Tecumseh cemetery viz.: one for Dr. L. G. North, James Gilespie, Robert Gillespie, Jacob G. Rolston, [illegible] stylish monuments, besides numerous others that for want of space we are unable to mention.

As above stated, the present Mr.

J. B. Marsteller was born and raised to the business, and consequently is fully conversant with every detail of the work connected with the stonecutter's trade, and he is considered one of the best stone-cutters, letterer, polisher and finisher in the business in this section of the state. Mr. Marsteller is also considered one of the most skillful monument designers to be found anywhere, and magnificent specimens of his handiwork are to be found in all the leading cemeteries of this section of the country, and reflect great credit upon Mr. Marsteller's ability as a designer and skill as a finished workman. Mr. Marsteller is an honest, straightforward, conscientious gentleman, and his patrons can rest assured of fair treatment when they place an order with him. Now that Decoration day

is drawing near it is well that for those who may be contemplating erecting a monument or tablet, to mark the final resting place of their loved ones, it may not be asking too much of them, when we invite them to call and look over the designs and also some of the finished work now completed and ready to be delivered to the different cemeteries throughout the country before Decoration day, that are now in the monumental yards at Clinton. For excellence of workmanship and quality of material used by Mr. Marsteller, you will find no better. His prices, too, will always be found very reasonable and as a matter of fact lower in many instances than the same can be procured elsewhere. He is open-hearted and generous and is a highly honored and respected citizen of Clinton. The works in Clinton are located on West Church street. Bell phone 7

ALBIG'S DEPARTMENT STORE.

Tecumseh Branch.

Tecumseh has been fortunate indeed in securing a branch store here from one of Adrian's most popular department stores. This highly progressive and popular department store, has only been established in Tecumseh since last fall having at that time bought out Arnold & Collins' business mostly in order to secure a good double store location for immense variety of new fresh and up-to-date goods such as are in universal demand by housewives in every day use. The fine line of goods handled by this house consists of glassware, crockery, earthenware, chinaware, tinware, graniteware, stoneware, willowware, jewelry, hardware, toys, napkins, thread, needles, pins, bric-a-brac, ladies' and children's hosiery, also fine towels, cutlery, such as knives, forks and spoons, from the best to the cheaper grades. In fact to enumerate every article handled by Albig's Department store would require four or five times the space that could be spared in this extra edition of "The Herald." Suffice it to say that almost everything, either for use or ornament, required in any house may be found at Albig's Department Store in Tecumseh in infinite quantities and qualities and at wonderfully low prices. The store here is under the charge of Mr. Harold Nessel, a man

well acquainted with this line of business who has employed several clerks to assist him, who will be glad to wait upon you. Your patronage solicited; give them a call, remember the name, Albig's Department Store, No. 8, Chicago street, Tecumseh.

Lava in the Ocean.

This earth received what was probably its greatest shaking in modern times when the tremendous volcanic eruption of Krakatoa, in Sunda strait, occurred in 1883. A curious incident of that time is recalled by a correspondent who was a passenger on a steamship on the voyage between Colombo and Albany. King George's sound, some 1,500 or 2,000 miles south of the center of the disturbance. It was a beautiful night, and shortly after dinner, when the deck was crowded with passengers, the lookout shouted, "Breakers ahead!" This was in midocean, with no shoal water nearer than the Australian coast, five or six days' sail distant. The steamer was slowed down, and presently drifted into a mass of floating lava and green slime. Bucketfuls were hauled on deck and strained through cloths. Nearly all night the steamer forged ahead at half speed, with the floating scum grating against her sides, and in the morning, when clear water was reached, the sides of the ship below the water line were bare of paint and burnished like steel.

Unfeeling.

"My husband is a brute," said the excitable woman.

"Have you been scolding him?"

"Of course I have."

"Ah, I suppose he talked back and used harsh language."

"Worse than that! He yawned!"

Fiction.

Little Bess—What's fiction, Jack? Small Jack—Pa says it's a story that ends by saying "they married and lived happily ever after."

Millers' Best Customers.

The forty odd million sacks of flour consumed yearly in the United Kingdom are mainly eaten in the form of bread. In the houses of the rich and in the best hotels bread is sparingly eaten, but among the middle classes and in workmen's homes it forms a considerable portion of the diet. As the latter class predominate and as their families are the most numerous, it is not improbable that the children under sixteen consume about three-fifths of the total flour sold in the United Kingdom. In a commercial sense, therefore, the children are the millers' best friends.—London Milling.

Bustling Mme. de Stael.

In my last letter I mentioned going to visit Mme. de Stael. She was just going out as I got to the door, and but for Mr. Rogers, who was coming out as I went in, I should not have gained admittance. There were many persons with her, and she was running about and talking as fast as possible. Her dress and manners are very extraordinary. The news of Lord Wellington's victory had just arrived, and she descanted upon it with much animation. I cannot better describe to you the bustle she makes than by saying that, leaving her, the streets of London seemed solitary, for as to noise and hurry and rapidity in the succession of events there is as much difference between her room and them as between them and the park at Bulstrode.—London Athenaeum.

SUNBEAM STUDIO

Located in the Wright Block on East Chicago Street, Tecumseh.

In recent years the progress made in photography has been very rapid, completely revolutionizing the old methods and demanding for successful results ability of a pronounced order. The proprietor of what has become well known to our citizens, and the surrounding public as the "Sunbeam Studio," located in the old Heck gallery but now owned and operated by a gentleman who came here from Bucyrus, Ohio, about six years ago by the name of Lester F. Abrams, who is now and has certainly been turning out excellent por-

traits. At one time photography was in a sense purely mechanical. Today it is quite different, the successful photographer requiring a thorough knowledge of chemistry, an artistic eye and a natural appreciation for neatness, grace and ornamentation. The Sunbeam Studio, in its appointments, suggests the refined and cultured tastes of the proprietor, and this is borne out in the handsome array of work, which in cabinets, imperials, crayons, pastels and sepias the eyes rest upon admiringly. A specialty is made of enlarging, and if you wish to see how superior Mr. Abrams' work is to that offered by some people as a prize with a few dollars worth of goods, you should call at his gallery. He has given to Tecumseh a thoroughly progressive establishment, which reflects the very latest suggestions in the artistic and mechanical progress of modern photography. He has had many years experience, previous to coming here, which has won for him the

usual results, that is usually gained through constant study and steady application to any line of business or art where the party who makes it a study is fitted for the work. In Mr. Abrams' case we find that by his constant study of the art of photography it has won for him the usual results of energy well directed, and a disposition to satisfy in a patronage made up of the cultured of Tecumseh's population. "Abram, the Baby Photographer," as he is familiarly known to all, is a great friend to the little folks and his success with them has been remarkable.

TECUMSEH ELECTRIC COMPANY

L. B. Schneider, President; Geo. Smith, Secretary and General Manager.

When electricity was first made practical the inventive wizards did not stop with furnishing light alone with the unseen elements, but demonstrated that it was useful for power as well. The introduction of electricity does away with smoky lamps and the offensive odor of deadly gasses. It is as economical as any other light that can be used. The present company have doubled the number of lights in Tecumseh since taking hold of the business, and have also established an all-day as well as an all-night service, therefore giving the patrons the very best of electric light service.

Tecumseh may well feel proud of her electric light and power plant, for it is one of the best in this section of southern Michigan. It furnishes lights for our city, our stores, and our residences, as well as for furnishing power for the running of machinery, etc.; for those who so desire it, and in all its different capacities of usefulness here it has given the utmost satisfaction. The Electric Light and Power company's power plant, is located in what is

TECUMSEH ELECTRIC CO.'S PLANT.

commonly called Brownsville, a suburb of Tecumseh or where the village was first started. The plant is thoroughly equipped with dynamos, etc., of large capacity. This institution was incorporated in the year 1893 by a joint stock company and at that time the plant was about a half mile north on the opposite side of the same street where the present new plant is now located near the bridge. The present plant is located on or near where Mr. Smith at one time conducted a large brown pulp wrapping paper mill. In 1901 the present building was erected expressly for the business, with ample capital for carrying on their very extensive operations. Their rapid enlargement and increase in business since the inception of this industry being very largely due to their high reputation for the good service rendered at all times. The officers of the company are: Mr. Louis B. Schneider, president; George U. Smith, secretary and manager, and Lucius Lilley, treasurer, all of whom are highly influential citizens of Tecumseh. Mr. Schneider, the president of the company, has his electric light office in the Dewey block on Railway street. Here may be found a fine assortment of electric light fixtures which he has for sale at very reasonable prices and now is the time to have your premises equipped with electricity. The plant with cut herewith produced, was erected and planned by the present officials, is about 65x38 feet in dimensions, having a 280 horse-power Turbine Water wheel, also a 125 auxiliary horse-power steam engine, which is held in reserve in case of accident. This 125 horse-power steam engine is provided with two 100 horse-power boilers. Besides they have a 150 kilowatt and also a 100 kilowatt dynamos and other appliances necessary for the conduct of the business. Thus giving Tecumseh, Michigan, the name of being the best lighted little town in the state. The company are now installing more new machinery and other appliances to further improve their already excellent plant.

Rough on the Doctor.

When a physician takes a vacation his medical friend who looks after his patients in his absence often resents being called the "assistant." The relieving doctor would prefer to be known as colleague or coadjutor or substitute. An old lady recently added a new synonym when she announced that she was being treated by her own physician's "accomplice."

Moscow's Old Drug Store.

The greatest drug store in the world will be found in one of the most backward countries of the world. It exists in Moscow and is over two centuries old. Its title is the Old Nikolska pharmacy, and since 1833 it has been in the family of the present proprietor. It is a building of imposing dimensions, with many departments, including one of professional education for the staff, which numbers 700 persons. They make up about 2,000 prescriptions a day, and so perfect is the organization that an error is seldom recorded.

A Good Guess of Long Ago.

During the American Revolution an English magazine published an estimate of the North American colonies. Placing the population then at 2,000,000 and assuming that it would double itself every twenty-five years, the writer estimated that in the year 1890 the number would have increased to 64,000,000. This may be taken as a most remarkable prophecy, inasmuch as the census of 1890 fixed the total population at 62,622,250.

THE NOVELTY STORE.

Miss Ida B. Chase, Proprietor. (Successor to Jos. Montague, deceased.)

One of the most varied and instructive branches of modern commerce is that devoted to chinaware, glassware and queensware, which is a line so far reaching that it includes all goods in furnishing any well appointed household, and it forms the link in the chain of business industries that connects the useful and necessary with the beautiful and luxurious. Any establishment that carries a full line of these goods is certain of public approval and especially so with the ladies, as to them is usually left all matters of table supplies, ornaments for the mantel piece, etc., whether of the cheaper or expensive kind. Such an establishment in this city is that of Miss Ida B. Chase, located near the eastern end of the business portion of Chicago street. Miss Chase is now advertising Fish Globes, Sherbet Glasses, and blue, white and gold semi porcelain. Since coming into possession of this business about one year ago, Miss Ida B. Chase, has acquired a trade which extends throughout this section, and is continually increasing in volume. She is a direct buyer from the jobber of china, crockery, glassware, lamps, woodenware, toys and various other kinds of notions and housefurnishing goods generally. The variety is much too large to enumerate and must be seen to be appreciated. A call solicited.

ANTHONY FENCE COMPANY'S PLANT.

METHODIST EPISCOPAL CHURCH

The first Methodist minister who ever preached in Tecumseh was Rev. John A. Baughman. He was the first minister of any denomination who made Tecumseh a regular preaching appointment. It was then included in the Monroe circuit. This was in the year 1826. In 1827 Rev. G. W. Walker succeeded Mr. Baughman and organized a Methodist class in January of 1828.

In 1831 Tecumseh circuit was organized from parts of Monroe and Ann Arbor circuits. The society now numbers about 375 members with a property worth $15000 free from debt and in a good flourishing condition. W. M. Ward is the pastor.

A City of the Past.

Rimini is full of associations with thrilling people of the past. It was here that Caesar crossed the Rubicon. We crossed ourselves on the very bridge his feet had touched. It was here, too, that St. Anthony came to preach and, finding no people who would give heed to him, turned in despair and preached to the fishes, who raised their heads out of the water to listen to him. There is a chapel which marks the spot where he stood by the water. In Rimini lived Paolo and Francesca, the tragedy of whose love every one knows.—Travel Magazine.

When the first call for arms was made by the United States government in the early spring of 1861, young Wightman, then a boy of 19 years of age, responded to the call, and registered his services on April 23, and on May 16 of that year, was mustered into service in the 23rd New York infantry. After serving his two-year call, he again enlisted, this time it was in the 50th New York engineers. At the close of the war in June 1865, Mr. Wightman, then at Fort Berry, Va., reached Washington the first day, and was in charge of, and led the first division of soldiers that marched past the reviewing stand on Pennsylvania avenue. Mr. Wightman thus spent in all over three years and seven months in service fighting for his country. Although having been engaged in many a bloody fray he came out of it all without a scratch.

Ants as Germ Carriers.

A German bacteriologist was conducting an experiment in the course of which he made use of typhoid infected mice. In another cage he had some mice which were in good health. Shortly after the uninfected mice also developed typhoid. Investigation showed that ants were passing from one cage to the other. Some of these ants were examined, and their bodies were found to be covered with the typhoid germs, which they were carrying from the sick to the well mice.

J. W. WIGHTMAN

Attorney at Law—Office in the Bidwell Block.

It is not going beyond the prescribed limit to say that the lawyers of today take rank with those of the day that has passed into history, with the added advantage of the greater light that shines with each day's advance. The bar of Tecumseh will rank favorably with that of any other place of its size in the country, and there is no doubt that in a place of equal population, it would be difficult to find a like bar of bright, brainy lawyers, many of whom have wide reputations. Among the esteemed members of the law

JAS. W. WIGHTMAN.

fraternity is Mr. J. W. Wightman who has practiced law in Tecumseh since 1888. Mr. Wightman might also be styled a self-made man as he gained his knowledge of the study of law by reading law nights, the same as that of the martyrde Lincoln while he worked at his trade that of painter and paperhanger during the day, for several years. Mr. Wightman was finally admitted to practice law before the court at Adrian, Michigan, in the year 1881 and has successfully conducted a general law business ever since. He has been very successful and practiced before all courts. He also deals in bonds for the National Security Co., of New York, take indemnity, executor, administration, attachment, replevin and non-resident bonds on reasonable terms. He also does abstracting and collecting and a regular office business generally. His advice is sought in many important cases in law and equity. Call and consult him at his office in the Powell block.

WILL VAN ANTWERP

Harness Manufacturer, Chicago Street, Tecumseh.

The farmers and horse owners generally appreciate a good harness store, and when they find one it holds their trade. Such has been the good fortune of the house operated by Mr. Will Van Antwerp whose harness shop and store is located on the

south side of west Chicago street. Mr. Van Antwerp has been in business here in Tecumseh for many years, and being a practical man of great ability, has met with success from the outset. He appreciated the fact that the people want the best goods at the most reasonable prices, and being a keen business man he gave them what they wanted, and in every case guarantees satisfaction. Mr. Van Antwerp is a manufacturer and dealer in light and heavy harness, collars, saddles, bridles, etc., and does repairing in a very skillful manner and keeps a journeyman harness maker busy the year round. Mr. Van Antwerp keeps on hand at all times a fine line of horse blankets, fur lap robes, fly nets, dusters, turf goods and horseman's supplies generally. A specialty is made of harness repairing and all work in this line is done promptly and well, his charges are always reasonable. Give him a trial, he solicits your patronage.

THE TECUMSEH HERALD

By George N. Stacy.

The Tecumseh Herald was established in 1850 and has been run without cessation since as a weekly till six years ago and since then as a semi-weekly.

The Herald has been owned for 33 years by the Stacy Brothers, 22 years by S. C. and 11 by the present proprietor, Geo. N. Stacy. The Herald is perhaps the only country newspaper in Michigan that does not conduct a job printing office. Four years ago the job department was sold to Geo. S. Field, who now conducts a first-class job printing department in the rear of the Herald office and does the very best of work.

The proprietor, Geo. N. Stacy, discovered that a job business was no

more relation to a newspaper than it was to a meat market, and since selling the job business to Mr. Field has conducted the Herald alone, making of it perhaps the best local newspaper in Lenawee county.

Physician and Surgeon, Office in the Bidwell Block.

One of the popular young physicians, who ministers to the ills flesh is heir to, in the village of Tecumseh, and for a distance of many miles surrounding it, is Dr. P. B. Hardy.

This esteemed member of the medical profession in Michigan, was born in the state of New York in the year 1869. He studied medicine and surgery in the Long Island College Hospital, New York, graduating therefrom with the title of M. D., in the year 1892.

In the many years of his practice, here and elsewhere, Dr. Hardy has gained an experience which justifies the confidence universally placed in his skill as a physician and surgeon, added to which he is considered as a friend in nearly all the homes which in the exercise of his professional duties, he is called upon to enter.

Having made a close study of every department of medicine, and being thoroughly awake to the neces-

sity of keeping pace with the rapid strides being made in this department of scientific research, Dr. Hardy has taken two post graduate courses in London, England, one in 1900, and again three years later, attending the Soho Square Hospital for Women, and the London general hospital, and also recently in 1906 a post graduate couse in Chicago, Ill. He is therefore well qualified to rank as a progressive member of his profession; his general success as a practitioner bears out his title to recognition as such. Having a wide acquaintance throughout Lenawee and adjoining counties he is kept busier than the average physician in attending to his numerous calls some of which render long trips necessary.

He has never been too busy, however, to devote part of his time to the welfare of Tecumseh, and has always taken an active interest in the progress and upbuilding of his adopted village.

His office hours are from 12:30 to 3 p. m. and from 6:30 to 9 p. m. Phone 268. Especial attention given to diseases of the stomach, throat, nose, ear, diseases of women and general surgery.

Whistler a Brilliant Talker.

Whistler was a brilliant talker and a great debater. I shall never forget my surprise when I heard him say for the first time, "Bacher, I am not arguing with you; I am telling you." I never forgot the lesson. Later I found that he had used this effectively in one of his letters to the London World when he said: "Seriously, then, my Atlas, an etching does not depend for its importance upon its size. I am not arguing with you; I am telling you." He spoke French fluently, German less readily. His Italian was very good, especially under excitement, though occasionally a French word slipped in unawares, adding to the picturesqueness. I recall that he considered Poe our greatest poet.—Otto H. Bacher in Century.

Hence the Tears.

"It is strange how some people cry at weddings."

"Yes, but you've probably noticed that it's never the single people who cry."

"Well?"

"Well, it is only the married ones who realize the tragedy of it."—Houston Post.

A Cynic.

In the "Cynic's Word Book" Ambrose Bierce, himself a cynic, gives the following definition of a cynic: "A blackguard whose faulty vision sees things as they are, not as they ought to be; hence the custom among the Scythians of plucking out a cynic's eyes to improve his vision."

A Historian's Joke.

Macaulay is not usually regarded as a humorous writer, but in his "History of England" he perpetrates the following in relating the death of Charles II. He says: "Several of the prescriptions have been preserved. One of them is signed by fourteen doctors. He recovered his senses, but he was evidently in a situation of extreme danger."

Discretion.

"This popular fiction is all rot. In real life the girl's father seldom objects to the man of her choice."

"You're wrong there. He often objects, but he's usually too wise to say anything."—Pittsburg Post.

Tedious Work of Old Bookmakers.

During the twelfth and thirteenth centuries monks frequently isolated themselves from the world and reproduced the Bible in illuminated manuscript. The work was necessarily slow, and in no instance was it accomplished in less than thirty-five years. Guido de Jars was a producer of these illuminated manuscripts, and a beautiful specimen of his work was sold along with the books of Sir W. Burrell in 1790. This copy of the Bible had occupied half a century in its production. A note in the beginning of the manuscript in Jars' handwriting indicates that he began his task in 1244 and did not conclude it till 1294.

MICHIGAN MACARONI FACTORY
Located at Tecumseh, Mich.

Owned and operated by the following well known gentlemen, viz.: Frederick S. Hall, of Detroit, president; O. P. Hawley, of Detroit, secretary-treasurer, and P. A. Hutcheson, general manager, formerly of Detroit, now a prominent citizen of Tecumseh. That a most extensive business can be established and maintained in a short time (under the proper management) is evident from the fact that within the past year, what had been known as the "Heck flour and feed mill," has been transferred into what is now known as the "Michigan Macaroni Co." The business is under the supervision and able management of Mr. Philo A. Hutcheson, a gentleman well versed with every detail of the business.

Just about one year ago the Michigan Macaroni Co. moved here from Detroit, where the business had previously been established and carried on for some time, Mr. Philo A. Hutcheson having purchased the building and grounds from the directors of the old Tecumseh plant. The

company now has an excellent trade and you will find their goods on the shelf of every first class grocery store in Michigan. They do a great deal of shipping in car load lots, both east and west, having but one brand of goods. This brand is registered in the U. S. patent office at Washington, D. C., and contains the words "Uncle Sam's," applying to all food products made by this house, as can be readily seen. Mr. Hutcheson is one of the youngest and most progressive business men engaged in the macaroni business in the country and by the manner in which the Michigan Macaroni Co.'s affairs are managed it also shows that in his line he is also a past-master. "Uncle Sam's" has become a household word in all large cities. As the Michigan Macaroni Co. is not in business just for today but a life-time, they spare no means to put the very best product on the market that can be made.

All goods subject to "Pure Food" law of the United States, and when once used, there is no substitute. "Uncle Sam's" Macaroni is in a class by itself alone. The Michigan Macaroni Co. employ about 28 hands working overtime, and are unable to fill their orders, working from two to three weeks behind. This business is now regarded as one of the grandest industries of Tecumseh, Mich. We must remember either Macaroni or genuine "Egg Noodles," bearing that good old trade-mark "Uncle Sam's" denotes the factories' "motto cleanliness and purity." The Michigan Macaroni Co. is probably the only factory in the United States where visitors are always welcome to come and see the way the goods are

prepared. Nothing but the best of everything is used. Again we say for health and strength use "Uncle Sam's" Macaroni. It is an elegant "Lent Food." Mr. Hutcheson, the manufacturer, is an honorable and highly respected citizen.

J. M. HIENS.

Baker and Confectioner, Tecumseh.

Light wholesome bread is desired by everyone, and as this house has made a reputation in this direction since coming here from our neighboring city, Adrain, it is no matter of surprise that J. M. Hiens has achieved a success that is more than ordinary. He commenced business here about six years ago, and the people of Tecumseh have long since acknowledged that Mr. Hiens is certainly among the foremost bakers to be found anywhere. His place of business is located in a two-story and basement brick block, nearly opposite the Herald printing office on west Chicago street, is very nicely furnished and appointed, and is always scrupulously neat and clean. The stock of bread, cake, rolls and

pastry is the very best, and only the purest and finest of materials are used in the making of them. No adulterated articles of any nature are ever tolerated by Mr. Hiens. In connection with the bakery a line of the choicest confections is also carried, and he uses only fresh fruit in his pastry and other goods in this line. A specialty is made of supplying wedding parties, banquets and receptions. The bake shop contains the best of modern ovens and devices, of the very latest and most improved, in the bakers' art. Mr. Hiens the proprietor has had long experience in the business, and the bakery is under the charge of Mr. J. M. Hiens himself, besides an assistant baker is employed. The office and store is in charge of a lady saleswoman, while the delivery of the baked goods is attended to by a young man engaged for that purpose. Since coming to Tecumseh, Mr. Hiens has become very popular with all classes, and well liked by our citizens generally as an honorable and upright gentleman.

THOMAS ELLIOTT.

General Blacksmith.

Tom, as he is familiarly called, needs no introduction to the citizens of Tecumseh and surrounding country. Coming to Tecumseh in the spring of 1873 he immediately settled down to business. His shops are located on Pearl street, midway between Chicago and Potawatamie streets, and here he conducts a strictly first-class horseshoeing and repair shop, where he personally attends to the requirements of his numerous customers.

He also conducts a wagon and carriage repair shop in connection where all work in the wood working line is given prompt attention. He is also the patentee and manufacturer of the best three-horse whiffletree that has ever been put on the market and has an extensive sale for these goods all over the United States. He employs nothing but the best skilled workmen and uses nothing but the best material that money can buy for their construction. Mr. Elliott is also the general agent here for the Wizard Plow Co., and keeps constantly in stock what is believed by many to be the best plow manufactured. He also keeps all repairs for the different plows manufactured by the above named firm. Mr. Elliott has held the office of supervisor of Tecumseh for three years, but on account of his own pressing business, has refused all entreaties to hold any office outside of his own business, which occupies his whole time. Mr. Elliott refuses to accept any flattery in this writeup but believes that by attending strictly to his own business has put him where he is today, as he is regarded among the most honored and highly respected business men of Tecumseh, and has always taken an active interest in everything pertaining to the general welfare and building up of his adopted village. He is a large property owner and owns one of the finest residences in the village, besides other valuable property interests here.

E. D. BROWN, D. D. S.

Dentist Office Over Orr's Drug Store, Tecumseh, Mich.

A prominent and successful exponent of the difficult science of dental surgery is Dr. E. D. Brown, who is deservedly numbered among the leading practitioners of southern Michigan, and his popularity is attested by a large and constantly increasing patronage. Dr. Brown is a graduate of the University of Michigan in the class of 1896 and brings to bear an experience acquired under some of the foremost members of the dental profession in this country. For the past six years or more he has

E. D. BROWN, D. D. S.

been located here, besides four years practice he had at Dundee in Monroe county previous. His office and surgery at the above location, nearly opposite the postoffice on East Chicago street is nicely fitted up and equipped with the best instruments and appliances in modern dentistry. He makes a specialty of everything known to the dental profession, such as crown and bridge work, filling and extracting teeth, treating the gums and mouth and making artificial teeth to order, and perfect satisfaction is guaranteed in every instance. Dr. Brown is thoroughly conversant with all the details of the profession, he is a courteous and able gentleman who is eminently popular with all classes.

Feeling the Boss.

Casey—Ye're a har-rd worruker, Dooley. How many hods o' morther have you carried up that laddher th' day? Dooley—Whist, man; Oi'm foolin' th' boss. Oi've carried this same hodful up an' down all day, an' he thinks Oi'm worrukin'.

A Bungle.

Just a Hint.

Father (at head of stairs) — Ethel, what time is it? Ethel (in drawing room)—It's a quarter past 10, father. Father—All right. Don't forget to start the clock again after the young man goes out to get his breakfast.

A Better Test

"That man is so honest he wouldn't steal a pin," said Mr. Goode.

"I never thought much of the pin test," answered Mr. Cayenne. "Try him with an umbrella."

SEATON W. ANDERSON & SON

Tecumseh's Dry Goods Merchants.

Many have been the changes experienced in Tecumseh in the past thirty-five years. Enterprises have been started only to enjoy a brief existence with rosy promises "to beat all records," have packed up and gone, but in all these years the old reliable establishment of Seaton W. Anderson and son has kept right along serving the public faithfully and well, and making for itself a reputation for sterling integrity that has entrenched it deeply in the confidence of the public. This house was originally established by Mr. Seaton W. Anderson, the senior member of the present firm of S. W. Anderson & Son about ten years ago having for many years previous to this been in partnership with others in the same line of business so that taking it all in all Mr. Seaton W. Anderson has been engaged in this line of mercantile business for upwards of thirty-five years. Their large and complete stock embraces everything in the line of dry goods, carpets, cloaks, ladies' and men's furnishings, etc., everything in these lines being of the finest makes, in all the latest styles, patterns and designs, secured from the leading manufacturers of the country, and offered by the house to their many patrons at the most reasonable prices. The place of business is very commodious, necessary for the large stock the firm carry. The large business Mr. Seaton Anderson & Son are enjoying necessitates the employment of a large force of clerks, to attend to the wants of their many patrons, all of whom are very courteous and obliging, and many having been in the Messrs. Andersons' employ for years. This house was always popular with the trading public from its outset, and has gained in such a marked degree each successive year, that at the present time it can be said to easily stand at the head of similar houses in its line in this section. Mr. Seaton Anderson, the senior member of the firm, has always given his business his personal attention in every detail since his embarking in business for himself. He is regarded as an excellent buyer—knows full well the quality and value of all goods he handles, and he is also what may be termed a close buyer, and he has always made it a point to give his patrons the benefit of his close buying, therefore the keynote to his great success. About one and a half years ago Mr. Seaton W. Anderson's son, Mr. Faron S. Anderson, sold out his clothing store interests next door and bought a one-half interest in the dry goods business with his father, since that time the firm name being S. W. Anderson & Son. Both father and son are very highly respected business men and citizens of Tecumseh.

The Circle.

The ratio of the circumference of a circle to its diameter was first ascertained to some degree of exactness by Van Ceuten, a Dutchman. He found that if the diameter of a circle was 1 the circumference would be 3.14159265358979323846264338327950288 4 nearly, which is exactly true to thirty-six places of decimals and was effected by the continual bisection of an arc of a circle, a method so extremely laborious that it cost him incredible pains.

Indian Hemp and Catalepsy.

A single grain of the resin of Indian hemp will produce catalepsy in a man. A few hours are required for the effects to reach a climax, when his limbs may be placed in almost any position without difficulty, and when once placed they remain in the given position indefinitely, although the natural influence of gravity would cause them to fall. During the catalepsy the body is usually insensible to all impressions.

Spider Web Fishing Nets.

The natives of New Guinea employ extraordinary fishing nets of spider's web to capture fish weighing up to a pound. They fix bamboos bent in the shape of a landing frame in the jungle, and the spiders weave their net all over the frame. The method of fishing is to watch for a passing fish and then to dip it out and throw it on dry land.

No Bargains.

"Eternal vigilance," shouted the orator, "is the price of liberty!"

The women electors exchanged glances.

"That is the same price as last year," they remarked and shrugged their shoulders.

There were no bargains to be had, and they lost interest in the proceedings.

The School.

"How do you get those clinging waists?" asked my country cousin.

"Hanging from street car straps," answered the city girl.—Washington Herald.

DR. O. Q. JONES

Physician and Surgeon, Office No. 10 Oneida Street—Office Hours from 11 to 12 a. m., 3 to 5 and 7 to 8 p. m.

Dr. O. Q. Jones the subject of this sketch is a native of Michigan, came to Tecumseh in the year 1881 and has been in active practice here ever since. Dr. O. Q. Jones, after finishing his early education in the common schools of his native village of Brooklyn, he began the study of medicine under the tutorship of his late father, Dr. L. M. Jones, who had practiced homeopathy, medicine and surgery at Brooklyn, Michigan, for upwards of 45 years. He then took a regular physicians and surgeons' course of study and graduated from the Cleveland Homeopathic College of Cleveland, Ohio, in the class of 1873. Dr. O. Q. Jones then practiced medicine with his father at Brooklyn, Michigan, for about one year. He then opened up an office at Hanover, Michigan, where he remained for about seven years and

O. Q. JONES, M. D.

from there he came to Tecumseh in the year 1881 as above stated. Since coming here the doctor has enjoyed a successful practice, not alone in the village of Tecumseh, but throughout the surrounding country, for many miles in either direction. By dint of hard study, energy and rare personal qualifications, he has risen in his profession to a place achieved by few.

Dr. O. Q. Jones makes a specialty of surgery and is a homeopathic physician. He has had many serious and important cases and has met with very good success in treating them. Office and residence phone No. 49. Doctor Jones has a son who is also a homeopathic physician and surgeon, who has his office in connection with his father. His name being L. M. Jones, who is a graduate from the Detroit Homeopathic School of Medicine in the class of 1906 and has already secured a very promising patronage. Thus it goes on from father to son down the line as physicians.

Lange's Stolen Base.

One of the funniest incidents in base stealing happened in Chicago one of the years that Bill Lange led the league in base running. It was a close race between Lange and Hamilton for the honors in base stealing, and the season was drawing to a close. The game was close, and Lange led off in the eighth inning with a two bagger. Anson went to bat and laid down a perfect bunt, intending to sacrifice. He went out in a close finish at first and, looking up, discovered Lange still perched on second. He was furious, but that condition was mild compared to what he experienced an instant later when Lange stole third—and took the lead for base running honors.

Chaldean Weapons.

The analysis of Berthelot not only shows that the Chaldean weapons, ornaments and tools of 5,000 or 6,000 years ago, were of pure copper, but that iron, silver and gold were known. The copper age preceded that of bronze, which appeared later in both Egypt and Chaldea. It is further noted, moreover, that the form of hatchets with handles, the process of manufacture and even the practical uses were the same for the pure copper hatchets of Chaldea and the prehistoric hatchets of Europe.

Odd Blunders.

Anthony Trollope was heartily laughed at by his acquaintances for causing Andy Scott to "come whistling up the street with a cigar in his mouth." But what is a slight error of this sort in comparison with Amelia B. Edwards' description in "Hand and Glove" of her hero "passing backward and forward like an overseer on a Massachusetts cotton plantation."

[illegible] the Average Man.

The average man is still jealous of his helpmeet and partner. His ideal heart is still the farmyard cock, strutting about with all his worshipful hens around him. He is willing to find them nice little bits, but they must not be able to find them for themselves.—London Saturday Review.

TECUMSEH CREAMERY CO.

Edward Mott & Co., Proprietors, Cleveland, Ohio.

The present Tecumseh Creamery company has been established here for the past seven years or more and has proved itself to be of almost inestimable value to the business men, as well as being a boon to the farming community round-a-bout Tecumseh, as this creamery company buys the milk as taken from the cows, and in turn will sell them butter and give them back the skim milk at a little or no price for same which they may take to their homes to fatten hogs, etc., therefore they are benefitted in both ways by selling their milk to the creamery company, or in other words the farmers make money both coming and going. The Tecumseh Creamery Co., have four other milk receiving stations, viz: one each at Ridgway, Holloway, Clinton and Raisin Valley. In 1893 the business was under the general management of the late Mr. M. J. Freemain, but for the past seven years or more it has been under the local management of Mr. T. M. Birdsall, a young man well acquainted with the butter making industry. Mr. Edward Mott, the senior member of the firm, is the general manager of the different institutions they have in other

T. M. BIRDSALL.

places. The Tecumseh Creamery Co. have long since established the name of manufacturing the best quality of creamery butter in southern Michigan. This is no doubt due from the fact that none but the very best and most expert butter makers are employed by Mr. Mott in connection with the creamery, as he being an A No. 1 man himself with many years experience in the butter making business thus being able to select only those who are most thoroughly competent to assist him. The plant which is located in the eastern section of the town, is of brick. It was built expressly for the business, and it is fully equipped with all the latest and most improved butter making machinery and appliances known to the butter making industry. The product finds a home and local market, for their butter while shipments are made to eastern cities. Everything about the plant is kept scrupulously clean and free from any odor, or taint, that might have a tendency to lower the high quality grade of butter that this plant is noted for making. Farmers who are not already selling their milk to the creamery had better arrange for doing so at once and thus have a monthly pay roll coming in every month for milk. As nothing in farming pays better than your cows, call on Mr. T. M. Birdsall, local manager, and he will further explain tthe matter to you. Over $50,000 was paid out last year to farmers for milk.

TECUMSEH CREAMERY CO.'S PLANT.

GEN. BROWN, ONE OF TECUMSEH'S FIRST SETTLERS.

Keep the Armholes Down.

It is strange that not one person in a thousand knows how to help a man on with his coat or a lady with her jacket. They all make the mistake of holding the garment too high, especially the last sleeve. They lift it so that a man nearly dislocates his arm reaching for it. The more futilely he grabs and claws and lurches for it the higher they hold it until the wretched victim would have to get on a pair of stilts to find the armhole. The proper way? Why, hold the coat so that the armholes are as low down as the man's waist, taking care to keep the skirt of the garment off the floor, of course. If there is any struggle to find the last armhole, drop it still lower. Never raise it. Drop it until his hand slips into it naturally.

BROWN & CO.

Dealers in Coal, Wood, Hay, Straw, etc., Office and Yard on Logan Street.

If there is any industry or business enterprise in Tecumseh especially deserving of special mention, it is that of Messrs. Brown & Co. This firm has been established here for some time and engaged in the old iron and junk business. Some two years ago they added coal and wood, also hay, straw, bran, flour and mill feed, also grain and seed of all kinds together with lime, plaster and cement. The firm is located in the old skating rink building on Logan street, having extensive coal and wood yard, in the rear—also a large junk yard. The firm make a specialty of coal and wood and they aim to keep the very best grades of hard and soft coal, also hard dry wood, all of which they are selling at reasonable prices; and prompt delivery of all orders has been their motto since they have been in business. Brown & Co. are among the largest dealers in their respective lines and they endeavor to give their patrons as good an article as can be procured for the money and sell at prices as low as the lowest. Give them a trial; they solicit your patronage. Don't forget the location. The old Old Skating Rink on Logan street.

FIRST PRESBYTERIAN CHURCH

The first Presbyterian service was held in the fall of 1825, Noah M. Wells the preacher. In April, 1826, Rev. Alonson Darwin became the pastor of the church. The legal organization of the church took place Apr. 6, 1828, with ten charter members. Three church buildings have been erected by this society, the present one being valued at $35,000. The magnificent pipe organ

was the gift of J. S. Strong, who was chorister for fifty years.

The present pastor, Rev. H K. Fox, belongs to Illinois by birth, but entering Adrian college in 1888 has practically been a Lena wee county boy ever since. He was two years Gen'l Sec'y of the Adrian Y. M. C. A., resigning to study for the ministry. One year was spent in Auburn Theological Seminary and two in Union Theological Seminary of New York City. On the basis of two years resident work in Columbia University he received the degree of Doctor of Philosophy in 1901. Two years he was president of Gittings Seminary in Illinois, teaching Greek, Latin and Engliih. Not seeing fit to accept the position of Dean of the Theological Dept. of Adrian college, he took a four years business course in the Cashier's Dept. of the Page Fence Co. If his sermons keep close to the soil it is probably due to his business training.

The Wolves' Muzzles.

He was telling a thrilling story of one of his hairbreadth escapes abroad, and the young girl leaned forward and hung upon his words breathlessly.

"And they were so near," he said, "that we could see the muzzles of the wolves."

"Oh," she gasped, "how glad you must have been that they had their muzzles on!"

A Good Critic.

Sir Henry Irving, the English actor, once wanted a white horse to use in one of his scenes, but no white horse that was suitable could he get. At last a stage hand advised him to apply to a certain distinguished actor manager, who, he said, had such a horse. Sir Henry visited the owner, inspected the horse, and the bargain was concluded, but as an afterthought Sir Henry said he trusted the animal was not fractious.

"Not at all, Sir Henry, I assure you; an excellent horse in every way. Why, I rode him night after night, and all I had to complain of was that he would occasionally yawn when I was on the stage."

"Indeed," said Sir Henry. "A bit of a critic, then, evidently."

The Wind Month.

November was called by the ancient Saxons the wint monat, or wind month, on account of the gales then prevalent. It was also named the blot monat, or blood month, from the ancient practice of then slaughtering cattle for the winter provisions. It is said that the Roman senators wished to name the month after Tiberius, as months had already been named after Julius Caesar and Augustus, but the emperor, like Canute, felt that it was possible to have too much flattery and refused, remarking dryly, "What will you do, conscript fathers, if you have thirteen Caesars?"

The Uncharitable Game!

Golf is considered bad for the temper, but even on a golf course one will not see anything approaching the rudeness that is to be seen on the croquet ground. If a golfer "foozles" a ball or gets "bunkered" he may throw his club about and use a little bad language, but he will not accuse the opponent of cheating and refuse to speak to the unfortunate person for the rest of the day, which a croquet player frequently does.—C. B. Fry's Magazine.

"So you have decided that Tallaferro cannot marry your daughter."

"Most assuredly not; wouldn't have such a son-in-law."

"What's the trouble? Is he dissipated or profligate?"

"Everything. He has an edition de luxe opinion of himself, but is in reality only a paper backed copy."—New York Press.

The Lobster.

"Aw, g'on, Mike," said the British soldier, attempting to end the argument; you're a lobster."

"Ye flatter me," retorted Mike. "Shure, a lobster's a wise animal, fur green is the color fur him as long as he lives, an' he'll die before he puts on a red coat."—Catholic Standard and Times.

British Choral Societies.

If in the pure artistic sense the British people cannot be said to be musical, there are, it must be admitted, individuals in multitudinous numbers who cultivate with eagerness both vocal and instrumental music. But there is unquestionably no people who devote as much time and earnest study and practice to choral singing as the English, and this from the sheer love of it.—Edward St. John-Brenon in Strand Magazine.

Old Leprosy Laws.

In the earliest code of British laws now extant—namely, that of Hoel Dha, king of Cambria (the present Wales), who died about the year 950 A. D.—we find a canon enacting in plain and unmistakable terms that any married woman whose husband was afflicted with leprosy was entitled not only to separation, but also to the restitution of her goods.

A Wesley Anecdote.

It is said that Charles Wesley was sometimes easily annoyed, and on one occasion at a conference he became so irritated at the prolix remarks of a speaker that he said to his brother:

"Stop that man's speaking. Let us attend to business."

But the offender was relating his religious experience, and, though it was at so great a length, John Wesley evidently thought that no one had a right to interfere with it. He was therefore allowed to continue, but the moment came when Charles could contain himself no longer.

"Unless he stops," he whispered to John, "I'll leave the conference."

By this time John was enjoying the man's simple story, and he only turned and whispered to some one sitting

A Literary Tragedy.

When Carlyle had finished the first volume of his great work on the French revolution he lent the manuscript to his friend John Stuart Mill. One evening soon afterward Mill entered Carlyle's door, pale as Hector's ghost, with the dismal information, gasped out in almost inarticulate words, that with the exception of about four or five sheets the manuscript was completely annihilated. Mill had left it too carelessly lying about, and a servant, thinking it so much waste paper, had burned it. Five months of steadfast, occasionally excessive and painful toil utterly lost! For three weeks Carlyle could do nothing but read Marryat's novels. Then one night, sitting talking to his cook, he decided it should be written again and eventually finished "such a task as I never tried before or since."

Prince Hohenlohe In Life.

When Germany sent Prince Hohenlohe to Paris in 1875 his physiognomy was not prepossessing. It was grave, sad, without life. With dead, expressionless eyes, the habit of carrying his head over his right shoulder, a slow step and the air of being overwhelmed with the burden of his moral preoccupations, all this tended to repel rather than attract.—Paris Figaro.

Authorized by Shakespeare.

Shakespeare has "sixt" for "sixth." Doubtless he so pronounced it, for he was credited with having written the three parts of "Henry the Sixt," and he certainly wrote "The Life of Henry the Fift," as the old edition has it. And it is worthy of notice that "fifta" and "sixta" are the Anglo-Saxon forms.—Professor Skeat in National Review.

adic fluid battery together with all other appliances that go to make up a complete static machine, or what is better known an XRay machine or apparatus. In this latest mode of treatment Dr. Catlin has taken a thorough electrical course of study in the Illinois school of Electric Therapeutics and received his diploma to operate an X-ray electrical machine which he has now in his office at his private residence and the same of which are used very extensively all over the world by the progressive physicians in treating chronic diseases successfully. Chronic diseases such as neuralgia, consumption, cancer, and all forms of skin diseases, muscular rheumatism, diseases of the kidneys, nervous diseases, etc., are cured by this new method of treatment. The treatment is very soothing when properly applied and patients often go to sleep while taking treatment. The doctor also treats the eye, ear, nose, and throat, successfully.

Dr. Catlin of late years has given this electric subject more of his time and study, and finds in the cure of many cases electricity is a great deal more effective than that of medicine. He finds too that on account of his inability to visit his patients that he can much better treat them by having them come to his office in his residence on the corner of Pearl and Pottawatamie streets. Personal, Dr. Samuel Catlin is a native of Waterloo, Conn., born in the year 1827 and after completing his early education [illegible] college he attended [illegible] Yale, where he graduated in the class of 1851, with the honor of valedictorian. late David Jones (deceased) while his son, Mr. Wade L. Jones, in turn has learned the trade from his father, thus it goes on from father to son, therefore the tailoring trade has become second nature to them as it were. J. M. Jones & Son make to order on short notice, dress and business suits at reasonable prices. Both members of the firm are practical cutters and drapers, of vast practical experience and training in every branch of the art. They have developed a business of very flattering proportions. They both attend personally to the cutting and construction of all garments; they are perfection in fit style and finish. Several competent tailors and assistants assure to customers the utmost promptness in the filling of all orders. The firm make a specialty of fine dress suits, their creations in this line being perfection. There is an elegance in the appearance of a well made, nice fitting suit or overcoat sent out by this first class merchant tailors that is not to be found when made by tailors of less experience or poor mechanics. Both father and son are highly respected citizens of Tecumseh.

THE GLOBE FLOURING MILL

known to the citizens of Tecumseh and the farming community for many miles away, in any direction from the city. The present mill was built nine years ago by present company, and it has ever been the pride and boast of Tecumseh. It is a matter of history of Lenawee county that the first building erected in the county was located on the present mill site, and the first flour mill erected in the county was on the same spot where the Globe Mill is now situated. This was away back in the spring of the

are the improvements of today in the manufacture of flour, for right here on the self same mill site was erected the now present modern mill structure that is fully equipped with all the very latest and most improved mill machinery known to the trade, and from the day the first mill was erected and up to the present time the name Tecumseh and flour have been the two names inseparable as it had not only then the name of making the first flour in Lenawee county, but it has since gained the name of not only the first but of making the best flour in Lenawee county. today it has the best water power in southern Michigan. It has also its own electric plant used for lighting the mill. In the early fifties, the mill was purchased of Thomas Bayns, of Tecumseh. On January 24, 1888, the property was deeded to William Hayden and owned by him until his death, which occurred in February, 1895. Since Mr. Hayden's death the heirs of his estate have controlled the mill, which was incorporated as a stock company December 17, 1898, and placed in the hands of his two sons, William H. and Levi C., who in turn conducted the business up until the death of William H. Hayden, Jr., which occurred October 10, 1902. Since that time the business has been under the sole charge of Mr. Levi C. Hayden. The Globe Mills, or what is now more commonly called the Wm. Hayden Milling Co.'s Mills, is an up-to-date mill in every way, being fitted with all the latest and most improved machinery, including rotary sifters in place of the old-fashioned reels, and steel rolls have taken the place of the mill stone. They manufacture wheat and cornmeal flours and feed, having a capacity of 150 barrels of flour per day. The principal brands of flour are the "1900 flour, "Hayden's Best Patent," and "White Star," all of which are equal to any other brands manufactured, and are most excellent for bread and cake baking.

The company purchases supplies throughout this and adjoining states, has extensive storage and railway facilities, brings many farmers here, as they offer the highest cash market price for grain, etc., and besides maintaining agencies in Detroit, Toledo, Adrian and Dundee where [illegible] products find a ready market. They have also an extensive local trade, selling flour in every town and village in Lenawee county. Mr. Levi C. Hayden, the present proprietor of the business, was raised to the milling business and is fully conversant with every detail of the flour making trade, and is ever aiming to retain the confidence of the public by his liberal business methods and walking well in the footsteps of his late father, who was regarded during his lifetime here as being one of the most thorough, honorable and reliable business men ever located in Lenawee county. Having done many things for Tecumseh, having at all times the welfare of the village in view and by his liberal methods in dealing with the farmers, was the means of bringing them to Tecumseh to trade when they actually lived nearer to Adrian and other places, which they still continue to do at the present time, while the business is now carried on by his son, Levi C. Hayden, who so well imitates his honored ancestor and predecessor in the milling industry of Tecumseh. This industry is regarded as one of the most important trade factors in the commercial solidity of the city, as well as the surrounding country.

MR. AND MRS. F. C. SNELL.

Dealers In Dry Goods, Boots and Shoes—Store on Railway Street.

For the past two years Mr. F. C. Snell and wife have been engaged in the dry goods, boot and shoe business in the store room formerly occupied by E. A. and H. O. Spalding some years ago. Mr. Snell not only handles boots, shoes and rubbers, but he handles only high grade footwear and sells at very reasonable prices, and the same may be said of his shoe repairing as he does all this class of work with neatness and dispatch and his charges are as low as the lowest. Mrs. Snell carries a fine and medium assortment of dry goods, notions, etc., and aims to keep none but the very best goods that can be sold at very low prices. This part of the business is looked after entirely by Mrs. Snell, while Mr. Snell attends to the shoe department only. He formerly worked for 30 years as section foreman for the L. S. & M. S. Ry., and only quit that to go into business for himself. Both Mr. and Mrs. Snell are highly respected citizens of Tecumseh.

Aside from his boot and shoe business, Mr. Snell is also agent for the Milwaukee, Wisconsin, International Harvesting machinery, also the International Endless Manure Spreader, together with a full line of farming implements that he is selling at reasonable prices. Call and see him.

ANDERSON BROS.

Tecumseh's Oldest and Most Prominent Grocers, Established in 1870.

The firm of Berford and Erwin Anderson or better known to the citizens of Tecumseh and surrounding country as the Anderson Bros. grocers, as they have been engaged in the grocery and provision line here for themselves for the past 37 years, having been raised to the busines by their father. On the grocery trade the whole civilized race depends for daily supplies, and as one of the best known, oldest and most reliable establishments engaged in this line here we mention that of the above named Anderson Bros. They are located on East Chicago street in their own store building and their stock embraces a full line of the purest and best the market affords in staple and fancy groceries, provisions, table condiments, etc., also canned and bottled goods, fine teas, coffees and spices, cereals, fine confectionery and fruit, flour and meal. In fact the firm of Anderson Bros. aim to keep everything in the grocery, fruit and provision line, also fresh butter and eggs; the provisions, fresh butter and eggs being purchased from the farming community throughout this section of Lenawee county, and the highest cash market price always being paid. Therefore the firm have in all these years in business established a large trade not only with the citizens but also with the farming community all over this section of Southern Michigan. A call solicited. Both members of the firm are honorable and highly respected citizens of Tecumseh

THE SPAYDE SHOE CO.

The store was expressly fitted up for the business, having convenient shelving on either side of the store room that extend almost up to the ceiling, and are well filled with a fine and nicely selected stock of footwear suitable for all classes, and sold at prices as low as is possibly consistent with good business principles. The Spayde Shoe Co. have also in their employ a first-class shoe repairer, this department is in rear of the salesroom, and all work in this line is done with neatness and dispatch, and at prices that defy all legitimate competition. The Spade Shoe Co. carry at all times a fine assortment—shoes for men, ladies and children, and rubbers, in all the grades and prevailing styles. Only the best and most reliable goods are handled, while the prices quoted in all cases are extremely low. In the stock may be found the famous products of "Dr. Reed's Cushion Shoes," "The Crossett," "The Racine," for men and the "John Kelly," "The Xenia," "The Tappan" in ladies' shoes, all of which are of the highest grade of manufacture and national reputation. Mr. Alva Spayde the senior member of the firm, is an expert shoe man and very popular in the community, and has always taken a lively interest in everything pertaining to the welfare of his adopted city, Tecumseh.

The Peacock at Home.

"The real home of peacocks or peafowls is in India. There they were and are hunted, and their flesh is used for food. As the birds live in the same region as the tiger, peacock hunting is a very dangerous sport. The long train of the peacock is not its tail, as many suppose, but is composed of feathers which grow out just above the tail and are called the tail coverts. Peacocks have been known for many hundred years. They are mentioned in the Bible. Job mentions them, and they are mentioned, too, in I Kings x. ALFRED JAMES

General Insurance Agent, Office in Masonic Temple.

In these modern times men of broad business conceptions do not go on day after day, and year after year without a thought of protecting their property against fire. They know that an insurance policy that has the right company back of it is the very best investment that they can make, and the people of this section of Lenawee county have found with all these years he has been in the insurance business here that Mr. Alfred James represents only such companies. Mr. James has been in the general insurance business here, such as fire, tornado and plate glass insurance, for the past 20 years, and people will find it to their advantage to see Mr. James before placing their insurance elsewhere. Mr. James represents nineteen companies whose aggregate assets amount to $82,584,406.00, with a surplus of $32,970,638.00. He is in a position to serve the interests of patrons with promptness and satisfaction. All losses are adjusted and paid with such promptness that a large clientage is enjoyed. Mr. Alfred James is one of the most capable and energetic men of his age engaged in the insurance business in Lenawee county, and has done much to promote the welfare and prosperity of the community, and is honored and esteemed by all of its citizens. He built and owns the James Block, better known as the Masonic Temple, Tecumseh.

The Cauliflower.

Of the word "cauliflower" a writer in the London Chronicle says: "The modern spelling is artificial, and if we were to write it as we pronounce it, 'collyflower,' we should be taking a step back in the natural direction. 'Coleflorye,' as they spelled it in the sixteenth century, brings out the true meaning of the vegetable's name—'flowered cabbage'—'cole' being an old word for cabbage and 'florye' representing the French 'fleri,' or 'fleuri,' flowered. But because in Latin it was called 'cauliflora' it began to be written 'colieflorie' or 'collyflorie' in English, probably by deliberate assimilation to the Latin, and eventually even to be written 'caul,' though still pronounced 'colly.' Meanwhile the second part of the word got popularly corrupted to 'flower.'"

Gladstone as a "Supe."

A reference to "The Corsican Brothers" recalls an amusing story of Mr. Gladstone's visit to the Lyceum when Irving was playing in this drama. Mr. Gladstone at the time was not burdened by the cares of office, and one evening he dropped in at the Lyceum, where he was occasionally accommodated with a chair at the "wings." On this night, however, when the stage was set for the opera ball in "The Corsican Brothers" his curiosity led him into one of the boxes for spectators in the scene. Up went the curtain; Mr. Gladstone was at once descried by the pit and greeted with shouts of joy which caused him hastily to withdraw. "This," says Mr. Austin, "was his first and only appearance in the drama outside of the dear old 'legitimate' at Westminster."—Westminster Gazette.

Talleyrand as Cook.

Be a cook—some sort of cook, even a ship's cook. Remember Talleyrand. The British authorities gave him twenty-four hours' notice to quit London, and he embarked on a Danish vessel for America. The vessel was held up at sea by an English frigate. A searching party was sent on board. Talleyrand pleaded with the captain not to declare him, as he had no liking for the Tower of London. "I will pass you off as the ship's cook," said the officer. "There is nothing else." After some wry faces the prince consented and with a very ill grace assumed the cotton cap, kitchen apron, carving knife and other appendages in keeping with his new office. When the English officer demanded if there were any French passengers on board the captain replied, "Yes, one poor devil of a limping French cook." Being immediately called up for inspection, Talleyrand made his appearance, saucepan in hand and with such a piteous countenance that the Englishman laughed heartily and consented not to make a captive of him.—New York Press.

Another Triumph of Art.

A young New York artist says that he was in Vermont on a sketching trip one summer. One day while strolling along a pretty lane he overtook a particularly picturesque little fellow who was saunteringalong with a fishing pole on his shoulder and a string of small fish in his hand. He looked so much the part of the small country boy of poetry and fiction that the artist decided he would like to make a sketch of him, and after considerable negotiation this was arranged for, the lad, in accordance with directions, perching himself on a rail fence. As the artist worked away at his sketch an old countryman came down the lane and stood looking over his shoulder.

"By gum! That certainly beats all hemlock!" the old fellow presently exclaimed admiringly.

"Like the picture, do you?" the artist asked, with a pleased flush.

"Oh, 'tain't that, though it ain't so bad. What I meant was the way you manage to keep that boy quiet so long."—New York Herald.

To Tell a Fashionable Restaurant.

"When I was young," said an old bachelor, "at all the fashionable restaurants you wrote your order. That was the way to distinguish the really fashionable restaurant. You wrote your order there, whereas in the common one you gave it to the waiter orally. Ordering is a difficult matter. It is a thing, especially when one has guests, that one is likely to get flustered over, hence I always liked to write my order. It kept me cool. But a waiter, standing over me, suggesting dishes I didn't want, hurrying me, had the power to rattle me completely. But fashionable restaurants no longer are to be distinguished by this writing business. Writing has disappeared from them. They are to be distinguished now by their French menus—bothersome things that call a sweetbread a ris de veau, a potpie a vol au vent and a leg of mutton a gigot."—Philadelphia Bulletin.

How Th[illegible] Stornoway.

On a sunken reef 350 feet distant from Stornoway lighthouse is a remarkable beacon which warns mariners with the help of a light which is only apparent. The beacon is a cone of cast iron plates, surmounted with a lantern containing a glass prism. The prism derives its light from refracting the rays emitted from the lighthouse, and the optical delusion is marvelous. Mariners naturally suppose that there is a lighted lamp on the beacon itself, and many of them will not believe otherwise. But the object of the beacon is attained when the navigator sees the reflected light, which indicates the perilous rock below. This beacon in the north of Scotland has been in use more than half a century, and since it was fixed in position others have been placed in other neighborhoods to make clear points of danger. It is an ingenious and very effective safeguard against perils of the coast.

Cooking and Spoiling.

There are three kinds of cooking—negative, neutral and positive. The first is no cooking at all. It is only spoiling good material. It is simply jabbing wildly at a delicate duty. The neutral sort is the kind where a person eats and doesn't know it—just swallows and goes; no sentiment, no beauty, no delight in it. The third is where the light of the mind and the grace of the heart join in the delicate mingling of the material and touch this and that feature of the process with the lovely vision of the sculptor who rounds the white muscle of Venus' shoulder or of the artist who blends in a flower the tints of another world.—Ohio State Journal.

Tecumseh Chief Furnace.

Tecumseh, Mich., Feb. 29th, 1907.

Century Post Co.:

Sirs:—It has been like "the good old summer time" in my house since the furnace was put in the house last fall. It will heat the whole house, or by your system of dampers and drafts can confine the heat to one room. To anyone in need of a good, substantial, labor saving, fuel economizing, satisfaction giving furnace, I would recommend the Tecumseh Chief.

Yours Truly, F. M. GOHEEN.

Jackson, Mich., Feb. 22, 1907.

Century Post Co.:

Dear Sirs:—Your furnace was simply fine, both in heating and cleanliness, free faom smoke. Never took so much real comfort a winter in my life of 77 years as this winter. No going to bed cold at night, or waiting for the house to warm in the morning. Wouldn't take $500 for it and do without it. MRS. J. M. PORTER.

Century Post Co., Tecumseh, Mich.

Gentlemen:—would say in reply that I cannot make it strong enough as to my views in regard to your furnace. She is a "dandy" in every respect, both for heating and economy. I will use no more than 4½ tons of coal this winter, heating six (6) rooms, and can say my house has never been below 65 degrees temperature. Think you can sell several more here this season. Very truly yours,

Morgan Spends Two Hours in Conference With President

IN INTERESTS OF RAILROADS

Latter Are Greatly Alarmed at Widespread Agitation Which Sweeps the Country—Roosevelt Consents to Receive Four Railroad Presidents.

Washington, March 12.—J. Pierpont Morgan, the New York financier, at the solicitation of New York business men, came to Washington in his private car last night, and went immediately to the White House, where he was in conference with President Roosevelt for more than two hours. The object of Mr. Morgan's visit was to urge the president to take some action to "allay the public anxiety now threatening to obstruct railroad investments and construction." Mr. Morgan pointed out to the president that the financial interests of the country are greatly alarmed at the attitude of the administration toward corporations, and particularly the railroads.

At Mr. Morgan's earnest request President Roosevelt has agreed to have a conference with four leading railroad presidents, Messrs. McCrea, of the Pennsylvania; Newman, of the New York Central; Mellen, of the New York, New Haven and Hartford, and Hughitt, of the Chicago and Northwestern, to determine if some agreement can be reached as to the relations between the railroads and the administration. It is probable that E. H. Harriman, head of the Harriman lines, may also participate in the conference, which, it is understood, will take place at the White House some time the latter part of this week.

After boarding his train shortly after midnight to return to New York, Mr. Morgan dictated to the Associated Press a statement containing the above information.

B. F. Yoakum, chairman of the board of directors of the Chicago, Rock Island and Pacific railroad, who had an interview Monday with President Roosevelt and members of the Inter-state Commerce commission, regarding the railroad situation, told President Roosevelt that the agitation and legislation in various states regarding two-cent fares and the reduction in freight rates, have made it almost impossible for the railroads to negotiate loans on their securities. He declared that "the railroad men are willing that the supervision of the railroads be centralized in the national government."

"That," he added, "would restore confidence and give the people to understand that the railroads wish to observe the laws, and would stop the hostile legislation in various states."

Panama, March 12.—There has arisen between William F. Sands, secretary of the American legation here, and M. Rosenthal which Mr. Sands considered derogatory to Secretary Root.

Durand Elects Ticket That Will Be Less Exacting.

DEFEAT ANTI-GAMBLING CROWD

Long-Waged War Will Likely Now Come to an End—Allegan Casts a Straw Vote, Deciding She Would Like to Become City.

Durand, Mich., March 12.—What is expected to end the long war waged between the present city officials, who have been working with might and main to hold the lid down, and their opposition, known as the progressive union ticket, or those who favor putting it on, but not spiking it down, took place Monday, when the latter element made a clean sweep at the village election.

Those elected were: E. J. Carney, president; Fred L. Eldridge, clerk; Bert S. Griffin, treasurer; S. H. Patter, assessor, and Joseph McPeak, A. N. Brock, Charles E. Van Slyke and O. J. Jones, trustees.

The fight started some time ago, when the mayor and council hired a private detective from Ohio and secured evidence against several persons, charging them with gambling. The alleged gamblers then had the detective arrested for gambling, and this led to 30 warrants, which were served Friday.

Allegan, Mich., March 12.—At the annual village election here Monday the republicans elected: Volney W. Ferris, president; Andrew Schuman, clerk; William Beery, treasurer; Frank Andrews, Joseph Mosier, Jr., and Perry Sirrine, trustees. The democrats elected one candidate, Josiah R. LaForce, assessor, he having no opposition.

A straw vote was taken on the proposition to have the village become a city, a total of 169 votes being cast. Of this number 578 were in favor and 191 votes were cast against the proposed change. The council will probably take the necessary steps to ask for a special charter.

Milan, Mich., March 12.—In the village election here Monday, Elon Gauntlett was elected president; W. P. Gregory, clerk; S. W. Reeves, treasurer; A. M. Collins, assesor; E. E. Spink, G. S. Minto, and G. S. Richards, trustees. Collins and Gauntlett were elected by one vote each, and it is thought that a recount will be ordered.

Rochester, Mich., March 12.—The result of one of the hottest elections ever held in this place shows the following to be successful Monday: President, E. H. Summers; clerk, P. J. O'Brien; trustees, R. D. Watson, W. J. Fraser, G. M. Flummerfelt; treasurer, G. A. Axford; assessor, J. U. Horn.

Vassar, Mich., March 12.—At the village election the entire republican ticket was elected, except the president, when E. W. Ellis, the citizens candidate, won out by 72 majority. The balance of the ticket has a republican majority of 16 to 111. Following is the successful ticket: President, E. W. Ellis; clerk, M. H. Stephen; treasurer, C. J. Stephen; assessor, R. G. Lyon; trustees, A. K. Halstead, W. D. Purcell and Richard Haskall.

Northville, Mich., March 12.—The workingmen's ticket and citizens' party had a hot contest in the annual election Monday, but the former was successful, with the exception of one trustee, E. J. Binder. The new officers are: President, Merritt F. Stanley; clerk, Thomas E. Murdock; treasurer, James A. Huff; assessor, Charles A. Sessions; trustees, Beech A. Northrup, Edward Gay and Charles E. Ryder. The number of votes was 319.

Belleville, Mich., March 12.—In one of the hottest village elections in years, the Citizens' party elected all its candidates Monday, and the party remains in control of village affairs. The officers elected were: President, William A. Atyeo; clerk, Charles M. Ford; treasurer, John S. Wright; assessor, Malcolm P. Soop; trustees, James G. Coomer, Edward B. Kellogg, Walter A. Alban.

Aged Inventor Dies Poor.

Hanover, Conn., March 12.—Rodolphus W. Fuller, the inventor of the machine to make horse shoes, died early Monday, aged 85. Fuller's invention was copied by men who made millions through it, but he died a poor man.

DELMAS FOILS JEROME

Latter Fails in Attack on Truth of Evelyn Thaw's Story.

ARGUMENTS TAKE UP THE TIME

Defense Allows But Little Testimony to Go Before Jury—Numerous Witnesses Called — Expert Chemist Could Not Utter a Word.

New York, March 12.—On the first day of the state's case in rebuttal at the trial of Harry K. Thaw, District Attorney Jerome, Monday, came to a temporary standstill against the practically solid wall the rules of evidence have built around the story of Evelyn Nesbit Thaw. Mr. Jerome began to attack this story as soon as court opened in the morning. There ensued a well-nigh ceaseless battle between the prosecutor and Delphin M. Delmas, the leading counsel for the defense, at the end of which Justice Fitzgerald upheld the rule laid down at the beginning of the trial—that young Mrs. Thaw's story was admissible only as tending to show the effect it might have had in unbalancing the defendant's mind, and that its truth or falsity is not material.

Mr. Jerome tried to avoid this rule by declaring he was endeavoring merely to show by inference—by circumstantial evidence as to facts and details in the story—that Mrs. Thaw could not possibly have told the story to her husband. Although he will doubtless be blocked by the same rule when the time comes, it is said the district attorney may attempt in the same way to prove an alibi for Stanford White on the night he is alleged to have maltreated young Miss Nesbit.

Much Argument.

Nine-tenths of Monday's sessions were spent in argument, and in nearly every instance, when the smoke of conflict cleared away, Mr. Delmas had won his point as to the law, while Mr. Jerome, in the very argument itself, had got before the jury a perfect knowledge as to what his witness would have testified to had they been permitted. The district attorney called ten witnesses during the day, but aside from drawing from the state's eye-witnesses to the tragedy the opinion that Thaw seemed rational the night he shot and killed Stanford White, little real headway was made.

Lining up all his forces in rebuttal, Mr. Jerome decided to open his fight upon the defense by attacking the story told to the jury by Evelyn Nesbit Thaw. He called to the stand Frederick W. Longfellow, formerly an attorney for Thaw, and asked him concerning the case in which Ethel Thomas is alleged to have sued Thaw for damages because of cruel treatment.

He showed Mr. Longfellow the photographic copy of the affidavit Evelyn Nesbit is said to have signed in the office of Abraham Hummel—alleging that Thaw treated her cruelly while abroad in 1903, because she "would not tell lies against Stanford White." The conclusion was Mr. Longfellow turned his entire examination to naught by declaring that Mrs. Thaw had never shown him a paper similar to the Hummel affidavit in any way. He thereupon was excused without cross-examination.

Thaw Seemed Rational.

Police officers who saw Thaw the night of the tragedy declared he acted rationally.

Many of the witnesses called by the state during the presentation of the case-in-chief, were re-called Monday. All declared that to them Thaw seemed to be rational.

After the afternoon recess Mr. Jerome called to the stand Dr. Rudolph Witthaus, a chemist and expert in poisons. The district attorney framed a hypothetical question covering Evelyn Nesbit's description of her night with Stanford White in the 24th street studio house, and asked if there was any known poison which would cause insensibility in two minutes and permit of the quick recovery testified to by Thaw's wife.

Jerome Foiled Again.

Around this vital point, covering up as it did a path through which the prosecutor could march his forces in attack upon the truth or falsity of Mrs. Thaw's story, the storm of argument raged for an hour or more. Mr. Jerome pleaded with Justice Fitzgerald at great length. Mr. Delmas, in reply, cited Mr. Jerome's own words at the beginning of the trial. At that time the district attorney had the court instruct the jury that young Mrs. Thaw's testimony was permissible only as tending to show what effect its relation to Thaw may have had in unseating his mind. The prosecutor further said that under the rules of evidence he would not be permitted to attack the truth of the story.

"Now," said Mr. Delmas in conclusion, "he is attempting to do that very thing."

Mr. Jerome said he was not attacking the truth of the story. He was calling for an expert opinion to the effect that no known drug would produce the effect testified to by Mrs. Thaw.

Justice Fitzgerald here sustained the objection interposed by the defense

CARS WERE STONED.

Strikers in Louisville Succeeded in Partially Crippling Service.

Louisville, Ky., March 12.—Violence resulting in injuries to a dozen persons and the feeble and spasmodic operation of 100 out of the usual 600 cars for a few hours under inadequate police protection, Monday, marked the second day of the strike of the union employes of the Louisville Railway Co.

Few of the cars operated were patronized, and a number were stoned. As a general thing, the crowds that thronged the streets near the car barns, drove the crews off the cars by merely surging forward and ordering the men away.

Mayor Paul C. Barth last night said that he had not been asked to swear in extra policemen, and that his course in this regard would be guided solely by the later developments.

Superintendent Funk, of the street railway company, denied that any profession strike breakers had been sent for. He said that all extra men hired so far were residents of Louisville and vicinity. He said that 225 men reported for work Monday.

Mr. Funk declared that in future cars sent out would carry two policemen aboard each one, and that if the crowds could be kept moving, the service would be extended during the day.

Want Peng Sho Yin Freed.

Cincinnati, March. 12.—Asserting that Peng Sho Yin, a Chinaman, is being restrained of his liberty by the federal authorities and that they have kept him in jail in Detroit since last November, Attorney W. F. Hemner, of Memphis, appeared before United States Circuit Judge Lurton Monday with an application for a writ of habeas corpus. Attorney Hemner says Peng Sho Yin was born in San Francisco in Oct., 1872, and was in China for education prior to his arrest at Detroit.

Ruef Must Stand Trial.

San Francisco, March 12.—The state supreme court Monday denied the application of Abraham Ruef, indicted for extortion, for a writ of prohibition to prevent Judge Dunne from proceeding with the trial of Ruef, pending the disposition of the writ of error to the United States supreme court granted by Judge Hebbard.

MICHIGAN BRIEFS.

Supervisor John Eaton of Kalamazoo, one of the best-known men in the county, has suffered two strokes of paralysis and is totally blind as the result of his affliction. His recovery is very doubtful.

Claiming that he and his "bird-cage" mail wagon were badly injured by smashing into a defective bridge, William H. Hunter, a rural route postman of Bad Axe has brought suit against Dwight township for $10,000 damages.

The 100 men appointed by the Y. M. C. A. of Grand Rapids to canvass the city and raise sufficient funds to meet current expenses of the association for two years have succeeded beyond expectations. Over $20,000 was secured.

The weight of 103 years on Philip Brushart of Battle Creek does not rest heavily for he can take a six-mile walk with as much ease as one 50 years his junior. He is six feet tall and weighs 200 pounds, and looks many years younger.

"Link" Rogers, well-known singing politician of Muskegon once a member of the legislature, and the man who introduced the bill prohibiting the docking of horses' tails, is again in politics. This time he wants to be alderman from the fourth ward.

To such proportions has the waterworks question grown at Wayland that every other topic of public interest has dwindled into insignificance. Wayland has burned three times, but still there's nothing definitely settled as to fire protection.

...A... Halloween Payment

By ALICE LOUISE LEE

Copyright, 1906, by Alice Louise Lee

SINCE his sixth year Leander Remely 2d had regarded Halloween as sacred to getting even with such inhabitants of Shedd's Corners as had trampled on his rights and privileges on many occasions.

Twice six Halloweens had dawned on him when his vengeance was directed toward a certain Jacob Fessler, only a couple of years distant from Ellis Island, a big rawboned German who picked up our language slowly and was regarded as rather stupid until one bright Saturday in October when that illusion was dispelled.

Jacob lived on the swamp farm half a mile from Shedd's Corners. The name of the farm indicated its general forlornness, while the little story and a half ramshackle brown house near the road bore witness to the fact that the place was, in the language of Shedd's Corners, "clean run down." This popular opinion Jacob Fessler, his mother, a horse, two cows and a pig were doing their best to undermine.

Of crops that first year Jacob had almost none, but nature provided him with an amazingly abundant October crop, for which he had toiled not. Scattered over the farm, on every grassy knoll of the rocky hillside above the swamp, great chestnut trees spread their branches full of ripe nuts.

Now, Jacob, being new to the land and a stranger to its unwritten laws, was foolish enough to suppose that the chestnuts, being part and parcel of his property, belonged to him, a mistake which a dozen of the small boys of Shedd's Corners, led by Leander 2d, strove to point out to him that memorable Saturday in October.

It was a bright, crisp morning, just the time, thought Mrs. Remely, standing over the gridiron, to send Leander out to sell soft soap in behalf of her church fund; therefore she rapped smartly on the stovepipe with the pancake turner and called nasally: "Le-an-der! Le-an-der! Get right up or I'll tell your pa."

There was no reply—she had expected none—but immediately a loud thump above, followed by another, formally announced the fact that both of Leander's feet had shot through the legs of his trousers and were planted on the floor. Mrs. Remely knew from experience that there must be a special reason for such unwonted activity, but she made no remarks when he appeared at the stair door.

Leander, thoroughly acquainted with that reason, also made no remarks. Out in the barn, hidden, lay his father's new bamboo fishing pole and two of the best meal sacks for which Leander 1st had been searching three days.

"Leander," remarked his mother at the breakfast table, "after breakfast I

want that you should take that pail of soap Mrs. Fessler made for me and go up Maple street and sell it." She dumped two smoking hot griddlecakes on her son's plate as a propitiatory offering, but it did not propitiate.

One fist doubled mechanically into his eye and a wail of "Now, ma," arose, but Leander 1st interposed sternly, "Do as your mother says and stop that bawling!"

This settled matters, fish pole, meal sacks and all. Half an hour after Leander started out his soul filled with a loathing which included soft soap, church projects and the imposition on his time constantly occurring in the bosom of his family. As to the project, the women of the M. E. church were seeing who could raise the greatest amount of money from an original investment of 10 cents each. As a result Mrs. Remely was victimizing the town with soap manufactured for her by Mrs. Fessler.

Just around the corner Leander ran into his right hand lieutenant, Sissy Brown. Sissy was headed for the swamp armed with baskets and a long pole. "Hey, there!" cried Sissy. "Wot you up to now?"

"Soap!" sniffed Leander, holding the pail of strong smelling, jellylike substance as far away as his arm would reach.

He had no need to say more. Sissy

ure was strewn with queer incidents and amusing encounters. He had occasion to know at the end of a few days that in a city like San Francisco, with a changing population and many travelers, there may be found more than one woman with brown curls hanging over her shoulders and that some of them are little pleased to miss a boat or to be waylaid on the street because of a trifle in which they feel no interest.

Mrs. Hedge now declared that she did not care whether the locket was recovered or not, but as she continued to have fits of weeping which he could attribute to nothing else Adam determined to restore her the lost trinket if possible.

The next Monday morning he wandered disconsolately into Israel's. A woman with brown curls over her shoulders stood at the counter haggling for a paperweight, which she wanted for 10 cents. Adam stood still and pinched himself. He thought he must be dreaming.

"You know your power. You know I must sell on Monday morning," Israel exclaimed in exasperation. "You

got a locket from me that way, and the jewel in the lid was worth more than you gave me for the locket. Ah,

THREW IT ON THE FLOOR AND SET HIS HEEL ON IT.

I forgot myself! Jupiter! What a mistake to tell you its value! It is wanted again. Will you"—

By this time Adam was standing beside the woman, interrupting Israel.

An hour later he paused at Lissie's gate on his way home with the precious little gold case in his pocket.

"What's all this about a locket?" asked Lissie. "I meant to run over and see mamma, but I had a visitor and couldn't leave home. I didn't know there was a locket in mamma's possession."

"A picture of you when you were five years old, I believe. I've got it again. Here, look! I haven't opened it yet."

"Why, papa, what's the matter with you and mamma? That picture of me I tore out of the locket some sixteen years ago, cut in four pieces and threw in the ash bin, along with the locket, which I hammered into its original elements. Mamma knew, for I told her. She forgave me and forgot it, so far as I know. I was little then, and she wasn't worrying over my being a lost baby. Why, papa, this isn't a girl at all! It's a young fellow with a smooth face, and, why, papa, look at it! It's none of ours. Look at that conceited smirk on his face! Must be some mistake."

Adam confronted his wife with the open locket in his hand. "Is that the one?" he demanded.

"Yes, yes, that's it! I'm so glad! How did you"—

"Woman, you cared so much for that, did you? That smirking"—

"Smirking, do you think? Well, he was but a youth, a young blade, maybe, but he loved me when I was also young." She kissed the picture, smiling.

Adam snatched the locket from her hand, threw it on the floor and set his heel on it.

"A young blade, eh? Then he must be an old blade by now and in need of grinding. I'll make powder of this, if I can't of the original! So that's the trouble, the crying in the night and all the rest of it. An old love affair that you never forgot! Jim Moller—nobody but Jim Moller ever smirked like that"—

A light dawned on Lorena Hedge's face. "Adam," she said softly, "you've forgotten many things. It's a locket you gave me on my sixteenth birthday, with your own picture inside. You said things that day, foolish, maybe, but sweet to remember. I was Renie then; now I'm Lorena. It's the same in everything. It's been like beginning in the morning with songs about roses and sunshine and ending at night with quarrels about the price of pork chops. If I had back the romance, the sentiment! Oh, Adam, it isn't the locket I cry for; that's just an excuse to hide what went along with it! If you'd speak to me as you spoke then, if"—

"Was that it? Haven't I shown folly enough in this last ten minutes to prove I'm still a boy? We men are such blame fools. We think when we care for a woman a hundred times more than we did for the girl she grew from she'll know it without any of our telling. Renie, I'm not a poet, but I wouldn't trade you for all the girls in America rolled into one giggly, slippery little bundle."

"I—I wasn't trying to make you say things, but— Oh, I'm so glad you've said them—glad the locket got lost!"

"There, now; don't you cry any more."

"I don't believe I will again, ever."

An Extremist.

"He's a great reformer, isn't he?"

"Oh, he's worse than a reformer. His ideas would upset the whole social and business world. He said if he had his way he'd put in jail everybody who ought to be there."—Philadelphia Press.

Tried to Be Cheerful.

The Minister's Wife—I'm afraid Mr. Skinflint does not realize that the Lord loves a cheerful giver. The Minister—Oh, I don't know! The less he gives the more cheerfully he gives it.

Don't Be Touchy.

There are some people always looking out for slights. They cannot pay a visit, they cannot receive a friend, they cannot carry on the intercourse of the family, without suspecting some offense is designed. They are terribly touchy. If they meet an acquaintance in the street who happens to be preoccupied with business, they attribute his abstraction to some motive personal to themselves and take umbrage accordingly. They lay on others the fault of their irritability. A fit of indigestion makes them see impertinences in everybody they come in contact with. Innocent persons who never dreamed of giving offense are astonished to find some unfortunate word or some momentary taciturnity mistaken for insult. Of course, such a mental condition is due to too much thinking about self and to an exaggerated self esteem, even though unconscious. The best remedy is to persistently put thoughts of self out of mind. Find something more absorbing and more elevating to think about if you are one of the touchy ones, and you'll soon lose the habit.

A Storm Above the Clouds.

Professor John Wise, the eminent aeronaut, who lost his life in making a balloon ascension on Sept. 28, 1879, gave the following description of a thunderstorm which he once viewed from the "top side:" "The view of a stormcloud from above is one of the most interesting sights ever beheld by mortal man. A storm viewed from above the clouds has the appearance of ebullition. The upper surface of the cloud is bulged upward and outward and has the resemblance of a vast sea of boiling, upheaving snow. Immediately above the stormcloud the air is not so cold as it is in the clearer atmosphere above or in the cloud itself. The falling of the rain can be distinctly heard, making a noise like a waterfall over a precipice. The thunder heard above a stormcloud is not loud, and the flashes of lightning appear like streaks of intensely white light on the surface of the gray colored vapor."

A Life of Freedom.

People sometimes think how delightful it would be to be quite free. But a fish, as Ruskin says, is freer than a man, and, as for a fly, it is "a black incarnation of freedom." A life of so called pleasure and self indulgence is not a life of real happiness or true freedom. Far from it. If we once begin to give way to ourselves we fall under a most intolerable tyranny. Other temptations are in some respects like that of drink. At first, perhaps, it seems delightful, but there is bitterness at the bottom of the cup. Men drink to satisfy the desire created by previous indulgence. So it is in other things. Repetition soon becomes a craving, not a pleasure. Resistance grows more and more painful. Yielding, which at first, perhaps, afforded some slight and temporary gratification, soon ceases to give pleasure and, even if for a time it procures relief, ere long becomes odious itself.

Died Standing.

The incident of Ratisbon—a French officer, though mortally wounded, rides back to Napoleon, reports the capture of the city and then falls from his saddle dead—is paralleled by a story of Gettysburg. An officer of the Sixth Wisconsin regiment walked up to Colonel Dawes, who was in command—Colonel Bragg was in Washington on crutches. The officer was very erect and very pale. Dawes and Doubleday both thought he was coming with a report or to receive orders. But he was not. He had a favor to ask. "Colonel," he said to Dawes, "will you tell the folks at home I died as a man and a soldier should?" Then he unbuttoned his coat. His whole side was shot away. It was his last effort. He died standing.

A Nose Tax.

A "nose tax" was in the ninth century exacted by the Danes from the householders in Ireland. It was so called not because it was levied on noses, but from the fact that a failure to pay was punished by slitting the nose from tip to eyebrow. It was continued during thirteen years, when the householders, objecting to this treatment of their nasal ornaments, rose in rebellion, massacred all the Danes in Ireland and put an end to the nose slitting.

Quite a Difference.

Employer—Young man, I hear that you bet on horse races. You are discharged. Youth—But my brother-in-law is a bookie. I have netted $600 on his tips this week. Employer—Ahem—er—close the door, please. Young man, your salary is doubled. Consider yourself my confidential adviser.—London Tit-Bits.

His System.

"I allus predict good weather," said the suburban sage.

"Why?"

"Well, if it is good I get credit fer it, an' if it ain't good the folks all allow that I done my best."—Minneapolis Tribune.

Hitting Him With the Truth.

Mr. Boastful—I wonder how it would seem if I could have all the money I have given to charity piled on a plate before me. Mrs. Boastful—I think you could still distinguish the plate.

A Bright Idea.

Theater Manager—I can't use your play, sir. It's too long for the stage. Amateur Playwright—But, I say—aw—look here—aw! Can't you lengthen the stage, you know?

Perhaps.

He—Why is it that unmarried women are usually "girls?" She—Possibly for the same reason that married men are mostly "boys."

Willing to Help Along.

The cranky old bachelor was irritable. Calling the landlady, he said:

"Mrs. Hashley, who is it that keeps singing 'I Would Not Live Alway?'"

"That is the lady in the room across the hall, sir," answered the landlady.

"Well," continued the C. O. B., "kindly give her my compliments and tell her if she keeps that up much longer she can rest assured she won't."—Chicago News.

Character.

There is a tremendous power in character when added to ability. A great many youths think that ability is everything; that if a man has brain power he can accomplish most anything, but he is a lightweight man, no matter how able, if he does not add character to his ability.—Success Magazine.

Not Ahead.

"They say that Shifter is ten years ahead of his time."

"Well, it's not true. I'm his landlord, and I know he's just six months behind."

Rapid changes of temperature are hard on the toughest constitution.

The conductor passing from the heated inside of a trolley car to the icy temperature of the platform—the canvasser spending an hour or so in a heated building and then walking against a biting wind—know the difficulty of avoiding cold.

Scott's Emulsion strengthens the body so that it can better withstand the danger of cold from changes of temperature.

Sage-Blair.

A pretty home wedding took place at the residence of Mrs. Matilda Sage of Macon, Wednesday evening, Feb. 27th, when her daughter, Grace, was united in marriage to Mr. Otto Blair of Montana. Only about fifty of the immediate friends were present and as the wedding was informal, these were received by the bride and groom, who mingled with the guests until seven o'clock, when they quietly took their places in one of the parlors and were united in marriage by Rev. W. C. Burns, a cousin of the bride, who used a simple ring ceremony.

The bride was gowned in white persian lawn and carried a bouquet of white and pink roses. The color effect of the rooms was the same. Immediately after the ceremony the guests sat down to a sumptuous and exceptionally well served dinner. In the library or den were gathered the many choice wedding presents of silver, cut glass, rugs, clocks, Haviland china, paintings, etc., indictative of the love and regard of a large circle of friends.

The bride was born in Macon and has always been regarded as one of Macon's loveliest girls. The groom, a clear-cut, sturdy young man and after four years on his ranch in Montana will now engage in business with his father in the northern part of this state.

Prof. Claude VanTyne.

With a heavy heart The Daily congratulates Professor VanTyne on his new offer of the chair of American history at Yale. Under other circumstances the task would be a pleasant one, for Dr. VanTyne has a place in the affections of all his students, and whatever makes for his advancement as a scholar should be welcomed by his friends.

But we can barely muster up sufficient courage to take leave of Dr. VanTyne cheerfully. We confess that we have little hope of his refusing the flattering offer of Yale. The inducements—more money, fewer classes, unlimited opportunities for research—are of such nature and extent that Michigan, in its present financial state, cannot equal them. We see, however, a faint glimmer of hope in the statement that he will probably make a visit to Yale before closing the offer.

If the friendship of the student body could keep Professor VanTyne here, we assure him he has it to a wonderful extent. Likewise, if other things were equal, we are sure he would perfer to remain here, as no man is more loyal to Michigan. But the Yale offer is so vastly superior to any salary advance Michigan can make that it is enough to compel the acceptance of any man not blessed with a private fortune.

The threatened loss of Dr. VanTyne is but one of the many Michigan has suffered during the past ten years. The case with which many of our best men are drawn to other fields is a striking evidence of our need for more money. In these days of high prices our salaries are ridiculously small. If the legislature gives us more money this will be remedied. The next few days will comprise a critical situation. If the legislature passes the appropriation bill with a substantial increase, next year may see an end to the exodus of strong professors to more profitable scenes of work. If the bill fails the end is not. We will be deeply sorry to see Professor VanTyne leave but we realize that circumstances here make it an unprofitable field for many a high grade man. The remedy for our ills is more money and that we hope is now on the way.—Michigan Daily, Ann Arbor.

Men Who Walked on All Fours.

In the kingdom of Poland there was formerly a law according to which any person found guilty of slander was compelled to walk on all fours through the streets of the town where he lived accompanied by the beadle, as a sign that he was disgraced and unworthy of the name of man. At the next public festival the delinquent was forced to appear crawling upon hands and knees underneath the banqueting table and barking like a dog. Every guest was at liberty to give him as many kicks as he chose, and he who had been slandered must toward the end of the banquet throw a picked bone at the culprit, who, picking it up with his mouth, would leave the room on all fours.

No Peace For Discoverers.

It is remarkable how few of the discoverers and conquerors of the new world died in peace. Columbus died of a broken heart, Balboa was disgracefully beheaded, Cortes was dishonored, Sir Walter Raleigh was beheaded, Pizarro was murdered, Ojeda died in poverty and Henry Hudson was left to the mercy of the Indians along the bay which he discovered.—Detroit Free Press.

Don't Kill the Hawk.

Man has sinned more than any other animal in trifling with nature's balance. Clover crops and the killing of hawks are apparently unrelated, yet the hawks eat the field mice, the field mice prey on the immature bees, and the bees fertilize the clover blossoms. The death of a hawk means an over-increase of field mice and a consequent destruction of the bees.—Country Life In America.

A Charity Dance.

Awkward Spouse—I see our set is to have a grand charity ball. Did you ever dance for charity? Pretty Wife—Of course. Don't you remember how I used to take pity on you and dance with you when we first met?—London Telegraph.

LITERARY NOTES.

The March Everybody's preserves its customary fair balance between information and entertainment. The informing articles are of unusual significance and timeliness. In accordance with cabled instructions, Vance Thompson undertook to interview Cardinal Merry del Val, Papal secretary of state, on the church question in France and succeeded far beyond his expectations.

The March Atlantic fittingly observes the centenary of Longfellow by giving the leading position to an eloquent poem upon the well-beloved poet by Thos Bailey Aldrich. The quality of the piece is worthy of the author, than which there can be no higher praise. Coming as it does from one of the finest American poets, who was an intimate friend of Longfellow's, it is likely to be as significant a centennial expression as we shall see.

Governor Hughes of New York State is in favor of child labor reform, says the National Child Labor Committee in its official department in the Woman's Home Companion for March. "The children under 16 should have an eight hour day: such a provision will not only furnish protection, but will also aid the administrative officers in their enforcement of the law. I also recommend that in order to protect children against dangerous employment, there shall be a more precise prohibition, specifying the occupations in which children under 16 shall not be employed. General prohibitions as to to such matters are apt to be found inoperative."

"The World at Large" in the March Metropolitan magazine contains the most important news of the month condensed for the busy man who has neither time nor the facilities for reading all the papers and illustrates it as the paper cannot. This department is a tremendous saver and keeps the reader well informed of what is going on about him.

In the March number of McClure's the Christian Science Serial easily holds first place. It deals in detail with the Quimby controversy that has waged for twenty-five years between Christian Scientists and the followers of the New Thought movement followers—also called Mental Healers. A mass of documentary evidence of the arguments of both sides is presented in the shape of facsimile letters, affidavits and the like.

The early spring number of the Designer has a useful and interesting array of household matter and fiction. The first fifty pages are mainly devoted to the display and description of gowns designed for spring and summer wear and to the illustration of the accessories that go with them. The end of the book is reserved for articles relating to household affairs, among which are the three sections of matter contributed by the readers of the Designer containing many practical bits of advice about children, homes and wage earning.

Far-reaching and important as are the activities of the Interior Department in various directions, it is in the administration of the public domain that Secretary Hitchcock has rendered his most conspicuous service to the country. The rigid enforcement of the laws enacted for the protection of the public lands has been the cardinal principle of his administration and has earned for him the honorable title of "arch enemy of grafters and land-grabbers."—From "The Interior Department Under Secretary Hitchcock," by Max West in the American Monthly Review of Reviews.

The boys of America will surely say that the March American Boy is the best ever. The stories are as varied as boys' hobbies and every one is good, clean and intensely interesting. Further chapters of the serials by Stratemeyer, Alger, Shute, Sprague and Tomlinson are given which will increase the reader's interest in the various characters. A new serial by Edward S. Ellis, entitled "Off the Reservation," dealing with the notorious Apache chief Geronimo, starts in this number and will prove a winner with the boys.

When driving to Hillsdale to take his sister, Mrs. Elva Monroe and her little daughter of Reading to the train upon which they were to go home, the horse became frightened at one of the steel tubular bridges which the Lake Shore is erecting at a crossing and backed the buggy over an embankment. Overturning the vehicle and breaking loose from it, the horse ran away. The occupants of the buggy received bruises but the accident was a fortunate one in not proving more disastrous.—Hudson Post.

Tale of a Coat.

The clawhammer, or evening coat, has many oddities of cut. These oddities were once essentials. There was, in fact, a time when every idiosyncrasy of the clawhammer served some useful purpose. The cutaway front of the coat, for instance, was originally cut away so that the wearer when on horseback would not be incommoded. The two buttons at the back were for fastening up the tails out of harm's way, each tail having in the past a buttonhole at its end. The sleeves, with their false cuffs, are relics of the days when sleeves were always turned back and therefore were always made with cuffs that unbuttoned. The collar, with its wide notches, is a survival of the old collar that was notched in order that its wearer could turn it up conveniently in cold or stormy weather. The dress coat, in a word, is a patchwork of relics—relics once essential, but now of no use on earth.—Philadelphia Bulletin.

The Cost of Tea

A difference of ten or twenty cents a pound in the cost of tea makes a very slight difference (if any at all) in the cost per cup. Did you ever stop to think of that? Do not sacrifice a bit of your cup enjoyment for this supposed saving in cost, for it is only a supposed saving.

TECUMSEH CHIEF TEA costs 50c a pound—a very small fraction of a cent per cup. Because of its strength it goes farther therefore in reality, it costs no more than the low price kind The pleasant taste it leaves in your mouth is due to its flavor.

Prove to yourself the truth of this. Order a pound to-day and ask for a canister to keep it in. If you are not satisfied, your money back.

Miss Daisy Girton United in Marriage to Chas. D. Hurry of Evanston, Ill.

This morning at the home of Prof. and Mrs. W. W. Girton, a very pretty event occurred when their oldest daughter, Daisy, was given in marriage to Chas DuBois Hurrey of Evanston, Ill.

The parlors of the Girton home were beautifully decorated with smilax and white roses while in the dining room a color scheme of red and green was carried out with ferns, roses and carnations. Promptly at 8 o'clock Miss Edith Girton youngest sister of the bride seated at the piano played Mendlessohn's wedding march as the bridal party slowly marched into the parlor and took their places under a drape of smilax. The bride and groom were supported at the altar by Mr. Lee Girton and Miss Sue Girton, brother and sister of the bride, Rev. Hugh Robinson, former pastor of the Presbyterian church, performed the ceremony.

The bride was attired in an elegant costume of white crepe de chine over white taffeta and carried a bridal bouquet of white roses. Miss Sue Girton as bridesmaid wore pale blue silk muslin over taffeta. After the ceremony a five course breakfast was served immediately after which the happy couple accompanied by the wedding guests took carriages and drove to the depot just in time to meet the morning train going east.

Mrs. Hurrey is very well known here. She is a highly accomplished young lady, having graduated from our own state Normal. She later went to Northwestern University at Evanston, Ill., and finished there two years ago. Since that time she has held positions both at Pierre and Spearfish. Mr. Hurrey is International secretary of the Y. M. C. A.

Mr. and Mrs. Hurrey will take an extended wedding trip which will take them first to Japan and later over a great part of the orient where Mr Hurrey is sent on a mission for the Y. M. C. A.

Many beautiful gifts were given them by a large number of friends who wish them every success and happiness thru all their future lives. The Sentinal joins in congratulations and best wishes

They will not be at home before next October in Evanston, Ill.—The Daily Sentinel.

Osgood-Cooley.

The marriage of Marvin Cooley of Chicago, to Miss Edna Osgood, formerly of South Bend, Ind., took place last week. They will reside in Chicago, where Mr. Cooley is traveling for David Freeman & Bro. Mr Cooley is well known here, having attended school here and in Clinton, the latter village being his home town.

Saved her Son's life.

The happiest mother in the little town of Ava, Mo., is Mrs. S. Ruppee. She writes: "One year ago my son was down with such serious lung trouble that our physician was unable to help him; when, by our druggist's advice I began giving him Dr. King's New Discovery, and I soon noticed improvement. I kept this treatment up for a few weeks when he was perfectly well. He has worked steadily since at carpenter work. Dr. King's New Discovery saved his life." GOLDEN WEDDING

Of Dr. and Mrs. Wishard, a former pastor of the

PRESBYTERIAN CHURCH

Of Tecumseh. We clip the following from the Highland Park Herald printed at Los Angeles Cal. Saturday, Feb. 23.

No fairer day could have dawned than that which greeted Dr. and Mrs. S. E. Wishard on Wednesday, February 13th, it being the fiftieth anniversary of their wedding. Their home at 135 East Avenue 53, Los Angeles, Cal., was thrown open and presented a pleasing and long-to-be-remembered picture.

The hours of receiving were from three to five in the afternoon and a stream of friends came and went during the time and all appeared to catch the inspiration of the occasion. In the evening the hours were from eight to ten and the parlors were thronged with people, all come to offer their congratulations and wish the happy couple a diamond anniversary. The home was decorated by the daughters, Mrs. Caskey, Mrs. Whittier and Miss Wishard, and was especially attractive. The host and hostess received, standing under a beautiful wedding bell of acacia blossoms and green, with potted ferns forming a back ground.

Smilax was gracefully festooned over the doorways in reception hall and dining room where huge bouquets of fuchsias and roses, floral offerings of friends were artistically arranged about the rooms. In the dining room where refreshments were served, an immense bunch of yellow jonquils rested upon the table and the lights shaded in yellow gave a soft and pleasing effect throughout the house. In the afternoon Mrs. Allen of Redlands, read a beautiful poem entitled "The Golden Wedding," written by Mrs. Thomas Weir of Salt Lake City, a friend of Dr. and Mrs. Wishard.

Dr. Calmery made the congratulatory address and in presenting a purse of gold said:—"In color this spontaneous gift from your friends is of golden tint as befits the occasion. In substance it is metalic and worth its weight in gold. We feel assured that you will accept it in the same kindly spirit in which it is bestowed." In the evening a program was rendered, R. J. Caskey a son in-law presiding. A love letter written by Dr. Wishard to his wife while he was in Scotland, was read. Following is a short sketch of his life:

Samuel E. Wishard was born near Indianapolis and reared on a farm with very meager educational advantages until he had reached young manhood, when, some time after his conversion he felt called to preach the Gospel, he left the farm and entered Wabash College, spending six years there in the preparatory and college courses, receiving his B. A. in '53 and M. A. in '56. Upon the completion of his college course he went to Lane Theological Seminary in Cincinnati, O., graduating in '56. While in the seminary he served as chorister of the Third Presbyterian church of Cincinnati, and thus became acquainted with Miss Sophia Evarts, a member of the choir and associate principal of Hughes High School, and this acquaintance ripened into a love that has already continued for more than half a century. Following his graduation in theology, the young preacher found his first charge at Rushville, Ill., where he began preaching January, '57, and having found a church his next step was to secure his bride, and so started on Monday, February 9th, for Chicago, where the bride-to-be was now living, and to whom he was to be married on Thursday, but, owing to floods he was delayed and as he quaintly puts it "reached there three hours after his own wedding." Defying all the old superstitions, they were married the following day, Friday, the 13th, as he says, "on Hangman's day, and we have hung together ever since." The following spring Mr. Wishard was ordained by the Presbytery of Schuyler, meeting at Mt. Sterling, making, among many of the highly prized gifts, a souvenir spoon from that place to be specially appreciated. In '84, in recognition of his valuable service to the church, Center College of Kentucky conferred upon him the honorary degree of Doctor of Divinity, and thus honored themselves as much as the recipient.

During his long years of ministry, the doctor has served churches in Rushville, Ill., Tecumseh, Battle Creek and Saginaw, Mich., Chicago, Ill., Franklin, Ind., and Des Moines, Ia. He gave some years to evangelistic work, and was blessed with some 75 special revival sessions. Four years of his ministry was spent as superintendent of Home Missons for the Synod of Kentucky, but the work for which the doctor will long be remembered is his sixteen years of service as Synodical superintendent of Home Missions for Utah, which he gave up to come to Los Angeles to live.

Though in his 82nd year he is hale and hearty and full of vigor and one of the youngest men in spirit of the preachers of Los Angeles. While preaching regularly every Sabbath at Mt. Washington chapel to the great delight and profit of the people, he yet finds time help his brethren sometimes preaching in special meetings night after night for weeks at a time.

Dr. Wishard has been honored by being a member of six General Assemblies and of the Pan-Presbyterian Council which met in Glasgow, Scotland in '96.

Julius A. Munger.

The sad news has been received of the death on March 1st, of Mr. Julius A. Munger at Lodi, Cal. He had been in poor health for some time, but the news of his death came as a shock to friends here. He was at the home of his sister, Mrs. Jessie Scoggins, of Lodi, when the end came.

Mr. Munger was formerly in business in this place, having kept a harness here for a number of years. He leaves a widow, Mrs. Henrietta Munger, and a son, Harry O. Munger, both of this place. He was buried beside his mother at Stockton, Cal

Arthur Stringer, whose work in recent years has grown in strength and importance, is the author of the novel which opens the March number of the Smart Set. It is a love story of absorbing interest entitled "Creeping Rails," depicting the passion of a wealthy woman for a musician, who, in the end, proves worthy of her love. Mr. Stringer has done no better piece of work and this story will win him him added admirers.

EFFECT OF THE FOOD LAW.

Driving many worthless catarrh medicines out of existence.

The Pure Food and Drug Law, which went into effect the first of January, has already shown the good that will follow its enforcement.

Many worthless remedies, that have been advertised for the cure of catarrh, a disease that is universally prevalent, have been driven out of existence by the Pure Food Law.

The effect of this is to increase the sale of remedies that are valuable and that fulfill the provisions of the law. Hyomei, for example, is meeting with a larger sale than ever before, and C. A. Wright is still selling it under a guarantee that it will cure catarrh or the money will be refunded. Hyomei is a scientific treatment that is recommended by the best physicians. It cures catarrh without stomach dosing, through inhaling medications that go right to the affected spots.

By breathing Hyomei three or four times daily through the neat pocket inhaler that comes with every outfit, its medicated, healing air penetrates to the most remote parts of the nose, throat and lungs, searches out and kills all catarrhal germs and soothes and heals any irritation in the mucous membrane.

The complete Hyomei outfit costs $1 00, extra bottles if needed, 50c and is sold by C. A. Wright under the guarantee that it will cure or cost nothing.

IT'S ALWAYS BAD.

The best of backs are bad when they ache and Tecumseh people know it.

A bad back is always bad.
Bad at night when bedtime comes,
Just as bad in the morning.
Ever try Doan's Kidney Pills for it?
Know they cure backache, cure every kidney ill?
If you don't, some Tecumseh people do
Read a case of it.

Mrs Geo. Teachout, living on Oneida street, Tecumseh, Mich., says: I take great pleasure in recommending Doan's Kidney Pills. Last fall I began to have a great deal of trouble with my kidneys causing intense pains in the small of my back and extend to my shoulder blades At times when bending over sharp pains would catch me and I would not be able to straighten for a few seconds. At night I could not rest well for the frequent action of the kidneys causing me to arise many times I doctored for awhile with a physician but received little benefit I had heard of the good results of Doan's Kidney Pills so I got a box. I soon noticed the good effects and continued taking them until cured. I cheerfully recommend them to anyone afflicted with kidney trouble.

For sale by all dealers. Price 50 cents Foster-Milburn company, Buffalo, N. Y., sole agents for the United States. Remember the name Doan's, and take no other.

The News—No Pure Drug Cough Cure Laws would be needed, if all cough cures were like Dr. Shoop's Cough Cure is—and has been for 20 years The National Law now requires that if any poisons enter into a cough mixture, it must be printed on the label or package.

For this reason mothers, and others, should insist on having Dr. Shoop's Cough Cure. No poisons marks on Dr. Shoop's labels—and none in the medicine, else it must by law be on the label. And its not only safe, but it is said to be by those that know it best, a truly remarkable cough remedy. Take no chance, particularly with your children. Insist on having Dr. Shoop's Cough Cure. Compare carefully the Dr Shoop package with others and see. No poison marks there! You can always be on the safe side by demanding Dr. Shoop's Cough Cure. Simply refuse to accept any other. LOCOMOTIVE EXPLODED.

Three Men Killed and Much Damage Done in Metuchen, N. J.

Metuchen, N. J., March 12.—Three men were killed and a number of others hurt, and Metuchen was shaken and threatened with many fires Monday when the boiler of a locomotive on the Pennsylvania R. R. exploded while drawing a freight train through the town.

The dead are: Wm. J. Sisher, engineer, of Philadelphia; S. C. Smith, brakeman, Trenton, N. J.; W. H. Fritsche, fireman, Trenton.

The train left Jersey City at 1 a. m., and was passing through Metuchen under good headway, when, just opposite the railroad station, the boiler of the locomotive let go. Portions of it were blown two blocks away and tore their way into buildings. The bodies of Engineer Sisher and Brakeman Smith were found a hundred yards from the railroad tracks. Many of the freight cars were piled in a heap and several of the train hands were injured, but none seriously. The broken cars caught fire, but the blaze was soon extinguished.

BRIEF DISPATCHES.

The street car strike, began two weeks ago, in Portsmouth, O., has been settled, and all employes return to work. The agreement of settlement provides that the company shall reemploy all of the strikers; and, if an adjustment of the grievances is not reached within 30 day, the controversy is to be submitted to a board of arbitration composed of three disinterested citizens.

By a decree of the Armstrong county courts, the Ford china pottery, at Ford City, Pa., will be offered for sale on April 16, to satisfy $32,000 of first mortgage bonds held by the Fidelity Title & Trust Co., of Pittsburg. This is said to be the largest pottery under one roof in the United States. It was erected by the late Capt. J. B. Ford, the pioneer glass manufacturer, and John Wick, Jr., but owing to litigation has been closed for months.

Commissioner of Pensions Warner states that 185,000 applications for pensions has been filed under the service pension law enacted during the last month of the session of congress just closed. The commissioner estimates that 300,000 applications will be received under the new law, which allows the granting of a pension for service in the Mexican and Civil wars at the rate of $12 a month to veterans 62 years of age; $15 to those 65, and $20 to those who are 70 years of age.

President Roosevelt will sign an order restoring to the public domain, approximately 30,000,000 acres of lands recently withdrawn as coal lands. Secretary Garfield, of the interior department, is completing the details of this order, and expects to have it ready for the president's signature soon. The land to be restored to entry was part of a withdrawal aggregating $64,000,000 acres. The location of the lands and the details of the order are withheld until it has received the president's approval.

The postoffice department, at Washington, does not intend to draw the color line in the matter of white and negro railway mail clerks working together on the same runs. Although an intimation has been given the superintendent of the railway mail service that white clerks in the middle west are preparing to request the department to effect a change so as to put the negroes on runs which will not bring them in proximity to the whites, it was stated that no such discrimination could or would be made.

Slow Working Weavers.

There are weavers who turn out only one yard of stuff a year. They are the Gobelin tapestry weavers, who work in the factory in Paris, which is owned by the French government. They average in the year only from one to three yards of goods, according to the fineness of the weave and the intricacy of the pattern. These weavers work at hand looms, where they put in the filling, or weft, with a shuttle held in the left hand. The back of the tapestry is toward them. A mirror shows them the other side. Baskets of wool in every shade or color surround them. They use 1,400 tones in all. Skilled as these workmen are, their pay is no bigger than that of the ordinary American laborer. They get about $600 a year on an average, or about $12 a week. These Gobelin tapestries, requiring years in the making, are of course very expensive. An offer of $30,000 wouldn't some of them. New Gobelins you can't buy at all. The French government has them made to give away as presents to its friends—people of power and position.—New York Press.

STOPS JAP LEGISLATION.

President Holds Up Further Action in California Legislature.

Sacremento, Cal., March 12.—President Roosevelt Monday stopped all Japanese legislation in the California legislature by the following telegram to Governor Gillette, who sent it to the assembly:

"Action of legislature reported in this morning's paper most unfortunate in effect upon my efforts to secure exclusion of Japanese laborers by friendly agreement, and if continued will probably render recent legislation of congress for that purpose ineffective. Please secure suspension of any further action until receipt of letter from me "THEODORE ROOSEVELT."

The assembly intended to act Monday on two bills and a resolution adopted by the senate on Saturday. Governor Gillette sent with the telegram a message urging the house to comply with the president's request. The assembly, by a viva voce vote, decided to take no action on the bills on file.

The legislative action referred to by the president, was the passage by the senate of a bill limiting the age of children, of all races, to 10 years when first entering primary schools; of a measure, prepared by the Japanese-Korean exclusion league, submitting the question of Asiatic exclusion to a vote of the people, and a resolution protesting against Japanese naturalization.

The message created momentary excitement in the lower house. Then Grove L. Johnson expressed his confidence in the governor and the president; said that the question should be left to them, and moved that the assembly take no action on the Japanese question at this session.

The motion was carried without debate.

VICTIMIZED BY WOMAN.

Newly Married Husband Fleeced of $6,000 by His Bride.

Chicago, March, 12.—Mrs. Sophie Wambaugh, formerly Sophie Finlen, of Denver, Colo., who was married in court last Friday, after she had been arraigned on the charge of obtaining $3,000 from her prospective husband, William Wambaugh, disappeared Monday afternoon, after obtaining more than $3,000 from her husband.

Wambaugh reported to the police that he had gone to a department store with his wife, and said that he entered ar oom to try on a pair of trousers he had purchased. His wife induced him to give her all the money he had, (about $3,000) before entering the room, and said that she would wait until he came out. He searched the store for an hour, and then reported the matter to the police.

Wambaugh is a farmer in Colorado, and Friday, after his wedding, he said that he and his wife were about to return there and live on his farm.

Wambaugh told the police that he had spent more than $6,000 on his wife since he met her in Denver, a week ago. This amount includes the $3,000 she obtained from him Monday. When asked by the police why he gave her such a large sum, Wambaugh replied:

"Well, she said she wanted to buy a hat."

Driver Charged With Big Thefts.

New York, March 12.—When City Magistrate Whitman had heard the story of several detectives Monday, he held William Leonard, 29 years old, a driver, formerly employed by the Adams Express company, in $10,000 bail. The detectives arraigned Leonard on a short affidavit, but they told the court that when they had made a complete investigation they believed they would have evidence to charge the driver with the larceny of between $20,000 and $25,000 worth of goods. The police say the express company officials declare thousands of dollars worth of goods have been stolen from them. The method of operation was to collect merchandise for shipment and then deliver it to a confederate.

Alcohol Tank Exploded.

Detroit, Mich., March 12.—A 25-gallon can of wood alcohol exploded in the basement of E. C. Kinsel's drug store, 24-26 Michigan avenue, about 9 o'clock Monday morning, blowing off the storm doors at the Michigan avenue entrance, and throwing them across the sidewalk, and tossing everything in the front end of the cellar into confusion. George Harris, of 23 Winder street, who has been employed as cellar man for about two months, was badly burned and would have lost his life but for the promptness of Detectives Buhr and Stenton and citizens who were passing at the time of the explosion. As the man staggered to the street with flames darting from all parts of his clothing, he was seized and rolled in the muddy water of the street until the fire was extinguished. He was then taken to St. Mary's hospital.

RE-ACTION SETS IN.

Senate Recalls Now Famous Mining Bill Amendment.

Lansing, Mich., March 12.—A reactionary movement set in after so many strong protests were filed with the governor, and last night the senate voted unanimously to recall from him the bill passed hastily last week to prevent mining companies from voting stock in other mining companies, the measure having particular reference to efforts of Calumet & Hecla to get control of Osceola mine at the annual meeting of the latter this week. The senate has tabled the bill.

Rep. Lord will introduce another bill that will be silent on the matter of what stock may be voted, but it will permit the acquiring by corporations of only non-producing mining properties.

The recall of the original bill that created the furore in the copper country was in line with the desires of Gov. Warner.

SOPHS OUTWITTED.

Freshmen Succeeded in Pulling Off Annual Banquet.

Ann Arbor, Mich., March 12.—Assisted by President Angell, the university, engineering and electrical board, and their friends in the upper classes, the freshmen last night pulled off their annual banquet in Barbour gymnasium.

Now and then in the midst of their merry-making, they were disturbed by the sophomores shooting into the hall, gaily clad, black-faced youngsters, who had fallen into the enemy's hands.

Four of the verdant ones, down on the program for toasts, were unable to respond, because held in durance vile by the sophs. Several in the company were present in dress coats and ordinary trousers, or with dress shirts painted with sophomore numerals, or with one patent leather pump and one cowhide boot. They were the unfortunates whose apparel had been caught by the foemen.

Altogether, the throng was a funny-looking one. The freshmen, in the main, outwitted their adversaries.

Didn't Know Pistol Was Loaded.

Jackson, Mich., March 12.—Welch Millen, the five-year-old son of C. H. Millen, proprietor of the hotel at Wolff's lake, was accidentally shot and killed Monday. The lad and his uncle, Schuyler Millen, were examining a revolver, which was supposed to be empty, when in some unknown way, the weapon was discharged, the bullet piercing the child's heart, killing him instantly.

Spoiled Pleasure.

Mrs. Meyer—What's the trouble, Mrs. Schulz? You are in bad humor this morning. Mrs. Schulz—You see, my husband stayed at the club every night last week until after midnight. Last night I sat up, determined to give him a curtain lecture when he got in late, and what do you think? The fool came home at 9 o'clock!—Fliegende Blatter.

Thousands Have Kidney Trouble and Never Suspect It.

How To Find Out.

Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

What To Do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes.

You may have a sample bottle and a book that tells all about it, both sent free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention this paper and don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y.

PAIN

Pain in the head—pain anywhere, has its cause. Pain is congestion, pain is blood pressure—nothing else usually. At least, so says Dr. Shoop, and to prove it he has created a little pink tablet. That tablet—called Dr. Shoop's Headache Tablet—coaxes blood pressure away from pain centers. Its effect is charming, pleasingly delightful. Gently, though safely, it surely equalizes the blood circulation.

If you have a headache, it's blood pressure.

If it's painful periods with women, same cause.

If you are sleepless, restless, nervous, it's blood congestion—blood pressure. That surely is a certainty, for Dr. Shoop's Headache Tablets stop it in 20 minutes, and the tablets simply distribute the unnatural blood pressure.

Bruise your finger, and doesn't it get red, and swell, and pain you? Of course it does. It's congestion, blood pressure. You'll find it where pain is—always. It's simply Common Sense.

We sell at 25 cents, and cheerfully recommend

"In 1897 I had a stomach disease. Some physicians said dyspepsia, some consumption. One said I would not live until spring. For four years I existed on boiled milk, soda biscuits and doctor's prescriptions. I could not digest anything I ate; then I picked up one of your almanacs and it happened to be my life-saver. I bought a fifty-cent bottle of Kodol and the benefit I received from that bottle all the gold in Georgia could not buy. In two months I went back to my work, as a machinist and in three months I was well and hearty. May you live long and prosper." C. N. Cornell, Roding, Ga., 1906. Tecumseh Chief Furnace.

Tecumseh, Mich., Feb. 29th, 1907.

Century Post Co.:

Sirs:—It has been like "the good old summer time", in my house since the furnace was put in the house last fall. It will heat the whole house, or by your system of dampers and drafts can confine the heat to one room. To anyone in need of a good, substantial, labor saving, fuel economizing, satisfaction giving furnace, I would recommend the Tecumseh Chief.

Yours Truly, F. M. GOHEEN.

Jackson, Mich., Feb. 22, 1907.

Century Post Co.:

Dear Sirs:—Your furnace was simply fine, both in heating and cleanliness, free faom smoke. Never took so much real comfort a winter in my life of 77 years as this winter. No going to bed cold at night, or waiting for the house to warm in the morning. Wouldn't take $500 for it and do without it. MRS. J. M. PORTER.

Royal Oak, Mich, Feb. 22, 1906.

Century Post Co., Tecumseh, Mich.

Gentlemen:—would say in reply that I cannot make it strong enough as to my views in regard to your furnace. She is a "dandy" in every respect, both for heating and economy. I will use no more than 4½ tons of coal this winter, heating six (6) rooms, and can say my house has never been below 65 degrees temperature. Think you can sell several more here this season. Very truly yours,

(Signed) H. N. LAVERT.

We have many more testimonials equally as strong we would be glad to show you. If you contemplate putting in a furnace drop us a card, or send a plan of your house and we would be pleased to have one of our representatives call on you and make you a price. We can save you money.

HARRY THAW WAS SANE

At Time He Shot White, Said Alienist Flint, a Prosecution Witness.

HUMMEL PUTS LIE TO EVELYN

Declares Girl Told Him White Had Not Drugged or Betrayed Her—Prosecution Propounds Hypothetical Question of 15,000 Words.

New York, March 15.—Answering precisely the same hypothetical question in response to which the alienists for the defense declared that Harry K. Thaw was suffering from an unsound mind and did not know the nature or quality of his act when he shot and killed Stanford White, Dr. Austin Flint, the first expert called Thursday by District Attorney Jerome in rebuttal, declared it to be his opinion that Thaw positively did know the nature and quality of his act and knew that the act was wrong. When court adjourned for the day, Mr. Delmas had not begun his cross-examination of Dr. Flint, who is the first of six alienists to be called by Mr. Jerome.

After repeating to Dr. Flint the same question which Mr Delmas put to the experts for the defense, and having him declare that Thaw was sane on the assumption of the facts stated therein, Mr. Jerome had read to the witness the prosecution's hypothetical question which contained some 15,000 words, and which required and hour and 18 minutes in the reading. Dr. Flint again said without qualification that Thaw knew his act was wrong and is therefore liable for the murder in the first degree under the statutes of the state of New York.

Mr. Delmas indicated that he would cross-examine each expert searchingly. Mr. Jerome's sanguine prophecy that the taking of testimony would be concluded by to-night, has been abandoned, and those concerned in the case again look to April 1 as the earliest moment of closing the long-drawn-out trial.

Abraham Hummel was on the stand again Thursday, and before Mr. Delmas could object to a question put to him by Mr. Jerome, the witness had got into the record the statement that Evelyn Nesbit had told him that she had informed Harry Thaw in Paris in 1903, that Stanford White positively had not drugged or betrayed her. Mr. Delmas at first moved to have the question and answer stricken from the record, but as the district attorney seemed about to consent to this plea, the counsel for the defense insisted that the answer stand.

Hummel's further testimony was halted until Mrs. Evelyn Nesbit Thaw again takes the stand to testify as to whether or not Hummel was acting as her attorney when she made the statements to him which were afterwards embodied in an affidavit.

Both Mr. Jerome and Mr. Delmas were irritable Thursday and had frequent clashes.

It was reported last night that District Attorney Jerome may be called to the witness stand in sur-rebuttal, by the defense. The purpose, it was said, was to question Mr. Jerome as to certain actions against Abraham Hummel, who was a witness yesterday. This move was taken as a reason for the defense allowing much of the Hummel testimony to stand.

Suing to Recover That Fine.

Grand Rapids, Mich., March 15.—The Cooperseville Creamery Co., of which Deputy Food Commissioner Lillie is president, is suing in the federal court to recover the $1,620 fine imposed on the concern by the internal revenue department on the claim that the company had too much water in a carload of butter last summer. The company contends that the internal revenue officers are not legally qualified to say how much water shall be allowed in butter, and that its butter was not adulterated.

Bryant Remains in Michigan.

Lansing, Mich., March 15.—Governor Warner Thursday denied the requisition of the governor of Ohio for Ira R. Bryant, of Hudson, wanted in the Buckeye state on a charge of having been implicated with a gang of firebugs that operated there 30 years ago.

Worked like a charm.

D. N. Walker, editor of that spicy journal, the Enterprise, Louisa, Va., says: "I ran a nail in my foot last week and at once applied Bucklen's arnica salve. No inflammation followed; the salve simply healed the wound." Heals every sore, burn and skin disease. Guaranteed at C. A. Wright's, 25c.

OUT FOR 2-CENT FARES

Commercial Travelers Talk to Joint Railroad Committee.

PASSENGER AGENTS COMBAT 'EM

Chances of Bill's Passage Doubtful—Believed Governor Doesn't Favor Reciprocal Demurrage—Military Bill Provides for Armories.

Lansing, Mich., March 15.—Nearly 100 members of the Commercial Travelers' association of Michigan were before the joint railroad committee in the senate chamber Thursday, advocating a two-cent railroad fare bill. Among them were E. O. Wood, of Flint; J. F. Smithin, of Ohio, the latter the representative of the Commercial Travelers' National association. Present and arguing against the bill, were General Passenger Agent Moeller, of the Pere Marquette; Passenger Agent Kirby, of the Ann Arbor; W. Cooksen, of the Grand Trunk passenger department; Frank Carroll, of the Pontiac, Oxford & Northern, and F. A. Mitchell, of the Manistee & Northeastern. Gov. Warner and Railroad Commissioner Glasgow were also there, as were members of the Railroad Employes' association, who are opposing the bill.

The commercial travelers have some fine talkers. There is hardly a doubt that the bill will go through both houses soon, but perhaps it may be modified to provide a rate of 2 1-2 cents a mile when the roads earn less that $1,000 a mile annually. Gov. Warner, it is said, is disposed to have it so modified in behalf of some of the smaller roads in the northern part of the lower peninsula.

Laws for Railroads.

In view of the protests of the railroad presidents all over the country because of the active legislative campaign instituted to regulate railroads it is probable that the legislation of that character, blocked out for Michigon will attract their attention.

As a matter of fact, laws enacted along this line will undoubtedly be framed as to their general provisions in accord with the views of Gov. Warner. It is believed that he is not in favor of a reciprocal demurrage law, but his advocacy of the two-cent fare plan is well known, and he is believed to be desirous of having a railway commission esablished with greatly broadened powers.

These two new regulations for railways and the placing of livestock under the common carriers' act, will be about the extent of legislation of that character, according to the opinion of legislators in close touch with the situation.

Considerable attention is being given to the bill providing for establishing a railway commission of three members to supersede the present commissioner. It is expected that broad powers will be given the proposed commission. Legislators are corresponding with officials of other states in which there are boards invested with extensive authority in the matter of railroad regulation. What is considered the best sections of those laws are being embodied in the proposed Michigan law.

Provision for Armories.

The military bill which the members of the Michigan National Guard are pushing, has been reported out in the house by the military committee and referred to the ways and means committee. It approved by that committee, it is believed the bill has a fair chance in the house.

The military committee has made some changes. The measure in its present form provides for the erection of armories only as the armory building fund becomes available each year. A tax of one-twentieth of a mill is prescribed to provide this fund, which will make available about $35,000 each year for the purpose. The bond feature is eliminated, as well as that providing for the appointment of armory commissioners to have charge of the work of constructing the buildings. The section which allots a certain sum for the payment of a small stipend to the enlisted men for attendance at drill is one in which the guardsmen are particularly interested. They point out that at present not only do they have to devote their time free of recompense to their several organizations, but also have to pay into a treasury a considerable sum in order to maintain their armories.

Schaefer Wins Championship.

Chicago, March 12.—"Jake" Schaefer, of Chicago, last night won the world's billard championship at 18.1 billards from George Sutton in the 36th inning. Schaefer's average was 12 36-36.

PITTSBURG INUNDATED

Sudden Floods Put Many Business Places Under Water.

DAMAGE DONE IS ENORMOUS

Thousands Routed From Their Homes in Smoky City and Neighboring Towns—Fourteen Deaths Occur—Railroad and Trolley Line Service Paralyzed.

Pittsburg, March 15.—The greatest flood in the history of western Pennsylvania, West Virginia and eastern Ohio is being experienced. The water reached a stage of 34.6 feet at Herr's island, and 34.3 feet at Market street. The water continues to rise steadily about two-tenths of an inch an hour. At the headwaters the rivers are now stationary. The crest of the flood is expected to reach here soon, when 35 feet will be recorded. This stage is 13 feet above the danger mark.

Conditions in this city are the worst ever recorded. The whole lower downtown district is under water, and people are moving about in wagons and skiffs. Duquesne way, Penn avenue, and Liberty street, running parallel with the Allegheny river, are submerged to a depth of several feet. Hundreds of business houses located in this district are flooded. In a number of instances the water is almost up to the second effoort.

Theaters Closed.

The Gayety, Belasco, Alvin and Bijou theaters are surrounded by water and will be unable to open for several days. Water has destroyed or greatly damaged the power plants of all four theaters.

The guests of the Colonial, Lincoln, Annex and Anderson hotels are either marooned or compelled to use skiffs to and from the buildings.

The trolley service between Pittsburg and Allegheny was suspended early Thursday, and last night the scenes at the Union depot of the Pennsylvania railroad, were almost beyond description. Great placards announcing the inauguration of a special train service to Allegheny are displayed all through town. At the depot, were thousands of people—a chaotic mass of humanity, shouting and pushing in their efforts to board these trains for Allegheny or the many suburbs adjacent to the city. Patrolmen in large numbers were endeavoring to bring some kind of order, but without avail. The trains were run regardless of schedule, and packed to the platform steps.

No Light.

Trolley, elevator and telephone service is demoralized in different sections. Electric light plants in many down-town buildings are out of order and candles or gas lights are being used.

Fourteen fatalities, directly due to the flood, have occurred.

The damage to perishable goods and property in the Pittsburg district alone will amount to $1,000,000,—probably more. In addition to this, much destruction is being done to property throughout western Pennsylvania and West Virginia.

At Connellsville, Pa., the damage to the coke region is estimated at $2,000,000.

Coal Shipments Suspended.

Over 100,000 persons are temporarily out of work. The Westinghouse works, employing 30,000, are shut down, and the damage to machinery is estimated at $50,000. All the mines along the Monogahela river are flooded and 10,000 miners are affected. The steel and iron mills are at a standstill, and fully 50,000 men are idle. Hundreds of stores and business houses in the downtown section are partially submerged and have closed their doors.

The flood directly affects over 2,500,000 people.

In the suburb of Aspinwall, Sharpsburg, Etna and Millvale over 500 families are living in the second story of their homes.

Whole families were compelled to crowd into upstairs rooms, where, in many cases, they were without fuel and supplies, the latter being distributed later by men in skiffs.

The greater portion of Monongahela, Pa., is under water. Hundreds of people are marooned in Pittsburg.

The greatest excitement prevails throughout Allegheny county, for thousands of buildings are not only now surrounded by water in the flooded districts, but the indications are that thousands of persons will be forced from their homes.

The present flood is one of the most remarkable on record. It came unexpectedly, and there was not sufficient time to prepare for it.

THE WORST IN YEARS.

Wheeling, W. Va., Completely Isolated From Rest of World.

Wheeling, W. Va., March 15.—Wheeling is in the midst of the worst flood since 1884. The top notch will be reached today noon with between 47 and 48 feet. This completely isolates the city from the rest of the world, every railroad and trolley line having suspended, and there can be no resumption of communication by railroad before Sunday or Monday.

In Wheeling and the surrounding towns of Benwood, Martins, Ferry, Bridgepot, Bellairs, McMechen and Moundsville, it is estimated that the flood has wholly or partially submerged fully 3,000 houses, and that nearly 15,000 people have been driven out of their homes or to upper floors. The situation is more serious on Wheeling island and in Benwood and South Wheeling, where thousands have been compelled to leave their homes and seek refuge on higher ground. Conveyances in the city are commanding premiums. Many cases of rank extortion are encountered, and much indignation is expressed over this feature of the flood.

So far as can be ascertained there were no fatalities, though narrow escapes were numerous.

Heavy rains, warm weather and the melting of snow on the mountains and hills in Western Pennsylvania during the last 48 hours, are responsible for the rise.

Prominent Kalamazoo Woman Dead.

Kalamazoo, Mich., March 15.—Mrs. Alice Brooks Oakley, wife of Claude W. Oakley, a prominent business man of Kalamazoo; member of the firm of Woodhams, Oldfield & Oakley, died at 1 o'clock Thursday afternoon, at Borgess hospital, from complications resulting from a serious abdominal operation performed last Saturday. She was the daughter of Samuel Brooks, D. D., professor emeritus, in Kalamazoo college, chair of Latin. Born in Kalamazoo, in 1873, she was a graduate of the local high school and of Kalamazoo college and was a pianist of well known ability.

Calf Blinds His Remaining Eye.

Marshall, Mich., March 15.—Newton Tadman, of Eckford township, who is blind in his left eye, lost the sight of his right eye while tying up a calf. Mr. Tadman got up early, and upon going to the barn found the calf running loose. He caught it, and was in the act of tying it when the calf suddenly raised its head. The horn entered Mr. Tadman's right eye, tearing it completely out.

ALMOST A PANIC.

Conditions in New York Stock Market Growing Worse.

New York, March 15.—Under the effect of 25 per cent money and the generally pessimistic sentiment, developed as a result of the recent heavy decline, trading on the stock market Thursday reached a stage of demoralization bordering on actual panic. The worst period of the day was shortly before the closing of the stock exchange session, although there was an extremely violent tailing off in prices between 12 and 1 o'clock.

New low records for the year, and in some instances for several years, were established in the active speculative issues, under precipitate selling, with the market apparently without buying others than those of bears to cover their short contracts and realize their profits. The closing quotations showed the following declines for the day in leading shares:

Amalgamated Copper, 17 3-4; American Smelting, 16 1-8; St. Paul, 13 1-4; Consolidated Gas, 7; Delaware & Hudson, 19 1-4; General Electric, 9 1-2; Great Northern, 5 1-2; Minneapolis, St. Paul & Sault Ste Marie, 6 7-8; Missouri Pacific, 7 1-4; National Lead, 12 3-4; New York Central, 8; Norfolk & Western, 7 1-4; Northern Pacific, 8; Pennsylvania railroad, 6 1-2; Reading, 20 3-4; Southern Pacific, 5 3-4; Twin City Rapid Transit, 5; Union Pacific, 20 3-4; United States Steel, 3 1-8, and United States Steel (preferred), 4.

In most instances, even these figures do not represent the extreme declines, as Reading closed two points above the lowest, and Union Pacific 4 1-2 above the lowest of the day. The total sales were 2,719,900 shares, the largest total on any day in the recent trading. The announcement of government relief for the money situation was not received until after the close of the stock exchange.

Other than high money and the generally bearish feeling, there was nothing to account for the market's weakness, unless it was the nervousness of stock market traders as to the attitude of the national administration toward the railroads' corporations.

Beware of ointments for catarrh that contain mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescription from reputable physicians as the damage they will do is ten fold to the good you can possibly derive from them. Hall's catarrh cure manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury and is taken internally acting directly upon the blood and mucous surfaces of the system. In buying Hall's catarrh cure be sure you get the genuine. It is taken internally.

F. J. CHENEY & CO., Toledo, O.

Sold by all druggists, 75c.

Take Hall's Family Pills for constipation.

The sombrette has the laugh on the comedian who gets none.

Notice to our customers.

We are pleased to announce that Foley's honey and tar for coughs, colds and lung troubles is not affected by the National Pure Food and Drug law as it contains no opiates or other harmful drugs and we recommend it as a safe remedy for children and adults. Sold by all druggists in Tecumseh.

Appearance are often so deceitful they must be ashamed of themselves.

"Preventics" will probably check a cold or the grippe when taken early at the sneeze stage. Preventics cure seated colds as well. Preventics are little candy cold tablets and Dr. Shoop, Racine, Wis., will gladly mail you samples and a book on colds free, if you will write him. The samples prove their merit. Check early colds with Preventics and stop pneumonia. Sold in 5c and 25c boxes by all dealers.

You can't please everybody. A cheerful person is a pessimist's idea of a fool.

You should be very careful of your bowels when you have a cold. Nearly all other cough syrups are constipating, especially those containing opiates. Kennedy's laxative cough syrup moves the bowels—contains NO opiates. Conforms to National Pure Food and Drugs Law, bears the endorsement of mothers every where. Children like its pleasant taste. Sold by B. J. Pulver.

Clothes do not make the man, but they have the first crack at making impressions of the man.

Given up to die.

A. Spiegel, 1204 N. Virginia St. Evansville, Ind., writes: "Over 5 years I was troubled with kidney and bladder trouble which caused me much pain and worry. I lost flesh, was all run down and a year ago had to abandon work entirely. I had three of the best physicians, who did me no good and I was given up to die. Foley's kidney cure was recommended and the first bottle gave me relief, the second bottle entirely cured me." Why not let it help you? For sale by all dealers in Tecumseh.

A knowledge of "birth stones" of the different months never helps anyone to wear diamonds.

For catarrh, let me send you free, just to prove merit, a trial size box of Dr. Shoop's Catarrh remedy. It is a snow white, creamy, healing antiseptic balm that gives instant relief to catarrh of the nose and throat. Make the free test and see. Address Dr. Shoop, Racine, Wis. Large jars 50c. Sold by all dealers.

An only child can accumulate more worthless trash than the little top drawer in the bureau.

To remove a cough you must get at the cold which causes the cough. There is nothing so good for this as Kennedy's laxative cough syrup. The liquid cold relief that is most quickly effective, that stills and quiets the cough and drives out the cold. Sold by B. J. Pulver.

A drunkard feels very virtuous when abusing a dope fiend.

No case on record.

There is no case on record of a cough or cold resulting in pneumonia or consumption after Foley's honey and tar has been taken as it will break up your cold quickly. Refuse any but the genuine in a yellow package. Contains no opiates, is safe and sure. For sale by all druggists in Tecumseh.

A man is not as apt to lie about his age as a woman, but he evens the score by telling about his salary.

Kodol digests what you eat and quickly overcomes indigestion, which is a forerunner of dyspepsia. It is made in strict conformity to the National Pure Food and Drugs Law and is sold on a guarantee relief plan. Sold by B. J. Pulver.

DOWIE DIED UNFORGIVING.

Wrote His Own Funeral Sermon, But 'Twas Too Radical for Delivery.

Chicago, March 15.—Six weeks before his death, John Alexander Dowie, founder of Zion City, and first apostle of the Christian Catholic church prepared his own funeral sermon. Thursday he was buried at Mount Hope cemetery, Zion City, but his last message was not read to his followers. Leaders of the religious community founded by Dowie decided that the sermon would still further estrange the factions into which the believers in Dowie are divided. The watchword of the faith is "Peace be with thee," and Dowie's message from the grave was not of a character to make this salution general. In place of the posthumous sermon, Judge Barnes, a lifelong friend of Dowie, and an overseer of the church, preached a simple sermon in which he extolled the dead man.

Although the sermon prepared by Dowie was not used in the funeral rites it was given out for publication.

JOHN ALEXANDER DOWIE.

The document makes it plain that Dowie did not forgive his enemies before he died, as he lashes those who ousted him from control as "dogs of hell," saying:

"I shall return, and with ruthless hand, shall I exterminate the vipers and the dogs of hell that now hold the high places in the city of Zion. They dreamed, and in the grossness of their dreams they thought they had prevailed over the first apostle. And now, priests and elders of Zion, I shall return to strike ye down. I shall return in another form, brighter and more beautiful, and ten thousand times more terrible to cut ye off in the midst of your sins, and to win back Zion for the truth and for them that held to the word and did no evil."

There was a small-sized panic during the funeral ceremonies, because of the announcement that another of Voliva's followers was dying. In the past week three of his lieutenants, who held similar positions under Dowie have died suddenly, and when it was said that a fourth was likely to die before morning, several of the mourners ran from the tabernacle, shouting that Zion was accursed by God. This excited the rest of the 3,000 mourners, and before the cooler heads could get among the people to counsel quietness, fully 500 had left the building.

ELABORATE FUNERAL

Will Be Held Over Remains of Those Who Perished With Iena.

Toulon, March 15.—The thorough search of the interior of the battleship Iena was completed Thursday afternoon, when the men engaged in this work penetrated to the engine room, where a large number of bodies were found. Their faces were burned beyond recognition. It is now believed that all the bodies have been recovered. The number as given is 103.

The authorities have decided that it would be necessary again to flood the dry dock and to explode under water the contents of the central and forward magazines. The explosives there still constitute a grave danger, for having been subjected to great heat, they are liable to be discharged if touched.

Elaborate preparations are being made for the funeral of the dead in the disaster, which is to be held next Saturday in the square of the dock yard. In addition to President Fallieres and Premier Clemenceau, there will be present many members of the chamber of deputies and the senate, representatives of the public bodies of France and a number of diplomats. The unidentified dead are to be buried in a common grave, given by the city, over which a commemorative monument will be erected. The identified dead will be sent for burial to their native towns at the expense of the state.

Brest, March 15.—There was another accident to a French warship, off this port Thursday. During torpedo exercises, the coast defense ship Fulminant, was struck and seriously damaged on the water line, by a torpedo. Collision mats were at once applied in the hole in the vessel's side and she was towed into port in a sinking condition.

Louisville Strike Over.

Louisville, Ky., March 15.—By a unanimous vote, last night, the 800 striking union employes of the Louisville Railway company decided to accept terms agreed on Thursday afternoon by their executive committee and the officers of the company. All the strikers will go back to work.

American Women Robbed.

Naples, March 15.—While the passengers, for the most part American women, were landing Thursday from a steamer just in from Marseilles, six thieves belonging to the local secret society known as the Camorra, took advantage of the opportunity offered by the customs inspection of the travelers' baggage, and stole a number of hand valises and even some purses. These thefts were noticed by a policeman, who arrested three of the malfactors. Other policemen were then summoned, and the three remaining thieves surrounded. But armed with daggers and stones, they fought desperately, and succeeded in seriously wounding one of the policemen.

Slays Bride of Six Months.

Lorain, O., March 15.—Samuel Kovates, a prominent Hungarian, shot and killed his young wife, to whom he had been married less than six months. Later he fired a bullet into his own head and died early yesterday. Jealousy is said to have led to the tragedy.

THE FINAL CHAPTER.

President Issues Order Barring Japanese and Koreans.

Washington, March 15.—President Roosevelt Thursday issued an executive order directing that Japanese and Korean laborers, skilled and unskilled, who have received passports to go to Mexico, Canada or Hawaii, and to come therefrom, be refused permission to enter the continental territory of the United States. This is practically the final chapter except so far as the question may be taken up in treaty negotiations with Japan, in the issue growing out of the differences with that country over the action of the San Francisco authorities in prohibiting Japanese school children attending the schools set aside for the whites.

Authority to refuse permission to the classes of persons cited by the president to enter the continental territory of the United States, is contained in the immigraion bill approved February 20. It was incorporated in that measure at the request of the president and in fulfillment of a promise he made to Mayor Schmitz and the school board of San Francisco during their negotiations at the White House, if the San Francisco authorities would rescind their action on the school question. The promise of the president and that of Mayor Schmitz and his associates brought to a close the controversy over the school question which had given the Washington authorities considerable concern.

Maurice Grau is Dead.

Paris, March 15.—Maurice Grau, the well-known impresaria, is dead here. Maurice Grau, though he has not been active for two or three years, is well known to Americans for having presented more fine operas, elaborately staged, than any other one man. He introduced to the American public some of the greatest European stars, notably Aimee, the elder Salvini and Rubinstein.

CINCINNATI IN WATER.

Farms and Villages in That District Laid Waste.

Cincinnati, March 15.—The worst flood in decades threatens the lower Ohio river valley. It is expected today that the 65-foot stage, recorded in January, will be reached, if not surpassed. Only February, 1884, saw a higher flood mark. The worst feature of the present situation is the suddenness of the raise, the waters finding many communities unprepared for a repetition of their January experiences.

The Muskingum, Scioto, Great and Little Miamis from the north, and the Kanawha, Big Sandy and Licking rivers from the south, have not only poured their surplus into the Ohio, but have laid waste farms and villages along their banks. Breaks in the big oil and natural gas pipe lines were reported at a number of points between the West Virginia fields and the Ohio towns depending on them.

In this city the river has begun to encroach on the lower business sections.

How to remain young.

To continue young in health and strength, do as Mrs. N. F. Rowan, McDonough, Ga., did. She says: "Three bottles of Electric Bitters cured me of chronic liver and stomach trouble, complicated with such an unhealthy condition of the blood that my skin turned red as flannel. I am now practically 20 years younger than before I took Electric Bitters. I can now do all my work with ease and assist in my husband's store." Guaranteed at C. A. Wright's drug store. Price 50c.

WARMING ARBUCKLES' SLIGHTLY MAKES THE GRINDING EASY

If you want to drink real coffee, buy a sealed package of Arbuckles ARIOSA and grind it in your own kitchen as you want to use it. Roasted coffee loses its strength and flavor if exposed to the air, and even its identity as coffee after grinding. Loose coffee sold out of a bag, bin or tin is usually dusty and soiled by handling.

Don't take it!

Complies with all requirements of the National Pure Food Law, Guarantee No. 2041, filed at Washington.

Two Poor Ones.

During one of Edwin Forrest's engagements in Boston a poor artist called several times to see the great actor at the old Winthrop House. Each time he brought a picture which he had painted. He finally left it with a note stating that he was in needy circumstances. Forrest read the note and took the wrapping from the picture. It proved to be a painting of himself as Spartacus. Forrest gazed upon it a moment and then ejaculated to the clerk: "Give him $10. If he is as poor as his picture, he must be on the point of starvation."

The Cost of Tea

A difference of ten or twenty cents a pound in the cost of tea makes a very slight difference (if any at all) in the cost per cup. Did you ever stop to think of that? Do not sacrifice a bit of your cup enjoyment for this supposed saving in cost, for it is only a supposed saving.

TECUMSEH CHIEF TEA

costs 50c a pound—a very small fraction of a cent per cup. Because of its strength it goes farther therefore in reality, it costs no more than the low price kind The pleasant taste it leaves in your mouth is due to its flavor. Prove to yourself the truth of this. Order a pound to-day and ask for a canister to keep it in. If you are not satisfied, your money back.

PREVENT SMUT

THE WM. HAVDEN MILLING CO., Tecumseh, Mich. have secured the agency of

"SPOROCIDE"

that will positively prevent smut in oats. Guaranteed or money refunded. The treatment costs but 10c per acre.

In 150 tests made by substantial farmers who used Sporocide in 1906, the average increase in yield per acre was 10½ bushels, or a net gain of from $3 to $4 per acre on an outlay of 10c. This is worth looking into. Write for testimonials.

Mrs. Jas. Heck.

The funeral service of the late Mrs. Jas. Heck was held Sunday Mar. 10 at 2:30 p. m. at the home on Chicago street. Miss Jane M. Tritt was born in Newville, Penn., June 3, 1840 and was married to James Heck, Feb. 10, 1859. Immediately after their marriage Mr. and Mrs. Heck came west and settled in South Bend, and in 1871 moved to Flowerfield, St. Joe county. In 1880 they came to Tecumseh where both remained up to the time of their death. The husband was the first to be called from the earthly life, and after about 5 years was followed by his wife who died Mar. 8, 1907.

Mrs. Heck had been a member of the Baptist church in Tecumseh since 1880 she with her husband bringing church letters from the First Baptist church of South Bend. Though Mrs. Heck shall no longer mingle in person with us, her associates in church work, yet her influence will continue to be felt. She is remembered by all who worked with her in the church as an honored and faithful worker, and her faithfulness will be to many an example and inspiration.

She was not only held in high esteem by her church associates, but by all who knew her and the whole community will miss her as one who was interested in every good and philanthropic work. For many years Mrs. Heck was treasurer of the local W. C. T. U. and not until the Monday preceding her death did she turn over the office to another, thus proving her willingness and faithfulness to do whatever good she could as long as possible. Mr. Heck was also a life member of the American Baptist Foreign Missionary society.

Those left to mourn the departure of a loving mother are two daughters and one son, Mrs. E. P. Munn, of Toledo, Mrs. R. S. Moore and Mr. Clyde Heck, of Tecumseh, and ten grandchildren.

ODD FELLOWS

Two Grand Officers of the State Present

TUESDAY EVENING

At the Odd Fellow meeting. Session of the Grand Lodge held.

About 125 attended the regular session of the Tecumseh lodge, I. O. O. F. Tuesday night, visitors being present from Dundee, Blissfield, Addison and Detroit. The work in the first degree was given Dr. L. M. Jones by the Tecumseh team, after which a session of the grand lodge was called by Fred M. Rogers, Grand Master of State, and H. W. Wilder, Grand Secretary of State. The following appointments were made by the Grand Master to form this session:

Deputy Grand Master—C E Williamson.
Grand Warden—E H Sellers of Detroit.
Grand Secretary—H. N. Wilder of Lansing.
Grand Treasurer—H. Pulver of Dundee.
Grand Marshal—F. A. McNeil.
Grand Conductor—J. J. Orr.
Grand Inner Guard—L. E. Temple.
Grand Herald—J. G. Hanford.

Deputy Grand Master Williamson by order of the Grand Master ordered the special session opened for the purpose of conferring the Grand Lodge degrees upon the following: Wm. Laughlin of Blissfield, Paul Cook, and Wm. H. Alsted, Dundee, Jas. Henderson, B. A. Rauch, Wm Alberts, Roy Codling, R. M. Mollles and J. J. Belcher. This work then closed the first session of the Grand lodge ever held in Tecumseh.

A banquet was served by the ladies of the Rebekah lodge. The menu consisted of mashed potatoes, pork roast, brown gravy, fruit salad, pickles, cheese, coffee, ice cream, cakes and cigars. F. G. Reesen was the general chairman on banquet and entertainment. Remarks were made by the Grand officers, John Hicks, J. J. Belcher, C. E. Williamson and H. Pulver of Dundee, during the smoker. It was early Wednesday morning before the Odd Fellows adjourned to go to their various homes.

Mrs. George Keyser.

Mrs. Geo. Keyser died at her home in this village last evening, after an illness of a few hours. The funeral will be held from the house Sunday afternoon at 2 o'clock, Rev. Wollam officiating.

Saved her Son's life.

The happiest mother in the little town of Ava, Mo., is Mrs. S. Ruppee. She writes: "One year ago my son was down with such serious lung trouble that our physician was unable to help him; when, by our druggist's advice I began giving him Dr. King's New Discovery, and I soon noticed improvement. I kept this treatment up for a few weeks when he was perfectly well. He has worked steadily since at carpenter work. Dr. King's New Discovery saved his life." Guaranteed best cough and cold cure by C. A. Wright, druggist. 50c and $1. Trial bottle free.

COSTS NOTHING UNLESS CURED

Liberal way in which Mi-o-na stomach tablets are sold by C. A. Wright.

If a friend should tell you that he would pay the doctor's bill if he did not cure you, would not it impress you with the skill of that physician? It is really in this way that C. A. Wright sells Mi-o-na stomach tablets, guaranteeing to refund the money if Mi-o-na does not cure.

If you have any of the usual symptoms of indigestion and weak stomach, such as, offensive breath, dryness of the nose, pain across the eyes, pain in back of the head, pain in front of the head, tendency to take cold, burning pain in the throat, hawking to clear the throat, pain in the chest, a cough, stitch in side, losing of flesh, variable appetite, low spirited at times, raising of frothy mucus, expectorating yellow matter, difficulty in breathing, frequent sneezing, huskiness of voice, discharge from the nose, stoppage of the nose at night, aching of the body, droppings in throat, mouth open while sleeping, tickling back of the palate, formation of crusts in the nose, dryness of the throat in the morning, loss of strength, spasms of coughing, cough short and hacking, cough worse nights and mornings, loss in vital force, a feeling of tightness across the upper part of the chest.

If you have any of these symptoms use Mi-o-na stomach tablets.

They cost but 50c a box; nothing if they do not cure. C. A. Wright is the local distributer.

IT'S ALWAYS BAD.

The best of backs are bad when they ache and Tecumseh people know it.

A bad back is always bad.
Bad at night when bedtime comes.
Just as bad in the morning.
Ever try Doan's Kidney Pills for it?
Know they cure backache, cure every kidney ill?
If you don't, some Tecumseh people do
Read a case of it.

Mrs Geo Teachout, living on Oneida street, Tecumseh, Mich., says: "I take great pleasure in recommending Doan's Kidney Pills Last fall I began to have a great deal of trouble with my kidneys causing intense pains in the small of my back and extend to my shoulder blades At times when bending over sharp pains would catch me and I would not be able to straighten for a few seconds. At night I could not rest well for the frequent action of the kidneys causing me to arise many times I doctored for awhile with a physician but received little benefit. I had heard of the good results of Doan's Kidney Pills so I got a box. I soon noticed the good effects and continued taking them until cured. I cheerfully recommend them to anyone afflicted with kidney trouble."

For sale by all dealers. Price 50 cents Foster-Milburn company, Buffalo, N Y., sole agents for the United States. Remember the name Doan's, and take no other.

You can tell a married man who has small children by the finger marks on the front of his coller.

Cures baby's croup. Willie's daily cuts and bruises, mamma's sore throat, grandma's lameness—Dr. Thomas' Eclectric Oil—the great household remedy.

Buying diamond rings on the installment plan on a $12 a week salary is another proof of true love

A lazy liver leads to chronic dyspepsia and constipation—weakens the whole system. Doan's Regulets, (25c per box) correct the liver, tone the stomach, cure constipation.

The only good that really is good for any is that which works good for all.

Little globules of sunshine that drive the clouds away. DeWitt's Little Early Risers will scatter the gloom of sick headache and biliousness. They do not gripe or sicken. Recommended and sold by B. J. Pulver.

The best point in a sermon is that which pierces your self satisfaction.

The News—No Pure Drug Cough Cure Laws would be needed, if all cough cures were like Dr. Shoop's Cough Cure is—and has been for 20 years. The National Law now requires that if any poisons enter into a cough mixture, it must be printed on the label or package.

For this reason mothers, and others, should insist on having Dr. Shoop's Cough Cure. No poisons marks on Dr. Shoop's labels—and none in the medicine, else it must by law be on the label. And its not only safe, but it is said to be by those that know it best, a truly remarkable cough remedy. Take no chance, particularly with your children. Insist on having Dr. Shoop's Cough Cure. Compare carefully the Dr Shoop package with others and see. No poison marks there! You can always be on the safe side by demanding Dr. Shoop's Cough Cure. Simply refuse to accept any other. Sold by all dealers.

Nothing disgusts a girl more than to have a young man make a bluff at kissing her.

A severe cold that may develope into pneumonia over night can be cured quickly by taking Foley's honey and tar. It will cure the most obstinate racking cough and strengthen your lungs. The genuine is in a yellow package. For sale by all druggists in Tecumseh.

The average artist's model seems to be a mighty poor model for other people.

This is worth remembering.

Whenever you have a cough or cold, just remember that Foley's honey and tar will cure it. Do not risk you health by taking any but the genuine. It is in a yellow package. Sold by all dealers in Tecumseh.

The Best Laxative for Children.

Parents should see to it that their children have one natural, easy movement of the bowels each day. Do not dose the child with salts or irritate pills; as they are too powerful in effect, and literally tear their little insides to pieces, leaving the bowels weakened and less able to act naturally than before. Laxative Iron-ox Tablets tone and strengthen the bowels, and stimulate all the little organs to healthy activity. Chocolate coated tablets, easy to take, never gripe or nauseate. 10c, 25c and $1.00.

Butler and Hoar.

Ben Butler in a case in the Massachusetts supreme court involving damages for fatal injury, Senator Hoar being on the other side, quoted Job, "All that a man hath will he give for his life." "That," said Mr. Hoar, "was a plea of the devil in a motion for a new trial, and I don't think the court will be more impressed by it on account of its modern indorsement."

Laxative Iron-Ox Tablets

Cure Biliousness

The most common causes of biliousness is some perversion of the functions of the liver, or the retention of bile in the bile duct.

YELLOW SALLOW SKIN IS AN INDICATION OF BILIOUSNESS.

"Laxative Iron-ox Tablets are the best laxative I have ever used. They have cleared up my yellow skin as no other remedy has ever done, and I am so happy to say that when I commenced using them." (Signed) J. O. PULVER, Soldier's Home, Bath, N. Y.

Laxative Iron-ox Tablets tone and strengthen the bowels, and stimulate the secretions of the liver. If the bowels and liver are active and working harmoniously, waste matter and poisons which cause biliousness, stomach trouble, headache, backache, colds and rheumatism can not accumulate in the system. 37

The Hippopotamus.

At times the hippopotamus exudes what has been described as a "bloody sweat." Microscopically examined, the exudation is found to consist of a great number of minute colorless bodies, resembling the colorless corpuscles of the blood, and a smaller number of pink colored bodies, made up of some crystalline substance forming clusters of rodlike and triradiate form. These, becoming dissolved, give the surrounding fluid medium a deeper pink color than that observable before dissolution took place. Both the colored and colorless matter appear to be exuded by special pores in the skin which display activity only immediately after the creature has left the water.

STATE OF MICHIGAN, county of Lenawee ss. Probate court for said county.

At a session of the probate court for the county of Lenawee, holden at the probate office, in the city of Adrian, on the 8th day of March in the year one thousand, nine hundred and seven.

Present, Harry L. Larwill, judge of probate.

In the matter of the estate of EZRA SANFORD, deceased.

On reading and filing the petition of Merrill P. Sanford administrator upon the estate of said deceased, alleging that the funeral expenses and debts of said deceased and the expenses of administration thus far incurred, have been fully paid, and praying that his final administration account may be allowed and for such other order and decree as to this court shall seem proper.

It is ordered, that Monday, the 8th day of April next, at ten o'clock in the forenoon, be assigned for the hearing of said petition.

And it is further ordered, that a copy of this order be published in the Tecumseh Herald, a newspaper printed and circulating in said county of Lenawee, for three successive weeks previous to said day of hearing.

Mortgage Sale.

Whereas default has been made in the payment of the money secured by a mortgage dated the 12th day of April, 1906 executed by Eva Siler of Rios Township, Lenawee County, Michigan, to Albert Collins of Macon township, Lenawee County, Michigan, and which said mortgage was recorded in the office of the Register of Deeds of Lenawee County Michigan, in Liber 156 of Mortgages on page 190 on the 14th day of April A. D. 1906 at 10:15 o'clock A. M; and whereas the amount claimed to be due on said mortgage at the date of this notice is the sum of Four Thousand One Hundred Sixty Dollars and Fifty-four cents ($4160 54) of principal and interest and the further sum of Twenty-five Dollars ($25.00) as an attorney fee stipulated for in said mortgage, and which is the whole amount claimed to be unpaid on said mortgage and no suit or proceeding having been instituted at law to recover the debt now remaining secured by said mortgage or any part thereof, whereby the power of sale contained in said mortgage has become operative.

Now therefore, notice is hereby given, that by virtue of the said power of sale, and in pursuance of the statute in such case made and provided the said mortgage will be foreclosed by a sale of the premises therein described at public auction, to the highest bidder, at the east front door of the Court house in the City of Adrian in said County of Lenawee, on the 27th day of April next, at 10 o'clock in the forenoon of that day which said premises are described in said mortgage as follows to-wit:—Being that part of section three (3) of Town Five (5) South, Range Five (5) East which is bounded as follows: Commencing at the Nort-west corner of said section three, thence running East seventy-five rods and twenty-one links; thence South sixty-seven rods and seven and one fourth links; thence West seventy-seven rods and nine links; thence North sixty-six rods and twelve links to the place of beginning.

Also all that other tract or parcel of land situated in the township of Macon Lenawee county, Michigan, bounded and described as follows to-wit:—By a line commencing sixty-six rods and twelve links South of the Northwest corner of section three (3) Town Five South, Range five East, thence running East one hundred and sixty rods; thence South forty and one half rods; thence West one hundred sixty rods; thence North forty and one half rods to the place of beginning. Containing in both parcels above described Seventy-three acres of land more or less.

Thousands Have Kidney Trouble and Never Suspect It.

How To Find Out.

Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys. If it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

WHAT TO DO.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes.

You may have a sample bottle and a book that tells all about it, both sent free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention this paper and don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y.

Sour Stomach

No appetite, loss of strength, nervousness, headache, constipation, bad breath, general debility, sour risings, and catarrh of the stomach are all due to indigestion. Kodol relieves indigestion. This new discovery represents the natural juices of digestion as they exist in a healthy stomach, combined with the greatest known tonic and reconstructive properties. Kodol for dyspepsia does not only relieve indigestion and dyspepsia, but this famous remedy helps all stomach troubles by cleansing, purifying, sweetening and strengthening the mucous membranes lining the stomach.

Mr. S. S. Ball, of Ravenswood, W. Va., says:—"I was troubled with sour stomach for twenty years. Kodol cured me and we are now using it in milk for baby."

Kodol Digests What You Eat.

PAIN

Pain in the head—pain anywhere, has its cause. Pain is congestion, pain is blood pressure—nothing else usually. At least, so says Dr. Shoop, and to prove it he has created a little pink tablet. That tablet—called Dr. Shoop's Headache Tablet—coaxes blood pressure away from pain centers. Its effect is charming, pleasingly delightful. Gently, though safely, it surely equalizes the blood circulation.

If you have a headache, it's blood pressure.

If it's painful periods with women, same cause.

If you are sleepless, restless, nervous, it's blood congestion—blood pressure. That surely is a certainty, for Dr. Shoop's Headache Tablets stop it in 20 minutes, and the tablets simply distribute the unnatural blood pressure.

Bruise your finger, and doesn't it get red, and swell, and pain you? Of course it does. It's congestion, blood pressure. You'll find it where pain is—always. It's simply Common Sense.

We sell at 25 cents, and cheerfully recommend

To be a great man it is necessary to turn to account all opportunities.

"In 1897 I had a stomach disease. Some physicians said dyspepsia, some consumption. One said I would not live until spring. For four years I existed on boiled milk, soda biscuits and doctor's prescriptions. I could not digest anything I ate; then I picked up one of your almanacs and it happened to be my life-saver. I bought a fifty-cent bottle of Kodol and the benefit I received from that bottle all the gold in Georgia could not buy. In two months I went back to my work, as a machinist and in three months I was well and hearty. May you live long and prosper." C. N Cornell, Roding, Ga., 1906. The above is only a sample of the great good that is daily done everywhere by Kodol for dyspepsia. It is sold here by B. J. Pulver.

A good housekeeper keeps her kettles and her temper from boiling over.

Orino laxative fruit syrup is a new remedy, an improvement on the laxatives of former years salt does not gripe or nauseate and is pleasant to take. It guaranteed. For sale by all druggists in Tecumseh.

Tecumseh Chief Furnace.

Tecumseh, Mich., Feb. 29th, 1907.

Century Post Co.:

Sirs:—It has been like "the good old summer time" in my house since the furnace was put in the house last fall. It will heat the whole house, or by your system of dampers and drafts can confine the heat to one room. To anyone in need of a good, substantial, labor saving, fuel economizing, satisfaction giving furnace, I would recommend the Tecumseh Chief,

Yours Truly, F. M. GOHEEN.

Jackson, Mich., Feb. 22, 1907.

Century Post Co.:

Dear Sirs:—Your furnace was simply fine, both in heating and cleanliness, free faom smoke. Never took so much real comfort a winter in my life of 77 years as this winter. No going to bed cold at night, or waiting for the house to warm in the morning. Wouldn't take $500 for it and do without it. MRS. J. M. PORTER.

Royal Oak, Mich, Feb. 22, 1906.

Century Post Co., Tecumseh, Mich.

Gentlemen:—would say in reply that I cannot make it strong enough as to my views in regard to your furnace. She is a "dandy" in every respect, both for heating and economy. I will use no more than 4½ tons of coal this winter, heating six (6) rooms, and can say my house has never been below 65 degrees temperature. Think you can sell several more here this season. Very truly yours,

(Signed) H. N. LAVERT.

We have many more testimonials equally as strong we would be glad to show you. If you contemplate putting in a furnace drop us a card, or send a plan of your house and we would be pleased to have one of our representatives call on you and make you a price. We can save you money.

EXPERTS PLACE BLAME

Declare Guns of Company B Show the Guilt For Brownsville Affray.

TAFT PUTS IN A FEW WORDS

Says Men Who Did Shooting Could Have Used Other Guns—"D. W. Gray's" Alleged Confession Branded as a Fake.

Washington, March 19.—Four rifles from Company B, Twenty-fifth infantry, were used in the Brownsville affray, if the ordance department of the army can substantiate reports sent to the senate committee on military affairs Monday concerning the microscopic examinations of the 33 shells picked up in the streets of the town on the morning following the shooting.

All of the rifles in the possession of the battalion at Fort Brown on the night of August 13 were sent to the Springfield arsenal and two shots were fired from each. The shells were then compared with those picked up at Brownsville, and the officers making the tests reported that it has been demonstrated, beyond dispute, that four guns of Co. B were used in discharging all of the 33 shells.

The reports were made a part of the committee records and Lieut. Hawkins, of the ordnance department, and G. A. Spooner, expert inspector of gauges used in the manufacture of muskets at the Springfield arsenal, are ready to go on the stand to explain their reports and be cross-examined concerning them.

Men Cannot Be Held.

Two of Co. B's rifles, said to have been used in the affray, were kept in the storehouse under lock and key of which was in the possession of former Quartermaster-Sergeant Walker McCurdy, and the other two rifles were said to have been issued to Privates Joseph L. Wilson and Thomas Taylor.

Senator Foraker immediately had subpoenas issued for Taylor and Wilson and for the recall of McCurdy. He also asked that the war department be instructed to send for Lieut. Laurison, who commanded Co. B at the time of the affray.

Secretary Taft in a letter to the committee, pointed out that the men who did the shooting may have used any guns that they could secure, and that Taylor and Wilson cannot be held to be guilty because of the showing made by the tests at the arsenal.

The alleged confession of "D. W. Gray," supposed to be a member of Co. B, which was printed at Galveston, Tex., was formally denied yesterday in a telegram from Maj. Blocksom, at San Antonio to the war department. Maj. Blocksom said in his dispatch that he had received a telegram from the chief of police at Galveston saying that the publication was a fake.

Senator Foraker had the alleged confession put in the record with the denial which had been furnished.

BLAMES PRESIDENT.

Ripley, of Santa Fe, Charges Roosevelt With Responsibility for Wall Street Panic.

Los Angeles, March 19.—In an interview in an afternoon paper, President E. P. Ripley, of the Santa Fe, who is now at Santa Barbara, is quoted as saying that President Roosevelt is responsible for the present uncertain conditions in Wall street, and attributes the recent semi-panic to "brush fire which the president started."

Mr. Ripley said that because of the anti-railroad sentiment in the country, the Santa Fe system was prepared to begin a policy of strict conservatism in expenditures, and that many contemplated improvements in the company's property would have to await more favorable conditions.

"Say, I know your brother out west," remarked a stranger to W. H. Butler, as he strolled into Jud Cameron's barber shop at Traverse City. "Is that so?" said Butler. Then it turned out that the stranger was the "brother," and there was some excuse for W. H. not recognizing his kin, for it has been 14 years since they parted. A large estate in which they are heirs has come to light, it is said.

Worked like a charm.

D. N. Walker, editor of that spicy journal, the Enterprise, Louisa, Va., says: "I ran a nail in my foot last week and at once applied Bucklen's arnica salve. No inflammation followed; the salve simply healed the wound." Heals very sore, burn and skin disease. Guaranteed at C. A. Wright's, 25c.

HEAVY TO BE TONNAGE

Lake Shipments This Year Expected to Surpass All Records.

VESSEL LOADING BEGINS SOON

Iron Ore Shippers Figure on Moving 32,000,000 Tons—Soft Coal Shipments Will Exceed Those of Last Year.

Cleveland, March 19.—Never before in the history of the lake trade was there such business in sight at the opening of a shipping season as there is this year. With a late start now in prospect, there will be plenty of cargoes for all, notwithstanding new ships have been coming from the shipyards in unprecedented numbers.

It is now figured that carrying charges are not likely to go below the rates being paid on season contracts, and they may go higher as the season progresses. The outlook, at any rate, it is urged, is better than it was a year ago, and vesselmen are taking the chances.

Heaviest on Record.

Shippers of iron ore have taken vessels for the season very freely, and chartering of that kind has been the heaviest on record. With the exception of 1905, the amount of iron ore that has been covered by freight contracts for its transportation from the mines to the ore docks near the furnaces, is greater than the total shipments for any previous season.

It is figured that vessel capacity to move between 35,000,000 and 40,000,000 tons of ore has been tied up for the season. That, of course, includes the vessels that are operated by the big ore shippers. The capacity of vessels that are operated by the ore firms is placed at about 20,000,000 tons. That means that the independent vessel owners have contracts to carry about 15,000,000 or 16,000,000 tons.

The low figure named for the total movement of iron ore for the season is 32,000,000 tons and it has been placed as high as 42,000,000 tons so that shippers will require from 5,000,000 to 7,000,000 tons to be carried on single charters from time to time. The ore men have had no trouble in getting vessels, but a late start might mean that they will need more boats than they have figured on.

Soft Coal Tonnage.

Soft coal shipments will show a big increase over last year, and the shippers are anxious to get under cover. Contract rates are the same as last year, and boats to handle something like 7,000,000 tons have been tied up by season contracts. Many of 9,000 or 10,000-ton ships have been chartered for a number of trips, and the coal trade will cut more of a figure in the general freight market than it ever has before.

In spite of this heavy chartering there is more business offering, but the owners of small carriers will not tie up. The docks at the head of the lakes will be pretty well cleaned up by the opening and there will be a good demand for tonnage from the start. Most of the docks will begin to load vessels this week, and there will be a large amount of coal afloat before the opening.

Owners of lumber carriers are holding off to get a settlement with labor before making freight rates, and it is not likely that there will be much season chartering in that trade until next month.

Awarded a Carnegie Medal.

Bellaire, Mich., March 19.—William G. Stillwell, of this village, is the only Michigan recipient of a Carnegie medal, as revealed by the official list that has been issued from Pittsburg. Stillwell is a student in Albion college. One day last August, as a party of school children were returning from gathering flowers, Miss Ruth Schoolcraft, in attempting to cross Intermediate river by walking an old bridge stringer, lost her balance and fell into the river which flowed swiftly at this point, and was several feet in depth. She was soon carried several rods. While her companions were terrorized, William G. Stillwell, only 13 years of age, jumped into the stream and succeeded in rescuing Miss Ruth Schoolcraft, who was nearly drowned. A representative of the Carnegie hero medal fund commission was here and expressed surprise at the boys exploit when he looked over the scene of the adventure.

Couldn't Aid Dying Father.

Owosso, Mich., March 19.—While sitting up with his son, C. L. Jones, who is critically ill, the father, O. A. Jones, aged 65 years, toppled from his chair and died before his son's eyes. Heart disease caused the father's sudden death.

THAW CRUEL TO WIFE

That Much-Discussed Hummel Affidavit Finally Given to Jury.

NOTED CASE IS NEAR TO END

Prosecution Rests—Other Policemen and Alienists Declare Thaw Was Insane at Time of Tragedy—Alienists Wouldn't Classify Form of Insanity

New York, March 19.—When the Thaw trial was adjourned Monday afternoon, there remained but four expert witnesses to be examined before the taking of evidence closes. Three experts were disposed of Monday in a little more than an hour, so it is generally believed that the last word of evidence may be uttered in the famous case at the close today. In that event the summing up by Mr. Delmas for the defense will begin Wednesday morning. District Attorney Jerome will reply on Thursday. Justice Fitzgerald may proceed immediately with his charge to the jury or he may defer it until Friday. Unless the unexpected happens, there should be a verdict by Friday night.

The case for the people was finally closed Monday by the introduction of the much-discussed Hummel affidavit which, with the consent of the defense was read in full to the jury. The affidavit proved a surprise only in the alleged severity of the assaults Harry K. Thaw is said to have made upon Evelyn Nesbit during their trip through Europe in 1903, when, according to the testimony of Abraham Hummel, Miss Nesbit would not sign statements which Thaw had prepared accusing Stanford White of having drugged and ruined her.

Used Cowhide Whip on Her.

In this affidavit Miss Nesbit charges Thaw with having attacked her with a cowhide whip while they were stopping at an old castle in the Australian Tyrol, and lashed her bare skin until she became faint from the pain and swooned. He repeated the attack the next day, according to the affidavit, and afterwards, in Paris, he beat her at half hour intervals throughout one entire day, leaving off only when she would faint away and could no longer understand what was happening. Miss Nesbit is alleged to have sworn in the affidavit that she was in daily fear for her life, and that Thaw acted as a demented person during some of the assaults.

The affidavit was in some ways a direct contradiction of Hummel's recent testimony upon the stand. In order that the defense might not prevent him from telling the story of the making of the affidavit, he stated positively that he was not acting as Miss Nesbit's attorney when he drew up the document; that he was acting solely in the interest of Stanford White, and that no legal action was contemplated in behalf of the young woman who is now Harry Thaw's wife.

Surprises in Affidavit.

There was considerable surprise, consequently, when Mr. Jerome read the opening words of the affidavit, which were:

"Supreme court, County of New York: Evelyn Nesbit, plaintiff, against Harry Kendall Thaw, defendant."

It is said the action contemplated when the affidavit was made was the recovery of certain property it was alleged Thaw had wrongfully taken from the girl. In dictating the affidavit Hummel referred to himself as Miss Nesbit's attorney, she being reported to have said:

"I have received certain letters and cablegrams from Thaw, which I have turned over to my attorney, Mr. Abraham Hummel."

The affidavit is also endorsed "Howe & Hummel, attorneys for the plaintiff."

When Mr. Delmas began the introduction of testimony in sur-rebuttal, he introduced, first of all, the record in the trial and conviction of Hummel on the charge of conspiracy.

Policemen Testify.

Next Mr. Delmas put upon the stand three policemen, who saw Thaw the night of the tragedy or early in the morning after, and they all declared that he either looked or acted irrationally. To two of them he complained of hearing young girl's voices. The witnesses admitted on cross-examination that there were seven women of the street in the station house the night Thaw was there and that they were making considerable noise, but could not be heard from Thaw's cell. After this testimony had been presented, Mr. Delmas passed to the final stages of the trial by introducing the first of seven alienists employed by the defense, three of the experts being new to the case. Dr. Graeme M. Hammond and Dr. Smith Ely Jelliffe, who have been in the case from the first, and Dr. W. A. White, superintendent of the government hospital for the insane at Washington, D. C., were Monday's witnesses, and all were interrogated on the hypothetical question framed by the district attorney. All three of the experts declared Thaw was so mentally unbalanced at the time he killed Stanford White that he did not know that the act was wrong. None of the three would classify the form of insanity from which they said the defendant was suffering.

WIFE ASKS $10,000.

Sues Saloonkeepers; Says Husband Was Drunk When Drowned.

Ovid, Mich., March 19.—Mrs. George Weatherby, whose husband was drowned last June and buried without an inquest, has filed a declaration of suit against Saloonkeepers McCarthy Bloos and Ryan, and their bondsmen asking $10,000 damages.

Mrs. Weatherby alleges that her husband was drunk when he fell into the river and was drowned. She says that her husband who was about 30 years of age, was a heavy drinker, and that she had forbidden the saloonkeepers to sell him liquor. She avers that her husband left no insurance or money with which to support herself and two and one-half-year-old daughter. Attorneys Smith and Waldbridge of St Johns are attorneys for the plaintiff.

At the time of Wetherby's death Coroner P. W. Holland reported that it was purely accidental, and that no inquest was necessary, inasmuch as the blame could not be placed.

Fell Into Lake and Drowned.

Marshall, Mich., March 19.—William Wheat, of Sheridan township, aged 30 and single, went fishing on Sunday afternoon with Fred Williams, a neighbor, on Winnipeg lake, seven miles northeast of here. He accidentally fell in. Williams fished him out with a pole, but he was dead.

MICHIGAN HAPPENINGS.

Adelbert Loveland of Flint gave a good illustration of the town he lives in when a Grand Trunk train ran over him, as he lay on the ties between the rails. The engineer though he had been killed, but found that he had but a scratched face. "Hard as flint," remarked the train crew.

The large hay barns at Ovid, occupied by Cowan & Stanton, burned and destroyed four carloads of hay, worth $16 a ton. The buildings belonged to the Grand Trunk railroad. No train had passed within eight hours of the fire, and it is suspected to have been started by some young boys seen smoking about the place.

Postmaster J. E. Crawford and J. S. Wooton of Milford, who enabled the government to apprehend two notorious green goods men, named Ryan and Gilbert, have gone to New York to testify in the case now on trial. Wooton had been offered $10,000 worth of "money that looks like real" for $1,000 that was real.

Never before have wages for lumberjacks been so high in the vicinity of Standish as now. Lumbermen are making a great hustle to get their logs, bolts and ties out of the swamps before the roads break up and get muddy. It is impossible to hire a team, as all are working night and day.

The Truscott Boat Mfg. Co., of St Joseph, has just completed a 21-foot launch, which will be used by Walter Wellman in conjunction with his airship and the contemplated dash for the pole. The boat, which is exceptionally strongly built and called the Service, will be shipped at once to Spitzenbergen, to await Mr. Wellman's orders.

John Clements, aged 75 years, has not failed to visit Plainwell on his birthday for 40 years. No matter where he is, its Plainwell for his on that anniversary. Sunday he celebrated his seventy-fifth birthday by going from Yorkville to Plainwell to hear Rev. John Fletcher preach, the man who performed his marriage ceremony 42 years ago.

Judge Sessions of Muskegon got a chance to rap William Goldberg, a saloonist, at whom he had been aiming for some time. Goldberg is declared a flagrant unobserver of the liquor ordinance. Monday he was fined $100 and $240.05 for one offense and $1 and $59.88 or six months in jail for another. Both offenses were committed two years ago, but Goldberg just pleaded guilty.

Beware of ointments for catarrh that contain mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescription from reputable physicians as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh cure manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury and is taken internally acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh cure be sure you get the genuine. It is taken internally.

Notice to our customers.

We are pleased to announce that Foley's honey and tar for coughs, colds and lung troubles is not affected by the National Pure Food and Drug law as it contains no opiates or other harmful drugs and we recommend it as a safe remedy for children and adults. Sold by all druggists in Tecumseh.

Appearances are often so deceitful they must be ashamed of themselves.

"Preventics" will probably check a cold or the grippe when taken early at the sneeze stage. Preventics cure seated colds as well. Preventics are little candy cold tablets and Dr. Shoop, Racine, Wis., will gladly mail you samples and a book on colds free if you will write him. The samples prove their merit. Check early colds with Preventics and stop pneumonia. Sold in 5c and 25c boxes by all dealers.

You can't please everybody. A cheerful person is a pessimist's idea of a fool.

You should be very careful of your bowels when you have a cold. Nearly all other cough syrups are constipating, especially those containing opiates. Kennedy's laxative cough syrup moves the bowels—contains NO opiates. Conforms to National Pure Food and Drugs Law, bears the endorsement of mothers every where. Children like its pleasant taste. Sold by B. J. Pulver.

Webster and His Tenant.

Daniel Webster once became the owner of some land in New Hampshire, with buildings thereon. He left the tenant who was there when the premises were conveyed to him in possession. One summer a few years later as he and his wife were journeying in the vicinity of the farm they decided to take a look at it. He found an aged woman in charge. She said in reply to questions that the place belonged to a lawyer down in Boston named Webster.

"What rent do you pay?" asked the amused owner.

"Rent!" she exclaimed. "I don't pay any rent. It is bad enough to live here without having to pay for it, and if he don't fix up the house soon I'll leave anyhow. Wonder if he expects I'm going to freeze to death this cold weather?"

"Well," remarked the proprietor, "it is a pretty hard case, but if you'll accept this five dollar bill toward holding on another year I'll try to see Mr. Webster and have something done about it."

With which remark he took final leave of his farm.—Boston Herald.

An Organized Holdup.

An English Christmas isn't a season gerfest; it's a beggingfest. The band plays, but it plays with one hand while the other is out for coin. The boys and men sing Christmas hymns and then take a collection, and the moon may be shining, but you can't see it through the fog. Some of the railway stations are decorated, and you've scarcely had time to remark that you think it's a very beautiful custom when an itching palm appears between you and the holly. The postman says, "Merry Christmas," and waits for you to be generous, and the lamplighter and the paper boy and the man who delivers groceries and the boy from the cake shop. Porters follow you wherever you go, and servants whom you never saw before bob up in numbers. And out in the street whenever you hear any one say "Merry Christmas" you mechanically put your hand in your pocket. It isn't Christmas; it's an organized holdup.—Bohemian.

The Marvel of Distance.

The distance to the nearest fixed star is so tremendous that, like many of the facts of astronomy, it is beyond the grasp of the human imagination, though not beyond the reach of mathematical demonstration. Light, which travels at a speed of 186,000 miles in a single second of time, takes over four years to reach us from the nearest star. The thread spun by a spider is so excessively fine that a pound of it would be long enough to reach around the earth. It would take ten pounds of it to reach to the moon and over 3,000 pounds to stretch to the sun. But to get a thread long enough to reach the nearest star would require half a million tons. If a railroad could be built to this star and the fare fixed at a cent a mile the total cost of the journey would be $250,000,000,000, or more than sixty times the whole amount of coined gold in the world.

Black Rod's Knock.

What is the meaning of this hostile banging of the door of the house of commons in Black Rod's inoffensive face? Why must the king's messenger humbly knock three times for admission and wait submissively on the mat outside until the representatives of the people decide to open their doors unto him? It is one of several quaint and curious customs still preserved in parliament, a survival from a period of history when the house of commons was not so free and independent or so sacred from royal intrusion as it has been since the revolution.—Michael MacDonagh in Grand Magazine.

Nothing New Under the Sun.

Slang phrases in course of time become absorbed into the vernacular just in the same way that nonsense rhymes and nursery verses become institutions. Take the following example. The famous lines

Mother, may I go out to swim?
Yes, my darling daughter.
Hang your clothes on a hickory limb
And don't go near the water,

are at least 1,300 years old, being found in a book of jests of the sixth century compiled by Hierocles!—London Chronicle.

The Forest Spirit.

The editor was criticising the poem just brought in by the literary contributor.

"You speak of the 'spirit of the forest,'" he said. "Do you think there is such a thing as a forest spirit, as distinguished from any other kind?"

"Yes, sir," fiercely responded the literary contributor. "Didn't you ever hear of such a thing as wood alcohol?"—Chicago Tribune.

The Wrong Feathers.

There is little except the method of inflation that distinguishes the balloon of the twentieth century from the machine used by M. Pilatre de Rozier, the first man to trust himself in a balloon, in October, 1783. One of his great triumphs was to hover over Paris at the height of 300 feet for a space of nine minutes. M. Pilatre achieved all his efforts by means of hot air produced by a fire which he carried in the balloon itself and was almost as daring as an Italian philosopher who took flight on a pair of wings of his own construction from the summit of the castle of Stirling in presence of King James IV. of Scotland. That courageous experimenter when picked up from the ground with a broken leg accounted for the collapse of his wings by exclaiming to the sympathetic courtiers that he had made a mistake in taking some of his feathers from the creatures of the barnyard whose inclination was toward the earth. Had he selected them from creatures with a heavenward tendency, like the eagle, the experiment would have been successful. He was believed and suitably rewarded.

A Street Sweeper's Gratuities.

A city merchant used to give an old crossing sweeper sixpence every Saturday. One day he discovered he had given half a sovereign by a mistake. So he hurried back to the crossing. The sweeper said in reply to a question, "Will you come, sir, after 4 o'clock to this address, and I will see if you are right about the coin?" The merchant did so and found a small office and two clerks busy at work. Presently the sweeper appeared, but, oh, so altered! He was dressed neatly and looked like a business man. "Oh, yes," he said to the astonished merchant, "you were correct. Our receipts today were about 10 shillings more than usual, so here is your half sovereign." As the merchant left the "office," vowing he would never give to the rogue again, the sweeper called after him, "You've forgotten your usual sixpence, sir!"—Dundee Advertiser.

Gladstone's Lack of Humor.

It was universally acknowledged that Mr. Gladstone's memory was prodigious, but there was a certain lord chief justice of England who thought the statesman's memory of his feats of memory more prodigious still. On one occasion after listening to what seemed to him a "tall story" of some happening of the great man's early years the lord chief justice determined to go him one better. So he said that he remembered when he was only six months old, and, lying in his cradle, he saw his nurse surreptitiously help herself to a glass of brandy and said to himself:

"As soon as I can speak shan't I tell my mother!"

"The thing is absolutely impossible," was Mr. Gladstone's comment in his gravest tone.

The lord chief justice said afterward that he had been beaten because he had reckoned on Mr. Gladstone having a gleam of humor.

"I was mistaken," he said sadly.

Mixed Metaphor.

Mr. Spurgeon was a keen collector of mixed metaphors, finding a rich field in the correspondence that daily overwhelmed him. Two or three are given in the Cornhill. A lady inclosing a small contribution for his schools wrote, "I hope this widow's mite may take root and spread its branches until it becomes a Hercules in your hands." The pulpit prayers of ambitious probationers added something to the great preacher's store. One prayed that "God's rod and staff may be ours while tossed on the sea of life, so that we may fight the good fight of faith and in the end soar to rest." Still another prayed, "Gird up the loins of our minds, that we may receive the latter rain." "As if we were barrels whose hoops were loose," was Mr. Spurgeon's laughing comment.—St. James' Gazette.

Which Was Shot!

There was a Jere Clemens who was a United States senator and in his day enjoyed the usual senatorial fame—a fame which perishes whether it spring from four years' service or forty. After Jere Clemens' fame as a senator passed away he was still remembered for many years on account of another service which he performed. He shot old John Brown's Governor Wise in the hind leg in a duel. However, I am not very clear about this. It may be that Governor Wise shot him in the hind leg. However, I don't think it is important. I think that the only thing that is really important is that one of them got shot in the hind leg. It would have been better and nobler and more historical and satisfactory if both of them had got shot in the hind leg. But it is of no use for me to try to recollect history. I never had a historical mind. Let it go. Whichever way it happened, I am glad of it, and that is as much enthusiasm as I can get up for a person bearing my name. But I am forgetting the first Clemens, the one that stands farthest back toward the really original first Clemens, which was Adam.—From Mark Twain's Autobiography in North American Review.

The Great Composers.

At what age did the great composers write their masterpieces? This question is answered in the London Musical Times. The following table gives the composer's name, his recognized masterpiece, the age at which it was composed and the composer's age at death:

Bach	Mass in H moll	45	65
Handel	Messiah	56	74
Haydn	Creation	65	77
Mozart	Don Giovanni	31	35
Beethoven	C-moll Symphony	35-39	56
Weber	Freischutz	30-33	39
Schubert	C-dur Symphony	31	31
Mendelssohn	Elias	37	38
Schumann	Piano concert	31-35	46
Wagner	Meistersinger	49-54	69
Brahms	D Requiem	32-35	63

This goes to show that composers between thirty and forty created the greatest masterpieces. Yet the composers above forty should not despair, seeing that Bach composed his mass in H moll at the age of forty-eight, Wagner his "Meistersinger" when fifty, Handel his "Messiah" when fifty-six and Haydn his "Creation" when sixty-five years of age.

A Turkish Joke.

A certain sultan of Turkey was very fond of gossip and sent for the banker, Abraham Beg, to learn the small talk of Pera and Stamboul. As Abraham was being conducted to the sultan's residence by the master of the horse that functionary begged him, should the sultan question him on the subject, to say that the funds were at 30, his majesty having been so informed by his ministers.

Poor Abraham consented.

He had not been long with Abdul Aziz when he was questioned as to the funds and replied as he had promised.

To the horror of the banker, the sultan expressed himself delighted and handed Abraham a large bundle of bonds to sell for him.

Abraham sold at 12 and paid Abdul Aziz 30. The sultan had originated that little "joke."

Courts of Love.

"Courts of love" were established in the middle ages, when chivalry was at its height and love the serious occupation of life among the higher class of society. The first "court of love" was established in the south of France in the twelfth century and was composed of knights, poets and ladies, and their decisions on subtle questions connected with affairs of the heart were given with great formality.

Archie Continues to Improve.

Washington, March 12.—Archie Roosevelt, the president's son, who is ill with dyphtheria, continues to improve. There was no set-back Monday. His condition is gratifying to the family and the attending physicians.

Ray E. Ferguson.

Sunday morning at eight o'clock occurred the death of Ray E. Ferguson at his home in Adrian of pleur opneumonia, aged 22 years. Mr. Ferguson is well known here among the young people [illegible] death. The funeral was held this afternoon at two o'clock.

The Shakespeare club will meet with Mrs. Howland Wednesday afternoon a 2:30.

The current event club will meet with Mrs. Sisson Thursday afternoon at 2:30.

The man who depends a great deal on "pull" never has much push.

Girlhood and *Scott's Emulsion* are linked together.

The girl who takes *Scott's Emulsion* has plenty of rich, red blood; she is plump, active and energetic.

The reason is that at a period when a girl's digestion is weak, *Scott's Emulsion* provides her with powerful nourishment in easily digested form.

It is a food that builds and keeps up a girl's strength.

ALL DRUGGISTS; 50c. AND $1.00.

Complies with all requirements of the National Pure Food Law, Guarantee No. 2041, filed at Washington.

"Our food was good—Bear steak, flapjacks, fresh bread, etc., but nothing seemed to warm and strengthen us as much as a cup of ARIOSA Coffee, which we kept in the original package and ground as needed." From a gentleman now in Bethlehem.

Arbuckles' ARIOSA was the first roasted packaged coffee,—packaged for the consumer's protection and the pores of each berry sealed after the roasting with fresh egg and sugar to keep the goodness in and make the coffee settle clear and quickly.

Talk about "roasted fresh daily," the way to get a cup of coffee that tastes like coffee, with all the delicious flavor and aroma intact, is to buy Arbuckles' ARIOSA and grind it as you want to use it. Warming it a little develops the flavor and makes the grinding easy. Coffee loses its identity as coffee after being ground or when exposed to the air.

Never buy loose coffee out of a bag, bin or tin. If it were good the roaster would not be ashamed to sell it in a package with his name on it.

The sales of Arbuckles' ARIOSA exceed those of all the other packaged coffees combined. It is the best coffee for you, and costs you less.

HIGH SCHOOL

Celebrated St. Patrick's Day by appropriate exercises.

MONDAY AFTERNOON.

An Interesting Debate a Feature.

The Tecumseh high school fittingly celebrated St. Patrick's day yesterday afternoon by an unusually interesting program arranged by Miss Mingay and Curry Hicks. The twelfth grade room was prettily decorated in green and white for the occasion. The following program was given with Louis Kenyon as chairman:

Music—Ninth grade.
Essay, Robert Burns—Pearl Wood.
Piano duet—Percy and Leland Heidenrich.
Essay—Minnie Abersold.
Song—Boys Quartette.
Rec.—Albert Skinner.
Debate—Resolved That the execution of Mary, Queen of Scots, was justifiable. The affirmative was defended by Nina Skinner, Frank Snell and Ruth Daniels, the negative by Mary Snedicor, Kirby Wilson and Alice Mills. The judges, Dr. Frost, Rev. Kamm and Rev. Wollam decided in favor of the negative.
Piano solo—Florence Linton.
Music—Ninth grade.

The guests present were Mesdames Ed Gillen, Henry McClare, C. S. Snedicor, McLaughlin, Tom Mingay, Jean Duke and Misses Grace Quackenbush and Mary Krielder.

How to remain young.

To continue young in health and strength, do as Mrs. N. F. Rowan, McDonough, Ga., did. She says: "Three bottles of Electric Bitters cured me of chronic liver and stomach trouble, complicated with such an unhealthy condition of the blood that my skin turned red as flannel. I am now practically 20 years younger than before I took Electric Bitters. I can now do all my work with ease and assist in my husband's store." Guaranteed at C. A. Wright's drug store. Price 50c.

When we hear that we have made an impression some of us wisely refrain from asking what kind.

The good die young, but the bald never dye.

A Chew of Blot Touches the Right Spot

Of course you want your fine cut chewing to be clean and fresh, wherever you buy it, every time you buy it.

Then don't buy fine cut out of an open bucket nor in one of those cheap wax paper packages where dryness and dampness, dust and dirt have had every chance to ruin any flavor it ever had. Always ask for

BLOT
CHEWING TOBACCO

and you are sure of a fresh and moist, clean, sweet and tasty chew every time. You can see there is no chance for Blot Fine Cut to get dry, nor any possibility of dust or dirt getting in—the new heavy paper, tinfoil-wrapped package that fits the pocket absolutely prevents it, and keeps the tobacco in good condition until you've chewed the last bit of it.

The revenue stamp on every package guarantees full weight.

The Cost of Tea

A difference of ten or twenty cents a pound in the cost of tea makes a very slight difference (if any at all) in the cost per cup. Did you ever stop to think of that? Do not sacrifice a bit of your cup enjoyment for this supposed saving in cost, for it is only a supposed saving.

TECUMSEH CHIEF TEA

costs 50c a pound—a very small fraction of a cent per cup. Because of its strength it goes farther therefore in reality, it costs no more than the low price kind The pleasant taste it leaves in your mouth is due to its flavor.

Prove to yourself the truth of this. Order a pound to-day and ask for a canister to keep it in. If you are not satisfied, your money back.

PREVENT SMUT

THE WM. HAYDEN MILLING CO., Tecumseh, Mich. have secured the agency of

"SPOROCIDE"

that will positively prevent smut in oats. Guaranteed or money refunded. The treatment costs but 10c per acre.

In 150 tests made by substantial farmers who used Sporocide in 1906, the average increase in yield per acre was 10½ bushels, or a net gain of from $3 to $4 per acre on an outlay of 10c. This is worth looking into. Write for testimonials.

In Anderson & Rosacrans' window may be seen two model Auto Coolers. They were made by Lee J. Ferguson, who is with the Metal Stamping Co., New York City. This firm are manufacturers of high grade radiators and automobile specialties. The models are 1-6 of the usual size and have been in several auto exhibits, in the Madison Square Garden auto show, N. Y., Jan. 12, 1907, also at the show in Chicago a few weeks ago. The Hex is a model of the one on the Tracy racing car in the Vanderbilt Cup race Oct. 6, 1906. Long Island. This car won the world's record, 99 7-10 miles in 86 30-60 minutes. This is the only Hex cooler that can run without a fan. Lee is well known in Tecumseh and his friends will be glad to see a specimen of his work.

Michigan Press Association.

This association is composed of about 200 newspaper men from all over the state, who have gathered together about twice a year to talk over matters pertaining to the newspaper and job printing business and perhaps for the principal reason of riding on their newspaper passes. Now this year the interstate commerce commission shut down on their free transportation and at the first days' meeting in Detroit there were just 18 out of 200 newspaper men present.

The editor of the HERALD has never attended a Press association of any kind nor at any place. At the last meeting of the Michigan Press Association the burden of the talk was to decide that railroad timetables should be regarded as space advertising and should be charged for at that rate. Now I have an idea that whenever a railroad asked a newspaper to run its timecard, this railroad will be glad to pay for this space at any reasonable rate. For years the editor of the HERALD has at all times carried in his pocket, passes on the local roads that run through Tecumseh and was always able to secure all the mileage he could use.

There were never better people to deal with than the officials of the Lake Shore and D. T. & I. One year my account with the Lake Shore was so much in advance of the mileage used that I run the work they needed without charge appreciating that I could at anytime obtain all the mileage I could us by simply asking for it, although there was no promise on their part to that effect. But all this time there was one thing that bothered me. Every man knew I rode on a pass, never giving me credit that I did anything to pay for it. It was simply a pass and it made me mad. No man ever paid more for his transportation than the newspaper men and when a man pointed at me and says "you can go any where and at any time, you ride on a pass" I was justly mad. So when the law said you shall pay cash fare I was glad, held up both hands and shouted for joy.

Last week I received a contract from the Lake Shore for "space" ads and locals which they will pay for in cold hard cash and when I desire to ride on their road will be delighted to go down in my pocket and dig till I get the amount to buy my ticket and ride like a full grown man, with a ticket and not a pass. For years I have each summer taken a boat trip and paid cash fare more than anthing else because no one could say "he rides on a pass." Another thing the average country newspaper man is impecunious but will ride on a newspaper pass just to ride when he has no need to go, foolishly spending his money and time.

Now there are two sides to this matter of time tables. To be honest with myself it is of more benefit to the newspaper to run railroad time tables than for the railroads to have them run. If I wish to go on a train I must find out what time the train leaves and if the newspaper prints the time and prints it correctly papers may be sold for that purpose. Still railroads are changing every day, I can remember one time asking a Lake Shore employe in Chicago a question and he replied, "None of your —— business." Last fall I asked a Lake Shore man the same question in the same city and he walked nearly a block to show me where to go to get the answer.

Really the running of time tables would be of mutual benefit to the railroads and newspapers and I think in time the railroads will be willing to pay for the running of them. The HERALD will use the Lake Shore time tables as long as the road will attend to changing them simply as matters of news and consider them good news too.

Swift-Davis.

The marriage of Miss Ella B., eldest daughter of Mr. and Mrs. B. G. Swift, and Fred C. Davis, occurred at the bride's home Saturday evening. It was in every sense a home wedding, attended by that simplicity which distinguishes at all times the quiet disposition of the bride. Red and white hearts were informally disposed about the several rooms with an added touch of potted greenery.

Only members of the Swift and Davis families and a few immediate friends were present, the bride and groom receiving their own guests to the number of forty. At the appointed hour, six o'clock, the bride and groom walked unattended to meet the Rev. W. M. Ward of the Methodist church, who impressively officiated. The bride was married in a gown of blue silk modishly cut and extremely becoming. She carried a beautiful bouquet of white carnations tied with lengths of narrow white ribbons. After the ceremony a supper consisting of three courses was served by Miss Lulu Marks, Miss Ada Swift and Mrs. F. J. Pentecost at small tables.

Mr. and Mrs. Davis were the recipients of a number of costly presents consisting mostly of silver, showing the high esteem in which they are held by Tecumseh people. The happy couple will reside on a farm near Adrian. Among those present from away were Mr. and Mrs. S. M. Case of Angola, Ind., Miss Mattie Swift of Manchester, Mr. and Mrs. Levi Fowler and Miss Ethel Crane of Adrian, and Mr. and Mrs. T. J. Pentecost of Tipton.

Gamble-Smith.

Saturday, in Adrian occurred the marriage of Miss Edith M. Gamble to Jas. F. Smith, both of this place. Miss Gamble is well known and her many Tecumseh friends extend congratulations. Mr. and Mrs. Smith will reside at Royal Oak, Mich., where the groom is employed.

ACTUALLY CURES CATARRH.

C. A. Wright's faith in Hyomei is so strong he sells it under guarantee.

It is one thing to claim, another thing to back up the claim by a statement that if it is not proven true, there will be no charge for the service or the goods.

It is in this way that C. A. Wright sells Hyomei, for he has so much faith in its powers to cures all forms of catarrh and bronchial troubles, that he gives an absolute, unqualified guarantee with every outfit that if the remedy does not cure, the money will be refunded.

Hyomei is based on nature's way of curing catarrh. It contains the concentrated healing oils and gums of the pine woods, prepared in such form that they can be brought into your own home. It gives the health advantages of the Adirondacks in such form that you can be cured of catarrh and affections of the nose, throat and lungs while at work.

A complete Hyomei outfit costs but $1 and extra bottles, if needed, may be obtained for 50c.

With Hyomei you can cure catarrh pleasantly and easily at small expense, with no risk of the treatment costing a penny unless it cures.

CASNOW &

STRAIN TOO GREAT.

Hundreds of Tecumseh readers find daily toil a burden.

The hustle and worry of business men.

The hardwork and stooping of working men

The women's household cares

Are too great a strain on the kidneys.

Backache, headache, sideache,

Kidney troubles, urinary troubles follow.

A Tecumseh citizen tells you how to cure them all.

I. H. Welch, retired, living on Union street, Tecumseh, Mich., says: "I can cheerfully recommend Doan's Kidney Pills as they have been of great benefit to me. A great number of years ago, I was working on a barn, and in helping to lift one of the large timbers, I strained myself and the doctor said I tore one of my kidneys loose. I began treatment immediately, but the remedies I used did not seem to take effect. At night my rest was disturbed on account of too frequent action of the kidneys, and in the morning would feel tired and unrefreshed. Finally, Doan's Kidney Pills were brought to my attention and I began them. I noticed improvement in my condition in a very short time and I continued taking them until I was cured. I can honestly say I now feel better than I have for a number of years. I have recommended Doan's Kidney Pills to a number of my friends who have used them with the same satisfactory results."

For sale by all dealers. Price 50 cents Foster-Milburn company, Buffalo, N. Y., sole agents for the United States. Remember the name Doan's, and take no other.

One lie wouldn't be so bad, if you didn't have to tell half a dozen to square it.

The News—No Pure Drug Cough Cure Laws would be needed, if all cough cures were like Dr. Shoop's Cough Cure is—and has been for 20 years. The National Law now requires that if any poisons enter into a cough mixture, it must be printed on the label or package.

For this reason mothers, and others, should insist on having Dr. Shoop's Cough Cure. No poisons marks on Dr. Shoop's labels—and none in the medicine, else it must by law be on the label. And its not only safe, but it is said to be by those that know it best, a truly remarkable cough remedy. Take no chance, particularly with your children. Insist on having Dr. Shoop's Cough Cure. Compare carefully the Dr Shoop package with others and see. No poison marks there. You can always be on the safe side by demanding Dr. Shoop's Cough Cure. Simply refuse to accept any other. Sold by all dealers.

Flood Losses Heavy.

Marietta, O., March 19.—According to careful estimates, the loss from the floods in Washington county may reach $1,000,000. The receding water has revealed serious conditions.

The Sterling Oil refinery is a complete loss, the stills, tanks and buildings having floated off, while the manufactured product was destroyed, causing a loss of $50,000. The National refinery suffered heavily. It may be several days before railroads are able to run trains regularly. One hundred houses and many barns have been swept from the foundations.

The National Table works suffered a heavy loss.

Land Thieves Sentenced.

Omaha, Neb., March 19.—The most important land case in Nebraska ended Monday when four prominent and influential cattlemen were sentenced by Judge W. H. Munger, of the United States court, as follows: Parlett Richards and William G. Comstock, to pay a fine each of $1,500 and serve a year in the Douglas county jail; Charles G. Jameson and Acquilla Triplett, to pay a fine of $500 and serve eight months in the same jail. These men were indicted by the federal grand jury in May, 1906, for conspiracy to defraud the United States out of 200,000 acres of public lands. The trial began in November, 1906, and ended Dec. 20. Motion for a new trial was overruled. All the defendants made motions for appeals, which will be argued later.

PRESIDENT PRESSED BUTTON.

Formal Opening of Louisville Exposition Takes Place.

Louisville, Ky., March 19.—The application of President Roosevelt's thumb to a button in the White House let loose a jangling of bells and a screeching of whistles at 2:30 o'clock Monday afternoon, which told the people through the city of the formal opening of the Greater Louisville exposition.

Immediately on the uproar, Creatore and his band swung into "Dixie" and the "Exposition March," and, after addresses by President A. T. MacDonald and others, the dedication exercises were concluded.

Killed Man With Mining Pick.

Wilkesbarre, Pa., March 19.—John Boshus, aged 30 years, a Russian, was murdered Saturday night at Brookside, a suburb of this city, by Petre Kowieck, aged 33 years, a Pole. Kowieck came home about midnight, and it is alleged, found Boshus in the company with Mrs. Komieck. Komieck secured his mining pick and literally tore Boshus to pieces. When life was extinct he dragged the body to Mill Creek, nearby, and threw it into the stream. The murder was not discovered until later when the body of Boshus was found. Kimieck escaped.

NEWS IN BRIEF.

President Roosevelt has announced the appointment of John E. Sader of Columbus, O., as United States district judge for the southern district of Ohio.

The chief justice has announced that the supreme court of the United States would take a two-weeks' recess from next Monday until April 8.

A local option bill, with an emergency clause, was passed by the Delaware legislature Monday. It is approved by Governor Buchtel, and will become a law before the end of the week.

Mrs. Nannis Hands Kronberg, a mezzo-soprano singer, well known in New York and the west, died at her home in New York, Monday. Death was caused by diabetes. She was 32 years old, and the wife of S. Kronberg, the theatrical manager.

The appearance of a few cases of smallpox in Paris has greatly alarmed the people. Thousands of persons hve been vaccinated during the last few days, and the hospitals and the Academy of Medicines are besieged by crowds of people anxious to be revaccinated. The authorities believe that there is no real danger it an epidemic.

The Bucyrus company of South Milwaukee, Wis., was the lowest bidder for 22 steam shovels, to be used on the isthmus, for which proposals were opened Monday by D. W. Ross, purchasing agent of the Isthmian Canal commission. The price offered by this company on fifteen 15-ton shovels, was $12,400 each, delivered in Panama, and on seven 50-ton shovels, its proposal was $7,000 each, delivered at Colon.

The Austrian government of recent years has taxed the certificates of deposits required to secure the New York Life Insurance Co.'s annual Austrian reserves. The American embassy at Vienna, was induced by the company to make an appeal against this practice, with the result that the high court has now decided that such certificates are not taxable. The company therefore will be reimbursed about $12,000, which amount was paid under protest.

Not Fatal.

No Matter What Doctors Say—We Know That Heart Trouble in Many Cases Can Be Cured.

There are seven main features of heart disease, viz.: (1) Weakness or Debility; (2) Rheumatism of Stomach; (3) Valvular Disorder; (4) Dilation; (5) Enlargement; (6) Fatty Degeneration; (7) Dropsy.

Documentary evidence will prove thousands of so-called "incurables" have been absolutely cured by Dr. Miles' New Heart Cure.

Patients often have no idea their disease is heart trouble, but ascribe it to Indigestion, Liver Complaint, etc.

Here are some of the symptoms: Shortness of breath after exercise, Smothering Spells, Pain in Chest, left Shoulder and arm, Discomfort in Lying on one side, Fainting Spells, Nervous Cough, Swelling of Feet and Ankles, Puffiness of Face and Eyes, Palpitation, Nightmare, Irregular Pulse.

"I have spent much of Dr. Miles' New Heart Cure, and speak of its merits whenever opportunity offers. President Tyler's Feasts.

President Tyler's dinners were, on a large scale, those of a wealthy Virginia planter, and as the greater part of the provisions came from his own plantation at Greenway Court they tickled the palates of the most exacting epicure. He employed a negro cook from his old home, one who knew how to do to a turn fried chicken and to shave off the delicious pink slices of baked ham. These hams were considered the finest that ever graced a table, and the Virginia porkers of today, famed the world over, might well pride themselves on their noble ancestry, that were as carefully prepared for the table as a thoroughbred horse for a race. For six months they were let run wild in the oak woods to feed off acorns, supplemented by a little corn in the morning and evening. When they were in their second autumn they were turned into the cornfield after the harvest, then let run in the loosely harvested fields of black eyed peas, after which they were fed on selected corn until shortly before the holidays, when they were killed, then smoked for several months by hickory chips and finally rubbed down well with molet [illegible] sugar.—Home Magazine.

THEY INDORSE IT.

President and Cortelyou Encourage the Plans of George Washington University.

Washington, March 19.—In letters addressed to President Charles W. Needham, of George Washington university, Monday, President Roosevelt and Secretary of the Treasury Cortelyou gave hearty endorsement to the plan undertaken by the institution to establish itself as a typical American university. President Roosevelt's letter follows:

"Pray accept the assurance of my hearty sympathy in your work. I am delighted to learn that the chances are now so good for obtaining the necessary funds to put George Washington university firmly on its feet. I congratulate you upon the work that the university has already done, and in common with all good citizens, I wish you all possible prosperity in the future.

"Sincerely yours,

"THEODORE ROOSEVELT."

Secretary Cortelyou, who is an alumnus of the George Washington university, having been graduated from the law school in 1896, wrote:

"I am very glad to have this opportunity to commend heartily the movement that has been inaugurated to raise $400,000 as a site for the George Washington university. As an alumnus of the university, I naturally feel a personal interest in the success of such a movement. The citizens of Washington, generally, have shown their willingness to respond to the university's needs, and I am sure that this further appeal will meet with such a generous response, that the broad and comprehensive plans for its development may be fully realized.

"Very truely yours,

"GEORGE B. CORTELYOU."

The allusion to a "further appeal" refers to the plan of the university to seek subscriptions from the American people, generally, toward an endowment fund, which will enable it to carry out its plans as outlined. This appeal will be made on patriotic grounds, because George Washington, in his last will, endorsed such a plan, and because this city is the national capital.

Tragic Was His Death.

Paris, March 19.—M. Berthelot, who was foreign minister in the Bourgeois cabinet, 1895-'96, died suddenly Monday. The death of M. Berthelot was tragic, and followed immediately that of his wife, Mme Berthelot, who had been in ill-health for some time past, experienced a sudden crisis at 6 o'clock last evening, during which she passed away. M. Berthelot was at work in the next apartment, and when he was informed of his wife's death by the attendants, he fell to the floor in a swoon and died in a few moments.

Gov. Garvin to Wed.

Providence, R. I., March 19.—Ex-Gov Lucius F. C. Garvin, of Rhode Island, has announced his engagement to Miss Sarah Emma Tomlinson of Lonsdale, who is just half his age, and who has been blind since she was seven years old. When ex-Gov. Garvin first met Miss Tomlinson she was a small child. Miss Tomlinson is 32 years old and Dr. Garvin was born in 1841.

Cut Out Bucket Shops.

Jefferson City, Mo., March 19.—Governor Folk yesterday signed the bill passed by the last legislature making it a felony to operate a bucket shop in Missouri. The penalty clause also includes any telegraph or telephone company which furnishes information to a bucket shop. The governor also signed a bill amending the pool selling law so as to make telegraph and telephone intruments devices for registering bets on horse races.

Kept Marriage a Secret.

Allegan, Mich., March 19.—Clara E. Maentz, who gained fame when she filled the star role of Madam Schumann Heink during the latter's illness a year ago, came home Sunday and announced her marriage to Mr. McQuinz, musical director of the company she is now with. They were married in Glenns Falls, N. Y., some time last summer and have kept the affair secret until two weeks ago when in Boston a reception was given for them by Mr. McQuinn's mother, and now Allegan friends are apprised of it.

Responsive to a request made by Rev. Edward W. Matthews of London, formerly a chaplain in the British navy, Mrs. Roosevelt has promised to give a silk American flag with which to drape a bust of Admiral Lord Nelson, presented to the naval academy by direction of King Edward. When he came to the White House, Mr. Matthews brought with him a Victory medal and testament to present to one of the president's children. The souvenirs were given to Archie. The president gave Mr. Mathews a personal message of greeting and friendship for the king.

DAUGHTER OF C. W. STUMP

Mrs. C. W. Stump of Canton, Ohio, writes: "I wish I could induce every mother who has a weak, sickly child to try that delicious cod liver preparation, Vinol. Our little daughter was pale, thin and sickly.

"We tried various medicines, but without any benefit whatever, and she could not take cod liver oil or emulsions, as they nauseated her and upset her stomach.

"Learning that Vinol contains all the medicinal and strength-creating properties of cod liver oil, but without the disagreeable oil, we decided to try it, and the results were marvelous, so quickly was she restored to health and strength.

"We have never sold a medicine equal to Vinol for delicate children.

WARNED TO KEEP AWAY.

Goldfield Citizens Declare Against Industrial Workers of the World.

Goldfield, Nev., March 19.—The executive committee of the Goldfield Business Men and Mine Owners' association, yesterday issued the following explanation of present labor differences in Goldfield:

"For the past three years the camp has had a series of labor troubles that have had their origin in the existence of an organization known as the Industrial Workers of the World.

This body of men has not only done these things, but has maintained a reign of terror in the camp as far as laboring men and business men are concerned. The business men and mine owners have determined that this condition of affairs must be amended. A mass meeting was called, and the Goldfield Business Men's and Mine Owners' association was formed.

"It is not, never was, and does not purpose to be a citizens' alliance or a mine owners' and operators' association of the pattern of the Cripple Creek district Mine Owners' and Operators' association. It is simply a union of the business men and mine owners of Goldfield to preserve the camp and protect life and property.

"There is to be no change in hours and wages. The settlement of wages made in January is satisfactory to all concerned. But lawlessness and oppression must cease. The Industrial Workers of the World, as the representatives of lawlessness, must leave the district. That is the only issue, and all that is involved. Labor unions are not to be warred against or to be encouraged. All that is demanded is that they must be labor unions, not under the control of or associated with the Industrial Workers of the World."

Still Unaccounted For.

Chicago, March 19.—The counting of the $62,000,000 in the Chicago subtreasury, to determine whether the shortage of $173,000 discovered on Feb. 20, was due to a mistake in bookkeeping, was finished Monday without the discovery of anything to explain the shortage, other than that the money was stolen. Captain Porter, of the secret service, last night said that his detectives had learned nothing new about the disappearance of the money.

"Posted men keep out." This is the sign hung out by saloonists at Charlotte who have become alarmed over the big verdict awarded a woman recently, and because Mrs. George Beckwith, encouraged by the other's success, had brought suit for $6,000 damages against Saloonist Sykes for selling to her posted husband.

Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Indigestion

Stomach trouble is but a symptom of, and not in itself a true disease. We think of Dyspepsia, Heartburn, and Indigestion as real diseases, yet they are symptoms only of a certain specific Nerve sickness—nothing else.

It was this fact that first correctly led Dr. Shoop to the creation of that now very popular Stomach Remedy—Dr. Shoop's Restorative. Going direct to the stomach nerves, alone brought that success and favor to Dr. Shoop and his Restorative. Without that original and highly vital principle, no such lasting accomplishments were ever to be had.

For stomach distress, bloating, biliousness, bad breath and sallow complexion, try Dr. Shoop's Restorative—Tablets or Liquid—and see for yourself what it can and will do. We sell and cheerfully recommend

Tecumseh Chief Furnace.

Tecumseh, Mich., Feb. 29th, 1907.

Century Post Co.:

Sirs:—It has been like "the good old summer time" in my house since the furnace was put in the house last fall. It will heat the whole house, or by your system of dampers and drafts can confine the heat to one room. To anyone in need of a good, substantial, labor saving, fuel economizing, satisfaction giving furnace, I would recommend the Tecumseh Chief,

Yours Truly, F. M. GOHEEN.

Jackson, Mich., Feb. 22, 1907.

Century Post Co.:

Dear Sirs:—Your furnace was simply fine, both in heating and cleanliness, free faom smoke. Never took so much real comfort a winter in my life of 77 years as this winter. No going to bed cold at night, or waiting for the house to warm in the morning. Wouldn't take $500 for it and do without it. MRS. J. M. PORTER.

Royal Oak, Mich, Feb. 22, 1906.

Century Post Co., Tecumseh, Mich.

Gentlemen:—would say in reply that I cannot make it strong enough as to my views in regard to your furnace. She is a "dandy" in every respect, both for heating and economy. I will use no more than 4½ tons of coal this winter, heating six (6) rooms, and can say my house has never been below 65 degrees temperature. Think you can sell several more here this season. Very truly yours,

(Signed) H. N. LAVERT.

We have many more testimonials equally as strong we would be glad to show you. If you contemplate putting in a furnace drop us a card, or send a plan of your house and we would be pleased to have one of our representatives call on you and make you a price. We can save you money.

SHERIFF HAS SNAP JOB

Bay's Law Enforcer and His Deputies Charged Two Prices.

GRAND JURY MAY BE CALBED

According to Bills, Officers Collected Fees for Work Done in Two Places at Same Time — Popular Sentiment Aroused.

Bay City, Mich., March 22.—An investigation into county affairs, conducted by the Bay City Times, has brought out the fact that the sheriff and his deputies, according to bills presented by them and allowed by the supervisors, can be in Cheboygan or Linwood, or almost any place in the county, collect fees for that work, and on those same days collect fees for acting as "court officers" in the circuit court.

The court officers' graft has been an expensive one for the county in the past two years, bills having been allowed for three, and sometimes four officers a day, when as a rule, but one is required. The revelations regarding this practice, when brought to the attention of the circuit judge, resulted in an order reducing the number of court officers to the actual needs of the service.

Public Sentiment Aroused.

Now the showing that Sheriff Hartley and his deputies have been charging double time for months has aroused a public sentiment that may result in a demand that Judge Collins call a grand jury to investigate the doings of the sheriff and the actions of the board of supervisors.

A sample of the bills allowed for a single month only shows what has gone on through many months since Sheriff Hartley was first inducted into office, Jan. 1, 1905. The records show that on Dec. 7, 8, 11, 12, 14 17, 20, 22 and 26, Sheriff Hartley drew fees for such work as "investigating suspicious characters in townships." On the seventeenth he drew double pay for day and a night spent in Beaver township, 15 miles from the city, "looking for Fred Kurtz."

Strenuous Officers.

Thus the bills run, while on every one of the days mentioned he drew $2.50 from the county for acting as court officer in the circuit court. One strenuous instance is noted on Dec. 12, when he drew $5 for time and expenses for "investigating trouble at Linwood," which is 10 miles from that city, and at the same time was allowed $5 for acting as court officer both night and day. How he happened to be at both places at once hasn't been explained.

The bills of Under Sheriff Warfield are just as peculiar. Billy Simpkins, who was in jail awaiting trial for highway robbery, was an old schoolmate of Warfield's. Simpkins was given a great many liberties in jail, and made a successful break for freedom one night. Many days were spent in looking for Billy Simpkins by the sheriff and his deputies, all at the expense of the county. On Nov. 15, Warfield charged one day and night "looking for Simpkins at Tawas," and on the same day he charged for his services as court officer. Another time he charged a day and night as court officer.

Supervisors Didn't Stop It.

Some days three, and occasionally four men, including the sheriff himself, drew pay for acting both day and night as court officers, and thus the record goes, month after month.

Hartley is now serving his second term as sheriff, and Warfield has confidently expected to succeed his superior when another election rolls around.

Senator Burrows Investigates.

Washington, March 22.—Senator Burrows is not disposed to let up on an investigation of the alleged shipment of old truck into Michigan under his frank for the apparent purpose of swelling the weight of the mails at this time. He went to the postoffice department and laid the matter before Postmaster-General Meyer, asking that inspectors be placed on the case. He also seeks to ascertain, if the frank has been used in this way, where the frank was secured and who employed the man using it to do so. The senator says he has not missed any of his franks.

Worked like a charm.

D. N. Walker, editor of that spicy journal, the Enterprise, Louisa, Va., says: "I ran a nail in my foot last week and at once applied Bucklen's arnica salve. No inflammation followed; the salve simply healed the wound." Heals every sore, burn and skin disease. Guaranteed at C. A. Wright's. 25c

BLUEJACKETS LANDED

American Interests Will Be Protected in Central America.

OUR VESSELS PATROL COAST

United States and Mexico May Intervene and Stop War Between Honduras, Salvador and Nicaragua—South American Nations Desire Some Such Move.

Washington, March 22.—Bluejackets and marines have been landed from the United States gunboat Marietta at Trujillo and Ceiba and probably at Puerto Cortez, Honduras, in order to protect American interests in those ports. Advices to this effect were received Thursday at the navy department from Commander Fullam, of the Marietta, and they were at once transmitted to the state department. As yet no word has been received as to whether forces have been landed at Central American ports on the Pacific coast side, but undoubtedly, this step will be taken if American interests are considered in danger.

The navy department feels that the action taken by Commander Fullam brings the situation completely in hand so far as the safeguarding of trade interests is concerned. In addition to the protection given to Americans, it is felt that the action of this government will relieve foreign governments of the necessity of taking any steps toward making a naval demonstration.

Many Boats on Hand.

Both coasts of the warring Central American republics are completely covered by American gunboats. In addition to the Marietta on the Honduras-Caribbean coast, which is the point regarded most in danger, the Paducah is further south on the Nicaraguan coast. On the Pacific coast side are the Princeton, which is patrolling the Nicaraguan coast, and the Chicago which is patrolling the Salvadorean and Honduran coasts.

Joint intervention by Mexico and the United States in the war which threatens to involve all Central America, is now regarded as probable by diplomatists. Tenders of good offices on the part of the two great governments have not been heeded by Nicaragua, Honduras and Salvador, and it is suggested to the state department that Mexico and the United States should send plenipotentiaries to the warring countries to investigate the causes of the present war and order an immediate cessation of hostilities.

Secretary Root and Mr. Creel, the Mexican ambassador, have been in conference frequently since the outbreak of war in Central America, and Latin-American diplomatists would not be surprised by the announcement that Mexico and the United States have decided the war must cease. In fact such a settlement would be highly satisfactory to many of the South American representatives, who feel that their countries suffer from the warlike reputation of Central American countries.

Disarms Criticism.

It has been pointed out to the state department that the co-operation of Mexico with the United States in restoring peace in Central America would disarm criticism of the United States, and show that it has no thought of acquiring any territory of Latin-American republics.

The state department is in dread of the claims which inevitably rise out of a war such as is now being carried on, and the protests of European countries against the destruction of property of their citizens in countries where Europe cannot interfere are having their effect on the administration. Diplomatists have pointed to the Washington government that its position at the approaching peace conference at The Hague will be peculiar if it permits a war to progress, which it might stop, and which the Monroe doctrine prevents European powers from stopping.

Coughs Up Bullet.

Port Huron, Mich., March 22.—John Eaton, 60 years old, carried a bullet in the back of his neck for 40 years. During a coughing spell the bullet came out of his mouth. In the days when hunters loaded their rifles with buckshot, Eaton was out with a companion hunting, and, by accident, got a shot in the neck.

Lake Linden, Mich., March 22.—Edward Roberts, of this place, was instantly killed while working on a seven and a half-ton girder suspended from a derrick. The girder fell 80 feet. The accident occurred in the yards of the Pennsylvania railway docks in Sandusky, O.

THAW INSANE TODAY

District Attorney Files Eight Affidavits Making Such a Claim.

SEVEN GIVEN BY ALIENISTS

Defense Not Yet Prepared to Present Its Side of Question—Jerome Barred From Orally Examining Dr. Hamilton.

New York, March 22.—District Attorney Jerome Thursday presented to Justice Fitzgerald eight affidavits in support of the suggestion he made Wednesday in the case of Harry K. Thaw, that the defendant is now in such a state of lunacy or insanity as to be incapable of understanding the proceedings against him or making his defense. The court was in session for less than an hour. Delphin M. Delmas, for the defense, stating that their answer to the district attorney's proposition was not ready. Justice Fitzgerald allowed both sides until Saturday afternoon at 2 o'clock to file such affidavits as they desire with the clerk of the court.

Jury Not in Court.

There will be no further hearing in the matter of the appointment of a lunacy commission, unless Justice Fitzgerald directs after considering such affidavits and exhibits as are to be offered. Neither the jury nor Thaw was in court Thursday. There will be a brief session this morning and a formal adjournment until Monday morning announced. By Monday, Justice Fitzgerald is expected to be ready to announce his decision.

District Attorney Jerome pleaded Thursday for permission to examine Dr. Allan McLane Hamilton orally, but in the absence of a waiver of professional privilege on the part of the defense, Justice Fitzgerald said he would not allow the doctor to be examined further at this time. Justice Fitzgerald added significantly that he would judicial notice of everything which had been adduced in evidence during the nine weeks of the trial.

Dr. Hamilton, it will be remembered, on Wednesday, testified that in his opinion, Thaw is not at present capable of directing his defense. This question was put to Dr. Hamilton by Attorney Gleason, of the defense, and Mr. Jerome now contends that the defense thus waived the matter of professional privilege.

Several Opinions.

The refusal of Justice Fitzgerald to allow Dr. Hamilton to be interrogated in the proceedings to enlighten the conscience of the court as to its duty in appointing a commission or ordering a resumption of the trial, was interpreted in various ways by those in court. The attaches of the district attorney's office were inclined to the belief that Dr. Hamilton, having already stated his opinion to Justice Fitzgerald, the latter deemed it unnecessary to precipitate an argument as to the waiving of professional privilege. The defense seemed inclined to the view that Justice Fitzgerald had held Dr. Hamilton's evidence could not be taken into consideration, and that consequently the district attorney's position was materially weakened. Dr. Hamilton was first called into the case by Thaw's lawyers, and it was while in their employ that he made his first examination of the defendant. Under the law he cannot testify without a waiver from the man who was his patient.

Mr. Jerome's affidavits submitted Thursday, embraced the opinion of his seven experts who have heretofore testified, and a statement of Irvin S. Cobb, a newspaper reporter, who gave the text of the statement which Thaw issued at the conclusion of Mr. Jerome's long and severe cross-examination of his wife.

Jerome Explains.

District Attorney Jerome occupied most of the time the court was in session Thursday in a personal explanation of the reasons which had hindered him from earlier calling the attention of the court to Thaw's present state of mind. He said he had long been convinced that the defendant was of unsound mind, but he had no way of legally bringing the matter to the attention of the court until Dr. Hamilton was put upon the stand by the defense. Mr. Jerome said he could not have called Dr. Hamilton on account of the professional privilege which the defense could have interposed as a bar to any testimony the expert might have to offer.

Mr. Delmas declined again to waive any privilege with regard to Dr. Hamilton, on the ground that if the district attorney's contention as to the present insanity of the defendant is sound, his lawyers have no right to waive anything for a lunatic.

It had been rumored all day that Mr. Delmas would not be in court in the afternoon, because of the attitude assumed by some of his associate counsel Wednesday. All the attorneys were present, however, when Justice Fitzgerald took his place on the bench. Mr. Delmas alone was heard by Justice Fitzgerald. Twice Mr. Hartridge tried to enter the argument, but was rapped down by the judge.

Ends Life by Hanging.

Muskegon, Mich., March 22.—Gustav Johnson, 55 years of age, a German resident of Muskegon, committed suicide by hanging last night. He was despondent because of the recent breaking out of an uncontrollable appetite for liquor, which caused him to squander the savings of a lifetime.

LOOTED OF VALUABLES.

Thieves Steal Paintings, Bric-a-Brac and Silverware From the Siegel Home Near New York.

New York, March 22.—The robbery of the summer home of Henry Siegel, at Mamaroneck, some time Wednesday night, has provided a mystery which the police were unable to solve.

Seven paintings valued at thousands of dollars, bric-a-brac, collected at a great cost in Europe, and considerable silverware were stolen. The value of the articles taken was not estimated by members of the family, but in some quarters it was said that it would reach well over $50,000.

Mr. Siegel is in Boston. He will return today. Mrs. Siegel remained in New York Wednesday night, a gardener and assistant being the only persons about the Mamaroneck residence. They claim they heard no unusual noises during the night. Entrance was gained through a front window; the house being literally ransacked, drawers being searched, cupboards opened, rugs taken, solid silver purloined, while plated matter was bent and thrown aside, and paintings cut from their frames.

A curious feature of the case is that the thieves went to a bath room and secured a key to the dining room, where the house keys were kept. When they got those the task of opening the locked doors where valuables were stored was easy.

Mrs. Siegel said that she had a suspicion as to the thief, and intimated he might once have been employed in the house.

The Siegel home faces Long Island sound, and it is believed the robbers used a power boat to approach the premises and carry away the loot.

Burton Released From Jail.

St. Louis, March 22.—Former United States Senator Joseph R. Burton, of Kansas, who has been serving six months' imprisonment in jail at Ironton, Mo., was released early this morning. He was convicted of having appeared before the postoffice department in behalf of the Rialto Grain and Securities Co., of St. Louis, while a member of the United States senate, and of having received compensation for so doing. He stated yesterday, over the long distance telephone, that he expects to come to St. Louis, stop a few hours and then proceed to Abilene, Kas., where he will make a public statement Saturday night.

Ladies Go Down in Submarine.

Bridgeport, Ct., March 22.—Mrs. John M. Thurston, wife of former United States Senator Thurston, of Nebraska, and Mrs. J. C. Lake, wife of the assistant manager of Lake Submarine Torpedo Boat Co., and said to be the first women ever to make a trip in a submarine boat, were among a party of prominent persons that made a trip on a submarine Thursday. The boat was submerged for two hours in Long Island sound, just outside the Bridgeport harbor, during which luncheon was served and an hour devoted to impromptu speeches.

Navy Yard Building Burns.

Pensacola, Fla., March 22.—Fire last night completely destroyed building No. 1 at the Pensacola navy yard, entailing a loss estimated at $175,000. In this building were located the blacksmith shop, boiler factory, copper shop, power house and electric lighting plant. In addition to the loss of the building and its contents, the machinery and equipment for the gunboats Gloucester and Isla de Luzon were destroyed. The fire started either in the power house or foundry, and had gained much headway before being discovered.

Civil War Veteran Falls Dead.

Alpena, Mich., March 22.—Dyer Wilson, 66 years old, civil war veteran, fell dead early Thursday morning, while out for a walk. He had asthma and heart disease. One son lives in Port Huron and a daughter here.

Beware of ointments for catarrh that contain mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescription from reputable physicians as the damage they will do is ten fold to the good you can possibly derive from them. Hall's catarrh cure manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury and is taken internally acting directly upon the blood and mucous surfaces of the system. In buying Hall's catarrh cure be sure you get the genuine. It is taken internally.

Notice to our customers.

We are pleased to announce that Foley's honey and tar for coughs, colds and lung troubles is not affected by the National Pure Food and Drug law as it contains no opiates or other harmful drugs and we recommend it as a safe remedy for children and adults. Sold by all druggists in Tecumseh.

Appearances are often so deceitful they must be ashamed of themselves.

"Preventics" will probably check a cold or the grippe when taken early at the sneeze stage. Preventics cure seated colds as well. Preventics are little candy cold tablets and Dr. Shoop, Racine, Wis., will gladly mail you samples and a book on colds free, if you will write him. The samples prove their merit. Check early colds with Preventics and stop pneumonia. Sold in 5c and 25c boxes by all dealers.

You can't please everybody. A cheerful person is a pessimist's idea of a fool.

You should be very careful of your bowels when you have a cold. Nearly all other cough syrups are constipating, especially those containing opiates. Kennedy's laxative cough syrup moves the bowels—contains NO opiates. Conforms to National Pure Food and Drugs Law, bears the endorsement of mothers every where. Children like its pleasant taste. Sold by B. J. Pulver.

Clothes do not make the man, but they have the first crack at making impressions of the man.

Given up to die.

A. Spiegel, 1204 N. Virginia St. Evansville, Ind., writes: "Over 5 years I was troubled with kidney and bladder trouble which caused me much pain and worry. I lost flesh, was all run down and a year ago had to abandon work entirely. I had three of the best physicians, who did me no good and I was given up to die. Foley's kidney cure was recommended and the first bottle gave me relief, the second bottle entirely cured me." Why not let it help you? For sale by all dealers in Tecumseh.

A knowledge of "birth stones" of the different months never helps anyone to wear diamonds.

For catarrh let me send you free, just to prove merit, a trial size box of Dr. Shoop's Catarrh remedy. It is a snow white, creamy, healing antiseptic balm that gives instant relief to catarrh of the nose and throat. Make the free test and see. Address Dr. Shoop, Racine, Wis. Large jars 50c. Sold by all dealers.

An only child can accumulate more worthless trash than the little top drawer in the bureau.

To remove a cough you must get at the cold which causes the cough. There is nothing so good for this as Kennedy's laxative cough syrup. The liquid cold relief that is most quickly effective, that stills and quiets the cough and drives out the cold. Sold by B. J. Pulver.

A drunkard feels very virtuous when abusing a dope fiend.

No case on record.

There is no case on record of a cough or cold resulting in pneumonia or consumption after Foley's honey and tar has been taken as it will break up your cold quickly. Refuse any but the genuine in a yellow package. Contains no opiates, is safe and sure. For sale by all druggists in Tecumseh.

A man is not as apt to lie about his age as a woman, but he evens the score by telling about his salary.

Kodol digests what you eat and quickly overcomes indigestion, which is a forerunner of dyspepsia. It is made in strict conformity to the National Pure Food and Drugs Law and is sold on a guarantee relief plan. Sold by B. J. Pulver.

How to remain young.

To continue young in health and strength, do as Mrs. N. F. Rowan, McDonough, Ga., did. She says: "Three bottles of Electric Bitters cured me of chronic liver and stomach trouble, complicated with such an unhealthy condition of the blood that my skin turned red as flannel. I am now practically 20 years younger than before I took Electric Bitters. I can now do all my work with ease and assist in my husband's store." Guaranteed at C. A. Wright's drug store. Price 50c.

BIG BATTLE FOUGHT.

Reports Say Nicaraguans Won a Decisive Victory Over Hondurans and Salvadoreans.

Managua, Nicaragua, March 22.—A dispatch received here from the front, says:

"The Honduran and Salvadorean army, numbering over 5,000 men, attacked the Nicaraguan positions at Portillos de Namasique, and after three days and two nights of fighting, the Hondurans and Salvadoreans were completely defeated, leaving hundreds of dead and wounded on the battlefield.

"The Nicaraguans also captured many prisoners, among them being several high officers, besides 2,000 rifles and great quantities of all kinds of war munitions.

"The defeated Salvadorean officers included Gens. Presa, Avolar and Colocho. The Honduran commander defeated was Gen Liconia.

"The Nicaraguans lost many men wounded and had a few killed.

"Gen. Lopez Garcia and Col. Pedro Nolasco have been defeated at Marata by the Honduran revolutionary and Nicaraguan forces. Many Honduran soldiers and a number of rifles, with ammunition, were captured by the allied troops.

"La Ceiba, a Honduran port on the Atlantic, has been captured by the Nicaraguan forces."

Armory Not Fit for Horse.

Lansing, Mich., March 22.—Lieut.-Col. Booth, of the Sixth United States infantry, who has been inspecting the National guard in this state, told the house committee on military affairs Thursday morning that he did not see how the guard could be kept together, considering the armories they have to inhabit. He mentioned the Pontiac armory as one of the worst. "It's an old stable," said the colonel. "It might do to stable draught horses in, but it isn't fit to stable a saddle horse, let alone the guardsmen."

Firebugs at Work.

Tuscola, Mich., March 22.—Tuscola appears to have a pyro-maniac. For the past year numerous disastrous fires have threatened the destruction of the town and in each instance undeniable signs of incendiarism have been found. The authorities haven't the slightest clue. The only fire protection here is a bucket brigade, and families are in terror for fear their homes will be burned over their heads at any hour. Whoever fires the buildings apparently has no other aim than to see them burn.

Back to Saw Mills Again.

Bay City, Mich., March 22.—The Richardson Lumber Co., of Alpena, has purchased the old McEwan mill site, consisting of about 20 acres, and will erect a large saw mill thereon. The company has enough hardwood timber to keep the mill running for 20 years, and in addition to the saw mill, will have a hardwood flooring plant, and possibly a wood alcohol factory. The construction work will be started in a short time.

Sent Up for Eloping With Girl.

Alpena, Mich., March 22.—Miles Wilder, aged 46, the Hillman man who eloped with a 15-year-old girl a month ago, has been convicted in the circuit court and sentenced to from one to two years in Jackson. The runaway couple was apprehended by the Bay City police upon alighting from the train at the depot, and held for the Alpena authorities. The charge against Wilder was that of abducting a girl under age.

Why not work together.

Some weeks since the HERALD received a circular from "Good Roads", Earle State Highway Commissioner urging the HERALD to urge the farmers of the township to buy crushed stone of the Pencil Institution at 50c a load and use it to make roads and to vote against the employing of convicts to make binder twine and in the Free Press of a few days since was an article by this same State Highway commissioner the following of which is a part:

Pittsburg, Mar. 12.—Hon. Horatio S. Earle, state highway commissioner of Michigan, spoke at the good roads convention here this afternoon. He said in part:

"Our railroads are the best in the world. Our steamboat lines in the interior are superior to those of any other nation; our coastwise lines are equal to any and our international lines are going to be alright. But our common everyday wagon roads! By gum, they are by all odds the poorest on the face of the green earth. No other civilized nation on the globe but has better wagon roads than we have. Why is it? Is it because we are poor? Well, hardly. The trouble is that we are so blamed rich that we can live even with poor roads. It would bankrupt a commonly blessed nation to haul the products of field and factories over such abominable roads.

"What are we going to do about it?" The nation has paid out in land and money to railroads and rivers and harbors $2,000,000,000 or $1,000 per mile for every one of the 2,000,000 miles of public wagon roads in this home land of ours. Is'nt it about time we insisted upon having some national aid on our highways, that the roads of our country may show signs of civilization, may show that our religion has taken effect, and that we are putting our education to a good use? No other country ever got good roads without national assistance. Then why should there be longer delay in following the precedent established by all the nations that have good roads?

Now the HERALD knows little about roads but as much as the average farmer who knows less about making a good road than a boy knows about latin and no doubt as much as Earle knows about binder twine. Now it is supposed by the HERALD that Earle was elected State Highway Commissioner to at least give advice about the highways, not to buck for or against binder twine. But on one thing Earle is all right. Michigan takes the banner for poor country roads and whose fault is it?

On town meeting day the farmers get together in front of the election place and vote for "path master." Every man in the township refuses to accept the office so that finally the poorest man takes the job. The supervisor assesses the taxes, to be paid in work on the roads. The farmer attempts to avoid paying the tax and if he pays it sends a toy or old man and worn out team and if the day is warm and pleasant sits out under a tree to watch the work go on.

The average path master knows nothing about how the work should be done, so if it is done at all it is usually done wrong. The next year another man reluctantly takes the job and undoes what the man has done the year before. The township highway commissioner is little better. Last year John Schreder as commissioner bought some clay and with that and gravel covered some sandy road on the way down to the Mills farm that has been well nigh impassable for years.

Now if Schreder had been elected for another year he would have kept on with the bad stretch of road and in time the road would have been made good. This path master business is all wrong, the tax should be paid in cash and spent on the roads under the direction of the township street commissioner, who should receive a salary or pay for days' work when done and the state commissioner should know and tell him how to do it in a proper manner to suit each different section. In sections where there is no gravel crushed stone should be used, different methods should be used in different sections.

Now it seems that this man Earle is a good man for commissioner and if he would devote his energies to the subject of roads and not to other things with which he has no business, he alone could revolutionize the country roads in Michigan and what other man could or would do it.

A day or two after the HERALD received a circular from Gov. Warner speaking in favor of the binder twine industry in the penal institutions in Michigan. The HERALD is in favor of these institutions being self supporting, no matter what line of business it hurts or helps, for convicts must be kept and the state must keep them. If it is possible make them earn their own food and clothes.

An Ideal Laxative.

Physics and Cathartics which purge, unload the bowels, and give temporary relief, but irritate, and weaken the digestive and expulsive organs. Laxative Iron-ox Tablets are as different in effect as truth is from falsehood. They nourish the bowel muscles and nerves, giving them strength and vigor to do the work nature intended, thus effecting a permanent cure by perfectly safe and natural means. The best laxative for children. Chocolate coated tablets, easy to take, never gripe or nauseate. 10c, 25c and $1.00 at all drug stores.

Girlhood and *Scott's Emulsion* are linked together.

The girl who takes *Scott's Emulsion* has plenty of rich, red blood; she is plump, active and energetic.

The reason is that at a period when a girl's digestion is weak, *Scott's Emulsion* provides her with powerful nourishment in easily digested form.

It is a food that builds and keeps up a girl's strength.

Democratic Caucus.

Notice is hereby given that the democrats of Raisin will meet in caucus a the town hall in the town of Raisin Friday, March 29, at 2 o'clock in the afternoon for the purpose of putting in nomination a township ticket to be supported at the township election to be held in said township the first Monday in April, 1907 and for the transaction of such other business as many properly come before the caucus.

By order of committee.

To Hear From Cooper

L. T. COOPER.

¶. We wish to call the attention of the public to a to a series of "short talks" by L. T. Cooper that are to be published in this paper.

¶. The Cooper medicines have made a remarkable record in the leading cities of the United States during the past two years and young Mr. Cooper has been the subject of much newspaper comment.

¶. Mr. Cooper has met and talked with thousands of sick people in his visits to almost every large city in the country.

¶. He is noted as a man of very few words and tells briefly in these articles what his preparations are doing for sick people and why they have been successful wherever introduced.

¶. Mr. Cooper's theory is that one half of all human ills is caused by stomach trouble, and the wonderful success of his preparations in the treatment of stomach disorders, kidney and liver complaints, rheumatism, etc., seems to have proven this claim.

¶. Some time ago we secured the agency for these celebrated medicines. We have been gratified by the extreme satisfaction of those who have purchased them from us and advise every one to read these "short talks" as they are full of terse, common sense.

THE FAOMUS OPTICIAN of Detroit

The eye, when properly cared for affords the keenest delight because of the pleasures we are able to enjoy through its medium When not cared for and its warnings are unheeded, it becomes an intrument of torture. Headaches, eye pains, burning, itching sensation, strained vision, nervous troubles and many bodily ills are the results accruing from over worked eyes, eyes that need help. My examination reveals all hidden troubles, and it is my province to fit the right glass to any and all defects of vision. SATISFACTION GUARANTEED.

The Cost of Tea

A difference of ten or twenty cents a pound in the cost of tea makes a very slight difference (if any at all) in the cost per cup. Did you ever stop to think of that? Do not sacrifice a bit of your cup enjoyment for this supposed saving in cost, for it is only a supposed saving.

TECUMSEH CHIEF TEA

costs 50c a pound—a very small fraction of a cent per cup. Because of its strength it goes farther therefore in reality, it costs no more than the low price kind The pleasant taste it leaves in your mouth is due to its flavor.

Prove to yourself the truth of this. Order a pound to-day and ask for a canister to keep it in. If you are not satisfied, your money back.

PREVENT SMUT

THE WM. HAVDEN MILLING CO., Tecumseh, Mich. have secured the agency of

"SPOROCIDE"

that will positively prevent smut in oats. Guaranteed or money refunded. The treatment costs but 10c per acre.

In 150 tests made by substantial farmers who used Sporocide in 1906, the average increase in yield per acre was 10¼ bushels, or a net gain of from $3 to $4 per acre on an outlay of 10c. This is worth looking into. Write for testimonials.

HOME AGAIN

From a three weeks trip to Cuba planned by the Detroit Free Press.

MISS LENA SMITH

One of the party returned to Tecumseh Yesterday noon.

On Friday, Mar 1, Miss Lena Smith, one of the successful contestants in the Free Press voting contest left Tecumseh to join the Tour-to-Cuba party at Detroit from which place the tourists left on a special Pullman. Wednesday Tecumseh friends welcomed Miss Smith home, having been gone nearly three weeks during which time the party, consisting of 21 young ladies, accompanied by two guides visited many interesting places in Cuba, Florida and other southern states. In speaking of the part's return to Detroit we clip the following from the Free Press:

Greeted by the cheers of throngs of relatives and friends, the strains of martial music and the blaze of fireworks, nineteen young women of The Free Press Trip to Cuba party were vociferously welcomed home at the Union depot Tuesday night.

It was a glorious climax to a glorious outing. Long before the arrival of The Free Press special Pullman, a crowd that completely filled the capacious waiting room of the depot and flowed out on the landing of the station had gathered for the homecoming.

Those who waited so patiently were given plenty of warning of the arrival. Just as a distantly clanging bell and a screeching locomotive were heard in the distance the explosion of fireworks and screaming of sky rockets heralded the fact that the tourists had at last arrived. Far down the tracks red lights gleamed in token of a glad welcome from loved ones, while the balcony of the depot the sweet strains of "Home, Sweet Home," floated out upon the air.

Then the little colony of happy girls alighted from the train and as they filed down the steps, a chorus of young men sang "Bring Back My Bonny to Me," and a hearty response was chorused from the throats of the returning party.

Then came the exchange of greetings. Through the dense throng of waiters the homecomers crowded their way in anxious search for fathers, mothers, brothers and sisters. There was no show of fatigue from the long journey. Bright eyes and cheeks that for two weeks had been kissed by tropic suns attested the fact that these young guests of The Free Press were just as full of enthusiasm as they were the day they started on their tour.

The HERALD hopes to be favored soon with a full account of the trip.

Obituary of Mrs. George Keyser.

Sarah J. Morse was born in Jackson, Mich., Dec. 3, 1842. A little later her parents moved to Clinton, this county, where her childhood was passed, and where she was married in 1865 to Geo. J. Keyser. Two children were born to them, a daughter, Dora May, and a son, Isaac, the latter dying at the age of 8 years. Mrs. Keyser was one of a family of seven children, only three of whom survive her, Jerome Morse of Los Angeles, Cal., Mrs. Geo. Sisson of Tecumseh, and Mrs. Wheeler Tate of Ann Arbor.

In her immediate family, besides her husband, she leaves her daughter, Mrs. Lamont I. Bidwell of Detroit, and one granddaughter, Hazel-Clark Bidwell. Her death occurred suddenly Thursday, Mar. 14. The funeral was attended from her late home Sunday afternoon at 2 o'clock, Rev. E. Wollam officiating. Burial was in Brookside cemetery by the side of her little son.

"We'll hide her loving memory in our hearts;
We'll follow in the pathway that she trod.
We'll make each day another step upon
The stairway leading up to her and God."

George Austin.

The remains of George Austin, who was killed in Detroit Sunday, arrived here Tuesday night and were taken to the home of his sister, Mrs. Horace Westcott, from which place the funeral was held Wednesday morning, Rev. Kamm officiating. Interment at Ridgeway. Mr. Austin was also a brother of Dan Austin of Adrian, formerly of this place.

Exelby-Benedict.

The beautiful farm home of Mr. and Mrs. C. B. Exelby in Britton was the scene of a pleasant gathering last evening, the occasion being the marriage of their daughter, Miss Dora, to Raynor Benedict of Tecumseh, in the presence of 60 invited guests. At the first notes of the wedding march played by Miss Exelby, cousin of the bride, the bridal party entered the parlor accompanied by Bernice Isley of Holloway, as bridesmaid and Leon Benedict, brother of the groom, as best man, Rev. Kooiker of Kalamazoo, former pastor of the Presbyterian church, performing the ceremony.

The bride was prettily attired in a gown of pale blue cloth and carried a cluster of bride's roses. The bridesmaid wore white lawn and carried white carnations. Following the marriage service a three course supper was served at small tables by friends of the happy couple. Mr. and Mrs. Benedict left on the midnight train for a week's visit in Olivet.

Among those present from here were, Mrs. Beamish and daughter, Miss Lizzie, Mrs. Ben Ellis, Mr. and Mrs. J. L. VanDoren and son, Albert, Mrs. Hannah Margeson, S. W. Boyce and family, J. T. Boyce, wife and daughter, Mildred, Mr. and Mrs. C. W. Benedict, Mrs. John Benedict, Mrs. B. J. Rector and Earl Rector.

Saved her Son's life.

The happiest mother in the little town of Ava, Mo., is Mrs. S. Ruppee. She writes: "One year ago my son was down with such serious lung trouble that our physician was unable to help him; when, by our druggist's advice I began giving him Dr. King's New Discovery, and I soon noticed improvement. I kept this treatment up for a few weeks when he was perfectly well. He has worked steadily since at carpenter work. Dr. King's New Discovery saved his life." Guaranteed best cough and cold cure by C. A. Wright, druggist. 50c and $1. Trial bottle free.

Republican Caucus.

At the republican caucus held in the council building last night, the following township officers were nominated:

Supervisor—John Schreder.
Clerk—Leon Rosacrans.
Treas.—H. S. Temple.
Justice of the Peace—J. W. Whightman.
Highway Com.—R. W. Cole.
School Inspector—L. J. Heesen.
Board of Review—Henry Stevens.
Constables—John Smith, Ed Pritchard, Bert Mominee, Wm. Bennett.

ENJOY EATING.

Good digestion can be readily gained with Mi-o-na stomach tablets.

It is torment to look upon a tempting dinner and realize that to eat freely means distress and suffering.

Let us tell you how you can enjoy eating so that the heartiest meals will set well and cause no pain, distress or uncomfortable feeling.

If you cannot eat and enjoy three good, hearty, ratisfying meals a day without any feeling of discomfort, your stomach is weak and needs the strength which Mi-o-na stomach tablets will give it. You cannot afford to delay treatment for the longer you allow the digestive organs to be weak, the harder it will be to get help.

The remarkable curative and strengthening power of Mi-o-na is attested by the guarantee which C. A. Wright gives with every 50c box. "I return the money if Mi-o-na fails to cure."

If you find that eating well cooked and properly chewed food is followed by heaviness and load on the stomach by bloating, gulping of acids and wind, distress, nervousness, headache, trouble to sleep or by any other symptoms of disordered or weak stomach, should begin the use of Mi-o-na at once. It is guaranteed by one of the best known druggists in Tecumseh to cure all disorders of the stomach or cost nothing. A guarantee like this means a good deal.

STRAIN TOO GREAT.

Hundreds of Tecumseh readers find daily toil a burden.

The hustle and worry of business men.

The hardwork and stooping of working men.

The women's household cares

Are too great a strain on the kidneys.

Backache, headache, sideache,

Kidney troubles, urinary troubles follow.

A Tecumseh citizen tells you how to cure them all.

I. H. Welch, retired, living on Union street, Tecumseh, Mich., says: "I can cheerfully recommend Doan's Kidney Pills as they have been of great benefit to me. A great number of years ago, I was working on a barn, and in helping to lift one of the large timbers, I strained myself and the doctor said I tore one of my kidneys loose. I began treatment immediately, but the remedies I used did not seem to take effect. At night my rest was disturbed on account of too frequent action of the kidneys, and in the morning would feel tired and unrefreshed. Finally, Doan's Kidney Pills were brought to my attention and I began them. I noticed improvement in my condition in a very short time and I continued taking them until I was cured. I can honestly say I now feel better than I have for a number of years. I have recommended Doan's Kidney Pills to a number of my friends who have used them with the same satisfactory results."

For sale by all dealers. Price 50 cents Foster-Milburn company, Buffalo, N Y., sole agents for the United States. Remember the name Doan's, and take no other.

Dyspepsia is America's curse. Burdock Blood Bitters conquers dyspepsia every time. It drives out impurities, tones the stomach, restores perfect digestion, normal weight and good health.

To meet some people gives you the strange, creeping feeling that you experience after taking medicine.

Itching, bleeding, protruding or blind piles yield to Doan's Ointment. Chronic cases soon relieved, finally cured. Druggists all sell it.

One lie wouldn't be so bad, if you didn't have to tell half a dozen to square it.

The News—No Pure Drug Cough Cure Laws would be needed, if all cough cures were like Dr. Shoop's Cough Cure is—and has been for 20 years. The National Law now requires that if any poisons enter into a cough mixture, it must be printed on the label or package.

For this reason mothers, and others, should insist on having Dr. Shoop's Cough Cure. No poisons marks on Dr. Shoop's labels—and none in the medicine, else it must by law be on the label. And its not only safe, but it is said to be by those that know it best, a truly remarkable cough remedy. Take no chance, particularly with your children. Insist on having Dr. Shoop's Cough Cure. Compare carefully the Dr Shoop package with others and see. No poison marks there! You can always be on the safe side by demanding Dr. Shoop's Cough Cure. Simply refuse to accept any other. Sold by all dealers.

The Best Laxative for Children.

Parents should see to it that their children have one bowel movement at least every day. Do not give laxative syrups or purgative pills, as they are for yourself to select, but literally tear their little insides to pieces. Instead, the bowels weakened and injured more seriously than before. Laxative Fruit Syrup is the best laxative and strengthen the bowels, the stomach and little organs to healthy activity. Chocolate coated tablets, easy to take, never gripe or nauseate. 25c, 50c and $1.00.

Does Your Heart Beat

Yes. 100,000 times each day. Does it send out good blood or bad blood? You know, for good blood is good health; bad blood, bad health. And you know precisely what to take for bad blood—Ayer's Sarsaparilla. Doctors have endorsed it for 60 years.

One frequent cause of bad blood is a sluggish liver. This produces constipation. Poisonous substances are then absorbed into the blood. Keep the bowels open with Ayer's Pills.

Commissioners' Notice.

STATE OF MICHIGAN, county Lenawee, ss.

In the matter of the estate of MARY E. SUTTON, deceased.

The undersigned having been appointed by the probate court of said county, commissioners to receive, examine and adjust all claims and demands of all persons against the estate of said deceased, do hereby give notice that we will meet for that purpose at the store of Satterthwaith Bros. in the village of Tecumseh, Lenawee county, Michigan, on the 25th day of April, 1907, and on the 11th of September, 1907, at ten o'clock in the forenoon of each of said days.

And that six months from the 18th day of March, 1907, are allowed by said probate court for the creditors of said estate to present their claims to us for examination and allowance.

Dated March 13th, 1907.

Mortgage Sale.

Whereas default has been made in the payment of the money secured by a mortgage dated the 12th day of April, 1905 executed by Eva Siler of Riga Township, Lenawee County, Michigan, to Albert Collins of Macon township, Lenawee County, Michigan, and which said mortgage was recorded in the office of the Register of Deeds of Lenawee County, Michigan, in Liber 166 of Mortgages on page 190 on the 14th day of April A. D. 1905 at 10:15 o'clock A. M; and whereas the amount claimed to be due on said mortgage at the date of this notice is the sum of Four Thousand One Hundred Sixty-Dollars and Fifty-four cents ($4160.54) of principal and interest and the further sum of Twenty-five Dollars ($25.00) as an attorney fee stipulated for in said mortgage, and which is the whole amount claimed to be unpaid on said mortgage, and no suit or proceeding having been instituted at law to recover the debt now remaining secured by said mortgage or any part thereof, whereby the power of sale contained in said mortgage has become operative.

Now therefore, notice is hereby given, that by virtue of the said power of sale, and in pursuance of the statute in such case made and provided the said mortgage will be foreclosed by a sale of the premises therein described at public auction, to the highest bidder, at the east front door of the Court house in the City of Adrian in said County of Lenawee, on the 29th day of April next, at 10 o'clock in the forenoon of that day, which said premises are described in said mortgage as follows to-wit:—Being that part of section three (3) of Town Five (5) South, Range Five (5) East which is bounded as follows: Commencing at the Northwest corner of said section three, thence running East seventy-five rods and twenty-one links; thence South sixty-seven rods and seven and one fourth links; thence West seventy-seven rods and nine links; thence North sixty-six rods and twelve links to the place of beginning.

Also all that other tract or parcel of land situated in the township of Macon Lenawee county, Michigan, bounded and described as follows to-wit:—By a line commencing sixty-six rods and twelve links South of the Northwest corner of section three (3) Town Five South, Range five East, thence running East one hundred and sixty rods; thence South forty and one half rods; thence West one hundred sixty rods; thence North forty and one half rods to the place of beginning. Containing in both parcels above described Seventy-three acres of land more or less.

Dated January 31, 1906.

Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's **Swamp-Root**, the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle—Home of Swamp-Root—by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Indigestion

Stomach trouble is but a symptom of, and not in itself a true disease. We think of Dyspepsia, Heartburn, and Indigestion as real diseases, yet they are symptoms only of a certain specific Nerve sickness—nothing else.

It was this fact that first correctly led Dr. Shoop in the creation of that now very popular Stomach Remedy—Dr. Shoop's Restorative. Going direct to the stomach nerves, alone brought that success and favor to Dr. Shoop and his Restorative. Without that original and highly vital principle, no such lasting accomplishments were ever to be had.

For stomach distress, bloating, biliousness, bad breath and sallow complexion, try Dr. Shoop's Restorative—Tablets or Liquid—and see for yourself what it can and will do. We sell and cheerfully recommend

"In 1897 I had a stomach disease. Some physicians said dyspepsia, some consumption. One said I would not live until spring. For four years I existed on boiled milk, soda biscuits and doctor's prescriptions. I could not digest anything I ate; then I picked up one of your almanacs and it happened to be my life-saver. I bought a fifty-cent bottle of Kodol and the benefit I received from that bottle all the gold in Georgia could not buy. In two months I went back to my work, as a machinist and in three months I was well and hearty. May you live long and prosper." C. N. Cornell, Roding, Ga., 1906. URGE ACTION AT ONCE

Governor May Do So on Two-Cent Railroad Fare Bill.

FINAL HEARING IS PULLED OFF

Corporations Again Ask That Measure Be Not Passed—Warner and Commissioner Glasgow Present—Legislature May Get Special Message.

Lansing, Mich., March 26.—The question is generally asked here as to whether the governor can out through the bill forcing railroads to grant two-cent passenger fares.

He has fixed this week for a test, being of the opinion that after 45 days' session, the legislature ought to have sufficient information on the subject to decide what to do with the bill. It is expected he will send a special message to the legislature today, urging immediate action on the bill.

Owing to wide difference of opinion among legislators as to what basis should be used in fixing the two-cent fare rate, it is a question whether the governor will get what he wants. The railways had their final hearing on the bill Monday afternoon before the senate committee.

Pleads for Pere Marquette.

Fred W. Stevens of Detroit, on behalf of the Pere Marquette, made the principal argument, and at its close he was warmly congratulated on the excellence of his presentation of the subject from the railways' point of view. He contended that the bill proposed to reduce the earnings of the Pere Marquette at least one-quarter, without in any way reducing its expenses, and said it would be oppressive, unfair and amount to confiscation within the meaning of the constitution.

He urged further delay and a more thorough investigation of the subject before final action. Stevens declared that neither the governor nor the railway commissioner had made such an investigation as enabled them to decide whether a two-cent fare would be just and equitable. He quoted from a report of the Wisconsin railway commission to show that after nine months' investigation in that state the commission had recommended two and one-quarter cents as the lowest rate that could reasonably be established.

Other Speakers.

Henry Russel spoke on behalf of the Michigan Central; then G. F. Warren, of the Detroit, Toledo & Ironton road, said his company was about to move its headquarters from Toledo to Detroit and he wanted to know what kind of a reception the company could expect in Michigan, in view of proposed railway legislation.

During the latter part of Stevens' talk Gov. Warner and Railway Commissioner Glasgow came into the room. Glasgow talked for some time in defense of the bill. He remarked that the railway men were excellent jugglers of figures and all arrived at their conclusions by a different route.

He believed the railways were objecting simply because it has become a habit with them to object. He read extracts from letters received from two railroads in Ohio, in which it was stated that the two-cent fare law in that state had not materially affected their earnings.

Stevens took exception to the commissioner's remarks regarding the juggling of figures, and asserted that the commissioner is in a sense a judicial officer of the state, who often has to decide questions between the railways and the people. On that account he doubted the propriety of Glasgow's action in urging the passage of the bill. The governor took notes during the hearing and is expected to reply to the railway arguments in his special message today.

Benton Harbor, Mich., March 26.—The scare which swept over the Michigan fruit belt last October, just after the heavy snow which fell on October 9, is beginning to subside now that the first warm days of spring have begun to swell the buds and brought back to the fruit trees the life which it was thought had been snuffed out by the freeze. Those who saved their trees are now rejoicing, for many that they believed killed are beginning to show signs of life and give promise of bearing a good harvest of peaches.

Worked like a charm.

D. N. Walker, editor of that spicy journal, the Enterprise, Louisa, Va., says: "I ran a nail in my foot last week and at once applied Bucklen's arnica salve. No inflammation followed; the salve simply healed the wound." Heals very sore, burn and skin disease. Guaranteed at C. A. Wright's. 25c

UNCLE SAM IS PARTIAL

Such Is Belief of Business Interests of Southern States.

THEY CONFER AT NEW ORLEANS

Declare Transportation Facilities to Canal Zone Are Cheaper Via Gulf of Mexico—New York Steamship Lines Get Too Much of the Business.

New Orleans, March 26.—Delegates from the south assembled at the Southern States and Gulf Coast Panama conference Monday, adopted the following resolutions:

"The natural economical route for a large part of the United States for passengers and materials intended for Panama, is via the ports of the Gulf of Mexico.

"The Isthmian Canal commission has been operating what is practically a government-owned steamship service from New York to Panama, and this exclusive service, via New York, places the industries of the south, the gulf states, the Mississippi, Ohio, Missouri, Alabama and Georgia valley and contiguous territory at a prohibitive disadvantage.

Appeal to Roosevelt.

"The Southern States and Gulf Coast Panama conference represents to President Roosevelt that at least two of the government's steamships should be operated out of a gulf port, because of its closer proximity by some six hundred miles to Colon than New York.

"We strongly protest against the discriminations of the purchasing department of the Panama Railroad Steamship line, whereby the large majority of orders are confined to the eastern states. We see in this virtual monopoly of present canal trade, the gravest danger in future prosperity of sections of the United States, particularly the southern and gulf coast states, in which the persistent diversion of trade to eastern ports will have the certain tendency to establish and maintain a channel of commerce in that direction, from and through the Panama canal when it shall have been completed."

Blackburn Explains.

Former Senator Joseph Blackburn, of Kentucky, member of the canal commission and representative of Secretary of War Taft, at the meeting, said that if the government did not maintain its own line of steamers, as at present, the United States would be at the mercy of two foreign-owned lines, in transporting supplies to the isthmus. He said also that the steamers could not be divided beween New York and a gulf port without impairing the service to the detriment of the workers on the canal. He said there is no discrimination against the south. At the first session, W. J. Oliver, a contractor, made the following criticism of the canal work:

"It is to be greatly regretted that the administration has decided to place the consruction of the Panama canal in the hands of army engineers instead of committing its fate to contractors.

"No matter how capable the army engineers may be, their training has not been along the lines of construction direct on a large scale, they are totally without organization to draw from and will always be wound up in costly red tape."

Adrian Man Leaped Into River.

Pittsburg, Pa., March 26.—E. C. Bisbee, aged 43, of Adrian, Mich., attempted to commit suicide by jumping into the Allegheny river near the Seventh street bridge on the Allegheny side. He was saved from drowning by Harry Locke, baggageman at the B. & O. station, assisted by several boatman. When questioned by Locke, the man said: "The president told me to do it."

Hanged Himself on Train.

Montgomery, Ala., March 26.—John Hippo, 35 years old, hanged himself in a toilet room on a Louisville & Nashville train Monday. He left no letter. He had $13.90 and a ticket from San Francisco to New York. He tied a handkerchief about his neck and swung from a lamp bracket. He was dead when found. His body was taken from the train at Bay Minette.

Roumanian Villages Burning.

London, March 26.—In a dispatch from Sofia, a correspondent of the Morning Post says he has been informed from a reliable source at Rustchuk, that 10 Roumanian villages near there are burning and that the flames are visible from Rustchuk.

By the explosion of a boiler of a locomotive drawing a Santa Fe freight train, near Onava, N. M., Monday, three men were killed.

HER CAPITAL FALLS

Honduras Completely Vanquished by the Nicaraguans.

CONFLICTS HAVE BEEN BLOODY

Two Hundred Men Killed at Choluteca—Fleeing General of Defeated Army Tells of Barbarous Acts Committed by Victorious.

Washington, March 26.—Senor Corea, the Nicaraguan minister, last night received a dispatch from President Zelaya of Nicaragua, announcing the capture and occupation of Tegucigalpa, the capital of Honduras. The capture of Tegucigalpa, coupled with the recent defeat of Honduras and Salvador at Choluteca and the flight of President Bonilla of Honduras, puts an end to the Central American war. It is now probable that Nicaragua will install another president at Tegucigalpa in lieu of President Bonilla, and then withdraw her troops to her own territory.

Managua, Nicaragua, March 26.—A few details of the capture of the Honduran-Salvadorean position at Choluteca by the Nicaraguan forces have been received. The Nicaraguans captured 1,500 rifles, a large amount of ammunition and quantities of field equipment.

The Hondurans and Salvadoreans had 200 men killed and about an equal number wounded.

Some of the Nicaraguan wounded who were captured by the enemy before President Bonilla fled, are reported to have been hanged and their bodies barbarously mutilated.

President Zelaya has issued orders to the Nicaraguan forces that all the wounded prisoners are to be treated with proper care.

Puero Cortez, Honduras, March 21, via. New Orleans, March 26.—News of the sacking of San Marcos, Honduras, under pitiful circumstances, an account of a fresh revolt in the interior of Honduras and information of considerable financial loss to American interests because of the war, have been received here.

The sacking of San Marcos was related by General Garcamo, of the Honduran army, whom Nicaraguan dispatches said had been killed at San Marcos on Feb. 26. General Carcamo was concealed for several days after his defeat at San Marcos and finally gained the Honduras lines, uninjured. He then gave an account of outrages perpetrated on the women and defenseless citizens of the captured towns, which he said was looted and sacked by the soldiers of Nicaragua. Details of his story have not reached here.

The principal loss to Americans have occurred in the banana industry. The reports of the Honduras interoceanic railroad, which transports the greater part of Honduras' banana output from the interior to the seaboard, say that the shipments of bananas has already fallen off to about one-quarter its usual volume. As an example of the desperate straits of this industry, it is reported that little boys and girls have been sent into the fields to cut and gather the bananas, while the women transport and load them on the railroad cars. The men have gone to the war.

The American gunboat Marietta is said to have done good work in the interests of American shipping at Trujillo, the first Honduran port captured by Nicaraguans.

Strike Seems Inevitable.

Chicago, March 26.—A crisis was reached at midnight last night in the negotiations between western railroads and their employes over the wage question, and "it is up to the general managers," according to representatives of the 50,000 employes who have voted o strike, unless their demands are granted. The reply of the general managers to this sentiment, is "we have conceded all we can." Today both sides will meet, and unless there is a recession on one side or the other, a strike will take place on forty railroads, with a trackage of 95,000 miles and an annual pay roll of $320,000,000. These roads are standing together.

Found at last.

S. A. Harmon of Lizemore, West Va., says: "At last I have found the perfect pill that never disappoints me and for the benefit of others afflicted with torpid liver and chronic constipation, will say, take Dr. King's New Life pills." Guaranteed satisfactory. 25c at C. A. Wright's.

KEPT THEM WAITING LONG.

Justice Fitzgerald Didn't Show Up for Hours in the Thaw Case.

New York, March 26.—In anticipation of some action on the part of Justice Fitzgerald regarding the appointment of a lunacy commission for Harry K. Thaw, District Attorney Jerome and all of the counsel for the defense were present in the criminal branch of the supreme court Monday morning at 11 o'clock. Justice Fitzgerald had fixed that hour for notifying the lawyers in case he should desire further evidence from either side or an argument of any sort. The defendant's family were all in court.

There was a long wait for Justice Fitzgerald, who did not arrive until after 3 o'clock in the afternoon. By this time the women members of the Thaw family had become tired out and had returned to their hotels. When the judge finally took his place on the bench he merely went through the formality of having the court session adjourned until Wednesday morning at 10:30 o'clock, the hour set last Friday for the jury to make its reappearance in the case. Justice Fitzgerald made no announcement whatever to the attorneys, the ceremonies in court occupying less than two minutes.

If Justice Fitzgerald decides to appoint a commission he will probably first excuse the jurors indefinitely, informing them that they will be duly notified when their presence is again desired. Then, after the jury retires, he will formally announce the appointment of a commission. If the judge decides not to appoint a commission, he may make no other announcement than to direct that the trial proceed.

NEWS IN BRIEF.

Colonel Albert L. Myer, 11th cavalry, has been selected for promotion to the rank of brigadier-general to fill a vacancy created by the death of General Wint.

Alexander Beaubien, said to be the first white child born in Chicago, died Monday, in that city, after a long illness. Beaubien was born in Fort Dearborn, on January 23, 1822.

The Boston theater, the largest and one of the oldest theaters in Boston, for years the home of grand opera, will be devoted to vaudeville next season. The B. F. Keith interests are said to be behind the move.

George S. McReynolds, formerly a prominent member of the Chicago board of trade, was Monday sentenced to an indeterminate term in the penitentiary on the charge of removing from his elevators, grain, on which warehouse receipts had previously been issued. The sentence may run anywhere from one to ten years.

Twenty idols, directly from the Congo district of Africa, where only a few months ago they were worshipped by savages, are part of a collection of curiosities that have just been presented to the American Museaum of Natural History in New York, by three trustees of the institution. The collection, which embraces 1,100 specimens, was obtained from Richard Douglas, who returned recently from Africa, and is the largest of its kind in America.

Only two deaths occurred among the 5,564 white laborers in the canal zone during February. Black water fever caused one of these deaths and tuberculosis the other. No deaths were reported among the 900 American women and children on the isthmus. The sick rate was 24 for every 1,000 persons for the month. Pneumonia was more prevalent than any other disease, 26 cases being reported. The annual death rate has now fallen to 4.2 per one thousand.

Pedagogues at Ann Arbor.

Ann Arbor, Mich., March 26.—This week will be a busy one in university circles, for the joint meetings of the Michigan Schoolmasters' club, the Michigan Academy of Science and the classical conference will be held the last four days, and during that time something like 25 sectional and joint meetings will be held, with over 100 speakers.

Big Dam Work Started.

Ann Arbor, Mich., March 26.—Active work has begun in the Huron river development, which has been planned for some time. Monday morning the work of constructing a new $15,000 power house on the site of the old Lowell Paper mill, which was burned last summer, was begun. The power plant will have three water-wheels.

Plead Guilty of Egg Theft.

Grand Rapids, Mich., March 26.—John Horan and Ernest Watts have been arrested in connection with the stealing of 6,000 eggs and 300 pounds of butter. They waived examination on a charge of grand larceny to the superior court and were bound over. They immediately proceeded to the latter and entered a plea of guilty. Sentence was deferred.

Beware of ointments for catarrh that contain mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescription from reputable physicians as the damage they will do is ten fold to the good you can possibly derive from them. Hall's catarrh cure manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury and is taken internally acting directly upon the blood and mucous surfaces of the system. In buying Hall's catarrh cure be sure you get the genuine. It is taken internally.

ROUND ABOUT US.

Thos Carney of Ann Arbor, while sawing wood with a buzz saw at the Staebler farm on the Dexboro road one day last week, slipped and fell across the saw in such a way as to make a terrible gash within a quarter of an inch of the jugular vein. It is a mystery how he happened to escape further injury.—Saline Obterver.

Geo. Thompson, who has just moved to the Ira Watkins farm east of town was kicked by a horse he was cleaning last Thursday night and both bones of his lower leg were broken. The attending surgeon from Manchester said tha the bones were badly splintered and that other injuries would keep him from work many weeks. Why the Indians Masked.

"Among the North American Indians the origin of the use of masks lay," says a writer, "in the desire to conceal the emotions. Thus should two warriors meet in combat the mask conceals any expression, whether of sympathy, fear or other emotion. For instance, the knowledge that fear was depicted on one's face and that his antagonist knew it would very possibly insure the defeat of the one whose feelings were betrayed to the other. So in religious ceremonies the orator wears a mask that he may speak his inspired words without interference or embarrassment, either of which might arise were his personality not thus veiled. He must not be overawed by anything, a condition which might ensue if he were recognized by friends, relatives or enemies, who might scoff at him. When masked the orator's duty is merely to listen to the inspiration which comes without effort through the medium of the spirit. And since this inspiration might seize any of the tribe at such times all could masked."

If Men Were Insects.

Out of every five animals in the animal kingdom four are insects, of which there are 250,000 species. In a human world of that sort for every grenadier man there would be four pygmies and of the pygmies 250,000 distinct races. These pygmies would be made up of a head, a middle body and a hind body each of which would be composed of hard, shell-like rings, and because their bodies were thus divided or insected they might be called insects. Their legs would grow out of either the middle body or the hind body. They would breathe through holes in the middle body and eat, drink, see, smell, with all kinds of apparatus made for the purpose in various and often widely separated parts of the body. If some of these pygmies were young, weighed a pound and ate like a silkworm, they would in two months devour forty-five tons of food. It is scarcely remarkable therefore, what millions of grasshoppers will do to a cornfield or gypsy moths to an apple orchard.

Polished and Vigorous.

Observing a passenger with the unlighted butt of a cigar in his fingers the street car conductor requested him to put it out.

"It is out, you chump," responded the passenger.

"Pardon me," resumed the conductor. "If I have failed to make myself clear. The condition to which I had reference was not one of mere temporary non-combustion, but of elimination, the eradication, I might say, of the physical presence of your nicotine laden remnant, this process followed necessarily by cessation of the odor now permeating an atmosphere already somewhat deficient, I fear, in the essential element of ozone. I'm a humble conductor, and my aim is to please; but, you big porcine stiff, you throw that cigar through the door or I'll throw you and it both. See?"

"Excuse me, professor," replied the passenger meekly, and the incident was closed.—Philadelphia Ledger.

The Newborn and the Dead.

Lavater in his "Physiognomy" makes the following curious remarks: "I have had occasion to observe some infants immediately on their births and have found an astonishing resemblance between their profile and those of their father. A few days after this resemblance almost entirely disappeared. The influence of the air and food and probably the change of posture had so altered the design of the face that you could have believed it a different individual. I afterward saw two of these children die, one at six weeks and the other at four years of age, and about twelve hours after their death they immediately recovered the profile which had struck me so much at their birth, only the profile of the dead child was, as might be expected, more strongly marked and more terse than that of the living."

The Turk and His Toilet.

Though the dress of the Turk is elaborate, he is most fastidious when it comes to questions of dress. He gives one hour or more to the adorning of his mustache. It is no mean task to change it from flaxen to jet black, perfume it with rose and amber and soothe the straggling ends. Another hour is given to the dyeing of his lips and the caring for his eyelids and another in practicing his most fascinating smile. He gives the same attention to his wearing apparel. It is of finest broadcloth or velvet and covered with embroidery of heavy gold. His arms and chest are left bare to show the splendid polish of his ebony skin. Grace is added by his capote, draped with great chic. But this splendor would be nothing without a sword with gilt handle, a watch with concealed miniature, a tobacco pouch of knitted gold and a pistol often studded with precious stones.—Chicago Tribune.

Do Ostriches Ever Die?

Nothing is positively known as to how long an ostrich will live. Some writers claim that it will live 100 years. Ostriches which are known to have been in captivity for forty years are still breeding and producing feathers. It is the experience of Arizona farmers that among the birds having good nutritious green feed deaths seldom occur except as the result of accident. A dog or other small animal will sometimes frighten ostriches and cause them to run into the fence, which may result in a broken leg. When this happens the bird may as well be killed, as few ever recover from such an injury.—National Geographic Magazine.

It is said the Columbiaville woolen mill ran behind $23,000 during the time Fred S. Klebart was superindent of the institution. The now superintendent who succeeded him several weeks ago has been stirring up things considerably and amongst other things has put in a new dyer.—Olinton Local.

Llewellyn Stephenson came home from Chelsea on Saturday and is still suffering from ear troubles. He was obliged to give up work in the Chelsea Standard-Herald office on account of the noise of the presses and may have to submit to another operation. At least he will have to take a temporary vacation.—Brooklyn Ex.

John Allwood went to Tecumseh last Saturday, where he established an agency for his Hudson greenhouse. He took some plants and cut flowers along when he went, and before he was ready to start on his return trip, he sold nearly all of the stock he had with him and states that he was treated splendidly by the people whom he had the pleasure of meeting while in that village.—Hudson Gazette.

The board of Managers of the Onsted telephone exchange met Monday morning and declared a semi-annual assessment of $100 per phone. An examination of the records showed that $92 was back on assessments and this money is needed. It was decided so give the directors of the various lines until April 15th to take care of this arrearage.—Onsted News.

How to remain young.

To continue young in health and strength, do as Mrs. N. F. Rowan, McDonough, Ga., did. She says: "Three bottles of Electric Bitters cured me of chronic liver and stomach trouble, complicated with such an unhealthy condition of the blood that my skin turned red as flannel. I am now practically 20 years younger than before I took Electric Bitters. I can now do all my work with ease and assist in my husband's store." Guaranteed at C. A. Wright's drug store. Price 50c.

A Good Chew That Stays Good

There's a good reason why you always find Blot Chewing Tobacco just as fresh and moist, clean and sweet and tasty as it ought to be to be enjoyable—and you'll find that reason in the neat, heavy paper, tinfoil-wrapped package in which you now buy

BLOT

CHEWING TOBACCO

And it is for that very reason altogether better than any other package of fine cut chewing tobacco you can buy for 5c. When you buy tobacco out of an open pail or in a flimsy wax paper bag you shouldn't be surprised when it is dry and tasteless and dusty—think of the way it has been exposed.

Get Blot and you'll get the best—and in a package that keeps it best. The revenue stamp guarantees full weight.

Tecumseh Chief Furnace.

Tecumseh, Mich., Feb. 29th, 1907.

Century Post Co.:

Sirs:—It has been like "the good old summer time" in my house since the furnace was put in the house last fall. It will heat the whole house, or by your system of dampers and drafts can confine the heat to one room. To anyone in need of a good, substantial, labor saving, fuel economizing, satisfaction giving furnace, I would recommend the Tecumseh Chief.

Yours Truly, F. M. GOHEEN.

Jackson, Mich., Feb. 22, 1907.

Century Post Co.:

Dear Sirs:—Your furnace was simply fine, both in heating and cleanliness, free from smoke. Never took so much real comfort a winter in my life of 77 years as this winter. No going to bed cold at night, or waiting for the house to warm in the morning. Wouldn't take $500 for it and do without it. MRS. J. M. PORTER.

Royal Oak, Mich., Feb. 22, 1906.

Century Post Co., Tecumseh, Mich.

Gentlemen:—would say in reply that I cannot make it strong enough as to my views in regard to your furnace. She is a "dandy" in every respect; both for heating and economy. I will use no more than 4½ tons of coal this winter, heating six (6) rooms, and can say my house has never been below 65 degrees temperature. Think you can sell several more here this season. Very truly yours,

(Signed) H. N. LAVERT.

We have many more testimonials equally as strong we would be glad to show you. If you contemplate putting in a furnace drop us a card, or send a plan of your house and we would be pleased to have one of our representatives call on you and make you a price. We can save you money.

PREVENT SMUT

THE WM. HAVDEN MILLING CO., Tecumseh, Mich. have secured the agency of

"SPOROCIDE"

that will positively prevent smut in oats. Guaranteed or money refunded. The treatment costs but 10c per acre.

In 150 tests made by substantial farmers who used Sporocide in 1906, the average increase in yield per acre was 10¼ bushels, or a net gain of from $3 to $4 per acre on an outlay of 10c. This is worth looking into. Write for testimonials.

Mrs. E. N. Flewelling entertained the Ladies Aid society of the First M. E church in her magnificently furnished parlors Wednesday from 2 to 5 p. m. The rooms were filled with about 75 congenial guests. After the business society was transacted, Miss Stella Lilly, Harvey's noted singer, sang two selections, "The Holy City," and one other accompanied by Miss Ida Byers on the piano, after which, dainty refreshments were served by Mrs. Flewelling and her mother, assisted by Miss Lilly, Miss Byers and Mrs. Bloodgood. All present report a pleasant time and left for their homes voting Mrs. Flewelling and her mother royal entertainers.—Herald, Harvey, Ill.

A Letter.

East Jordan, Mar. 23, 1907.

GEO. N. STACY, EDITOR:

Enclosed please find money order for subscription for another year. We are all well and still look for the two HERALDS as anxiously as ever. Fine winter here. First thunder and lightning today. Well, here is success to you all and the editor of the best county paper in Michigan.

Respectfully yours,
T. B. GOULD.

Mar. 21, '07.

Geo. N. Stacy,

DEAR SIR:—After taking your Tecumseh HERALD for over 30 years, I have no intention of discarding it now, seem to be greedier than ever to receive it. Enclosed I pay you for it for another year. L. L. BATES,

Next Monday will be April First.

The first day of March as is the usual custom in the HERALD office we sent with each copy of the HERALD a bill of owing for the paper to Jan. 1, 1908 to all. In reply we did not receive an unpleasant answer and as I know of and but three "stops." Hundreds of the list have already paid. Next Monday will be the last day according to the bills sent, that the paper will be sent for $1.00 per year. Some years when the roads were bad we have extended the time till May first.

This season the roads have been good but we will extend the time to Monday, April 8, so there can be no excuse for not paying. After Monday, April 8, the price will be $1.25 in the county for every sub not paid, outside of the county $1.50 and there will be no deviation to this rule. I have never refused to grant credit to any worthy person but if you desire the HERALD at the dollar rate which is cheaper than any other paper in the county pay up before April 8 or do not complain at the rate of $1.25.

Mrs. Harry Lee.

Mrs. Harry Lee died at her home in this village Sunday evening after a short illness. The funeral was held at the Episcopal church this afternoon at 2 o'clock, Rev. C. C. Kemp of Clinton, officiating. Burial at Brookside.

VAN TYNE DECLINES OFFER AT YALE.

University of Michigan Professor of American History Remains Here.

Ann Arbor, Mich., March 24.—Prof. Claude H. VanTyne, professor of American history in the University of Michigan, has turned down the offer made him by Yale university and will continue as the head of the department at Michigan.

Yale offered him a similar position at a salary of $4,000. It was thought certain he would accept. However, it is said that he is to receive an increase in salary. That, together with the fact that he did not think the work at Yale would be as agreeable as here, caused him to decline the offer.—Detroit Free Press.

Saved her Son's life.

The happiest mother in the little town of Ava, Mo., is Mrs. S. Ruppee. She writes: "One year ago my son was down with such serious lung trouble that our physician was unable to help him; when, by our druggist's advice I began giving him Dr. King's New Discovery, and I soon noticed improvement. I kept this treatment up for a few weeks when he was perfectly well. He has worked steadily since at carpenter work. Dr. King's New Discovery saved his life." Guaranteed best cough and cold cure by C. A. Wright, druggist. 50c and $1. Trial bottle free.

Modern Woodmen Banquet.

The losing side in the Woodmen's contest for new members banqueted the winning side in their hall Friday evening. The members of the Royal Neighbors were present. A pleasing program of solos, duets and recitations was rendered. Dr. L. M. Jones acted as toastmaster and the following responded to toasts:

The Contest—George Rubadou
Royal Neighbors—Thomas Wilson.
History of Woodmen Lodge—Lee McConnell.

Dancing followed the program. Much credit is due Elmer Lockwood, who had the affair in charge.

EFFECT OF THE FOOD LAW.

Driving many worthless catarrh medicines out of existence.

The Pure Food and Drug Law, which went into effect the first of January, has already shown the good that will follow its enforcement.

Many worthless remedies, that have been advertised for the cure of catarrh, a disease that is universally prevalent, have been driven out of existence by the Pure Food Law.

The effect of this is to increase the sale of remedies that are valuable and that fulfill the provisions of the law. Hyomei, for example, is meeting with a larger sale than ever before, and C. A. Wright is still selling it under a guarantee that it will cure catarrh or the money will be refunded. Hyomei is a scientific treatment that is recommended by the best physicians. It cures catarrh without stomach dosing, through inhaling medications that go right to the affected spots.

By breathing Hyomei three or four times daily through the neat pocket inhaler that comes with every outfit, its medicated, healing air penetrates to the most remote parts of the nose, throat and lungs, searches out and kills all catarrhal germs and soothes and heals any irritation in the mucous membrane.

The complete Hyomei outfit costs $1.00, extra bottles if needed, 50c and is sold by C. A. Wright under the guarantee that it will cure or cost nothing.

CONFIRMED PROOF.

Tecumseh people cannot doubt what has been twice proved.

In gratitude for complete relief from aches and pains of bad backs, and kidney ills, thousands have publicly recommended Doan's Kidney Pills. Residents of Tecumseh, who so testified years ago now say their cures were permanent. This testimony proves the worth of Doan's Kidney Pills to Tecumseh sufferers.

S. Erskine, barber, living on Evans street, Tecumseh, Mich., says: "For 10 years I was troubled with kidney complaint and dull pains in my back. It was always more severe after hard work or lifting. I was annoyed at night by the frequent action of the kidneys. The secretions were highly colored and showed much sediment. Doan's Kidney Pills were brought to my attention and they did me a world of good. That was 5 years ago and I think just as highly of the Pills now as I did then and I am glad of the opportunity to re endorse them."

For sale by all dealers. Price 50 cents Foster-Milburn company, Buffalo, N. Y., sole agents for the United States. Remember the name Doan's, and take no other.

A severe cold that may develope into pneumonia over night can be cured quickly by taking Foley's honey and tar. It will cure the most obstinate racking cough and strengthen your lungs The genuine is in a yellow package. For sale by all druggists in Tecumseh.

There is not the slightest sense back of a great deal of hope.

This is worth remembering.

Whenever you have a cough or cold, just remember that Foley's honey and tar will cure it Do not risk you health by taking any but the genuine. It is in a yellow package. Sold by all dealers in Tecumseh

The News—No Pure Drug Cough Cure Laws would be needed, if all cough cures were like Dr. Shoop's Cough Cure is—and has been for 20 years The National Law now requires that if any poisons enter into a cough mixture, it must be printed on the label or package.

For this reason mothers, and others, should insist on having Dr. Shoop's Cough Cure. No poisons marks on Dr. Shoop's labels—and none in the medicine, else it must by law be on the label. And its not only safe, but it is said to be by those that know it best, a truly remarkable cough remedy. Take no chance, particularly with your children. Insist on having Dr. Shoop's Cough Cure. Compare carefully the Dr Shoop package with others and see. No poison marks there! You can always be on the safe side by demanding Dr. Shoop's Cough Cure. Simply refuse to accept any other. Sold by all dealers.

VIOLENT SLUMPS.

Prices on Stock Exchange Take Another Drop.

New York, March 26.—There was a violent slump in prices on the stock exchange again Monday, accompanied by excited trading, but without news to account for it other than a decline in metal prices in London and higher rates for call money. The monetary situation did not seem to attract much attention, however; and, according to brokers and members of banking firms, there was nothing to explain the rapid melting away of prices, except that holders of stocks wanted to sell them, and apparently without regard to the price they got for their shares.

American Smelting was one of the weakest features, falling an extreme 13 1-4 points, but the United States Steel corporation shares and the railroads also made wide declines. It was noteworthy that throughout the day there was entire absence of the disturbing rumors of a fortnight ago to the affect that important failures were impending. Bankers generally said that no one was in difficulties, that brokerage houses had protected themselves with ample margins and that whatever might be the underlying cause of the recent precipitate declines in market quotations, they did not believe that it was fear of anyone failing to meet his liabilities.

The principal declines of the day as shown by the closing quotations were:

Amalgamated Copper, 5 3-4; American Smelting, 8 1-2; Anaconda, 2 5-8; Atchison, 2 3-8; Baltimore & Ohio, 4; St. Paul, 5; General Electric, 6; Great Northern, 6 1-4; Great Northern Ore Certificates, 8; Missouri Pacific, 2 1-4; New York Air Brake, 15; New York Central, 3 1-4; Northern Pacific, 3 3-4; Reading 5 3-4; Rock Island, 1 1-4; Southern Pacific, 3; Union Pacific, 5 5-8; United States Rubber, 5 1-2; United States Steel, 2 1-8, and United States Steel, preferred, 4 1-4.

The total sales for the day were 1,702,052 shares.

FRANCE MUCH CONCERNED.

Assassination of Dr. Mauchamp in Morocco May Bring on Crisis.

Paris, March 26.—The Moroccan situation, which has been forced into the background for a year past by acute internal problems, has now been brought to the front by the assassination in Morocco City, of Dr. Mauchamp, a French subject, and a lively debate is anticipated in the chamber of deputies today.

Members of the chamber from the department of Saone et Loire, where Dr. Mauchamp lived, will interpellate the government, and one of them, M. Fernand Dubief, radical socialist, is in possession of a number of letters from the doctor, in which he complains bitterly of his abandonment by the French authorities, giving instances of their slackness and inactivity. It is expected that extracts from these letters will be read. Furthermore, the socialists are liable to seize this opportunity to attack the government in retaliation for their recent defeat in the matter of the strike of the electricians of Paris.

The ministry is fully alive to the importance of the situation, and is ready to offer a full explanation to the chamber.

The decision of the cabinet Monday to send French troops to occupy Oudja, in Morocco, was unanimous. The occupation of this point will be continued until full satisfaction has been accorded. The French demands include the punishment of the murderer of Dr. Mauchamp, indemnity for the family of the victim and the appropriation of a large sum for the foundation of a charitable institution in Morocco in memory of Dr. Mauchamp.

ELOPES AND WEDS.

Kalamazoo Girl Refused to Postpone Marriage to Army Lieutenant.

Kalamazoo, Mich., March 26.—Unwilling to postpone indefinitely a wedding, which her mother says had been planned to take place sometime during the coming summer, Florence Meade McDuffee was married last Wednesday to Lieut. John Dennison Nevins, a Philadelphian, in the Little Church Around the Corner, New York.

That the wedding had all the features of an elopement appears from the fact that the bride's mother did not announce the marriage to her friends in this city until yesterday afternoon.

The couple are now in Washington, D. C., where Nevins is awaiting further orders to proceed to San Francisco, en route to Midway Islands, near Honolulu, where the lieutenant will be in command of the naval station, and where the honeymoon will be spent.

Lieut. Nevins is said to be a member of a prominent Philadelphia family. He is a son of Rear-Admiral Nevins. The news of the wedding was a great surprise in Kalamazoo, where the bride's family is prominent.

Suffering

Will Not Help Your Disease, but Will Weaken Your Nerves.

Folks who think it is better to bear pain than soothe it—are wrong.

Old-fashioned doctors used to say it was better, because they had nothing with which to ease pain but dangerous, heart-paralyzing drugs.

But now, that a safe remedy has been found, Dr. Miles' Anti-Pain Pills, it is wrong to suffer, for nothing can be gained but weakened nerves.

A safe rule to remember is: When in pain, take an Anti-Pain Pill.

This will soothe your quivering nerves.

Dr. Miles' Anti-Pain Pills relieve pain by restoring the natural secretions, in which they differ from opium and similar narcotic drugs, which relieve pain by checking the action of the glands.

They are sure and harmless, and are the latest medical treatment for the cure of Headache, Neuralgia, Backache, Rheumatism, Dizziness, Toothache, Stomachache, Menstrual (Monthly) Pains. Also nerve irritations like Sea-Sickness, Car-Sickness, Sleeplessness, Indigestion, etc.

Pleasant to take, quick in results.

"I have used Dr. Miles' Anti-Pain Pills for sick, nervous headache, and have received the best results. I heartily recommend their curative properties, for they are successful.—REV. RAY A. WATROS, D. D., Iowa City, Ia.

Sold by druggists, at 25c. Money-back if first box does not help. Never sold in bulk.

Gen. Wint Buried in Arlington.

Washington, March 26.—With full military honors, the body of Brig. Gen. Theodore J. Wint, U. S. A., formerly commander of the Cuban army of Pacification, who died in Philadelphia Thursday last, was buried in Arlington Monday. The funeral train arrived in this city from Philadelphia at 8:30 o'clock, and was met at the Pennsylvania depot by the honorary pall bearers and a military detachment consisting of four troops of the 13th cavalry and the Fourth battery of field artillery, from Fort Myer, commanded by Major D. J. Rumbough, artillery corps. The funeral party from Philadelphia, was made up of Mrs. Wint, a delegation from Griffin post No. 139, G. A. R., of Scranton, Pa., and a number of relatives and personal friends from Philadelphia and New York. The cortege was headed by a military band. At the grave brief commitment services were conducted by Chaplain H. A. Brown artillery corps, and the usual military ceremonies were observed, including the firing of musketry over the grave and the sounding of taps.

Won't Accept Yale Offer.

Ann Arbor, Mich., March 26.—The U. of M. is not to lose Prof. Claude H. Van Tyne, professor of American history, after all, as he has turned down the offer of $4,000 a year from Yale university. It was thought for a time that he would surely accept, but provision has been made to increase his salary here and he dislikes the idea of leaving the work which has been so congenial.

MICHIGAN HAPPENINGS.

All the barns on the J. E. Kersteter farm, near Augusta, recently sold to western parties, were destroyed by lightning Saturday night. Nine head of cattle perished. Total loss, nearly $3,000; no insurance.

W. D. Bestle, a farmer, near Niles, was shot at five times at his home Sunday night. The shooting was done with a shotgun and Bestle was hit in the head. The police are in pursuit of a relative of the injured man.

Herman and Charles Reineke, two brothers, at Grand Haven, who stole an engine from a yacht at Macatawa park last summer, were sentenced to Ionia for nine months Monday. The brothers were arrested in Dakota after escaping to that state.

Fellow workmen of George Mann, employed in the gas works at Owosso, discovered him lying unconscious in three feet of water at the bottom of a gas well Monday. Mann had gone down in the well and was overcome by gas from a leaky pipe. It was an hour before he could be resuscitated.

Eight bad little boys raided a candy factory at Muskegon Sunday and got away with $50 worth of candy and gum—enough to have lasted them all vacation, if they had not been run down by the police. The eldest of the boys was 11 years old and the youngest seven. They were released on probation.

Thomas Scott, a newsboy, living at Wenona Beach, was playing with some powder which he placed in a can and then lighted.... It didn't go off soon enough to suit him, and he looked in the can to see what was the matter just in time to get the flash of the explosion. One-third of his face is badly burned.

His desire to help a destitute family resulted in the arrest in Port Huron, of Charles Sheepan. The charge is forgery. Sheepan is only 14 years old. He admits that he raised a check for $4 to $14.95. He has been employed in the malleable iron works, and received his check there. Fellow employes had been giving aid to the poor family. Charles wanted to help, so boosted the check.

The Lake Superior corporation has given orders that will extend its compensating works at the Soo Rapids to comply with government demands. The power plant in the Michigan Soo owned by the Michigan Lake Superior Power Co., a susidiary organization, can then use the water, at the same time maintaining the required level of Lake Superior. With the lake level at the required height, the company can develop its power for industrial purposes.

DR. BOUCHELLE

Dr. L. B. Bouchelle of Thomasville, Ga., a physician well known in the South, is very enthusiastic over the cod liver oil preparation Vinol. He says: "I have used Vinol in my family and in my general practice with the most satisfactory results. It is exceedingly beneficial to those afflicted with bronchial or pulmonary diseases and to create strength."

The reason Vinol is so far superior to old fashioned cod liver oil and emulsions, is because it is a real cod liver preparation from which all the useless oil has been eliminated and tonic iron added.

We ask every weak, thin, rundown, nervous and aged person in town, and all those suffering from chronic colds, coughs and weak lungs, to try Vinol on our guarantee.

Found Lad's Body in Ditch.

Detroit, Mich., March 26.—A laborer, while excavating Monday at the bottom of a trench in E. L. Ford's garage on Kirby avenue, east, found the body of six-year-old Fred McKenna, 124 State street. Daniel McKenna, the lad's father reported him to the police as missing late Sunday night. The body was discovered about 6:30 a. m., Monday. Detectives were at once detailed to the case. It was thought at first that the dead boy had met with foul play, but the police believe death was accidental, and the autopsy held by County Physicians Stapleton and Forbes indicates suffocation was the cause. The lad, while at play, evidently fell into the excavation, and the earth fell in on top of him.

LEARNING TO RIDE.

The German Ambassador Teaches the Roosevelt Boys.

Washington, March 26.—Taking advantage of the fine weather Monday, the president, accompanied by Ambassador Speck von Sternburg and the two older Roosevelt boys, Theodore, Jr., and Kermit, took a long ride in the suburbs. The ambassador, like the president, is a good horseman, and frequently accompanies the latter on his afternoon excursions into the country.

Baron Sternburg was a private in the Franco-Prussian war at the age of 16, and when the president was engaged in assisting in the organization of his cavalry regiment for the Cuban service, he frequently consulted his friend about the work. The president is an expert horseman, and especially fond of taking the jumps. He wants his boys to become equally expert, and toward this end the German ambassador is teaching them some of the jumping tactics of the German army.

Choir Scandal Leads to Shooting.

Springfield, Ill., March 26.—Mrs. Mollie Hill Gibson, divorced wife of Elmer Gibson, a real estate dealer, was shot and probably fatally wounded on Monday, on an interurban car, by Peter Clark, an insurance agent. The shooting is said to be the result of a scandal in the choir of the First Christian church of Girard, Ill. Clark fired five times at Mrs. Gibson, three bullets entering the head and one piercing an arm. Clark surrendered to officers at Vinden, Ill. As the result of the choir scandal in which Clark and Mrs. Gibson were alleged to be implicated, two years ago, Gibson and Mrs. Clark procured divorces.

Curious Hunting Incident.

An incident of a very curious character happened at the meet of E. A. Hardwick's Weston-super-Mare harriers at North Petherton. The hounds were in full cry in a field of roots after a hare when a second hare was disturbed, with the result that, racing in an opposite direction, she collided with the first hare. Both were killed on the spot, one having its neck dislocated, the other apparently dying of fright.—London Mail.

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure, or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, or the kidneys themselves break down and waste away cell by cell.

Bladder troubles almost always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Sour Stomach

No appetite, loss of strength, nervousness, headache, constipation, bad breath, general debility, sour risings, and catarrh of the stomach are all due to indigestion. Kodol relieves indigestion. This new discovery represents the natural juices of digestion as they exist in a healthy stomach, combined with the greatest known tonic and reconstructive properties. Kodol for dyspepsia does not only relieve indigestion and dyspepsia, but this famous remedy helps all stomach troubles by cleansing, purifying, sweetening and strengthening the mucous membranes lining the stomach.

Mr. S. S. Ball, of Ravenswood, W. Va., says:—"I was troubled with sour stomach for twenty years. Kodol cured me and we are now using it in milk for baby."

Kodol Digests What You Eat.

Constipation

Baked sweet apples, with some people, bring prompt relief for Constipation. With others, coarse all-wheat bread will have the same effect. Nature undoubtedly has a vegetable remedy to relieve every ailment known to man, if physicians can but find Nature's way to health. And this is strikingly true with regard to Constipation.

The bark of a certain tree in California—Cascara Sagrada—offers a most excellent aid to this end. But, combined with Egyptian Senna, Slippery Elm Bark, Solid Extract of Prunes, etc., this same Cascara bark is given its greatest possible power, to correct constipation. A toothsome Candy Tablet, called Lax-ets, is now made at the Dr. Shoop Laboratories, from this ingenious and most effective prescription. Its effect on Constipation, Biliousness, Sour Stomach, Bad Breath, Sallow Complexion, etc., is indeed prompt and satisfying.

No griping, no unpleasant after effects are experienced, and Lax-ets are put up in beautiful lithographed metal boxes at 5 cents and 25 cents per box.

TWENTY-SIX ARE KILLED

Train on Southern Pacific Hits an Open Switch.

ABOUT 100 PERSONS INJURED

Accident Happens at Colton, Cal.—Most of Dead Are Italians—Members of Theatrical Company Aboard Have Remarkable Escapes.

Colton, Cal., March 29.—A disastrous wreck on the Southern Pacific, occurred one and one-half miles east of here late Thursday afternoon, when the westbound train No. 9, from New Orleans for San Francisco, ran into an open switch, while going at the rate of 40 miles an hour. Ten of the 14 coaches were derailed. Twenty-six persons are known to have been killed and the final list will probably total much higher. The injured number about 100, many of whom may die.

The wrecked coaches were hurled in every direction, and four were smashed into splinters. Most of the dead were Italians from New York and New Orleans, going to San Francisco. They occupied the smoker and day coach.

Dead Terribly Maimed.

The dead were terribly maimed and mangled. Eighteen corpses were brought to Colton last evening. Eight additional bodies can be seen underneath one of the demolished cars. This car cannot be raised until a derrick is brought from Los Angeles, 60 miles away.

The injured were carried to this city in vehicles of all sorts, and the Colton hospital was quickly filled to its capacity. Many were then taken to the presbyterian church and to private residences.

But two Americans are known to have been killed, although several of them among the injured will undoubtedly die.

George L. Sharp of Muncie, Ind., was instantly killed.

The baggageman of the train whose has not been ascertained, was also killed. Engineer Clarence E. Wormington and Fireman Victor Crabb, jumped but failed to get clear, were caught in the wreckage and terribly burned.

Out of about 80 Pullman passengers, only two sustained serious injury. The three Pullman coaches and the diner, which were on the rear of the train, did not leave the track. The occupants of these cars were practically unharmed.

Their Escape Remarkable.

The Florence Roberts Theatrical company occupied one coach, which was hurled from the track and both ends of it crushed in by impact against the others. Two of the 22 members of the company were injured. Miss Roberts escaped unhurt. The escape from death of the occupants of this car was remarkable, considering the manner in which the coach was splintered and torn to pieces. The men and women were hurled from one end of the car to the other.

There were three tracks where the accidnt occurred, which is in the open country. The people of Colton were first to be notified of the catastrophe. Hundreds hurried to the scene, and physicians and nurses were brought from San Bernardino and Colton.

The accident was caused by the crew of a switch engine leaving a switch open. It is said that the engine passed through a switch a few minutes before the passenger appeared. After the switch engine had passed, the engineer asked the fireman if he had re-thrown the switch. The fireman recalled that he had neglected to do so, and the engineer whistled frantically for the yard switchman to close it. The latter failed to reach the switch before the passenger had plunged through it.

City Has a Rabies Epidemic.

Grand Rapids, Mich., March 29.—This city is threatened with an epidemic of rabies, and the police are busy trying to corral a score of dogs that have been "exposed." The animals were bitten by a canine proved to have been mad. The trouble is in the northeastern section of the city.

Worked like a charm.

D. N. Walker, editor of that spicy journal, the Enterprise, Louisa, Va., says: "I ran a nail in my foot last week and at once applied Bucklen's arnica salve. No inflammation followed; the salve simply healed the wound." Heals very sore, burn and skin disease. Guaranteed at C. A. Wright's, 25c

AGAIN IS SIDESTEPPED

House Once More Refuses to Face Senatorial Primary Question.

BILL REMAINS IN COMMITTEE

A Motion to Take it Therefrom is Tabled—Anderson of Grand Rapids Wants the Railroad Commissioner Elected—Solons Off for Home

Lansing, Mich., March 29.—Practically all of the legislature has pulled out for home to attend the spring elections. The house passed, Thursday afternoon, a joint resolution, asking the Michigan delegation in congress to assist Col. I. Winslow Ayers, of Detroit, to collect his claim against the government for services during the civil war.

A bill was introduced by Representative Jerry Anderson, of Grand Rapids, providing for the election of the commissioner of railroads instead of his appointment by the governor.

Representative J. P. Bennett, of Sault Ste. Marie, introduced a bill to repeal the law under which the big power companies of that city pay only a small special assessment for taxes. The matter is one of which there has been considerable said, and it is expected that there will be coniderable opposition to the bill.

The house has again sidetracked a bill of great interest to the people of Michigan. The attempt made Wednesday to push forward the Waters bill granting the people the right to nominate a United States senator, was renewed Thursday.

Issue Was Plain.

A clear statement was made of the lines to bed rawn. Again the main question was sidetracked and the vote taken on a motion to table, but the issue was plain, and the manner in which the members lined up to defeat the attempt is of interest to their constituents.

The subject was opened by the motion of Rep. A. J. Waters to again ask the committee to report out his providing for nominating United States senators at primaries.

"There is an election next Monday in this state," said Waters, "and the people want to know how the legislature stands on this great issue. Tiley have asked for this measure."

Rep. Joseph Greusel raised a point of order against the motion as a starter. Then, Samuel H. Kelley, of Berrien Springs, arose. Said he:

"This is an attempt to deceive the people. There are other bills of a similar character before the election committee, and the time has not come to act in this matter. There is no hurry."

Colby Emphatic.

The proposition was clearly stated by Rep. Colby, who rose and made an emphatic declaration of his views regarding such attempts to delay and kill, if possible, a measure in which there has been so much interest since the last unseemingly squabble over the senatorship.

It didn't look like a pleasant proposition to some members, and Representative Waters added to the complexity and perplexity in the minds of some by demanding the yeas and nays.

Duncan Wayne, of Midland, moved to table the motion. Again Waters demanded the yeas and nays, but the opponents thought it was safe to go on record on Wayne's motion.

On the roll call those voting yea favored tabling the motion and keeping the Waters bill safe in committee. The others are ready to take up the proposition at once. The vote resulted in 43 yeas and 38 nays.

Gun Goes Off; Farmer Killed.

Lake Odessa, Mich., March 29.—David Beard, aged 30 years, was accidentally shot and instantly killed Thursday at the home of his father, Hugh Beard, a farmer living seven miles north of this place. There had been an auction sale at the Beard place and among the articles bid in was a 22-caliber rifle, purchased by John Majinska. Majinska threw the gun into his wagon. It was discharged, the bullet taking effect in Beard's back. No complaint has been made against Majinska, who is nearly prostrated with grief.

St. Clair Girl Wins Scholarship.

St. Clair, Mich., March 29.—Miss Emily Moore has been awarded the Durant scholarship at Wellesley college. She is the daughter of Franklin Moore of this city. Her father was formerly representative for this district in the state legislature; has been, a number of terms, a member of the city school board, supervisors, and former editor of the St. Clair Republican. He is a Yale graduate. Just now he is secretary of the Diamond Crystal Salt Block Co., and republican candidate for mayor.

THE CHURCHES.

A union sunrise prayer service will be held in the Baptist church at 6 o'clock.

Parents wishing to consecrate their children should notify the pastor of the Presbyterian church before the Easter morning service. Communion and reception of members Aoril 7.

Regular preaching service at M. E. church Sunday morning, Sunday school following. Business men's class subject "What is the teaching of Mark 10." H. C. Daniels, leader. Boys class "What is the purpose of life, is life worth living?" Geo Tiffany leader. Easter exercises at 5.

At the Universalist church the Sunday school will give their Easter program at 10:30 a. m., concluding with the service of dedication administered to several little ones connected with the school. A generous offering is requested to aid the work of the Sunday school. The Easter sermon will be given by the pastor in the evening on "The Resurrection Story and its Importance to Me.'

A vesper service at the Presbyterian church at 5:30 will be in charge of the Bible school. This is an Easter service entitled "Jesus the Prince of Life," supplemented by recitations, solos and songs from the primary and junior departments. The male quartette will sing "Cross and Crown, Oh Sweet the Story." Our offerings from this service goes to foreign missions, which it is hoped will be generous enough to show that the week has been one of self denial. The offering at the morning service is for mission work in our own state and should be a large one to keep staudard.

MICHIGAN HAPPENINGS.

Fire, Thursday night, broke out near the boiler roo min the Pontiac Wheel works, at Pontiac, burning the partitions between the dust box and boiler room and the ceiling of the latter. Quick work by the fire company from across the street saved the plant, which employes 125 men.

The case of Mrs. Eva Lewis, against the city of Marshall for $5,000 damages for alleged injuries by a fall on a defective sidewalk is on trial. This case was tried last June, but Judge North directed a verdict for the defense and his decision was reversed by the supreme court and the case sent back for a new trial.

Congressman Washington Gardner held a cadetship examination for admission to the naval academy at Annapolis for the third congressional district at Albion Thursday. Roy C. Gildart, son of Editor Gildart, of the Albion Leader, received the appointment and Royal Mudge, of Charlotte, was appointed alternate. Seven took the examination.

Cheboygan business men, together with moneyed men of Indian River and Mackinaw City, have organized two banks—the Peoples' bank, to be located at Mackinaw City, with Guy C. Parkis, of Mackinaw City, cashiee; and the Indian River bank, with C. H. Edwards, cashier, at Indian River. Neither village has a bank, and the opening is a good one. The institutions will open for business the coming month.

Violently Insane; Goes to Pontiac.

Lapeer, Mich., March 29.—Louis Wendling, a young Burnside township farmer, aged 21, has been committed to the Pontiac asylum, where he was taken by Sheriff Conley. Wendling was exceedingly violent during his stay in the county jail here, and it was necessary to place a guard over him to keep him from braining himself, as he knocked his head against the bars of his cell continually.

No Cardinal Yet, But Soon.

Rome, March 29.—A most reliable authority has declared positively that there is no possibility of the creation of an Anglo-Saxon cardinal at the consistory to be held April 15, even in pectore—that is to say, the creation of a cardinal without the present publication of his name—but that the nomination of an American and an English cardinal at the consistory to be held the end of the year is almost certain.

Dr. Marvin Offers Reward.

Dover, Del., March 29.—Dr. Marvin, father of Horace Marvin, agod four years, who has been missing from his home near here for more than two weeks, has deposited $1,000 in gold with the cashier of a local bank, which will be paid for the return of the boy.

Found at last.

S. A. Harmon of Lizemore, West Va. says: "At last I have found the perfect pill that never disappoints me and for the benefit of others afflicted with torpid liver and chronic constipation, will say, take Dr. King's New Life pills." Guaranteed satisfactory. 25c at C. A. Wright's.

Fred L. Burrow.

Fred L. Burrow was born in England 36 years ago the 28th of last January. About 17 years ago he came to Canada, where he remained but a year. He then came to Buffalo, N. Y., where he resided for twelve years. He has been a resident of Tecumseh for four years. While a citizen of Buffalo, he won the hand of Miss Rose King, they were united in marriage 18 years ago last December. Two children blessed this union. One, Susie, preceded her father to the other shore, leaving the parents at the age of two months. Ethel, 12 years of age, sad in the loss of her father, yet is a great comfort to her mother in this hour of mutual sorrow. Mr. Burrow leaves two brothers and two sisters in England.

He was a member of the Fillmore Ave. Baptist church while in Buffalo, filling at one time the important position of trustee. Timid among strangers and failing vitality which seemed to grant strength for little more than daily duties. de did not unite with any church here, which, however, he regreted serionsly. He spoke of this inactivity often during his last sickness, for he was a true christian at heart. He idolized home and was seldom away except when business demanded.

He was stricken to his bed 3 months ago and made a heroic fight for life. Patient, cheerful, his first thought for others, though he was in constant distress and pain. He will be missed as a loyal and cheerful friend, a true and devoted husband, a loving father. In these latter days he spent much time in prayer and thought on things eternal. His end was peaceful and painless, he seemed conscious of his Master's presence and spoke of it. He was a member of the I. O. O. F., which order had chhrge of the service at the cemetery.

CARD OF THANKS.

We desire to extend our sincere thank to friends and neighbors especially to C. E. Williamson and family and the I. O. O. F. lodge. for their assistance during our recent bereavement. We wish also to thank the pastor for his very sympathetic words and the choir for their services.

MRS. FRED BURROW
AND DAUGHTER.

Beware of ointments for catarrh that contain mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescription from reputable physicians as the damage they will do is ten fold to the good you can possibly derive from them. Hall's catarrh cure manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury and is taken internally acting directly upon the blood and mucous surfaces of the system. In buying Hall's catarrh cure be sure you get the genuine. It is taken internally.

F. J. CHENEY & CO., Toledo, O.

Sold by all druggists, 75c.

Take Hall's Family Pills for constipation.

The soubrette has the laugh on the comedian who gets none.

Notice to our customers.

We are pleased to announce that Foley's honey and tar for coughs, colds and lung troubles is not affected by the National Pure Food and Drug law as it contains no opiates or other harmful drugs and we recommend it as a safe remedy for children and adults. Sold by all druggists in Tecumseh.

Appearance are often so deceitful they must be ashamed of themselves.

"Preventics" will probably check a cold or the grippe when taken early at the sneeze stage. Preventics cure seated colds as well. Preventics are little candy cold tablets and Dr. Shoop, Racine, Wis., will gladly mail you samples and a book on colds free, if you will write him. The samples prove their merit. Check early colds with Preventics and stop pneumonia. Sold in 5c and 25c boxes by all dealers.

You can't please everybody. A cheerful person is a pessimist's idea of a fool.

You should be very careful of your bowels when you have a cold. Nearly all other cough syrups are constipating, especially those containing opiates. Kennedy's laxative cough syrup moves the bowels—contains NO opiates. Conforms to National Pure Food and Drugs Law, bears the endorsement of mothers everywhere. Children like its pleasant taste. Sold by B. J. Pulver.

Clothes do not make the man, but they have the first crack at making impressions of the man.

Given up to die.

A. Spiegel, 1204 N. Virginia St. Evansville, Ind., writes: "Over 5 years I was troubled with kidney and bladder trouble which caused me much pain and worry. I lost flesh, was all run down and a year ago had to abandon work entirely. I had three of the best physicians, who did me no good and I was given up to die. Foley's kidney cure was recommended and the first bottle gave me relief, the second bottle entirely cured me." Why not let it help you? For sale by all dealers in Tecumseh.

A knowledge of "birth stones" of the different men he never helps anyone to wear diamonds.

For catarrh, let me send you free, just to prove merit, a trial size box of Dr. Shoop's Catarrh remedy. It is a snow white, creamy, healing antiseptic balm that gives instant relief to catarrh of the nose and throat. Make the free test and see. Address Dr. Shoop, Racine, Wis. Large jars 50c. Sold by all dealers.

An only child can accumulate more worthless trash than the little top drawer in the bureau.

To remove a cough you must get at the cold which causes the cough. There's nothing so good for this as Kennedy's laxative cough syrup. The liquid cold relief that is most quickly effective, that stills and quiets the cough and drives out the cold. Sold by B. J. Pulver.

A drunkard feels very virtuous when abusing a dope fiend.

No case on record.

There is no case on record of a cough or cold resulting in pneumonia or consumption after Foley's honey and tar has been taken as it will break up your cold quickly. Refuse any but the genuine in a yellow package. Contains no opiates, is safe and sure. For sale by all druggists in Tecumseh.

A man is not as apt to lie about his age as a woman, but he evens the score by telling about his salary.

Kodol digests what you eat and quickly overcomes indigestion, which is a forerunner of dyspepsia. It is made in strict conformity to the National Pure Food and Drugs Law and is sold on a guarantee relief plan. Sold by B. J. Pulver.

When misplaced confidence is discovered it is rarely handed back to the owner.

Itching, torturing skin eruptions disfigure, annoy, drive one wild. Doan's Ointment brings quick relief and lasting cures. 50c at any drug store.

Those verses on the valentine read like they might be the product of emotional insanity.

After a heavy meal, take a couple of Doan's Regulets and give your stomach, liver and bowels the help they will need. Regulets bring easy, regular passage of the bowels.

SHORT TALKS BY L. T. COOPER.

THE STOMACH.

My but peoples' stomachs do cause a lot of trouble. I offered to wager some doctors in St. Paul, Minn., that one half of all sickness is caused by the stomach. After I assured them that my medicine did nothing but put the stomach in shape and they had spent a day listening to what people who called on me had to say, they had to agree with me. They heard people come in and tell me that for years they had been near the grave with Bright's disease, or lung trouble, or kidney complaint and all manner of diseases and that the New Discovery had cured them. Of course these people were mistaken, it was nothing but their stomachs. As a matter of fact when the stomach gives out most everything else is thrown out of order too.

C. H. POWELL.

When a person feels tired and dull and despondent, is loosing flesh and don't sleep well, has a poor memory, a bad taste in the mouth, a coated tongue, and other troubles he's liable to believe a lot of things are the matter with him. Nine chances to one it's his stomach. I've seen Cooper's New Discovery bring back health to too many people in just this shape to believe anything else. Here's a letter about it:

"I suffered for a long time without knowing just what was the matter with me. I seldom felt like eating. I lost greatly in weight. My digestion was extremely poor and when I did eat I invariably suffered afterward. I was constipated and frequently suffered from nerve racking, violent headaches. When I heard of what the Cooper remedies were doing for others I resolved to try them."

"Relief came with the first bottle. My appetite and digestion improved rapidly. I am no longer constipated nor do I have those dreadful headaches. I sleep well and am gaining flesh." C. H. Powell, 13 Harrison Addition, Duluth, Minn.

We are selling immense quantities of these medicines and our customers express great satisfaction.

How to remain young.

To continue young in health and strength, do as Mrs. N. F. Rowan, McDonough, Ga., did. She says: "Three bottles of Electric Bitters cured me of chronic liver and stomach trouble, complicated with such an unhealthy condition of the blood that my skin turned red as flannel. I am now practically 20 years younger than before I took Electric Bitters. I can now do all my work with ease and assist in my husband's store." Guaranteed at C. A. Wright's drug store. Price 50c.

Commissioners' Notice.

STATE OF MICHIGAN, county Lenawee, ss. In the matter of the estate of MARY E. SUTTON, deceased.

The undersigned having been appointed by the probate court of said county, commissioners to receive, examine and adjust all claims and demands of all persons against the estate of said deceased, do hereby give notice that we will meet for that purpose at the store of Satterthwaith Bros. in the village of Tecumseh, Lenawee county, Michigan, on the 25th day of April, 1907, and on the 13th of September, 1907, at ten o'clock in the forenoon of each of said days.

And that six months from the 13th day of March, 1907, are allowed by said probate court for the creditors of said estate to present their claims to us for examination and allowance.

Tecumseh Chief Furnace.

Tecumseh, Mich., Feb. 29th, 1907.

Century Post Co.:

Sirs:—It has been like "the good old summer time" in my house since the furnace was put in the house last fall. It will heat the whole house, or by your system of dampers and drafts can confine the heat to one room. To anyone in need of a good, substantial, labor saving, fuel economizing, satisfaction giving furnace, I would recommend the Tecumseh Chief.

Yours Truly, F. M. GOHEEN.

Jackson, Mich., Feb. 22, 1907.

Century Post Co.:

Dear Sirs:—Your furnace was simply fine, both in heating and cleanliness, free from smoke. Never took so much real comfort a winter in my life of 77 years as this winter. No going to bed cold at night, or waiting for the house to warm in the morning. Wouldn't take $500 for it and do without it. MRS. J. M. PORTER.

Royal Oak, Mich., Feb. 22, 1906.

Century Post Co., Tecumseh, Mich.

Gentlemen:—would say in reply that I cannot make it strong enough as to my views in regard to your furnace. She is a "dandy" in every respect, both for heating and economy. I will use no more than 4½ tons of coal this winter, heating six (6) rooms, and can say my house has never been below 65 degrees temperature. Think you can sell several more here this season. Very truly yours,

(Signed) H. N. LAVERT.

We have many more testimonials equally as strong we would be glad to show you. If you contemplate putting in a furnace drop us a card, or send a plan of your house and we would be pleased to have one of our representatives call on you and make you a price. We can save you money.

PREVENT SMUT

THE WM. HAYDEN MILLING CO., Tecumseh, Mich. have secured the agency of

"SPOROCIDE"

that will positively prevent smut in oats. Guaranteed or money refunded. The treatment costs but 10c per acre.

In 150 tests made by substantial farmers who used Sporocide in 1906, the average increase in yield per acre was 10½ bushels, or a net gain of from $3 to $4 per acre on an outlay of 10c. This is worth looking into. Write for testimonials.

Brown & Co.

Pure maple sprup at C. M. Gilbert & Co's.

Miss Alice Bradley was a charming hostess Wednesday evening entertaining a company of young ladies at a 6 o'clock dinner for her friend, Miss Lulu Woolsey, of Ypsilanti. Covers were laid for nine. The evening was spent with music.

We have taken the agency formerly held by J. D. Blocher, for the Chicago papers, Free Press, Toledo News Bee Toledo Blade and Cincinnati Enquirer POCKLINGTON & PETERS.

Billiards and Cigars.

For that tired feeling take Rexal Sarsparilla tonic. 75c for a full pint bottle. B. J. PULVER.

The Women's Home Missionary society of Clinton were entertained yesterday afternoon by that society of Tecumseh in the Methodist church parlors. The Clinton ladies numbering 15, gave a very pleasing program, the Tecumseh ladies conducting the business meeting. Following this the society attended the regular church supper of the M. E. church.

Postponed.

The Harrison auction has been postponed until Tuesday, April 2nd, at 9 o'clock sharp. Big lunch at noon.

Mortimer D. Alexander Dead.

M. D. Alexander of Clinton, died Thursday at his home in that village. The funeral will be held Saturday afternoon at 1 o'clock from the residence. Burial at Riverside cemetery in Clinton.

Uniformed Rank Knights of Pythias.

The first annual military ball given by the Uniformed Rank Knights of Pythias of Tecumseh, was given last evening at Witherell hall. There were 75 couples in attendance, willett's orchestra of Adrian furnishing the music. The hall was prettily decorated with American flags and palms. The Pythian Sisters served a buffet luncheon in the dining room of the hall.

COSTS NOTHING UNLESS CURED

Liberal way in which Mi-o-na stomach tablets are sold by C. A. Wright.

If a friend should tell you that he would pay the doctor's bill for you unless you were cured, would it not impress you with his physician's skill? It is in this way that C. A. Wright sells Mi-o-na stomach tablets, for he guarantees to refund the money if Mi-o-na does not cure.

Use Mi-o-na stomach tablets if you have any of the following symptoms: backache, headache, sleeplessness, nausea, distress after eating, specks before the eyes, despondency, nervousness, loss of appetite, dizziness, pains in the side and limbs, or gulping up of undigested food, and you will soon be cured and able to eat a hearty meal without fear of pain or distress.

Mi-o-na costs but 50c a box, nothing if it does not cure. C. A. Wright is the local distributer.

3

per cent. interest is what you receive on all money deposited in our Savings Department—3 per cent that comes to you without any effort on your part and helps to increase the principal, so that with steady saving you will have a snug bank account. You can start an account to-day with $1.00.

The National Manure Spreader

Competition is the life of trade, and when you have the best tool on the market you can afford to laugh.

This is what we have in the Light Running National Spreader.

A few reasons why it leads all others:—
1—Box is low and easy to load.
2—Main shafts run on roller bearings.
3—No intricate mechanism.
4—Direct return of Apron.
5—Lightest running spreader on the market and any boy who can handle a team can manage the spreader.

We have already sold spreaders to F. E. Bradley and Will Eccles and refer you to them for recommendation. Come in and see sample machine.

CONFIRMED PROOF.

Tecumseh people cannot doubt what has been twice proved.

In gratitude for complete relief from aches and pains of bad backs, and kidney ills, thousands have publicly recommended Doan's Kidney Pills. Residents of Tecumseh, who so testified years ago now say their cures were permanent. This testimony proves the worth of Doan's Kidney Pills to Tecumseh sufferers.

S. Erskine, barber, living on Evans street, Tecumseh, Mich., says: "For 10 years I was troubled with kidney complaint and dull pains in my back. It was always more severe after hard work or lifting. I was annoyed at night by the frequent action of the kidneys. The secretions were highly colored and showed much sediment. Doan's Kidney Pills were brought to my attention and they did me a world of good. That was 5 years ago and I think just as highly of the Pills now as I did then and I am glad of the opportunity to re endorse them."

For sale by all dealers. Price 50 cents Foster-Milburn company, Buffalo, N. Y., sole agents for the United States. Remember the name Doan's, and take no other.

Some way, everyone seems disappointed if preachers' boys are not a little worse than the average.

Many ills come from impure blood. Can't have pure blood with faulty digestion, lazy liver and sluggish bowels. Burdock Blood Bitters strengthens stomach, bowels and liver.

Love is a picnic; do not expect it to gather up the napkins and dishes.

Everybody's friend—Dr. Thomas' Eclectric Oil. Cures toothache, earache, sore throat. Heals cuts, bruises scalds. Stops any pain.

A severe cold that may develope into pneumonia over night can be cured quickly by taking Foley's honey and tar. It will cure the most obstinate racking cough and strengthen your lungs. The genuine is in a yellow package. For sale by all druggists in Tecumseh.

There is not the slightest sense back of a great deal of hope.

This is worth remembering.

Whenever you have a cough or cold, just remember that Foley's honey and tar will cure it. Do not risk you health by taking any but the genuine. It is in a yellow package. Sold by all dealers in Tecumseh

Men are never so old that a bluff doesn't startle them a little.

To be poor without losing self-respect or a sense of enjoyment is a fine art

The News—No Pure Drug Cough Cure Laws would be needed, if all cough cures were like Dr. Shoop's Cough Cure is—and has been for 20 years The National Law now requires that if any poisons enter into a cough mixture, it must be printed on the label or package.

For this reason mothers, and others, should insist on having Dr. Shoop's Cough Cure. No poisons marks on Dr. Shoop's labels—and none in the medicine, else it must by law be on the label. And its not only safe, but it is said to be by those that know it best, a truly remarkable cough remedy. Take no chance, particularly with your children. Insist on having Dr. Shoop's Cough Cure. Compare carefully the Dr Shoop package with others and see. No poison marks there! You can always be on the safe side by demanding Dr. Shoop's Cough Cure. Simply refuse to accept any other. Sold by all dealers.

Laxative Iron-ox Tablets

are best for children's bowels. Do not give salts and griping pills, as they are too strong in effect, and leave the bowels weak, and unable to act naturally.

"My three children aged 12, 9 and 14 years, get a tablet every day and I myself use them. Laxative Iron-ox Tablets will be a part of our daily requisites." SAMUEL STARR, 212 W. 125th St., New York, N. Y.

Children should have one natural easy movement of the bowels each day. Laxative Iron-ox Tablets tone and strengthen the bowels, and stimulate all the little organs to healthy activity. Chocolate coated tablets, easy to take, never gripe or nauseate. 10c, 25c and $1.00. Satisfaction guaranteed or money refunded.

Mrs. D. Jackson of Tecumseh, is spending part of this week in town.

The Best Laxative for Children.

Parents should see to it that their children have one natural, easy movement of the bowels each day. This is necessary to health. Laxative Iron-ox Tablets are so effective and pleasant that they are too powerful in effect and literally tear their little bodies to pieces, leaving the bowels weak and not able to act naturally than before. Laxative Iron-ox Tablets tone and strengthen the bowels, and stimulate all the little organs to healthy activity. Chocolate coated tablets, easy to take, never gripe or nauseate. 10c, 25c and $1.00.

Mortgage Sale.

Whereas default has been made in the payment of the money secured by a mortgage dated the 15th day of April, 1906, executed by Eva Biler of Riga Township, Lenawee County, Michigan, to Albert Collins of Macon township, Lenawee County, Michigan, and which said mortgage was recorded in the office of the Register of Deeds of Lenawee County, Michigan, in Liber 166 of Mortgages on page 190 on the 16th day of April A. D. 1906 at 10:15 o'clock A. M. and whereas the amount claimed to be due on said mortgage at the date of this notice is the sum of Four Thousand One Hundred Sixty Dollars and Fifty-four cents ($4160 of principal and interest and the further sum of Twenty-five Dollars ($25.00) as an attorney fee stipulated for in said mortgage, and which is the whole amount claimed to be unpaid on said mortgage, and no suit or proceeding having been instituted at law to recover the debt now remaining secured by said mortgage or any part thereof, whereby the power of sale contained in said mortgage has become operative.

Now therefore notice is hereby given, that by virtue of the said power of sale, and in pursuance of the statute in such case made and provided the said mortgage will be foreclosed by a sale of the premises therein described at public auction, to the highest bidder, at the east front door of the County House in the City of Adrian in said County of Lenawee, on the 9th day of April next, at 10 o'clock in the forenoon of that day, which said premises are described in said mortgage as follows to-wit:—Being that part of section three (3) in Town Five (5) South, Range Five (5) East which is bounded as follows: Commencing at the Northwest corner of said section three, thence running East seventy-five rods and twenty-one links; thence South sixty-seven rods and seven and one fourth links; thence West seventy-seven rods and nine links; thence North sixty-six rods and twelve links to the place of beginning.

Also all that other track or parcel of land situated in the township of Macon, Lenawee county, Michigan, bounded and described as follows to-wit:—By a line commencing sixty-six rods and twelve links South of the Northwest corner of section three (3) Town Five South, Range five East, thence running East one hundred and sixty rods; thence South forty and one half rods; thence West one hundred sixty rods; thence North forty and one half rods to the place of beginning. Containing in both parcels above described Seventy-three acres of land more or less.

Dated January 31, 1906.

STATE OF MICHIGAN, county of Lenawee ss. Probate court for said county.

At a session of the probate court for the county of Lenawee, holden at the probate office, in the city of Adrian, on the 5th day of March in the year one thousand, nine hundred and seven.

Present, Harry L. Larwill, judge of probate.

In the matter of the estate of EZRA SANFORD, deceased.

On reading and filing the petition of Merrill P. Sanford administrator upon the estate of said deceased, alleging that the funeral expenses and debts of said deceased and the expenses of administration thus far incurred, have been fully paid, and praying that his final administration account may be allowed and for such other order and decree as to this court shall seem proper.

It is ordered, that Monday, the 8th day of April next, at nine o'clock in the forenoon, be assigned for the hearing of said petition.

And it is further ordered, that a copy of this order be published in the TECUMSEH HERALD, a newspaper printed and circulating in said county of Lenawee, for three successive weeks, previous to said day of hearing.

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, or the kidneys themselves break down and waste away cell by cell.

Bladder troubles almost always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's **Swamp-Root**, the great kidney, liver and bladder remedy.

It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Sour Stomach

No appetite, loss of strength, nervousness, headache, constipation, bad breath, general debility, sour risings, and catarrh of the stomach are all due to indigestion. Kodol relieves indigestion. This new discovery represents the natural juices of digestion as they exist in a healthy stomach, combined with the greatest known tonic and reconstructive properties. Kodol for dyspepsia does not only relieve indigestion and dyspepsia, but this famous remedy helps all stomach troubles by cleansing, purifying, sweetening and strengthening the mucous membranes lining the stomach.

Mr. S. S. Ball, of Ravenswood, W. Va., says:—"I was troubled with sour stomach for twenty years. Kodol cured me and we are now using it in milk for baby."

Constipation

Baked sweet apples, with some people, bring prompt relief for Constipation. With others, coarse all-wheat bread will have the same effect. Nature undoubtedly has a vegetable remedy to relieve every ailment known to man, if physicians can but find Nature's way to health. And this is strikingly true with regard to Constipation.

The bark of a certain tree in California—Cascara Sagrada—offers a most excellent aid to this end. But, combined with Egyptian Senna, Slippery Elm Bark, Solid Extract of Prunes, etc., this same Cascara bark is given its greatest possible power to correct constipation. A toothsome Candy Tablet, called Lax-ets, is now made at the Dr. Shoop Laboratories, from this ingenuous and most effective prescription. Its effect on Constipation, Biliousness, Sour Stomach, Bad Breath, Sallow Complexion, etc., is indeed prompt and satisfying.

No griping, no unpleasant after effects are experienced, and Lax-ets are put up in beautiful lithographed metal boxes at 5 cents and 25 cents per box.

"In 1897 I had a stomach disease. Some physicians said dyspepsia, some consumption. One said I would not live until spring. For four years I existed on boiled milk, soda biscuits and doctor's prescriptions. I could not digest anything I ate; then I picked up one of your almanacs and it happened to be my life-saver. I bought a fifty-cent bottle of Kodol and the benefit I received from that bottle all the gold in Georgia could not buy. In two months I went back to my work, as a machinist and in three months I was well and hearty. May you live long and prosper." C. N. Cornell, Roding, Ga., 1906. SOLVE RACE PROBLEM

Two Great Movements Under Way in the South.

PROMINENT MEN SUPPORT THEM

Attempt Will Be Made to Organize All Moral Forces Into One Great Body—Commission to Be Founded to Make Changes in Laws.

Atlanta, Ga., April 2.—Two great movements looking to the solution of the race problem in the south, especially Georgia, have been launched, and have gained the support of some of the most prominent men in the country, according to a statement made by a conference of the Atlanta Evangelical Ministers' association, on Monday. One of the movements is urged by Dr. John E. White, pastor of the First Baptist church, who reported to the conference that it is gaining great headway.

"Five of the wealthiest men in the south," Dr. White stated, "have put all they have back of this movement. We contemplate the organization of all the moral forces of the south in one great body and the appointment of a commission, composed of the best and most learned men of the south, to handle the problem and deal with the situation affecting the relationship of the races."

The other movement is being fostered by former Governor W. J. Northern of Georgia, who has been urging, in speeches all over the state, the establishing of better relations between the races. The plan contemplates the selection of a state commission, composed of some of the best lawyers of the state, whose duty it shall be to have the laws of the state so revised as to do away with the present objections to the legal manner of trying and punishing persons charged with criminal assault, and to provide for the punishment of the leaders and the members of mobs.

"MOTHER ELINOR" FLEES.

"Flying Rollers" Renounce Allegiance to Alleged Notorious Woman.

Detroit, Mich., April 1.—The "Flying Roll" colonies of Detroit and Windsor have had their eyes opened at last, and have drawn a big black line through the illustrious name of "Mother Elinor."

"Mother Elinor" failed to meet the trustees of the colony at 11 o'clock Monday morning, as she had promised. Not only that, but it is announced on good authority that she departed from the Windsor god house at midnight Sunday, removing her bag and baggage and taking her trusty secretary, David Livingstone Mackay, with her, and fled to parts unknown.

Certain it is, that neither Mrs. Mason nor Mackay are with the colony now; their whereabouts are unknown. The evidence connecting the erstwhile "spiritual head" with Ann Ddelia Diss de Bar, alias Vera P. Ava, also known as Editha Loleta Jockson, the English criminal, is still unrefuted, and the "Rollers" themselves now confess that the two women are "probably" identical.

The trustees renounce all allegiance to their erstwhile queen, and have sent a message to "Prince" Michael, in England, informing him of their change of heart, and return to his leadership.

Livery Grooms Strike.

New York, April 2.—About 1,000 and more grooms employed in the riding academies and livery stables in this city went out on strike on Monday in order to force their employers to recognize their new union and sign a contract with them. The employers have refused to sign the agreement.

Smashed Finger Caused Death.

Lansing, Mich., April 2.—Rev. Geo. A. Robson, of St. Paul's episcopal church, died early Monday morning from blood poisoning resulting from a smashed finger he sustained soon after arriving in this city last December. Rev. Robson was run down as the result of hard work in connection with institutional work in his former church at Hartford, Conn. He was 23 years old, and was born in Canada. He leaves a widow and two children.

The price of health.

"The price of health in a malarious district is just 25 cents, the cost of a box of Dr. King's new life pills" writes Ella Slayton of Noland, Ark. New life pills cleanse gently and impart new life and vigor to the system. 25c. Satisfaction guaranteed by C. A. Wright, druggists.

ROOSEVELT'S POLICY

He Stands Pat on Previous Utterances Regarding Railroads.

CITES HIS RECENT SPEECHES

Declines to Accept Invitation to Speak to Illinois Manufacturers—Will Ask Next Congress to Deal With Question of Over Capitalization.

Washington, April 2.—President Roosevelt has decided not to accept the invitation of the Illinois Manufacturers' association to deliver a speech at Springfield, Ill., on the railroad situation. He addresed a letter to C. H. Smith, president of the association, stating that it would be impossible for him to accept their invitation, extended last week, because he did not feel that he had anything to say at this time in a special address on this special subject.

The president has received a great number of requests for a statement by him, or a speech to be made by him in connection with the railway situation. He has given these requests careful consideration, and has informed his advisers that he had come to the conclusion that he has nothing now to add to what he has already said on the railway situation, and that he did not deem it either wise or proper to say anything with a view to any immediate situation in Wall street.

To the different men, friendly and unfriendly, who have visited him or written to him, he has answered verbally or in writing that his words and acts spoke for themselves and needed no explanations whatever, and that he should not in his future course deviate one hair's breadth from the course he has pursued in the past and was now pursuing.

No Drastic Measure.

The statement is made from an authoritative source that "even a most cursory examination of what the president has repeatedly said in speech and in message will show the utter nonsense of supposing the government has the slightest intention to take any action which would invalidate the safety and stability of the railway securities now issued, the whole legislative program of the president having proclaimed again and again as one to insure the future against the mistakes and delinquencies of the past."

The president holds that every executive action taken under his administration, whether by the department of justice or by the interstate commerce commission, has furnished its own ample justification.

It is pointed out that the president has made no reference in his speeches or messages to the question of the the physical valuation of railroads. His position on this question, it is said, is that the roads themselves will work out this problem as an item of bookkeeping, and reference is made to the fact that two roads, the Northern Pacific and the Great Northern already have submitted figures as to their physical valuation.

It can be stated on authority that the president again will ask congress, at its next session, for power to deal with the question of overcapitalization of railroads. A similar request was made at the last session, but favorable action was not taken upon it.

Quotes Raleigh Speech.

In his letter to Mr. Smith the president inclosed copies of the speech he made at Raleigh, N. C., Oct. 19, 1905, and the one he delivered before a delegation of railway employes in this city on Nov. 14, 1905, together with his last messages to congress at the beginning of the first and second sessions of the last congress. The president concludes his letter to Mr. Smith as follows:

"You will see in the two speeches and the two messages that I have said about all that I would say if I spoke now. As I said to your body the other day, I have already expressed again and again by carefully thought-out belief. I am more firmly than ever convinced that these beliefs are wise, and that the policy I recommend in my messages at the opening of each of the last regular sessions of congress must be carried out. I think that what has occurred since I wrote the two messages in question merely illustrates in striking fashion the desirability of the course I therein outlined."

In his speech at Raleigh, N. C., the president made the following statement, along with other statements, which best explains his attitude as regards railroads:

REPUBLICANS ELECTED

Michigan Voters Poll Light Vote on First of April.

PRISONERS TO BE TRADESMEN

Constitutional Amendments Likely Carried—Republicans of Fifth District Claim Diekema's Election to Succeed W. A. Smith.

SUCCESSFUL CANDIDATES.

Justice of the Supreme Court—William L. Carpenter and Aaron McAlvay. (Both re-elected.)

Regents of the State University—Julius E. Beal and Frank B. Leland.

Member State Board of Education—Dr. W. A. Cotton.

Detroit, Mich., April 2.—Candidates on the republican state ticket were elected by good-sized majorities Monday. The vote, considering the state as a whole, was light, though there were local contests which brought out the voters in strength.

The important question, that of the proposed amendment to the state constitution, allowing the teaching of trades to convicts, has probably been carried. Returns are still incomplete. The result of congressional fight in the Fifth district is also still an undecided question.

Counting goes slow, as usual, in Detroit, but indications are that ex-Alderman Jeffries has been elected police justice over the present incumbent, Sellers. Over this office has been the fiercest contest. Cunningham is leading Buhrer for the office of county auditor. The usual republican majorities are showing up on the state ticket, but the constitutional amendment questions are still in doubt.

Of the local fights in the state, that at Jackson was the warmest. Mayor W. W. Todd, democrat, was defeated by Benjamin Glasgow, republican, by 17 votes on the face of the returns. Glasgow is a dry goods merchant. A feature of the campaign against Todd was the work of Congressman Townsend, who took the stump for Glasgow.

Following are the results at some of the important places:

GRAND RAPIDS—Huntley M. Russell carries Grand Rapids by over 2,800, over Gerrit J. Diekema for congressman of the Fifth district. Ottawa and Ionia returns coming slow, and the issue will hinge on the results shown in these counties. The republicans, however, claim Diekema's election.

OWOSSO—D. D. H. Lamb, republican candidate for mayor, has been elected. The election of Lamb means a "liberal" administration, and an entire new police force. He promises a progressive administration in which factories will be secured.

ST. CLAIR—With the exception of one alderman and supervisor, the democrats elected every office. The lighting and water proposition has carried. This means improvements for these plants. Frank Schrepferman is reelected mayor.

HILLSDALE—This city went republican for every office, except one alderman. The proposition to bond for a city hall lost. Howard B. Waldron is elected mayor by 13 votes.

KALAMAZOO—William Thompson, democrat, was re-elected mayor over Judge James E. White. The republican state ticket has a plurality of several hundred in Kalamazoo county. The constitutional amendment is probably defeated.

Prince's Horse Ran Away.

Berlin, April 2.—Crown Prince Frederick William and the crown princess had a narrow escape from accident Monday, while driving home in a dog cart from a visit to Prince Eitel Frederick. The horse took fright at an automobile and bolted. For some distance the animal ran madly, but with the assistance of a passer-by the crown prince finally gained control ner the Randenburg gate, in the city, after which the horse continued quietly. Neither of the occupants of the dog cart was hurt.

Bitten by a spider.

Through blood poisoning caused by a spider bite John Washington of Boequeville, Texas would have lost his leg which became a mass of running sores had he not been persuaded to try Bucklen's arnica salve. He writes "The first application relieved and four boxes healed the sores." 25c at C. A. Wright's.

CUBANS ARE ANXIOUS.

Taft's Arrival Looked Forward to With Deal of Interest.

Havana, April 2.—Secretary of War Taft's arrival here is awaited with keen anxiety by politicians and government officials. Many questions of moment have been held for his consideration and decision that will mean much to Cuba.

Financial and political interests generally demand definite information regarding the policy of the United States. The uncertainty creates uneasiness, both political and financial, throughout the country.

English interests, particularly the railroad companies, are also anxious to know precisely what the Washington government proposes to do.

The liberal politicians have a large number of propositions for running the country, which they are eager to submit to Mr. Taft. His attitude toward them is looked forward to with interest.

New Theater Opened.

Louisville, Ky., April 2.—The Mary Anderson theater was opened last night in the presence of a fashionable audience, which crowded the handsome new playhouse. General John B. Castleman made the presentation address, and De Wolf Hopper, whose company gave "Happyland" as the opening attraction, spoke. It was distinctly a Mary Anderson night, and every mention of the actress' name or recital of incidents of her girlhood days in Louisville by General Castleman, was received with prolonged applause. The theater, which is under the direction of the Shubert Brothers, is fireproof from top to bottom, the only wood used being in the stage floor and the doors.

Six Trainmen Killed.

Fort Worth, Tex., April 2.—Six trainmen were killed in a head-on collision between two freight trains on the Missouri, Kansas & Texas railroads, six miles south of here Monday. The dead: Engineer Wooden and Fireman Hines of the southbound train; Engineer Caldwell and Fireman Wallace of the northbound train; two brakemen, names not learned. The two brakemen were cremated. More than 300 head of cattle were burned, and eight cars of merchandise destroyed. Failure of the northbound train to receive an order is said to be responsible.

Agrarian Movement Subsides.

Bucharest, April 2.—An official report, based on intelligence received from all parts of the country and issued Monday, indicates that tranquility is being restored generally throughout Roumania. Steps are being taken to deal with the bands of marauding peasants who are still active, but it is now said that the peasants are abstaining from pillage and incendiarism. In conclusion the report says that the violation phase of the agrarian movement may now be considered over.

REDUCE THEIR DEMANDS.

Trainmen on Western Roads Willing to Accept Nine-Hour Day.

Chicago, April 2.—Employes in the train service of the western railroads, last night reduced their demands to a nine-hour work day, and signified their willingness to accept the wage increase offered by the railroads, if the managers would grant the nine-hour day.

Five Seriously Hurt.

Omaha, Neb., April 2.—A heavily loaded street car jumped the track near the corner of Twentieth and L streets, South Omaha, last night, and dashed into a stone wall. Five passengers were seriously injured, one of whom, O. J. Serviss of South Omaha, will die. More than a score of others were hurt.

Ruef Makes Another Move.

San Francisco, April 2.—On the eve of his trial on the charge of extorting $22,000 from French restaurant keepers, Abraham Ruef, Monday, asked the supreme court of California to free him from the custody of Elisor Biggy and order him into the carge of the sheriff, whom Judge Dunne disqualified on the ground of personal interest. Ruef filed in the higher court an application for a writ of habeas corpus so extensive in allegations, arguments and citations of authorities that it occupies 21 typewritten pages and embraces 62 subdivisions.

Mansfield Considerably Improved.

New York, April 2.—After a conference of physicians in attendance upon Richard Mansfield, Manager Stevens said they had reported Mr. Mansfield to be considerably improved. He is yet a very sick man, however, and full recovery will take several months, but it is the opinion of the doctors that ultimately he will regain his health.

Hows This?

We offer one hundred dollars reward for any case of catarrh that cannot be cured by Hall's catarrh cure.

F. J. CHENEY & CO., Toledo, O.

We the undersigned, have known F. J. Cheney for the last 15 years and believe him perfectly honorable in all business transactions and financially able to carry out any obligation made by his firm.

WALDING, KINNAN & MARVIN,
Wholesale Druggists, Toledo, O.

Hall's catarrh cure is taken internally acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75c per bottle.

Sold by all druggists, 75c.

Take Hall's Family Pills for constipation.

The soubrette has the laugh on the comedian who gets mine.

Notice to our customers.

We are pleased to announce that Foley's honey and tar for coughs, colds and lung troubles is not affected by the National Pure Food and Drug law as it contains no opiates or other harmful drugs and we recommend it as a safe remedy for children and adults. Sold by all druggists in Tecumseh.

Appearance are often so deceitful they must be ashamed of themselves.

"Preventics" will probably check a cold or the grippe when taken early at the sneeze stage. Preventics cure seated colds as well. Preventics are little candy cold tablets and Dr. Shoop, Racine, Wis., will gladly mail you samples and a book on colds, free, if you will write him. The samples prove their merit. Check early colds with Preventics and stop pneumonia. Sold in 5c and 25c boxes by all dealers.

You can't please everybody. A cheerful person is a pessimist's idea of a fool.

What is it that tastes as pleasant as maple sugar and quickly relieves coughs and colds? Mothers who have used it will quickly answer, "Kennedy's Laxative cough syrup." The pleasant cold remedy that expels the cold through its laxative action on the bowels. Conforms strictly to the Pure Food and drugs law. Contains no opiates. Sold by B. J. Pulver.

Clothes do not make the man, but they have the first crack at making impressions of the man.

How to avoid appendicitis.

Most victims of appendicitis are those who are habitually constipated. Orino Laxative Fruit Syrup cures chronic constipation by stimulating the liver and bowels and restores the natural action of the bowels. Orino Laxative Fruit Syrup does not nauseate or gripe and is mild and pleasant to take. Refuse substitutes. Sold by all druggists.

A knowledge of "birth stones" of the different months never helps anyone to wear diamonds.

For catarrh, let me send you free, just to prove its merit, a trial size box of Dr. Shoop's Catarrh remedy. It is a snow white creamy, healing antiseptic balm that gives instant relief to catarrh of the nose and throat. Make the free test and see. Address Dr. Shoop, Racine, Wis. Large jars 50c. Sold by all dealers.

An only child can accumulate more worthless trash than the little top drawer in the bureau.

A card.

This is to certify that all druggists are authorized to refund your money if Foley's Honey and Tar fails to cure your cough or cold. It stops the cough heals the lungs and prevents serious results from a cold. Cures la grippe coughs and prevents pneumonia and consumption. Contains no opiates. The genuine is in a yellow package. Refuse substitutes. Sold by all druggists.

A drunkard feels very virtuous when abusing a dope fiend.

"Good for everything a salve is used for and especially recommended for piles." That is what we say about DeWitt's carbolized witch hazel salve. That is what twenty years of usage has proven. Get the original. Sold by B. J. Pulver.

A man is not as apt to lie about his age as a woman, but he evens the score by telling about his salary.

This may interest you.

No one is immune from kidney trouble, so just remember that Foley's kidney cure will stop the irregularities and cure any case of kidney and bladder trouble that is not beyond the reach of medicine. Sold by all druggists.

When misplaced confidence is discovered it is rarely handed back to the owner.

Harsh physics react, weaken the bowels, cause chronic constipation. Doan's Regulets operate easily, tone the stomach, cure constipation. 25c. Ask your druggist for them.

Those verses on the valentine read like they might be the product of emotional insanity.

Suffered day and night the torment of itching piles. Nothing helped me until I used Doan's Ointment. It cured me permanently."—Hon. John R. Garrett, Mayor, Girard, Ala.

When One Is Choking.

"Raising the left arm as high as you can will relieve choking much more rapidly than being thumped on the back," said one of the resident physicians of a local hospital. "This should be more generally known, for often a person gets choked while eating when there is no one near to thump him or her. Very frequently at meals and when they are at play children get choked while eating, and the customary manner of relieving them is to slap them sharply on the back. The effect of this is to set the obstruction free, so that it can be swallowed. The same thing can be brought about by raising the left hand of the child as high as possible, and the relief comes much more rapidly. In happenings of this kind there should be no alarm, for if a child sees that older persons or parents get excited it is very liable to become so also. The best thing is to tell the child to raise its left arm, and immediately the obstruction passes down the throat."—Philadelphia Record.

Humors of Translation.

Victor Hugo always translated the "Firth of Forth" as "the First of the Fourth" and swore that he was right, too, while Disraeli noted with amusement "woebegone" as "douleur va-t'en." An early translator of Scott's "Bride of Lammermoor" had it as "La Bride de Lammermoor," the second word meaning "bridle," and the same man rendered "Welsh rabbit" by "Lapin du Pays de Galles." The case of "La Derniere Chemise de l'Amour" for "Love's Last Shift" is classic, and when the farce "Hit or Miss" was done into French it almost was billed as "Frappe on Mademoiselle." That delightful piece in which Toole was at his funniest, "Walker, London," was referred to in a French newspaper as "Londres qui se Promene." The best that the translator could do for the "Stickit Minister" was "Le Ministre Assassine."

Buying a Gift Book.

The principle of choice should in general follow the taste or need of the friend for whom you are selecting a book. Yet it is also well now and then to open a new channel of interest by giving a volume outside of your friend's habitual line. We are often thankful to a friend who has drawn us out of our mental sheep tracks. There are a few writers that stand as permanent figures in the modern literary world—writers who have given out seminal ideas that seed and beautify the field of thought. Chief among these men are Shakespeare, Carlyle, Ruskin, Emerson and Victor Hugo. Until a library possesses at least the best writings of these five men it is sadly deficient. You are doing kingly service when you make these men known to any thoughtful mind.—Edwin Markham in Success.

Met His Match.

Rev. Matthew Wilkes, a celebrated London preacher, was caught in a shower in the famous Billingsgate market, where the profanity of the women who sell fish there is proverbial. As he stopped under a shed among them he felt called upon to at least give his testimony against their wickedness.

"Don't you think," said he, speaking with the greatest deliberation and solemnity, "I shall appear as a swift witness against you in the day of judgment?"

"I presume so," said one, "for the biggest rogue always turns state's evidence."

Wood at $8 a Pound.

"French walnut is the finest wood we have," said the cabinetmaker. "It comes from Persia, but it is prepared in France. I have seen French walnut worth $8 a pound, and it is a common thing to pay $2 a pound for it. Of course it is used principally for veneering. Only millionaires could have chairs and tables of solid French walnut. Mahogany, wonderful as it is, rarely fetches such high prices. From $2 to $3 is a very good price per pound for this wood. Ebony, if it is a particularly large piece, so that it will cut well, will often bring $5 a pound in the wood market."

Fitting Both Ends.

Press Agent—That ingenue is as green as they make 'em. What shall I say about her? Manager—Give 'em a song and dance about her girlish freshness and her pure young art. Press Agent—And what shall I say about Miss Passee's "Camille?" You know she's just completed a century run in the part. Manager—Oh, throw in some verbal pyrotechnics about the splendid maturity of her ripe genius.—Baltimore American.

An Unfamiliar Locality.

"Where was he struck by the automobile?" asked the coroner.

"At the junction of the dorsal and cervical vertebrae," answered the surgeon.

"Will you please point that out on the map?" asked the coroner, indicating one that hung on the wall.—Chicago Tribune.

Fair Play.

Mr. Spat—Now, if you'll just listen to me— Mrs. Spat—Oh, you can't convince me! Mr. Spat—Probably not, but if we're going to spend the rest of the night in argument I want my share of the time.

A Freak.

Maud—She's quite a linguist! She has eight tongues at her fingers' ends. Bill—Is she in a museum?—New York Times.

Paying your debts is an expensive way of getting commercial credit, but unless you are rich it's about the only way.—Puck.

A Book of Blunders.

One of the most valuable books for the professional collector is esteemed solely on account of its errata and the author's peculiar explanation of how so many blunders came to be made. The book is entitled "The Anatomy of the Mass." It consists of 172 pages and is accompanied by a list of errata of fifteen closely printed pages. The author in his explanation attributes the mistakes to the devil, who, he says, first caused him to drop the manuscript in a ditch and thus made it almost illegible and, secondly, by befuddling the printers made them commit a number of blunders never equaled in a work of that size.

The Oldest Bank.

The Bank of Naples is the oldest bank in existence, for the Monte Vecchio of Venice and the Banco San Giorgio at Genoa, both founded in the twelfth century, have ceased to exist, as has also the Bank of Barcelona, founded in the fourteenth century. The Bank of Naples was founded in 1539 and is a state bank with a considerable capital, to which no one lays any claim. In other words, it is a joint stock bank, with no shareholders.

EASTER

Services held in the various churches on

SUNDAY

We're attended by many. Special music a feature of all.

At the Universalist church the Sunday school gave their Easter program at 10:30 o'clock. The audience room was exquisitely decorated, under the direction of Vera Smith, in soft cloud like effects of white bunting and a profusion of cut flowers, Easter lilies and choice potted plants tastefully arranged, heightened the effect.

It was distinctively a religious service consisting of beautiful Easter music with the accompanying devotional service by the school and a few choice recitations conspicuous among them being a selection "Palestine" by John Greenleaf Whittier rendered in a faultless manner by Miss Anna Ferguson.

At the conclusion of the program the pastor gave the children a short talk on the Reality of the God we worship. The character and mission of God and the duty and the privilege and blessing of trying to walk in His steps after which she most impressively dedicated five little ones (making 9 in all) to the service of God.

At the evening service the pastor gave her Easter sermon on the subject, "The Resurrection story and its importance for me," which marked the consummation of a true resurrection day in the hearts of those privileged to attend these services.

Easter was fittingly observed in the Presbyterian church Sunday both in the morning and evening. A special order of service was conducted by the pastor, Rev. Fox, in the morning including the rite of baptism which was administered to a number of little ones.

A vesper service at 5:30 by the Sunday school entitled "Jesus the Prince of Life," supplemented by recitations, solos and songs from the primary and junior departments, was an interesting event and worthy of much praise. Special music by the choir was also much enjoyed. The church was decorated in ferns, cut flowers, lillies and potted plants, adding much to the beauty of the service.

The Junior C. E. of the Friends church gave a pleasing Easter program Sunday afternoon at 3 o'clock. The children all did well and gave credit to the faithful efforts of the junior superintendents, Miss Merle Kenyon and Mrs. Reuben Van Winkle. The regular church Easter service was in the evening. An appropriate sermon was given by the pastor and a number of special selections were sung.

Special music by the vested choir was greatly enjoyed by a large congregation Sunday at the Episcopal church, which had been prettily trimmed for the occasion with lillies, ferns and white bunting. At 6 o'clock a. m. the beautiful communion service was conducted by Rev. Kemp and at 4 o'clock in the afternoon an Easter sermon was delivered by the pastor.

A union sunrise Easter service was held by the young people of the various churches at 6 a. m. at the Baptist church led by Rev. Fox. Beside the regular sermon at 10 o'clock, special music was rendered by the choir. At the conclusion of the evening service the rite of baptism was conferred upon Miss Maud Scofield.

Storm Words.

"Typhoon" is by no means the only word for a storm that has come to the English language through Portuguese and Spanish. Others are "tornado" and "hurricane," which Shakespeare could still write "hurricano." Old time Englishmen, at any rate, spelled the last word in at least as many ways as Shakespeare and other people spelled his name, and some of the spellings indicate frantic attempts to make the word suggest a derivation intelligible to the English mind. Of such are "furicane," "hurlecan," "Herocane" and "Harry-Cain." Even "hurricane" was finally adopted no doubt as suggesting "hurry." The original was the Carib "huracan," or "furacan," the navigators of Portugal and Spain having been instrumental only in bringing it to England from the west, as they brought "typhoon" from the east.

SHORT TALKS BY L. T. COOPER.

THE STOMACH.

My but peoples' stomachs do cause a lot of trouble. I offered to wager some doctors in St. Paul, Minn., that one half of all sickness is caused by the stomach. After I assured them that my medicine did nothing but put the stomach in shape and they had spent a day listening to what people who called on me had to say, they had to agree with me. They heard people come in and tell me that for years they had been near the grave with Bright's disease, or lung trouble, or kidney complaint and all manner of diseases and that the New Discovery had cured them. Of course these people were mistaken, it was nothing but their stomachs. As a matter of fact when the stomach gives out most everything else is thrown out of order too.

When a person feels tired and dull and despondent, is loosing flesh and don't sleep well, has a poor memory, a bad taste in the mouth, a coated tongue, and other troubles he's liable to believe a lot of things are the matter with him. Nine chances to one it's his stomach. I've seen Cooper's New Discovery bring back health to too many people in just this shape to believe anything else. Here's a letter about it:

"I suffered for a long time without knowing just what was the matter with me. I seldom felt like eating. I lost greatly in weight. My digestion was extremely poor and when I did eat I invariably suffered afterward. I was constipated and frequently suffered from nerve racking, violent headaches. When I heard of what the Cooper remedies were doing for others I resolved to try them."

"Relief came with the first bottle. My appetite and digestion improved rapidly. I am no longer constipated nor do I have those dreadful headaches. I sleep well and am gaining flesh." C. H. Powell, 13 Harrison Addition, Duluth, Minn.

"We dined in some of the finest hotels and restaurants, but did not find any coffee to excel in quality Arbuckles' ARIOSA."

That is what one lady writes and millions of others prove they believe, by using more Arbuckles' ARIOSA Coffee than all the other packaged coffees in the United States put together.

The fact that Arbuckles' ARIOSA Coffee costs less and has suited the health and taste of most American people for over 37 years, ought to induce everybody to at least sample it.

The cities hide many country girls and boys who secretly sigh for a cup of good coffee like "mother" made. "Mother" probably used the old original "Arbuckles'" the first roasted packaged coffee.

See that you get the sealed package, one pound full weight, bearing the name ARBUCKLES' ARIOSA COFFEE and the signature of Arbuckle Brothers, which entitles you to presents.

Right *There*, and There *Right!*

It is easy to see why the fine cut chewing tobacco you buy out of open buckets or in flimsy wax paper packages is usually well sprinkled with dust or so dried up that a mouthful of it tastes like so much saw-dust. What else could you expect?

If you want your fine cut just right for chewing every time you buy it, always ask for

BLOT
CHEWING TOBACCO

Then you are sure of a fresh, sweet, clean, tasty chew—for there's no chance for it to dry up or get filled with dirt.

We make sure that Blot Chewing Tobacco reaches you moist and clean just like it leaves the factory, by wrapping it in heavy paper and tinfoil—a new perfectly sealed package which brings a new treat to chewers of fine cut.

Get "Blot" and you get your fine cut right—wherever you get it. The revenue stamp on every package guarantees full weight.

"SPOROCIDE"

that will positively prevent smut in oats. Guaranteed or money refunded. The treatment costs but 10c per acre.

In 150 tests made by substantial farmers who used Sporocide in 1906, the average increase in yield per acre was 10¼ bushels, or a net gain of from $3 to $4 per acre on an outlay of 10c. This is worth looking into. Write for testimonials.

Messrs Rowland & Clifford offer their new production "Dora Thorne" at the New Bradley on Saturday, April 6. It is said to be a melodrama of high degree and one that is a little out of the ordinary. The play is a dramatization of Bertha M. Clay's famous novel of the same name. It is a clean, wholesome play which bids fair to live as long as "East Lynne."

Miss Tillie Hough was tendered a miscellaneous shower at the home of Mrs. J. B. Coller last evening, Mrs. Libbie Betzer assisting. About 50 attended the affair, a number being present from Macon. Miss Hough was the recipient of a number of pretty and useful gifts in china, silver and granite. Her marriage to Mr. Dean Fosdick of Saline, is an event of April. Light refreshments completed the delightful evening.

Last Thursday afternoon the high school girls athletic association held a mass meeting and elected the following officers:

Pres.—Lydia Babcock.
Vice Pres.—Pearl Beebe.
Sec.—Blanche Mellon.
Treas.—Josephine Hayden.
Manager of Basket ball team—Miss Mable Mills.
Asst. Manager—Zilla Mills.
Capt.—Grace Albert.
Yell Mistress—Florence Keyser.
Capt. of Tennis club—Jennie Harris.

Blue grass and Dutch White clover for lawns. For sale by Avery & Co.

"Dora Thorne."

Rowland & Clifford's production of "Dora Thorne," Lem B. Perker's dramatization of Bertha M. Clay's famous novel is the type of play that is perhaps the very best seen on the road. It is a love sort pure and simple, and, at the same time amusing and interesting. It teaches a wholesome lesson, it leaves no bad impressions, but rather an abiding pleasure that benefits and inspires and rests those who see and hear it. Few better plays will be seen at the New Bradley opera house during the present season.

Next Friday.

In Friday's issue of the Tecumseh HERALD will be printed on the first page a three column account of Miss Lena Smith's trip to Paris on the Detroit Free Press excursion also an account of how she received so many subscribers for the Free Press and won the trip. The paper is well written and an interesting one.

A Pleasant Gathering.

About 25 of the friends and neighbors of Mr. and Mrs Wm. Powell enjoyed a picnic spread at their home last evening. This little group of Pottawatamie and Kilbuck street residents have been having picnic suppers together once a month for several years. This was a special occasion, Mr. Powell being about to move to another part of town, Mrs. Hillman's house on Union street.

The guests presented the hostess with a souvenir spoon as a token of their appreciation of a good friend and neighbor. The evening was pleasantly spent in conversation and music. At each plate was a menu card decorated with the tents and totems of the Pottawatamie and Kilbuck tribes.

Old Papers 5c a Bundle.

Now that house cleaning time has come you can buy old papers, clean ones for 5c for 30 at the HERALD office.

Farmers' Union.

The Farmers' Union will meet at the home of W. F. Raymond Friday evening, April 5. There will be a sugar supper and election of officers.

"Pneumonia's deadly work

Had so seriously affected my right lung" writes Mrs. Fannie Connor of Georgetown Tenn., "that I coughed continuously night and day and the neighbors prediction—consumption—seemed inevitable until my husband bought me a bottle of Dr. King's New Discovery which in my case proved to be the only real cough cure and restorer of weak lungs." When all other remedies fail you may still win in the battle against lung and throat troubles with New Discovery, the real cure. Guaranteed by C. A. Wright, druggist. 50c and $1.00. Trial bottle free.

Teachout to Enter the Circuit.

With all his skill and the fairness shown him by luck in recent years Dan Hopkins will not have a monopoly of the circuit this year. Right from this state in a near-by town comes a little man who wears black and white check when he is driving and those colors happened to be in front much of last season. Fred D. Teachout, the Tecumseh financier, is the one and he is getting ready for the work right now. Teachout, like Hopkins, would as soon win money in June as well as later on and he writes that he will be at Ionia to fight it out with any of them.

As Ionia has a 2:15 class for trotters, the people may expect to see Teachout start The Pacolet, 214¼, in this event This black fellow was the leading money winning trotter in the circuit last season, improving right to the end. He is a resolute sort of a trotter and it is hard to find half-milers that have much on him.

Two others that went through the state last year and won their share are the pacers Fred D and Bon Czar, each of him landed with 2:14¼ against him. Then there are three green ones about which Teachout is saying no more than that they are promising.

In addition the Tecumseh man has a 2-year-old trotter about which he can't say enough. A bay colt by Metallas, 2:11, out of a mare by Expedition, 2:15¼ second dam Belmont, 64 (dam of five), third dam by Pilot, Jr. (dam of three) and so on. Teachout is so enthusiastic over this kid member of his brigade that there is apt to be a wordy war when he hooks up with Jim Burns, who has that Directum Kelley colt out of Pontiac. Detroit Free Press.

Accompanying this sketch was a picture of Mr. Teachout, driving the famous Pacelot.

NOVEL CURE FOR COLDS.

Heating medication that is breathed giving quick relief.

It seems just as ridiculous to put medicine into the stomach to cure a cold in the head or lungs as it does to go out in the rain if we want to keep dry.

The fact that many people right in Tecumseh cough and hawk and snuffle for days and weeks after they treat a cold with the usual stomach dosing, shows how valueless are the ordinary cough and cold cures.

The right way to cure a cold in the head or a cough and irritation in the throat and lungs, is by breathing Hyomei's medicated air. Put a few drops of Hyomei in the neat pocket inhaler that comes with every outfit and breathe this healing air for a few times and immediate relief will be noted. The medication goes right to the spot where the disease germs are located and renders them harmless in the future.

At the same time the soothing and healing effects of Hyomei on the irritated mucous membrane give quick relief and the cough or cold is broken up.

The best evidence of the great value of Hyomei in curing coughs, colds and all bronchial troubles is the fact that C. A. Wright gives an absolute guarantee with every outfit he sells, that if it does not give satisfaction, the money will be refunded.

A complete Hyomei outfit, consisting of a bottle of Hyomei, the inhaler and a medicine dropper, costs but $1, while extra bottles of Hyomei, if needed, can be obtained for only 50c

TESTED AND PROVEN.

A heap of solace in being able to depend upon a well earned reputation.

For months Tecumseh readers have seen the constant praise for Doan's Kidney Pills and read about the good work they have done here. No other remedy ever produced such convincing proof of merit.

Wm. Witherell, living on Pottowatamie street, Tecumseh, Mich., says: "In 1901 I gave a statement for publication telling how Doan's Kidney Pills had helped me and today, Dec. 12 '06, I still hold the same high opinion of them. When I first used Doan's Kidney Pills I was troubled with severe pains across my back. Either bending or straightening sharp pains would dart through me and I would have to lie down. I think the trouble was caused years ago when I used to shear a great number of sheep. I learned of Doan's Kidney Pills and bought a box receiving much benefit from the first few doses. I am glad to say that the cure proved permanent and I have not been troubled since."

For sale by all dealers. Price 50 cents Foster-Milburn company, Buffalo, N. Y., sole agents for the United States. Remember the name Doan's, and take no other.

The News—No Pure Drug Cough Cure Laws would be needed, if all cough cures were like Dr. Shoop's Cough Cure is—and has been for 20 years. The National Law now requires that if any poisons enter into a cough mixture, it must be printed on the label or package.

For this reason mothers, and others, should insist on having Dr. Shoop's Cough Cure. No poisons marks on Dr. Shoop's labels—and none in the medicine, else it must by law be on the label. And its not only safe, but it is said to be by those that know it best, a truly remarkable cough remedy. Take no chance, particularly with your children. Insist on having Dr. Shoop's Cough Cure. Compare carefully the Dr. Shoop package with others and see. No poison marks there! You can always be on the safe side by demanding Dr. Shoop's Cough Cure. Simply refuse to accept any other. My Breath.

Shortness of Breath Is One of the Commonest Signs of Heart Disease.

Notwithstanding what many physicians say, heart disease can be cured.

Dr. Miles' New Heart Cure has permanently restored to health many thousands who had found no relief in the medicines (allopathic or homeopathic) of regular practicing physicians.

It has proved itself unique in the history of medicine, by being so uniformly successful in curing these diseases.

Nearly always, one of the first signs of trouble is shortness of breath. Whether it comes as a result of walking or running up stairs, or of other exercises, if the heart is unable to meet this extra demand upon its pumping powers—there is something wrong with it.

The very best thing you can do, is to take Dr. Miles' New Heart Cure. It will go to the foundation of the trouble, and make a permanent cure by strengthening and renewing the nerves.

"I know that Dr. Miles' New Heart Cure is a great remedy. For a number of years I suffered from shortness of breath, smothering spells and pains in my left side. For months at a time I would be unable to lie on my left side, and if I lay flat on my back would nearly smother. A friend advised using Dr. Miles' New Heart Cure, which I did with good results. I began to improve at once, and after taking several bottles of the Heart Cure the pains in my side and other symptoms vanished. I am now entirely well. All those dreadful smothering spells are a thing of the past."—F. S. DRAKE, Middletown, O.

If the first bottle does not help you, the druggist will refund your money.

Old People

NEED VINOL

It strengthens and vitalizes

With old age comes feebleness and loss of power; the blood is thin and digestion weak.

Vinol repairs worn tissues and checks the natural decline. It tones up the digestive organs, aids assimilation, makes rich, red blood, and strengthens every organ in the body. In this natural manner Vinol replaces weakness with strength.

Vinol contains all the medicinal elements of cod liver oil in a concentrated form, taken from fresh cods' livers, the useless oil eliminated and tonic iron added.

DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It is the great medical triumph of the nineteenth century; discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, uric acid, catarrh of the bladder and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's **Swamp-Root** is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work and in private practice, and has proved so successful in every case that a special arrangement has been made by which all readers of this paper, who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root, and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The regular fifty-cent and one-dollar size bottles are sold by all good druggists. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Pius IX. May Be Canonized.

Rome, April 2.—An ecclesiastical "process" looking to the beatification and finally the canonization of Pope Pius IX., who was elected in 1846 and died in 1878, has been begun in the diocese of Sinigaglia, where Pope Pius was born, and will be continued in the diocese of Imola where he served as bishop. The "process" starts with inquiries and the examination of witnesses. The entire proceedings are very long, and in some cases lasting for a full century.

New Syllabus From Vatican.

Rome, April 2.—Work on a document which will point out the errors that have been condemned at various times by the popes since the syllabus of Pius IX. published in 1864, is approaching completion. Although the vatican does not wish this document to be called a new syllabus, it is evident that the two productions will have much similarity, and that the new document will cause as much discussion as did the syllabus of 1864.

A story is told by an explorer of a large and fierce South American spider which chases men if they come too near its lurking places. On one occasion he was pursued by one. "Hiding at an easy trot over the dry grass," he writes, "I observed a spider pursuing me, leaping swiftly along and keeping up with my beast. I aimed a blow with my whip, and the point of the lash struck the ground close to it, when it instantly leaped upon and ran up the lash and was actually within three or four inches of my hand when I flung the whip from me."—London Standard.

Te-day we want to talk to you about "Catarrh cures"

During the past few months we have been publishing what some of our good friends have called "heart-to-heart talks" on patent medicines.

That name suits us all right—"heart-to-heart talks" is just what we have intended. There can't be anything more serious to a sick man or sick woman than his ailment and the remedies he or she takes to cure it.

Our talks have been "heart-to-heart." Every word we have printed has been written in absolute earnestness and sincerity, and judging from what our customers tell us, we have not been talking in vain. We are convinced that our frankness has been appreciated, and that our suggestions have been welcomed—which naturally encourages us to continue.

To-day, and perhaps for some time to come, we want to talk about that big class of remedies known generally as "catarrh cures."

Broadly speaking these are the patent medicines that have been the chief targets for the attacks of the "Ladies' Home Journal," "Collier's Weekly" and other magazines which are waging such a lively warfare against patent medicine abuses.

As we have pointed out in previous talks, it is not our business to pass judgment on the crusade of these well-known, highly-respected publications. The public alone must be the judge and jury. Our business, as we see it, is to carry in stock a complete line of patent medicines, and to sell those medicines at the lowest possible price.

We sell hundreds—yes, thousands of bottles of so-called "catarrh cures," and know nothing of their ingredients. The manufacturers advertise them, the public demands them; we order them from the manufacturers, and sell them at the lowest price. That is absolutely as far as our knowledge goes. The manufacturer keeps his formula a secret. It may be good, or it may not—we don't know, and we have no means of finding out.

Naturally, we would rather sell a remedy that we know is right—that we can back up with all our reputation for honesty and square-dealing.

And wouldn't you rather buy that kind of a remedy? Wouldn't you rather hold us responsible than to hold no one responsible? We are right here, right where you can get at us every day in the week, right where one false move on our part will bring upon us your condemnation, the loss of your friendship, your patronage, your influence. Can we afford to tell you anything that you will learn later is not absolutely true?

Are you not safer in taking our word for the merits of an article, than you are to rely on the printed statement of a patent medicine manufacturer, whom you never even saw and probably never will?

Common sense most emphatically tells you that we cannot afford to depart one hair's breadth from the rigid truth.

None of us can deny that there is such a disease known as "catarrh." Those who have it, or who have had it, know that it is one of the hardest diseases to cure.

Perhaps the worst thing about catarrh is its prevalence. Almost everyone—especially in a climate like ours—has catarrh in some form or another. That is what has made the "catarrh cure" business so profitable. There are so many thousands of cases of the disease and it is so hard to cure, that the patent medicine manufacturer have reaped a harvest in preparing remedies that appeal to this large class of sufferers.

One of the most serious things about catarrh is that it breaks down the system, so that the sufferer becomes a prey to other diseases. This fact has led the proprietors of so many "catarrh cures" to advertise their remedies as a specific for almost every disease under the sun.

We have ONE catarrh cure that we are willing to say to you: "We know this is all right. Take it home and use it with the full assurance that if it does not cure you, you can bring it back to us and we will promptly refund your money." That catarrh cure is

Rexall MUCU-TONE

There is no guess work with us on Rexall Mucu-Tone. *We know what it is made of.*

Not only do we know, *but we will give you a copy of the formula.*

There is no secret about any Rexall remedy—we make them—one thousand of us leading druggists all over America—in our great co-operative laboratories at Boston, Mass. We own the laboratories, and everything in them, and we operate them just as skillfully as our combined brains and money will let us, and just as honestly as honest men know how.

The Ingredients of Mucu-Tone

The chief ingredients of Mucu-Tone are Gentian, Cubebs, Cascara Sagrada, Glycerine, and Sarsaparilla.

Gentian is recognized in medicine as one of the greatest tonics ever discovered. It is the foundation on which Mucu-Tone is built. Gentian combines in high degree the tonic powers of all the known "bitters," with none of the disadvantages applying to them.

Cubebs have long been recognized as a specific in the treatment of all catarrhal conditions. Its action is prompt and its benefits almost invariable. In whatever part of the body the inflamed or diseased condition of the mucous membrane exists, the use of Cubebs has been recommended by the best physicians for many generations.

Cascara Sagrada is especially introduced for its necessary laxative properties.

The combination of these with Glycerine and Sarsaparilla makes Mucu-Tone a remedy that attacks catarrh from every point, gradually restores and rebuilds the diseased tissues to their former health and strength, promotes digestion and creates a normal appetite. Large trial bottle, 50c.

For Sale Only at This Store.

How can you know whether or not you have catarrh?

Well, here are the symptoms that usually indicate its presence. Check them over, and if you have any of them, try a bottle of Rexall Mucu-Tone.

Weak Kidneys

Weak Kidneys, surely point to weak kidney Nerves. The Kidneys, like the Heart, and the Stomach, find their weakness, not in the organ itself, but in the nerves that control and guide and strengthen them. Dr. Shoop's Restorative is a medicine specifically prepared to reach these controlling nerves. To doctor the Kidneys alone, is futile. It is a waste of time, and of money as well.

If your back aches or is weak, if the urine scalds, or is dark and strong, if you have symptoms of Brights or other distressing or dangerous kidney disease, try Dr. Shoop's Restorative a month—Tablets or Liquid—and see what it can and will do for you. Druggist recommend and sell

A good housekeeper keeps her kettles and her temper from boiling over.

Rest is the great restorer. We tire our muscles by exercise and then rest to restore them; yet a great many of us do not stop to think how little rest we give to our stomachs. As a usual thing no part of our bodies is so generally overworked as our digestive organs. A tired and overworked stomach will give signs of distress to which we pay no heed until at last dyspepsia takes hold. Indigestion is just a warning and if we heed the warning we can easily avoid further consequences. Kodol is a most thorough stomach relief. It digests what you eat and gives the stomach the needed rest and greatly assists in restoring it to its normal activity and usefulness. Kodol is sold on a guarantee relief plan. It is sold by B. J. Pulver.

TOUR-TO-CUBA

Contest and Trip by

MISS LENA F. SMITH

One of the Successful Candidates.

One of the most successful and enjoyable tours ever given by any newspaper in Michigan was the Tour-to-Cuba given by the Detroit Free Press to twenty three young ladies.

About Nov. 10th the Detroit Free Press announced in its columns that it would give a Tour-to-Cuba trip to twenty young ladies to be selected throughout the state by vote of the patrons of the Free Press. The state was divided into nineteen districts, ten districts were in the city of Detroit and nine districts in the state outside of Detroit, one lady to be elected from each district and one lady at large. On Nov. 24th through the solicitation of friends I entered the contest and on Feb. 17th when the result of the contest was announced, was declared elected as the representative from the 16th district receiving 167,457 votes which was the largest vote received by any candidate outside of the city of Detroit.

To the many friends who so nobly supported and stood by me so faithfully in the contest I feel under great obligations and cannot use words to express my thanks to them for it was through their assistance and untiring efforts that I was chosen as one of the young ladies to enjoy a trip which was an event in my life. To the Free Press I know I express the sentiment of the twenty three young ladies who made the trip in saying that the proposition which was made by the Free Press was more than fully carried out. While we expected much from what the Free Press had promised yet its promise was carried out more than two-fold. Every thing needful for our comfort and enjoyment was furnished. Mr. and Mrs. Brown, our guide and escort were untiring in their efforts to see that nothing was left undone to make the trip pleasant and successful.

Friday evening, March 1st, I went to Detroit prepared for the trip and Saturday morning, March 2nd, at 10:30 o'clock the twenty three young ladies selected to make the trip met for the first time in the editorial rooms of the Free Press company where they were made acquainted and all arrangements for tickets, checking of baggage, etc., were made.

The party consisted of twenty elected candidates, Misses Mary E. Halloran, Emma Mohn, Katherine E. Harrigan, Libbie Finley, Carrie M. Matthews, Nellie Ford, Mamie Lehman, Marie Vernier, Maud Dunn, Jessie M. Moody of the city of Detroit, and Maud L. Ewing of Hiland Park, L. Muriel Springstead of Rochester, Grace Carey of Port Huron, Ethel Pulver of Caro, Lavantia Sampson of Hillsdale, Lena F. Smith of Tecumseh, Hazel Foster of Midland, Icylene Beechler of Ithaca, Bertha M. Hilbert of Woodland, Anna M. Way of Farmington, also Hester Sage, Margaret Mackay and Bethel Flory of Detroit, invited guests of the Free Pree for continuous hard work in the contest and receiving over 200,000 votes.

Before leaving we were requested to pose at the front entrance of the office for a group picture after which we entered cabs in waiting for us and were taken to the Union depot where after a short time spent in farewells to the many friends there to witness our departure, we embarked in the splendid Pullman "Epping" provided for our convenience and amid a shower of bouquets to some, rice to one and cheers and farewells to all, commenced our Tour-to Cuba.

Soon after the train pulled out of the station and berths assigned us in the Pullman, dinner was served in the dining car. Short stops were made at Toledo, Hamilton, Springfield, Dayton and Cincinnati and on Sunday morning, March 3, after a long ride on the train, the Tour-to Cuba girls alighted at Chattanoogo. It was such a beautiful day and all nature seemed as cheerful as the girls. After breakfast at the hotel we were taken on a trolley to Chicamauga park where carriages were awaiting us. There could be no better way of studying history than to take a drive through the battlefields of this park, over Missionary Ridge and viewing the monuments erected by the several states. The drive of two hours was indeed very interesting.

We returned to Chattanooga for dinner, after which we took the trolley for Lookout mountain. Only a trip up the mountain on the incline railway can describe the grandeur The road is 4760 feet long with an incline of 67 feet to the hundred and the sensation going up on the cars is one never to be forgotten. After reaching the summit of the mountain we started for Lookout Point. From this Point we saw Chicamauga park, Missionary Ridge, the great bend of the Tennessee river forming Moccasin Bend, a view of Chattanooga also seven states, Tennessee, Alabama, Georgia, Kentucky, Virginia, North and South Carolina. We then went to see Umbrella Rock and Point Hotel on the place where Hooker's army ascended the mountain and the battle above the clouds was fought.

We next visited the War Museum which contains relics picked up from some of the most famous battles of the south. After a visit to Lookout Inn a magnificent hotel situated directly in front of the incline railway we decended the mountain and the balance of the day was spent in a ride about the city, returning to the hotel for dinner at 7 o'clock. At 7:30 we started on our journey for St. Augustine. A short stop was made on the way at Jacksonville. This is one of the well built and well kept cities of Florida. Its hotels are said to be excellent, but our short stop of less than an hour did not permit of our personal investigation.

We arrived at St. Augustine Monday March 4th, at 4 p. m. Here are two of the most spacious and magnificent hotels, the Ponce De Leon and the Alcazar, which lift their greet towers against the sunny sky. We stopped at the Alcazar. On our arrival in the city we at once set out sight seeing, visited points of interest, The City Gates, Ft. Monroe, and an old Cathedral built in 1745. Returning to the hotel at 7 o'clock.

Tuesday a. m. came bringing a beautiful day, and we started out after breakfast to see the oldest house in America. It is built of coquina rock with a veranda extending from the second story over in the street. It was built in 1563 and contains over 10,000 articles which are 300 or more years old. After reaching the hotel again we were taken for a drive around the city reaching the depot in time to catch our 10:45 train for Ormond.

We arrived at Ormond at 1:30 Tuesday afternoon and were soon nicely located in the Hotel Ormond with beautiful rooms fronting on the beach. Soon after our arrival here we made the acquaintance of a party of tourists from Chicago who joined our party making our number 43 in all. Our new associates continued with us on the balance of our trip. Ormond is a beautiful restort on the Halifax river, and the ocean within easy reach.

It has a beach that is the glory of American pleasure resorts, over 30 miles long and 600 feet wide, and is so solid that the heaviest automobile can pass over it almost trackless. Here also is the greatest auto track in the world, and the famous meets and races of the American Automobile association take place in mid-winter. Early Wednesday morning we found three launches awaiting us for a day on the Tomoka river a trip of 16 miles. Only a trip up this river can describe the scenery, the beautiful palms cocoanut trees and pines with moss hanging nearly to the ground.

About 12 o'clock we arrived at an ideal spot where we found in waiting Mr. and Mrs. Brown who had arrived ahead of us in carriages and had arranged a delightful luncheon under the blue sky and palm trees. We returned to the hotel about six o'clock and after dinner enjoyed a dance in the pavilion

Thursday we were given a ride in autos along the beach to Daytona a distance of about 16 miles. The afternoon was spent at the beach, and at 10:30 in the evening we were on our way to Miami arriving there Friday at 11:30 a. m. We immediately went on board the steamer Shinnecock for Key West after a beautiful day on the ocean we arrived at Key West at 12:30 midnight, and at 1:30 embarked on the steamship Halifax for Havana.

Going to Cuba is like stepping upon foreign shores, especially if one lands amid the cosmopolitan scenes at Havana. On deck in the morning we were afforded a splendid view of the city as it comes into sight. Approaching the harbor the first to attract our attention was the tower of Morro light, then Morro castle and its rock-ribed foundations in front, frowning forbiddingly against a rosy sky on our left, and Punta castle on the right of the entrance to Havana harbor which is not more than 400 yards wide, but once inside the harbor expands to the magnificent bay two and a half miles wide.

The bay enlivened with numerous quadanos, a type of passenger boat by which formerly all passengers were taken to the landings, but lately passengers are taken off on lighters built for the purpose. No steamships made the landing. The Halafax on which we sailed was moored very near the wrecked United States battleship Maine. The wreck is still a conspicuous object and we had an elegant opportunity of seeing it. On the wharf our baggage was inspected by the custom officers, and taking a car for the hotel we found ourselves in narrow streets amid surroundings where the unfamiliar style of the houses, vehicles, street life, strange ways and Spanish tongue proclaimed that we were in a foreign land.

We went directly to the Pasaje Hotel where we stopped while in Havana. It is a very large hotel with the dining room open to the street with the exception of an iron railing. Its floors are marble and it is one of the three buildings in Havana, that has an elevator. No carpets are seen on the floors and the ceilings are very high. It is said "every country has a way of its own" and Havana's way has been determined by its climate. One feature which impressed us was the heavy style of architecture. Most of the houses are one story with flat roofs, constructed of blocks of limestone. Walls are very thick and doors high and massive and the windows reaching nearly from floors to ceilings and guarded with iron bars and ornamental grilles.

There are no front yards, the houses being built flush with the street and close together, the entrance and ground floors are built on the street level, the rooms are large and ceilings high eighteen feet being the average, the floors are tile or cement without carpets, furnished with cool cane and wicker furniture, upholstered furniture being unknown. The streets are well paved and kept very clean, they are very narrow with few exceptions, one being the Prado. This avenue consists of a central promenade lined with trees and seats with a drive on each side. This is Havana's fashionable parade ground, with the Malecon at its terminus fronting on the Gulf.

Sunday morning we attended the Presbyterian church and heard Dr. Green speak. We also visited one of the cathedrals. This Sunday was Carnival day and the Prado was a scene of unrestrained gaiety. Monday we took the train for Mariano where we visited the tobacco fields, sugar plantations, pineapple fields and cocoanut groves. Tuesday through the invitation received from General Slocum we visited Morro Castle, there we were met by the General and his staff.

Morro Castle was completed in 1597. It is a triangular fortification, from 100 to 180 feet above the sea, surrounded by moats 70 feet deep, thirty feet of which was hewn out of solid rock. Its most prominent feature is a light tower whose blaze is visible eighteen miles at sea. We were conducted through the castle by our guide and on reaching the inner court, found General Slocum and his staff with a large band to greet us As we entered the band played "Stars and Stripes Forever" and we responded with singing America and ending with our yell,

Karo Karo Coco Sing,
Hear us, Hear us, we're the thing,
Who are we, Who are we.
Free Press Tourists, 23,
Rah, Rah, Rah, Rah, Rah, Rah,
Detroit Free Press, Whee.

We were then served with refreshments and after this enjoyed a dance with the General and his staff. After leaving the court we were conducted through the dungeons of the castle and then returned to our hotel. During the afternoon we took a drive to the president's palace, Columbus Memorial Cuspidin, cigar factory, the cathedral where Columbus was buried, botanical gardens and Colon cemetery. In the evening we went to see the Jai Alai game, which is Havana's favorite sport.

Wednesday we boarded the train for Matanzas, a distance of 54 miles. Here we visited the beautiful Valley of Yumuri, the Hermitage of Montserrate and the caves of Bellamar. The caves of Ballamar are in a hill northeast of the city and were discovered by a workman while extracting limestone, the iron bar he was using slipping from his grasp disappeared in the earth. The caves extend for a distance of three miles and are about 500 feet below the surface. They are lighted by electricity. Our visit there was a long and tiresome climb of stairways, but the experience and wonderful scenery was well worth the effort.

Thursday was given us as a sight seeing and shopping day in Havana and Friday morning at 10 o'clock we boarded the steamer Halafax again for Key West, arriving there at 7:30 in the evening and had an opportunity of seeing the city for a few hours, when we sailed again for Miami. The morning opened bright and with a calm sea which afforded us an opportunity to see the great railroad which is being built by H. M. Flagler from Miami to Key West, a distance of 126 miles at a cost of $12,000,000, which it is said will go down in history as the apotheosis of railroading. The road is built on the Florida Keys, a chain of coral rock islands. There are five miles of concrete arches connecting these islands on which the road is built.

We arrived at Miami at 6 30 Saturday morning, here we took a drive around the city returning to the hotel Royal Palm for dinner. At 8:30 we were on our way to Palm Beach arriving there at 10:30. At this place centers one of the largest and most notable social colonies in America. It is the playground of American millionaires. In its shaded groves and avenues of cocoanut palms, set like a queen amid every variety of tree or shrub, is the Royal Poinciana, the largest hotel in the world. It has 1600 rooms and the dining room has a seating capacity for 2500 people. It was our pleasure to spend Sunday at this hotel.

Sunday evening we boarded the train homeward bound, leaving our Chicago party at St. Augustine. As we came through Kentucky and Tennessee in the day time we enjoyed the beautiful scenery so much and Tuesday morning found us in Cincinnati. Here we had a stop of a few hours, so all took a car for the city, but 1 o'clock came only too soon and we were again on our way. We were met at Toledo by a few friends and at Monroe we were joined by a party of ladies and gentlemen who had made the trip from Detroit to greet us on our home-coming. A jolly time was spent on our way in, a male quartette in the party furnishing music. On our arrival in Detroit we were greeted by a band and a crowd of friends and people who taxed the capacity of the depot and train yard. I am sure a more congenial and happy crowd of girls could not be found than the twenty-three young ladies who made the Tour-to Cuba.

POLICE ARE HELPLESS.

Mobs Prevent Running of Cars in Kalamazoo, and Numerous Assaults Are Being Committed.

Kalamazoo, Mich., April 5.—Supt. Bramlette again suspended operations on all lines at 6 o'clock last night. During the afternoon the street railway strike situation grew more threatening than ever, and the police appear to be unable to cope with it.

Operations on some of the lines were abandoned in the middle of the afternoon, because the company was unable to keep the tracks cleared of obstructions.

There were numerous assaults and several arrests. At the corner of Main and Portage streets, about 4 o'clock, a mob of about a thousand was collected, and as a car approached a trolley rope was cut. When one of the crew got off to fix it he was viciously assaulted.

Fears that unless the disorder is checked there will be bloodshed are entertained, and the police commission held a meeting yesterday afternoon to see what could be done to improve conditions. Extra police are being sworn in. Both sides are determined, and neither has made an offer to treat for a settlement.

The people are in an ugly mood and very few advocates of law and order are to be found among the crowds that throng the streets.

Dowie's Succcessor.

Chicago, April 5.—John A. Davis last night accepted the appointment as successor to John Alexander Dowie in Zion City, in accordance with the will of the late leader. The will was drawn in August, 1906. In it Dowie bequeaths the widow's dower to Mrs. Dowie, and to his son, Gladstone Dowie, he gives $10.

The price of health.

"The price of health in a malarious district is just 25 cents, the cost of a box of Dr. King's new life pills" writes Ella Slayton of Noland, Ark. New life pills cleanse gently and impart new life and vigor to the system. 25c Satisfaction guaranteed by C. A. Wright, druggists.

When we hear that we have made an impression some of us wisely refrain from asking what kind.

Bitten by a spider.

Through blood poisoning caused by a spider bite John Washington of Bosqueville, Texas would have lost his leg which became a mass of running sores had he not been persuaded to try Bucklen's arnica salve. He writes "The first application relieved and four boxes healed the sores." 25c at C. A. Wright's.

SHORT TALKS BY L. T. COOPER.

RHEUMATISM

Old Mr. Rheumatism hangs on tight and bites and pinches when he takes hold. It's quite a job to shake him off. It's hard to believe that all the pain and trouble he causes comes from such a little thing. Just a tiny bit of acid in the blood the kidneys haven't taken care of. But the kidneys aren't to blame. I used to think they were. Now I know better. It's that over worked and over crowded stomach giving the kidneys part of its work and the kidneys can't do it. I found this out with Cooper's New Discovery. It puts the stomach in shape, that's all it does, and yet I have seen thousands of people get rid of rheumatism by taking it. That is why I am positive that rheumatism is caused by stomach trouble. Here is a sample of letters I get every day on the subject.

LAWRENCE TUSCANY.

"For a long time I have been a victim of sciatica and inflammatory rheumatism, and my suffering has been too great to describe. For weeks I lay helpless with every joint in my body so tender and sore that I could not bear to move. The slightest touch would cause me the greatest agony. Several doctors treated me but they failed entirely. I tried many remedies but nothing seemed to reach my case, so I continued to lay helpless. My kidneys and stomach were affected also. I could eat but little, digest less and gradually my strength left. I lost flesh rapidly."

"I began the use of the famous Cooper medicines of which I heard so much. To my surprise and delight I improved immediately, and after using several bottles I felt like another person. My strength and appetite returned. The pain and soreness left me and now I feel better than I have for months." Lawrence Tuscany, 1122 Aldrich Ave., North, Minneapolis, Minn.

PREVENT SMUT

THE WM. HAVDEN MILLING CO., Tecumseh, Mich. have secured the agency of

"SPOROCIDE"

that will positively prevent smut in oats. Guaranteed or money refunded. The treatment costs but 10c per acre.

In 150 tests made by substantial farmers who used Sporocide in 1906, the average increase in yield per acre was 10¼ bushels, or a net gain of from $3 to $4 per acre on an outlay of 10c. This is worth looking into. Write for testimonials.

Respect YOUR Stomach

GIVE it food that will not irritate or retard the performance of its natural functions, and it will reciprocate in a way agreeable and comforting.

No single ingredient contributes so largely toward wholesome, nourishing, agreeable food as Royal Baking Powder.

Royal Baking Powder's active ingredient, Grape Cream of Tartar, is the most healthful of the fruit products.

This is why Royal Baking Powder makes the food finer, lighter, more appetizing and anti-dyspeptic, a friend to the stomach and good health.

Imitation Baking Powders Contain Alum

"The use of alum and salts of alumina in food should be PROHIBITED. The constant use of alum compounds exerts a deleterious effect upon the digestive organs and an irritation of the internal organs after absorption.

Lester B. Ayers.

Lester B. Ayers was born June 27, 1834 in Livingston county, state of New York and died at his home in Tecumseh March 19, 1907. He came to Michigan with his parents when he was three years old and located in Ypsilanti when they settled on a farm in Macon.

In 1876 he came to Tecumseh and three years later, was united in marriage to Miss Clementina Kennedy. After his marriage he returned to the farm remaining there about five years when he came to Tecumseh where he has since lived. He united with the Methodist church during the pastorate of Rev. O. J. Perrin. Mr. Ayers needs no eulogy. He was well known and his life known of all men, is his eulogy.

We miss the kindly honest face and quiet manner of our brother and the sympathetic cordial handshake, which greeting was ever as a benediction, and with the bereft Mrs. Ayers, the village mourns his loss from our midst.

Mrs. John Schreder.

Mrs. John Schreder died at her home north of town last evening, after a long illness. The funeral will be held Sunday afternoon at the house at 1:30, Rev. Fox officiating.

Birthday Anniversary.

Wednesday, April 3, was Grandma Williams 89th birthday and as has been the custom for several years her friends called to help her celebrate the event, each bringing some little token to help cheer the remaining days of this remarkable old lady who reads the Bible and the daily papers without glasses and always has a cheerful word for all callers.

This year the ladies engaged Lester Coller to take some photographs of Mrs. Williams which she intends to present to those who have so kindly remembered her in her affliction. She spends all her time in a wheel chair, being unable to walk, while her hands are busy piecing quilts to leave to her friends.

"Dora Thorne."

"Dora Thorne," Bertha M. Clay's popular novel has been dramatized. The production of this play has proven to be one of the best melodramas of the season. The play is establishing or rather adding to the reputation of the producing managers, Messrs. Rowland & Clifford. It is a beautiful love story, simply told at the New Bradley, Saturday, April 6th.

Rules change so much that we haven't any.

TO ENJOY A GOOD DINNER.

How to avoid distress and indigestion after eating.

Let us tell you how you can enjoy a good dinner, so that the heartiest meal will set well on your stomach and cause no unpleasant and disagreeable after effects.

We will show you how to regain the appetite of your children and the enjoyment of food, so that it will taste as well as when mother cooked the dinner.

There is no hard work necessary to do this; no need of a rigid and self-denying diet list: no call for nasty and disagreeable medicines. Simply take a Mi ona stomach tablets before each meal and before going to bed, and it will so strengthen the stomach that before long a hearty meal will give you gratification and comfort, without the least fear of distress and suffering.

The strongest proof we can offer of our faith in this advice, is the fact that C. A. Wright gives an absolute, unqualified guarantee (applying to two 20c boxes of Mi-o-na) that your money will be refunded unless Mi-o-na cures. A guarantee like this gives you confidence in Mi-o-na. C. A. Wright takes the whole risk, and the remedy will not cost you a penny unless it cures.

Mi-o-na is not a mere digestive, giving only temporary relief, but a specific for all diseases of the stomach, strengthening the digestive organs and making a permanent cure.

TESTED AND PROVEN.

A heap of solace in being able to depend upon a well earned reputation.

For months Tecumseh readers have seen the constant praise for Doan's Kidney Pills and read about the good work they have done here. No other remedy ever produced such convincing proof of merit.

Wm. Withejell, living on Pottowatamie street, Tecumseh, Mich., says: "In 1901 I gave a statement for publication telling how Doan's Kidney Pills had helped me and it does. Dec. 12 '06 I still hold the same high opinion of them. When I first used Doan's Kidney Pills I was troubled with severe pains across my back. Either bending or straightening sharp pains would dart through me and I would have to lie down. I think the trouble was caused years ago when I used to shear a great number of sheep. I learned of Doan's Kidney Pills and bought a box receiving much benefit from the first few doses. I am glad to say that the cure proved permanent and I have not been troubled since."

For sale by all dealers. Price 50 cents. Foster-Milburn company, Buffalo, N. Y., sole agents for the United States. Remember the name Doan's, and take no other.

People are not shocked as often as they pretend to be.

A healthy man is a king in his own right; an unhealthy man is an unhappy slave. Burdock Blood Bitters builds up sound health, keeps you well.

Some way, everyone seems disappointed if preachers' boys are not a little worse than the average.

Accidents will happen, but the best regulated families keep Dr. Thomas' Eclectric Oil for such emergencies. It subdues the pain and heals the hurts.

Love is a picnic: do not expect it to gather up the napkins and dishes.

An insidious danger.

One of the worst features of the kidney trouble is that it is an insidious disease and before the victim realizes his danger he may have a fatal malady. Take Foley's Kidney cure at the first sign of trouble as it corrects irregularities and prevents Bright's disease and diabetes. Sold by all druggists.

There is not the slightest sense back of a great deal of hope.

Kodol for dyspepsia clears the stomach and makes the breath as sweet as a rose. Kodol is sold by druggists on a guarantee relief plan. It conforms strictly to the National pure food and drugs law. Sold by B. J. Pulver.

A man of wealth usually has poor kin to keep him humble.

Mr. S. L. Bowen, of Wayne, W. Va., writes: "I was a sufferer from kidney disease, so that at times I could not get out of bed and when I did I could not stand straight. I took Foley's kidney cure. One bottle and part of the second cured me entirely." Foley's Kidney cure works wonders where others are total failures. Sold by all druggists.

The wages of sin are paid by the women; the men owe it.

To be poor without losing self respect or a sense of enjoyment is a fine art.

The News—No Pure Drug Cough Cure Laws would be needed, if all cough cures were like Dr. Shoop's Cough Cure is—and has been for 20 years. The National Law now requires that if any poisons enter into a cough mixture, it must be printed on the label or package.

For this reason mothers, and others, should insist on having Dr. Shoop's Cough Cure. No poisons marks on Dr. Shoop's labels—and none in the medicine, else it must by law be on the label. And its not only safe, but it is said to be by those that know it best, a truly remarkable cough remedy. Take no chance, particularly with your children. Insist on having Dr. Shoop's Cough Cure. Compare carefully the Dr. Shoop package with others and see. No poison marks there! You can always be on the safe side by demanding Dr. Shoop's Cough Cure. Simply refuse to accept any other. Sold by all dealers.

Rest is the great restorer. We tire our muscles by exercise and then rest to restore them; yet a great many of us do not stop to think how little rest we give to our stomachs. As a usual thing no part of our bodies is so generally overworked as our digestive organs. A tired and overworked stomach will give signs of distress to which we pay no heed until at last dyspepsia takes hold. Indigestion is just a warning and if we heed the warning we can easily avoid further consequences. Kodol is a most thorough stomach relief. It digests what you eat and gives the stomach the needed rest and greatly assists in restoring it to its normal activity and usefulness. Kodol is sold on a guarantee relief plan. It is sold by B. J. Pulver.

Commissioners' Notice.

STATE OF MICHIGAN, county Lenawee, ss.

In the matter of the estate of MARY E. SUTTON, deceased.

The undersigned having been appointed by the probate court of said county, commissioners to receive, examine and adjust all claims and demands of all persons against the estate of said deceased, do hereby give notice that we will meet for that purpose at the store of Satterthwaith Bros. in the village of Tecumseh, Lenawee county, Michigan, on the 25th day of April, 1907, and on the 13th of September, 1907, at ten o'clock in the forenoon of each of said days.

And that six months from the 13th day of March, 1907, are allowed by said probate court for the creditors of said estate to present their claims to us for examination and allowance.

Dated March 13th, 1907.

A. A. CONTANT,
THOMAS G. MEAD,
Commissioners.

STATE OF MICHIGAN, county of Lenawee, ss. Probate court for the county of Lenawee.

At a session of the probate court for the county of Lenawee, holden at the probate office in the city of Adrian, on the 18th day of March, in the year one thousand nine hundred and seven.

Present, Harry L. Larwill, judge of pobate.

In the matter of the estate of JANE M. HECK, deceased.

On reading and filing the petition, duly verified, of Clyde T. Heck, son of said deceased, praying that administration of said estate may be granted to Robert S. Moore or some other suitable person.

It is ordered, that Monday, the 15th day of April next, at nine o'clock in the forenoon be assigned for the hearing of said petition

And it is further ordered that a copy of this order be published in the Tecumseh Herald a newspaper printed and circulated in said County of Lenawee, for three successive weeks previous to said day of hearing.

Mortgage Sale.

Whereas default has been made in the payment of the money secured by a mortgage dated the 12th day of April, 1906 executed by Eva Siler of Riga Township, Lenawee County, Michigan, to Albert Collins of Macon township, Lenawee County, Michigan, and which said mortgage was recorded in the office of the Register of Deeds of Lenawee County, Michigan, in Liber 166 of Mortgages on page 190 on the 14th day of April A. D. 1906 at 10:15 o'clock A. M; and whereas the amount claimed to be due on said mortgage at the date of this notice is the sum of Four Thousand One Hundred Sixty Dollars and Fifty-four cents ($4160 44) of principal and interest and the further sum of Twenty-five Dollars ($25.00) as an attorney fee stipulated for in said mortgage, and which is the whole amount claimed to be unpaid on said mortgage, and no suit or proceeding having been instituted at law to recover the debt now remaining secured by said mortgage or any part thereof, whereby the power of sale contained in said mortgage has be come operative.

Now therefore, notice is hereby given, that by virtue of the said power of sale, and in pursuance of the statute in such case made and provided the said mortgage will be foreclosed by a sale of the premises therein described at public auction, to the highest bidder, at the east front door of the Court house in the City of Adrian in said County of Lenawee, on the 29th day of April next, at 10 o'clock in the forenoon of that day which said premises are described in said mortgage as follows to-wit:—Being that part of section three (3) of Town Five (5) South, Range Five (5) East which is bounded as follows: Commencing at the Northwest corner of said section three, thence running East seventy-five rods and twenty-one links; thence South sixty-seven rods and seven and one fourth links; thence West seventy-seven rods and nine links; thence North sixty-six rods and twelve links to the place of beginning.

Also all that other tract or parcel of land situated in the township of Macon Lenawee county, Michigan, bounded and described as follows to-wit:—By a line commencing sixty-six rods and twelve links South of the Northwest corner of section three (3) Town Five South, Range five East, thence running East one hundred and sixty rods; thence South forty and one half rods; thence West one hundred sixty rods; thence North forty and one half rods to the place of beginning. Containing in both parcels above described Seventy-three acres of land more or less.

Dated January 31, 1906.

We Trust Doctors

If you are suffering from impure blood, thin blood, debility, nervousness, exhaustion, you should begin at once with Ayer's Sarsaparilla, the Sarsaparilla you have known all your life. Your doctor knows it, too. Ask him about it.

Unless there is daily action of the bowels, poisonous products are absorbed, causing headache, biliousness, nausea, dyspepsia, and thus preventing the Sarsaparilla from doing its best work. Ayer's Pills are liver pills. Act gently, like vegetable.

Made by J. C. Ayer Co., Lowell, Mass. Also manufacturers of Ayer's HAIR VIGOR, AGUE CURE, CHERRY PECTORAL.

We have no secrets! We publish the formula of all our medicines.

MEMORIAL FOR ALGER.

Men Prominent in Affairs of State and Nation Will Deliver Addresses.

Lansing, Mich., April 5.—The joint committee, appointed to arrange for the memorial exercises in honor of the late Senator Russell A. Alger, reports the following as the program for Wednesday evening, April 10, in the house of representatives:

Invocation, Rev. E. H. Pence, D. D., of Fort Street Presbyterian church, Detroit; opening remarks, Hon. P. H. Kelly, lieutenant-governor; resolutions, Hon. J. Edward Bland, chairman joint committee; addresses, Hon. Joseph Gruesel, chairman house committee; address, Hon. Julius Caesar Burrows, senior United States senator from Michigan; address, Gov. Warner; address, Hon. Don M. Dickinson, former postmaster-general; address, Gen. Henry M. Duffield; address, former Gov. John T. Rich; address, Hon. Wm. Alden Smith, United States senator.

Uses Knife and Acid.

Jackson, Mich., April 5.—Chief A. Green high, aged 50, retired Michigan Central engineer, took his own life by cutting his throat with a razor severing the large artery in his wrist, and drinking carbolic acid. Green high had been suffering from rheumatism for some time; and, separated from his wife and children, was being cared for by a small boy. Arrangements had been made to take him to the poor house. He was at one time considered quite wealthy; and standing in Greenwood cemetery, is a large monument which he purchased at a cost of several thousand dollars.

Albion's Election Likely Illegal.

Albion, Mich., April 5.—That Albion's city election last Monday was illegal is practically admitted by members of both the democratic and republican parties. As a result, another election will probably have to be ordered, for there are a number of dissatisfied, defeated candidates. The mistake, for all admit it was a mistake, is laid on the printer, who placed the democratic local ticket first in order. The law requires that the G. O. P. shall be recognized first, having had the highest number of votes at the last general election.

Dem. Name Their Man.

Grand Rapids, April 5.—George P. Hummer was named by the democrats of the fifth congressional district at their convention held in the Hotel Pantlind Wednesday, to make the run against Gerrit J. Diekema at the special election, April 27, called to fill the vacancy caused by the resignation of William Alden Smith, now United States senator. Hummer is a Grand Rapids man, though he has a furniture factory in Holland, of which city he was one time a resident and mayor. The plan of the democrats in nominating him is to overcome the strong Ottawa county vote for Diekema.

Those verses on the valentine read like they might be the product of emotional insanity.

Prevent Colds and Rheumatism.

If you do not have one natural, easy movement of the bowels each day, you are unconsciously exposing your system to colds and rheumatism. Laxative Iron-ox Tablets tone and strengthen the bowels, so that they do the work nature intended

When a fellow has a ten dollar bill circulating through his system things look different.

When misplaced confidence is discovered it is rarely handed back to the owner.

The Best Laxative for Children.

Parents should see to it that their children have one natural, easy movement of the bowels each day. Do not dose the child with salts or griping pills, as they are too powerful in effect, and literally tear their little insides to pieces, leaving the bowels weakened and less able to act naturally than before. Laxative Iron-ox Tablets tone and strengthen the bowels, and stimulate all the little organs to healthy activity. Chocolate coated tablets, easy to take, never gripe or nauseate. 10c, 25c and $1.00.

A knowledge of "birth stones" of the different months never helps anyone to wear diamonds.

Commissioners Notice.

STATE OF MICHIGAN, county Lenawee, ss.

In the matter of the estate of AUGUST DAISHER, deceased.

The undersigned having been appointed by the probate court of said county, commissioners to receive, examine and adjust all claims and demands of all persons against the estate of said deceased, do hereby give notice that we will meet for that purpose at the office of Sylvester P. Hosmer in the village of Tecumseh, Lenawee county, Michigan, on the 27th day of April, 1907, and on the 2nd of October, 1907, at 2 o'clock in the afternoon of each said days.

And that six months from the 2nd day of April 1907, are allowed by said probate court for the creditors of said estate to present their claims to us for examination and allowance.

Dated April 2, 1907.

SYLVESTER P. HOSMER,
CHARLES A. BROWN,
Commissioners.

STATE OF MICHIGAN, county of Lenawee ss. Probate court for said county.

At a session of the probate court for the county of Lenawee, holden at the probate office, in the city of Adrian, on the 8th day of March in the year one thousand, nine hundred and seven.

Present, Harry L. Larwill, judge of probate.

In the matter of the estate of EZRA SANFORD, deceased.

On reading and filing the petition of Merrill P. Sanford administrator upon the estate of said deceased, alleging that the funeral expenses and debts of said deceased and the expenses of administration thus far incurred, have be fully paid, and praying that his final administration account may be allowed and for such other order and decree as to this court shall seem proper.

It is ordered, that Monday, the 8th day of April next, at nine o'clock in the forenoon, to be assigned for the hearing of said petition.

And it is further ordered, that a copy of this order be published in the TECUMSEH HERALD, a newspaper printed and circulating in said county of Lenawee, for three successive weeks, previous to said day of hearing.

DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr Kilmer's Swamp Root, the great kidney, liver and bladder remedy.

It is the great medical triumph of the nineteenth century; discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, uric acid, catarrh of the bladder and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's Swamp-Root is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work and in private practice, and has proved so successful in every case that a special arrangement has been made, by which all readers of this paper, who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root, and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The regular fifty-cent and one-dollar size bottles are sold by all good druggists. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

WOULD BAR UNION

Otherwise Michigan United Railway Will Grant Demands

OF THE KALAMAZOO STRIKERS

Company Also Makes Demands on the City for Protection—Strikers Have Not Wholly Rejected Offers—Settlement Possible—Less Rioting.

Kalamaoo, Mich., April 9.—Monday afternoon, about 2 o'clock, the Michigan United Railways Co. addressed a communication to the mayor, city council, board of fire and police commissioners and Citizens' committee, in which a reply was made to the proposition of settlement of the strike of its employes by arbitration. The company declines to arbitrate, but granted practically all the demands of the men, except recognition of the union.

The grants were contained in the form of a memorandum contract, which accompanied the reply, and the principal points were the establishment of a grievance committee to be mutually agreed on, and the granting of a sliding wage scale, from 19 to 23 cents an hour for city service, and 23 to 25 cents an hour for interurban service. In addition the company promised that there should be no discrimination against union men and that it would take back all employes who comply with the contract by Wednesday morning, April 10.

The reply of the company also made a demand on the city for protection and contained in substance a statement that if the city could not or does not protect it it will apply to the state auhorities, and will hold the city responsible for any damage to its property.

The striking employes voted almost unanimously to reject this proposition, but later the strike committee held a conference with Mayor Thompson, as the result of which the committee went to interview Supt. Bramlette.

A short conference was held between the two parties and a meeting was arranged for 9 o'clock this morning, at which a final attempt will be made to effect a settlement. The hitch is said to be over the appointment of a grievance committee, the strikers expressing the fear that the company will insist on one of non-union membership. If this matter can be amicably settled the end of the strike seems near at hand.

Cars were taken off at nightfall last night. There has been some disorder Monday, but less than on Sunday.

Sells Stolen Junk to Owner.

Flint, Mich., April 9.—In the words of the song of Obidiah, of stage fame, Marshal Riley "went right in and turned around, and he came right out again." The formal charge against Riley was the larceny of a quantity of junk from the yards of George W. Shear, a local dealer. The claim is that Riley went to the rear of the yards, got the junk, and then went around to the front gate and sold it to its rightful owner. Riley, when asked in Justice Torrey's court, if that is what he did, replied in the affirmative, qualifying the incriminating statement, however, by adding that he "had been drinking since Thursday night," and that he did not remember anything much about it. He was given 90 days in jail to think it over, without the alternative of a fine.

Last Chance for Railroads.

Lansing, Mich., April 9.—This morning at 9:30 will be the railways' last chance to present oral arguments against the two-cent fare bill. It is understood that the roads are not entirely dismayed over the situation, and that a delegation of officials and employes will be present at the hearing to oppose the bill, which will come before the house next Thursday. There will also be a hearing in the house today before the house committee on general taxation on the Davis bill to exempt credits from taxation.

Loss Will Reach $1,500,000.

New York, April 9.—Fire early Monday destroyed the combined car barn and power plant of the New York City Railway Co., covering the greater part of the block bounded by One Hundred and Forty-seventh street and Seventh avenue. The loss will reach about $1,500,000. More than 300 cars wer burned and the plant, except for the electrical department, was destroyed. One fireman, Capt. J. Ryan, was killed under a falling wall and half a dozen firemen and others were more or less seriously injured.

COAST TOWNS SAFE

United States Gunboat Marietta Guarding Them.

COMMANDER FULLAM GIVES WARNING

Notifies Nicaraguans Ports Must Not Be Bombarded—Puerto Cortez Now Occupied—Honduran Forces, Numbering 1,500, Soldiers, Quit Place.

Puerto Cortez, Honduras, April 4, via New Orleans, April 9.—An authoritative statement of great moment in the relations of the United States to Central American republics has been given out here. It is to the effect that bombardments of coast towns cannot be permitted "during the frequent wars and revolutions in Central American states."

The statement is made by Commander Fullam, of the United States gunboat Marietta, and is part of a letter to Gen. Juan J. Estrada, general commanding the Nicaraguan expedition engaged in capturing Honduran ports. In part, the letter reads:

"I have to acknowledge the receipt of your letter of March 25, in answer to my communication of March 24, requesting you to avoid the unnecessary destruction of coast towns by bombardment. It must be perfectly plain that foreign interests could not possibly be secure if bombardments are permitted.

"On the contrary, such interests would be subjected to the danger of complete destruction in every case. If bombardments of coast towns are to be resorted to during the frequent wars and revolutions in Central American states, the merchantile interests of all foreigners will be absolutely insecure in the future.

"From this it is plainly evident that assurances regarding the safety of American and foreign interests would be of no value whatever unless bombardments of these unfortified wooded towns are forbidden; and it is equally plain that a ship of war ordered here to protect American interests could not be excused for subjecting these same interests to inevitable ruin by permitting the destruction of these towns by fire and bombardment.

"Fully three-fourths of the valuable mercantile and business houses in these coast towns are owned by foreigners. Neither belligerents will be permitted to occupy or to take cover in these housese during the course of hostilities.

"Trusting that I may not be compelled to inform the United States government that I am mistaken regarding the attitude of Nicaraguan forces toward foreign business interests on this coast, and hoping that you will avoid all danger of complications by giving directions that foreign property shall not be subjected to destruction by fire and bombardment, I remain, etc."

Commander Fullam notified Gen. Quiroz, commanding the Honduran forces near Celba, that it will be necessary to defend the town from a position outside the city.

President Wouldn't Receive Her.

Washington, April 9.—The president has declined to grant an interview with Mrs. Ida Von Claussen, who has complained to the state department that United States minister to Sweden, Charles H. Graves, refused to present her to King Oscar. Mrs. Von Claussen arrived in Washington Saturday night from New York. Monday she sent a note to the White House seeking an appointment with the president in order to make a verbal statement of the case. Secretary Loeb in reply, referred her to the state department as the branch of the government with which properly to take up the matter. Mrs. Von Claussen did not put in an appearance at the executive offices during the business hours of the day.

Washington, April 9.—According to the present understanding President dent Roosevelt will reach Lansing, Mich., where he is to make a speech before the students of the Michigan Agricultural college, at 9:50 a. m., on May 31, and leave in the afternoon of the same day for Washington. The president had a talk with Rep. S. W. Smith, of Michigan, who represents President Snyder, of the agricultural college, about the trip yesterday.

APPEALS TO THAW JURY

Attorney Delmas Pleads in Behalf of His Young Defendant.

DRAWS PITIFUL PICTURE

From the Past Life of Defendant's Wife.

HE BLAMES THE GIRL'S MOTHER

Charges Her With Living on Wages of Sin of Daughter's Ruin—Providence Sent Harry Thaw to Avenge the Wrongs Done—Jerome Not Present—His Plea Will Be Short—Noted Case Nears End.

New York, April 9.—The trial of Harry K. Thaw, charged with the murder of Stanford White, is nearing the end. Attorney Delphin M. Delmas, the California advocate, Monday afternoon, began his closing address to the jury, and after he had spoken for more than two hours and a half, an adjournment was taken for the day. Mr. Delmas expects to conclude today. District Attorney Jerome will make the closing address of the trial on Wednesday, and Thaw's fate should be in the hands of the jury by Wednesday evening.

Justice Fitzgerald ordered the jury locked up until the end of the trial. In view of this the judge's charge to the jury undoubtedly will be delivered immediately after the district attorney concludes. The latter says his speech will occupy not more than three or four hours.

Declaring he would not base his plea upon the "unwritten law," because his client found ample protection in the written statutes of the state of New Yory, Mr. Delmas made a striking appeal to the sympathies of the jurors, and so far as he progressed Monday, the subject of Thaw's insanity at the time he committed the homicide was not even hinted at.

Mr. Delmas based his argument solely upon the story of Evelyn Nesbit Thaw. With flushed cheeks, but dry eyes, that young woman heard her life history repeated to the men who are to judge her husband, and bowed her head as her mother was denounced in the bitterest terms and tones the eloquent lawyer could command.

"Even a beast protects its young," he declared, with scornful emphasis, "but this unnatural mother deserted her daughter in this city of millions to be betrayed by a false friend, to be lured into a gilded palace and there left the victim of a gray-haired man, wounded, bleeding and devoured."

Mr. Delmas went with great detail into the life Evelyn Nesbit had led up to the meeting with Harry Thaw. In all of his remarks he referred to her as "this child," for child he said she was today. He told of Thaw's great love for her, and his efforts to rescue her from "the clutches of Stanford White," whose achievements in his profession, the attorney declared, were an aggravation of his crime.

Mr. Delmas, before beginning his attack upon Evelyn Thaw's mother, poured out a torrent of denunciation upon the architect who became the victim of Thaw's pistol. He accused him of the "crime of rape," and then declared that President Roosevelt has said, in a message to congress, that such a crime should be visited with death. This was one of the suggestions which Thaw himself made to his counsel for his summing-up speech—one of the suggestions which played so important a part in the proceedings before the lunacy commission.

Mr. Delmas declared that God heard the cry of the fated child upon whom Stanford White had fixed his gaze and had determined should be his. He quoted from scripture that "he who afflicts a fatherless child shal perish," and declared that providence had sent Thaw to avenge the wrong.

The attorney declared that Thaw is his wife's only protector—that he came into her life when she was on the downward path; told her that no matter what the world thought of her that she was to him an angel. He took her to be his wife, ready to share the burdens that a mother had helped to place upon her daughter.

Mr. Delmas accused Mrs. Nesbit of having lived upon the wages of her daughter's ruin. He sought to picture to the jury what he termed the sinister surroundings in which the girl had been reared, and in doing so he mercilessly attacked the mother. Mr. Delmas rose to the highest point of his address when he told the jury that the girl's mother was the one who had furnished District Attorney Jerome with the arrows with which to wound the daughter on cross-examination—a cross-examination, which he declared, would live long in the annals of criminal history, but which left the girl's story unshaken in all its essential details.

That Evelyn Nesbit's story was true and was told to Harry Thaw formed the subject of the argument for more than an hour. Mr. Delmas declared that the only evidence the district attorney had as being against the girl was the "miscalled affidavit," procured by Abraham Hummel. Speaking of Hummel, Mr. Delmas again drew heavily upon his bitterest invective and declared that it would require more than the word of a perjured man to send. Harry Thaw to an ignominous death.

Hummel was accused by Mr. Delmas of having committed deliberate perjury upon the stand in the present trial, when he swore he was not acting as Evelyn Nesbit's counsel and that no action was contemplated in her behalf. He said the so-called affidavit itself convicted the man of these falsehoods.

Mr Delmas devoted practically all of his address Monday to a resume of the evidence of certain witnesses. He will have many more comments to make along this line before he comes to his final plea for the defendant's life.

The court room was crowded with an eager throng. In the throng were many attorneys of note. All of Thaw's family were in the court room. They sat unmoved, as usual, throughout the course of Mr. Delmas' argument their features betraying no emotion. Thaw turned to them from time to time as his attorney seemed to strike some telling blow. Thaw also turned frequently to his wife, who seems to be standing the brunt of the storm. She had a responsive smile ready for his every look.

District Attorney Jerome was not in court to hear Mr. Delmas' speech. His assistant, Mr. Garvan, took notes, however. Mr. Jerome, it was said, was busy with the preparation of his own address.

At the morning session of court, Mr. Jerome formally protested against the confirmation of the report of the lunacy commission. He made no argument, however, and his motion was quickly overruled.

NINE SEAMEN MISSING.

Drifting Naval Coal Barge Found With Crew Gone.

Washington, April 9.—Nine men are missing from the naval coal barge No. 1, which after being lost at sea for some days in heavy weather off the Florida coast, has been finally towed into Jacksonville. The barge was picked up Saturday afternoon by the Norwegian steamer Nordkyn, from Baltimore for Tampico, sixteen miles off Cape Canavarel on the Florida coast. The navy department telegraphed R. J. Easton, the master of the collier Caesar, which was engaged in towing the barge from Key West to the Norfolk navy yard, when the barge's towing hawser parted, to send all information regarding the whereabouts of the crew of the barge, and later the department received the following dispatches from Easton:

"Mayport, Fla., April 8.—Nine men of barge's crew were not on board when barge was picked up. It is reported here that four-masted schooner was alongside of barge just previous to her being picked up. Master of Nordkyn states that clock was running when he picked the barge up. All of her boats on board. Starboard anchor missing."

Ex-Rep. Baillie Weds.

Saginaw, Mich., April 9.—Ex.-Rep. Thomas G. Baillie and Miss Emma Earle are to be married at the home of the bride on North Third street, this afternoon, at 4 o'clock. The groom-to-be is a prominent lawyer and cut quite a figure in politics last fall, when he was defeated for re-election to the legislature by Henry Zacharias.

Glenn R. Miner, formerly with the Detroit Tribune and the Fenton Courier, has purchased the Otsego County Times, and will take the active management of that paper this week. Mr. Miner comes well recommended, and will, no doubt, meet with good success.

WIFE FOUND MURDERED.

Prominent Dentist of New York Suburb Charged With Crime.

New York, April 9.—Dr. Samuel S. Guy, a prominent dentist of East Rockaway, and for a number of years, until recently, coroner of Queens borough, is under arrest charged with the murder of his wife in their home last night.

The woman's body was found lying on the dining room floor with two bullet wounds in the breast.

Dr. Guy was arrested as he was leaving the house and just as a servant came screaming from one of the doors and hysterically told a policeman that her mistress was dead.

Late in the afternoon the doctor came from a saloon near his residence and entered his home. It is alleged that he went to the kitchen and annoyed a servant for some minutes, finally being induced to leave the girl by his wife.

The servant says that as husband and wife entered the dining room Mrs. Guy slapped his face. Immediately afterward the door closed, and in a few moments two shots startled the girl.

Dr. Guy walked to the hall, took down his overcoat and started out of the house. A policeman meet him and asked him where he was going.

"Just to get a cigar," said the doctor coolly.

A few seconds later the cries of the servant were heard, and the doctor was promptly arrested.

Mrs. Guy was 42 years of age and her husband 56. She was a descendant of the Mott family, which owned practically all of the Rockaways, and the members of which are accounted very wealthy.

TO THE PRESIDENT

New York Woman Wills All Her Property, Including the Cat.

New York, April 9.—President Roosevelt is the sole beneficiary under the will of Lulu B. Grover, of No. 2089 Lexington avenue, which was filed in the office of the surrogate Monday. No petition was filed with the will and the value of President Roosevelt's bequest is therefore unknown. The main part of the will, which is very brief, reads as follows:

"I give to Theodore Roosevelt, at my death, everything that is mine, household furniture, personal property, jewelry, diamonds, estate, all the money in bank to my credit and my cat, Snowdrop Low, and everything that is mine. I owe to Theodore Roosevelt a debt greater than I can ever pay in this world, and in this way I wish to show I am not ungrateful. He has been my good angel who spread his wing of shelter o'er my path through life and was my only true friend in trouble. I gladly give my little all to him and only wish it were millions instead of so small an amount. I hope he will accept it in the spirit I give it, and with God's blessing."

It has been announced that President Roosevelt will accept the estate bequeathed to him, and turn it over to some New York charity. The cat is being cared for now under direction issued by the president.

MICHIGAN BRIEFS.

Clarkston is to have a new $15,000 school building.

The building committee of the Methodist Episcopal church of Gladstone has accepted the plans submitted by W. E. N. Hunter, of Detroit, for the new church, which will cost $5,000, of which $4,000 has been already subscribed.

Rob Daughterty, of Rich, accidentally shot himself in the shoulder while duck hunting on Squaw lake. He was drawing his gun, muzzle first, toward him when it exploded and knocked him down in the boat. Had he fallen in the lake he might have drowned as he was unconscious for some time.

While Woodland is far from being a "grown-up," it is some pumpkins, and has one advantage over any of the larger cities. Both the Citizens' and Michigan telephone lines operate from one switchboard, and subscribers have the benefit of two 'phones, while the charge is for but one.

Dowagiac is about to undergo a series of improvements this summer which will make it look like new. Paving on a large scale has been commenced and when the new $53,250 sewer system has been installed, along with the one now in use, there will be no better in the country. An electric line is promised from Eau Claire which will connect Dowagiac with Benton Harbor.

Residents of Alpena have been invited to take to the tall timbers by apostles of the "Flying Roll," who hail from Benton Harbor, the Mecca of all "Rollers" of the tribe of "Benjamin" and "Mary." All who are superstitious are included in the bid to throw a fit by the prophecy of dire disasters in Michigan. John Carrol declares tornadoes, earthquakes and cyclones are due, and gives the populace just six days to hustle for Benton Harbor, where the elect shall gather on the "mountain" for safety.

Boys Attempt to Wreck Train.

Crystal Falls, Mich., April 9.—Two unsuccessful attempts have been made at Crystal Falls within the past six months to wreck the Milwaukee road passenger train, both of them occurring a short distance beyond the bridge crossing the Paint river. The work is ascribed to boys living at the Lamont mine location. The case has been turned over to the detective department of the company, and arrests are expected.

Spared From Gallows.

Jefferson City, Mo., April 9.—The sentence of death imposed upon Mrs. Aggie Myers, of Kansas City, and Frank Hottman of Higginsville, Mo., who were convicted of having murdered the woman's husband, Clarence Myers in 1904, were Monday commuted by Governor Folk to imprisonment for life.

Not Our Island.

Washington, April 9.—That the Isle of Pines is not American territory was officially and judicially declared Monday by the supreme court of the United States. The decision was rendered in the famous case of Edward J. Pearcey vs. Nevada N. Stranahan, collector of the port of New York, and the opinion of the court was announced by Chief Justice Fuller, who said that up to the Paris treaty the Isle of Pines had been considered as an integral part of Cuba and that it could not be held to be covered by Article II. of that treaty, which included only islands in the vicinity of Porto Rico.

HOME! IS WHERE THE ARBUCKLES' COFFEE IS

Most healthy, vigorous men and women in the United States are raised on good, old-fashioned Arbuckles' ARIOSA Coffee. Never mind what the others drink, you want to be well. Say things to the man who tries to switch you from Arbuckles' to coffee that pays him big profits at the expense of your stomach.

Complies with all requirements of the National Pure Food Law. Guarantee No. 2041, filed at Washington.

Portuguese Money.

Portuguese money is based on a unit which is worth about the thousandth part of a cent. So if you buy a single postage stamp it costs you about 10,000 milreis. We were shocked at the price of the objects the vendors in Ponto Delgoda desired to sell us. When presented with a bill some of us got heart disease and some of us apoplexy. Only after long explanations in mingled Spanish, Portuguese, French and English did we learn that a photograph offered at several thousand milreis was worth about 15 cents. In short, it was brought forcibly to our attention how extremely artificial a medium is money, how difficult it is to get, how difficult it is to keep, but also how difficult it is to exchange this interconvertible medium in foreign countries—when you have any. Probably it is even more difficult when you have not.—Argonaut.

Fatherly Discipline.

She came into his study gently. "I hate to disturb you, dear." He looked up. "It is after 11, and Dick has not come home yet—and—it is the second time this week he has stayed out. I did not wish to speak to you—but—a boy of seventeen"—

She faltered. He was looking at her with a strange, fixed expression. "I understand. Leave him to me. I shall wait up until he comes in."

"Don't be harsh with him," she said pleadingly. "Oh, I am so sorry I told you! Remember, he has always been such a good boy"—

"My dear, you have nothing further to do with this. I must deal with my son in my own way. I request you not to interfere. You had better go quietly to your room. I ask you to do so. I want him to find me here when he sees fit to return to his home."

She retired, with her mother heart anxiously beating, and waited until the click of a latchkey sounded in the street door. She listened, trembling, ready to rush out, a penitent peacemaker. She heard:

"Dick, is that you?"

"Yes, sir."

"Is the dog in the hall?"

"Yes, sir."

"Well, turn out the gas. Good night!"—Madeline Bridges in Woman's Home Companion.

Characteristic Songs.

"It may or may not be the case that a race's temperament can be judged from its folk songs," said a traveler on a transatlantic liner the other day, "but it is interesting to note the difference of subject matter in the songs of various peoples.

"The Irishman, for instance, seems to sing for the most part about his ladylove. Hardly any of his songs are not addressed to his 'Somebody Mavourneen.'

"The Scot, on the other hand, sings about his country and its history, as a rule. 'Scots Wha Hae,' 'Ye Banks and Braes o' Bonnie Doon,' 'Loch Lomond,' and so on, might be taken as examples.

"The Englishman, it is interesting to note, sings about himself all the time. His songs are about his own glory, his ships, his men, his power. He refers occasionally to old England, but only as a place he made famous by his own prowess. Unlike the Irish and the Scotch, he sings little of his women and his country's beauties."—New York Times.

Tricks of the Trade.

"This watch," said the apprentice, "runs too fast. I'll regulate it."

"Do nothing of the kind," said the jeweler.

"Why not?" the apprentice asked in surprise.

"Because," the other explained, "the owner teaches music."

"But hanged if I see"— began the puzzled apprentice.

"Listen," the jeweler interrupted. "When watches are left here, never regulate them unless there is a special order to do so. Some people—music teachers, for instance—want their watches to run a little fast. So do cabbies. So do fencing masters. Other people want their watches to run slow. Builders like slow running watches, and so do ministers, and so do men who play billiards by the hour."—Exchange.

The Forehead.

A receding brow, like a receding chin, shows a lack of will power and of a firm and quick intelligence. The forehead that has projecting "bumps" over the eyes indicates observation. A high, prominent, bulging brow does not contribute to the beauty of the face, but it shows both the absent-mindedness and the keen intellect of the scholar. It is the forehead that looks straight, but which in reality slopes back a very little, with the eyebrows projecting and firmly marked, that is one of the most desirable. Its possessor will be tolerant, but firm, steady, intelligent and decisive.

A Stage Episode.

When Mrs. Bellamy was acting Alicia in "Jane Shore" the king was present among the audience. Apparently the play was not so potent as the wine his majesty had taken at dinner, for he fell asleep, greatly to Mrs. Bellamy's annoyance, for she drew near to his box and with a most violent exertion of voice which the part admitted of cried out, "Oh, thou false lord!" and woke the king, and thus, like Macbeth, she murdered sleep and revenged herself on his majesty.—From "Annals of Covent Garden Theater."

Heroic Treatment.

In these days, when child study is a hobby ridden long and hard, it is interesting to read of the nerve training which fell to the lot of the Quaker authoress, Amelia Opie, in 1769 and after. The modern mother would shrink with horror from some of the methods used on the sensitive child, but in this case it resulted in splendid stuff. Mrs. Opie is quoted in a book on "Quaker Worthies."

"I was a creature of fears, tears and screams. My first terror was of black beetles, then of frogs, skeletons, black men and madmen. My mother made me take a beetle in my hand and hold it. As her word was law, I obeyed, but with awful shrinking. I gradually became accustomed to it and was frequently told to take one up and put it out of harm's way. I soon overcame that terror. I was made to hold frogs in my hands and was taught to nurse a skeleton as I would a doll. Mother compelled me to listen to her kindly converse with two poor old lunatics, and I grew to pity them instead of fearing them."

Put Child on Stove for Fun.

Jackson, Mich., April 9.—"I just did it for fun," said William Beverly, a laborer, arrested for setting his seven-year-old daughter Alice, on a hot stove. "Ten dollars for your fun," said the judge. The child is so badly burned that she will carry the scars all her life.

Ridgeway Cemetery Association.

The Easter sale conducted by and for the benefit of the Womans' Ridgeway Cemetery association was held in Loree hall March 29. The result considering inclement weather and bad roads, was very gratifying, the net proceeds of the sale including the cash donated amounted to $125. Those who are pushing the work are much encouraged by the financial result as well as by the growing interest.

In almost every instance where the notice reached friends at a distance prompt replies were received and the words of encouragement accompanying the gifts show how kindly those absent feel toward the movement—from Chicago, Kansas and California, came these greetings. The assistance rendered by Dr. Loree, Warren Jones and A. E. Palmer deserves special mention. We understand that Mr. Elkington has been secured for another year and he will move here.

The work is one of love for the memory of our dead and it would seem as though anyone who has buried a friend or relative in our cemetery should assist with money if they can, by work if they will or at least by a kind word to those who are promoting the work. By doing we learn to do and profiting by last year's experience it is hoped to make a better showing this year.

We are asked to correct a wrong impression regarding work being done on lots by owners of burial permits. The association will be only too glad to have work thus done and will co-operate as far as possible. What they ask is that if lot owners wish to hire extra or special care taken of lots that the money be paid into the treasury and such lots will receive care all through the summer instead of one day only as has generally been the case when money is paid to individuals. Attend the meetings. Lend your help and advice, you won't regret it.

B. J. PULVER.

Is there a more independent position in this world than that of a childless widow left with just enough money for her not to have to think about it? "Love's Undertow," the complete novelette in Lippincott's April number, by Anna A. Rogers, tells the story of such a woman. Interest is divided between the brainy, well-balanced and womanly widow, and her Amazon girl friend "Dione" who refuses to acknowledge that she loves a young physician because she talks with "things as they are" relating to the sex question. The reasons for her capitulation to the cause of love, are ingenious and by no means overdrawn.

There is much in the April McClure's that you do not want to miss. The leading article by George Kibbe Turner is a study of the sale of dissipation, and the ruin and disaster it has brought. "The City of Chicago," is the title, and Mr. Turner shows the tremendous forces that are working to destroy the social organization in every American city. His viewpoint is entirely new.

Effective variety is what we are accustomed to look for in the make-up of the Atlantic Monthly, but this quality seems especially noteworthy in the current April number. Three, at least, of the articles will make a strong claim upon the attention of men of affairs. "Mutual Life Insurance—The Case for the Agent" is a vigorous and clear-headed defense of the agent's rights against the attacks of the critics. It is written from experience what sound insurance means.

Doing business again.

It's Clean and Fresh When You Get It

There is no chance for dust or dirt to harm the sweet, clean fine cut in a package of "Blot." You know how often the fine cut you buy out of open buckets or in wax paper bags looks as if it needed washing—but how could it be clean in such a package?

We take no chance with Blot Chewing Tobacco, but pack it in a heavy paper, tinfoil-wrapped package that fits the pocket. That's why

BLOT
CHEWING TOBACCO

is always fresh and moist, clean and sweet—just exactly like you want your chewing tobacco to be.

"Blot" is never dry, tasteless or dusty—the package prevents that. And the revenue stamp absolutely guarantees full weight for your money—that's something you are not sure of when you buy tobacco out of a bucket or in other packages.

A distinct contribution to literature is the epic poem "At Pilate's Judgement Seat" by Thomas Nelson Page in the April Woman's Home Companion. In this poem Mr. Page departs from the usual procedure and describes the Judgement from Pilate's point of view. The result is a masterly treatment of the greatest trial scene in the world strikingly decorated by Herbert Paus.

Mortimer D. Alexander.

Mortimer D. Alexander was born in Seneca county, New York, Sept. 10th, 1826 and moved with his parents to Franklin, Lenawee county, Mich., in 1837 where he resided until 1898 when he purchased a home in the village of Clinton where he lived until his death, March 28, 1907. He was married Sept. 26, 1850 to Mary Ann Smith, who with their four children survive him, George M., of Toledo; Chester D., of St. Louis, Mich., and Mrs. S. W. Demuth and Mrs. Cora Scriver of Clinton, all of whom were with him during his last hours.

Mr. Alexander possessed a voice of wonderful power and sweetness and looking upon it as a gift from his maker a talent intrusted to his care, improved it to the best of his ability studying music under the instructions of Dr. Lowell Mason, Wm. Bradbury, Dr. Geo. F. Root and I. Woodbury. He was engaged in convention work with Dr. Root in 1861 but the excitement of the war broke up the convention and he returned to his home in Franklin and although often urged by Dr. Root and Dr. J. M. Stillman to again take up the convention work, he refused to leave the farm but taught singing school during the winter months in Lenawee and Jackson counties.

Competent judges from Boston and New York, who heard him sing, wondered why he chose to live in such a small place when the large cities would gladly have welcomed him but Mr. Alexander seemed to realize that there was a work for him in the Congregational church in Tipton, of which he was one of the founders, which none other could do, and faithful to his convictions of duty, remained at his post doing all in his power to promote the growth and welfare of the church.

Many times in the absence of a settled pastor he would conduct the services and read a sermon and so well was it done that it was often said by members of the congregation that they would go farther to hear Mr. Alexander read a sermon than to hear the average minister preach one. He was leader of the choir 48 years and superintendent of the Sunday school 35 years and teacher of a class much of the time and although he lived nearly three miles from the church it was seldom that the weather was too severe or the roads too bad for him to go and however pressing his work at home he was never too busy to go in the hour of bereavement and sorrow and there are but few persons in the vicinity of Tipton for whom he has not sung the words of comfort in their hour of trouble.

Although he has been away from there several years hi. influence still remains and his upright christian life, his faithful devotion to duty, his sterling qualities of honor and integrity will ever be an inspiration to nobler deeds among those with whom he was associated. Words are inadequate to express the high esteem in which he was held but in the hearts of Franklin people he will long be remembered by what he has done.

LITERARY NOTES.

What promises to be another of Everybody's notable series is begun in the April number under the title of "Romances of Success." Jas. Hill is the hero of the first romance—a fascinating life story of the man whose intelligence and power have lifted him to the pinnacle of railroad achievement.

* * *

In a brief but admirably written paper, Helen Keller, tells the readers of Putnam's for April what is needed to help the blind—not charity, but work. Their greatest burden is idleness. Miss Keller speaks feelingly of the handicap under which the blind are held but a delicate sense of humor pervades her eloquent statement of their needs.

* * *

Mark Twain's remark that "somebody will have to hang for it" is but a fair suggestion of the frame of mind which ought to characterize railroad officials in their dealings with faithful subordinates, and the powers that be in their relations with such officials. Can it be maintained that our railways as a rule secure a discipline which can compare with that of my well-managed steamship line? And if not, why not? Is there a railroad company in the United States which can boast that, like a famous old steamship line, it has, in a long career, never lost the life of a passenger?—From "Railway Accidents and Railway Personnel," by Wyatt W. Randall, in the American Monthly Review of Review for April.

* * *

Beatriz Demarlest Lloyd is the author of the novel which opens the April Smart Set. Her story is entitled "The Miniature," and she has never written a finer piece of work. The scenes are laid in Paris and the absorbing narrative which grips the reader's attention at the outset, moves along to a most unexpected and thrilling conclusion. Of the younger writers today, none is more promising than Miss Lloyd, and the Smart Set is to be congratulated on publishing so notable a novel.

Our experience has been that western society is pleasant enough until the music begins.

"Pneumonia's deadly work Had so seriously affected my right lung" writes Mrs. Fannie Connor of Georgetown Tenn., "that I coughed continuously night and day and the neighbors prediction—consumption—seemed inevitable until my husband bought me a bottle of Dr. King's New Discovery which in my case proved to be the only real cough cure and restorer of weak lungs." When all other remedies fail you may still win in the battle against lung and throat troubles with New Discovery, the real cure. Guaranteed by C. A. Wright, druggist. 50c and $1.00 Trial bottle free

ROUND ABOUT US.

Mr. M. E. Brogan started his city delivery wagons Monday and is much pleased over the results thus far. This system which he has installed here will be much more convenient than the old way and is the same system of city delivery service in use in Coldwater, Quincy and other Southern Michigan towns.—Hudson Gazette.

Sunday morning Earl Mason saw a large owl sitting on a tree on the river bank in the rear of the Arbeiter block. He hurriedly borrowed a rifle and began firing away at it. After several shots that made the feathers fly, Fred Freeman told him to try again, that an owl could not see in the day time, so Earl gave him one or two more shots, one of which nearly tumbled him from the limb. Then Earl caught on. It was a stuffed owl from Freeman's law office. The boys have poked all sorts of fun at Earl, who took the joke in good humor.—Manchester Enterprise.

RIGHT BREATHING CURES CATARRH.

Simple way to kill catarrhal germs in nose, throat and lungs.

If you cut your finger, you don't attempt to heal by swallowing a pill or a dose of medicine.

It is just as foolish to try and cure catarrh of the nose and throat with pills and stomach dosing, for catarrh is a local disease, and needs special local healing treatment.

The only natural and common sense method known for the cure of catarrhal troubles is Hy-o-mei. It is breathed through an ingenious pocket inhaler, so that its medicated air reaches the most remote air-cells of the nose, throat and lungs, killing all catarrah germs, soothing the irritated mucous membranes, and restore a healthy condition.

If you suffer from catarrhal troubles, such as offensive breath, raising of mucous, frequent sneezing, husky voice, discharge from the nose, droppings in the throat, loss of strength, spasmodic coughing, or a feeling of tightness across the upper part of the chest, you should begin to use Hy-o-mei at once. It will destroy all disease germs in the nose, throat and lungs, and provide the blood with additional ozone.

The complete Hy-o-mei outfit with inhaler costs but $1. So strong is C. A. Wright's faith in the power of Hy-o-mei to cure all catarrhal troubles, that with every dollar outfit, he gives an iron clad guarantee to refund the money unless the remedy gives satisfaction.

IF WOMEN ONLY KNEW.

What a heap of happiness it would bring to Tecumseh homes.

Hard to do housework with an aching back.

Brings you hours of misery at leisure or at work.

If women only knew the cause, that backache pains come from sick kidneys, 'twould save much needless woe

Doan's Kidney Pills cures them

Tecumseh people endorse this.

Mrs Mary Edwards of Logan street, Tecumseh, Mich., says: "I feel that I cannot praise Doan's Kidney Pills too highly as they have been of great benefit to me. I had suffered a great deal from kidney trouble for some time brought on by lifting and a heavy cold. It kept getting worse until I was confined to my bed most of the time. At night I could not sleep as the action of the kidneys were so frequent. I tried nearly every known remedy but received no benefit until I tried Doan's Kidney Pills. They proved to be just what my condition required and the use of three boxes effected a complete cure. I advise all sufferers of kidney trouble to try Doan's Kidney Pills"

For sale by all dealers. Price 50 cents Foster-Milburn company, Buffalo, N. Y., sole agents for the United States. Remember the name Doan's, and take no other.

The News—No Pure Drug Cough Cure Laws would be needed, if all cough cures were like Dr. Shoop's Cough Cure is—and has been for 20 years. The National Law now requires that if any poisons enter into a cough mixture, it must be printed on the label or package.

For this reason mothers, and others, should insist on having Dr. Shoop's Cough Cure. No poisons marks on Dr. Shoop's labels—and none in the medicine, else it must by law be on the label. And its not only safe, but it is said to be by those that know it best, a truly remarkable cough remedy. Take no chance, particularly with your children. Insist on having Dr. Shoop's Cough Cure. Compare carefully the Dr Shoop package with others and see. No poison marks there! You can always be on the safe side by demanding Dr. Shoop's Cough Cure. Simply refuse to accept any other. Sold by all dealers.

Rest is the great restorer. We tire our muscles by exercise and then rest to restore them; yet a great many of us do not stop to think how little rest we give to our stomachs. As a usual thing no part of our bodies is so generally overworked as our digestive organs. A tired and overworked stomach will give signs of distress to which we pay no heed until at last dyspepsia takes hold. Indigestion is just a warning and if we heed the warning we can easily avoid further consequences. Kodol is a most thorough stomach relief. It digests what you eat and gives the stomach the needed rest and greatly assists in restoring it to its normal activity and usefulness. Kodol is sold on a guarantee relief plan. It is sold by B. J. Pulver.

For Bronchitis

TAKE VINOL

It heals the bronchial tubes and remedies the cough.

For centuries old-fashioned cod liver oil has been prescribed by physicians the world over for coughs, bronchitis, weak lungs and consumption, but many could not take it on account of its useless fishy oil.

Anyone can take our delicious cod liver preparation, Vinol, which contains all the medicinal and curative elements of cod liver oil actually taken from fresh cods' livers, but no oil, and wherever old-fashioned cod liver oil or emulsions would do good, Vinol will do far more good.

Try it on our guarantee.

SALOONIST SUED.

Woman Demands $10,000 in Case of Husband's Death.

Hersey, Mich., April 9.—Lavena Dive, by her attorney, B. N. Savidge, of Reed City, has commenced suit in the Osceola county circuit court against Thomas P. Sherbeneau and James Davis, Marion saloonkeepers, and Egbert Chapin, Michael Walsh, John B. Wagner and Chas. McPhall, bondsmen.

The bill sets forth that George Dice, husband of the plaintiff, during his lifetime was in the habit of getting drunk, and that written notices had been served on both saloonkeepers forbidding them to sell liquor to said Dice; that no attention was paid to them; that on Nov. 1, 1905, Dice purchased liquor at both saloons and became intoxicated, and went home and committed suicide by shooting himself.

Ladies to Banquet Solons.

Lansing, Mich., April 9.—The ladies' club of the house and senate will give a banquet this evening to their husbands at the Hotel Downey. Lieut.-Gov. Kelley will preside as toastmaster and speeches will be made by Gov. Warner, Rep. Joseph Greusel, W. A. Norton, F. H. Kelley, Senators O. B. Fuller and F. C. Wetmore. Senator Huntley Russell will sing and Mrs. D. N. Jones, wife of the sergeant-at arms, Jones, of the senate, will respond in behalf of the ladies. There is more social life in the session this years than ever before. About 30 of the members of the legislature have their wives here with them for the session, and the ladies meet every Wednesday. For the banquet tonight a number are expected who are not residing here, and plates will be laid for about 100.

Dr. Miles' Anti-Pain Pills.

They act most marvellously on woman's nervous organism, and relieve and cure the pains to which she is a martyr.

Headaches, neuralgiac pains, monthly pains, and all kinds of pains disappear, as if a gentle hand had lightly soothed them away. Dizziness, Rush of Blood to the head, Toothache, Backache are all cured by these "Little Comforters."

Cured without danger of disagreeable after-effects; cured quickly; cured without unnatural action on liver, stomach, or other internal organs.

Dr. Miles' Anti-Pain Pills please the women, and the children take them because they are easy to take and soothe all their sufferings.

"For years I had spells of sick headache, at times suffering untold agonies. I could not endure any excitement. Going to church, and even visiting, brought on these terrible spells. I tried numerous remedies without relief until I tried Dr. Miles' Anti-Pain Pills, and they have cured me. When I feel symptoms of sick headache I take a pill and ward off the attack. When I am tired and nervous, a pill soothes me."—MRS. SARAH WATKINSON, Blairstown, Ia.

Women as Well as Men Are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Rheumatism

I have found a tried and tested cure for Rheumatism! Not a remedy that will straighten the distorted limbs of chronic cripples, nor turn bony growths back to flesh again. That is impossible. But I can now surely kill the pains and pangs of this deplorable disease.

In Germany—with a Chemist in the City of Darmstadt—I found the last ingredient with which Dr. Shoop's Rheumatic Remedy was made a perfected, dependable prescription. Without that last ingredient, I successfully treated many, many cases of Rheumatism; but now, at last, it uniformly cures all curable cases of this heretofore much dreaded disease. Those sand-like granular wastes, found in Rheumatic Blood, seem to dissolve and pass away under the action of this remedy as freely as does sugar when added to pure water. And then, when dissolved, these poisonous wastes freely pass from the system, and the cause of Rheumatism is gone forever. There is now no real need—no actual excuse to suffer longer without help. We sell, and in confidence recommend

DOINGS IN PITTSBURG

Enlarged Carnegie Institute Is Being Dedicated.

IT COST SIX MILLION DOLLARS

Surpasses Anything of Its Kind in the World — Noted Men There — Art Prize-Winners Announced — Police Arrest Daffy Man in Nick of Time.

Pittsburg, April 12.—Formal dedication exercises of the enlarged Institute of Pittsburg, valued at $6,000,000, and one of the most beautiful and complete institutes of its kind in the world, were brought to a close Thursday with the announcement of the prize-winners in the international art exhibition.

Following are the successful painters, amount of awards and titles of pictures:

First prize—Gold medal and $1,500; Gaston La Touche, Paris, France; "The Babe."

Second prize—Silver medal and $1,000; Thomas Eakins, Philadelphia; "Professor Leslie W. Miller."

Third prize—Bronze medal and $500; Olga de Boznauska, Paris, France; "Portrait of a woman."

The following received honorable mention: Lawton S. Parker, Chicago, portrait of an English girl; W. Granville-Smith, New York, "The Old Mill;" Maurice Greiffenhagen, London, Eng, portrait of his wife.

Last night the foreign and American guests attended a concert given in their honor by the Pittsburg orchestra, directed by Mr. Emil Paur. The concert was the most brilliant in the history of the orchestra. Upon the invitation of Director Paur and the orchestra committee, Sir Edward Elgar of London, conducted one of his own compositions.

The ceremonies Thursday, while elaborate, were marked with extreme simplicity. Addresses of international importance were delivered by his excellency, Theodor von Moeller, minister of state, German; Paul Doumer, ex-speaker, chamber of deputies, Paris; Andrew Carnegie, Baron d'Estournelles de Constant, member of the senate, Paris, and Dr. John Rhys, principal of Jesus college, University of Oxford. The Rev. Dr. E. S. Roberts, vice-chancellor of the University of Cambridge, England, delivered the invocation.

A lengthy letter of regret was read by the secretary of the institute, from President Roosevelt. In the letter the president praised Mr. Carnegie for the great gift to science and education.

Minister of State Von Moeller paid a glowing tribute to Mr. Carnegie in his address: "The popular significance of the Carnegie institute." The speaker dwelt at length on the achievements within the power of education, and congratulated Pittsburg and Pittsburgers in their possession of the great institute. He said his presence here was as a message of good will from the German emperor, the German subjects and himself. In closing Minister Von Moeller said Mr. Carnegie's benevolence was sublime, and the Pittsburg Carnegie institute one of the most wonderful buildings he had ever seen.

The notable feature of the exercises was the parade of the European and American guests from the Hotel Schenley to the institute, over a block away. The march began about 1:30; the route being along Forbes street to the east entrance of the building. Director A. A. Hammerschlag, of the Carnegie technical schools, accompanied by the faculty, headed the procession. Immediately behind came Andrew Carnegie and William N. Frew, president of the institute. Next came the foreign guests, followed by Mayor Guthrie, prominent Pittsburgers and the American guests. All those entitled to wear academic dress did so, which tended to make the parade one of dignity.

The procession passed between the students of the technical schools, who loudly greeted the founder with a college yell, formed by pronouncing each letter of his name and ending with cheers.

Thousands of persons viewed the parade from the sidewalks, grandstands and tops of buildings. The weather, while somewhat cool, was ideal and served to bring out a large audience.

The police protection was admirable, as was shown a few minutes before noon, when Frederick Siagel, 33 years old, of Los Angeles, Cal., was arrested while attempting to enter the Hotel Schenley with an open knife hidden beneath his coat sleeve. Siagel said he wanted to see Mr. Carnegie concerning a patent for milking cows. The man's sanity will be investigated.

MICHIGAN AT LAST IN LINE

Two-Cent Fares for Travelers in Southern Peninsula.

HOUSE HAS PASSED THE BILL

Only One Representative Cast Cast Negative Vote.

NINEVY-TWO IN FAVOR OF IT

All Attempts to Amend Wetmore Measure Were Quickly Turned Down—Rep. L'Esperance of Detroit Worked Against the Bill Up to Last Hour—The Military Bill Goes Into a Pigeon Hole—Ways and Means Committee Took Vote While Stimpson Was Absent.

Lansing, Mich., April 12.—The house passed the two-cent fare bill Thursday afternoon, by a vote of 92 to 1, thus placing Michigan in line with other states where lower rates of travel for the people have been forced from the railways. Rep. David L'Esperance of Detroit secured for himself alone, a place on the record as voting against the bill, and established his reputation for consistency, as he has never once given the bill a good word or a vote.

Having so signally served their constituents, the other members of the house suspended work and sang a parody on "Michigan, My Michigan," prepared by Rep. H. W. Newkirk, of Ann Arbor.

No Amendments.

There were no amendments made to the bill. Several attempts were made, but they all failed, the house being determined that this was the appointed time and all question as to the future of the bill should be settled beyond all danger.

"Public sentiment has been strongly in favor of this measure," said the governor. "I cannot see how the matter could have been otherwise determined, although I realize that the strong efforts made by the newspapers have been of great assistance in these last few days.

The bill will become a law about the middle of next September.

Labored in Vain.

The noteworthy thing was the perfect unanimity of the members with the one exception of Rep. L'Esperance. Railroad representatives labored right up to the last minute, but their work was fruitless and in no way affected the result.

A plan of action was agreed on, but it would be mighty hard to pick the men who framed it up. Dozens of the house members claim a share in the work, and no one of them is entitled to any more credit than the other.

Bill May Die.

The military bill, in which the National Guard of the state is so much interested, was tucked into a pigeon hole to die, by the ways and means committee of the house last night.

It does not necessarily mean that the bill is lost beyond all hope, for Representative Stimpson, who introduced it, will renew his endeavors to get the bill out of the committee.

The committee had devoted all day, except when the house was in session, to the consideration of the bill. Stimpson had at length pointed out reasons why it should ber eported out, and late in the afternoon he left the committee room in order that the remainder of the committee might have an opportunity to go over his arguments and the bill alone.

JURY WRESTLES ON

Unable to Decide Whether Thaw Be Guilty or Innocent.

THEY ASK COURT FOR AID

Twice Make Request for Conference and Repetition of Testimony—Judge Refuses Them Permission to Review Delmas' Address—Prisoner Cheerful

New York, April 12.—Thirty-one hours of deliberation, and no verdict!

Such was the condition of affairs at 11:40 o'clock last night when the Thaw jury was ordered locked up for a second night at the criminal courts building. The fact that they had not been able to agree after devoting so much time to a study and discussion of the case, has given rise to the belief that the trial will end in a disagreement, and the whole affair will have to be gone over again.

Althought the twelve men have thus far failed to reach a common opinion, and to all appearances are hopelessly at sea, Justice Fitzgerald has not given up hope of having a verdict rendered. As yet, Deming B. Smith, foreman of the jury, has not complained to the court that the jurors are unable to reach a decision, and until he does so, it is not likely that Justice Fitzgerald will discharge them.

Some Look for Verdict.

The general impression prevails that if the twelve men are unable to agree at the expiration of 48 hours, they will be released from further service. The very fact, however, that no intimation has been received from the jury room that the men are unable to agree has been construed by many who have followed the proceedings closely, as an indication that a verdict will eventually be reached

The mother, wife and the two sisters and brothers of the defendant were in the criminal courts building up to the last minute, and when it was finally announced that the jury had been locked up over night and there was no longer any prospect of a verdict, they returned to their hotel, crestfallen.

Twice during Thursday the twelve men filed into the court room and asked the assistance of the court in an endeavor to bring about an agreement.

Tired Lot of Men.

They appeared wan and haggard after wrangling through all of Wednesday night in the stuffy little conference room at the criminal courts building, with only hard chairs and one long table provided for their comfort. The jurors wanted to hear again the evidence of numerous eye-witnesses to the tragedy. They wanted to hear what Dr. Allan McLane Hamilton had been allowed to testify to as to Thaw's condition the night of the tragedy, and what Evelyn Nesbit Thaw had said as to her husband's conduct that evening; they wanted to hear repeated again the conversations Thaw had with James Clinch Smith, just before he committed the homicide; they wanted to hear several portions of Justice Fitzgerald's charge once more, and finally, they asked permission to take possession of all the writings of Thaw which had been introduced into the trial as indicative of the defendant's state of mind when he heard the story of Evelyn Nesbit and the alleged wrongs at the hands of the man who was to become his victim.

Judge Called Halt.

All of these requests were gladly granted by the court, but when Foreman Deming B. Smith, on behalf of the jury, asked that certain portions of the summing-up address of Delphin M. Delmas be read, Justice Fitzgerald called a halt. He admonished the jurors that they were to be guided only by the evidence, and were not entitled to hear again the closing addresses of the lawyers.

Harry Thaw's family visited him on several occasions in the prisoner's pen on the floor above the court room, yesterday. Their purpose was to cheer him, but he appeared by far the most cheerful of the group. The man's confident air seems never to leave him for any great length of time and a buoyancy of spirit is nearly always apparent. Few men accused of murder in the first degree have awaited the sealing of their fate with the calmness and the happy-go-lucky manner which has characterized Harry Thaw since the jury retired at 5:17 o'clock on Wednesday afternoon.

LORD CROMER RESIGNS.

Great Britain Loses Her Famous Representative in Egypt.

Landon, April 12.—Foreign Secretary Grey made the most unexpected announcement in parliament Thursday that Lord Cromer, Great Britain's great plenipotentiary on the Nile, had resigned. It had been known for some time that the health of Lord Cromer, who has been British agent and consul-general in Egypt since 1883, was affected, but there was no idea, when he issued his voluminous report on the progress of the administrative departments of the Egyptian government, early this month, that his retirement was impending.

Secretary Grey, on making the announcement, and ex-Premier Balfour, who followed him, spoke with deep emotion of Lord Cromer's unexampled services to the empire, and voiced the nation's regret at his leaving his post during such a difficult period, the foreign secretary declaring that it was the greatest personal loss the public service of the country could suffer.

The retirement of Lord Cromer will involve no change in British policy with regard to Egypt. This was explicitly stated by Secretary Grey.

Sir Elden Gorst was appointed to succeed to the post in Egypt on the advice of Lord Cromer, whose complete confidence he possessed.

LAST WITNESS HEARD.

Indiana's Case Against Standard Oil Company Soon Goes to Jury.

Chicago, April 12.—The last witness was heard Thursday in the case of the Standard Oil Co., of Indiana, which has been on trial for several weeks, before Judge Landis of the United States district court, on a charge of having received rebates from the railroads. Arguments of counsel and the charging of the jury by the court remain to be disposed of.

F. S. Holland, chief clerk in the general freight office of the Chicago & Alton Railway Co., called in rebuttal by the government, was the final witness. His testimony was at variance with that of Edgar Bogardus, traffic manager of the Standard Oil Co., who was on the stand Tuesday and Thursday, testifying for defense. The point of difference was with regard to whether Bogardus had been informed by Hollands that the six per cent oil rate from Chappel, Ill., to St. Louis, had been filed with the interstate commerce commission.

SAVING THE CHINESE.

Four Hundred Thousand Dependent on Foreign Relief.

Washington, April 12.—The state department has received from Dr. Klopsch a copy of the following cablegram received by him from Shanghai, Thursday:

"Shanghai, April 11.—Relief work proceeding at highest pressure. Four hundred thousand lives now sustained by foreign relief. Further aid indispensable until June. Officials and nobility co-operating satisfactorily.

"Editor North China News."

Dr. Klopsch adds that this message clearly indicates that relief operations must continue for at least another two months if the benefits are to prove effective.

Ministerial Crisis in Austria.

Brussels, April 12.—The ministerial situation again is critical, and according to well-informed persons, the resignation of the cabinet has been offered to his majesty. It was believed that the arrangement in the matter of the mining question would save the situation, but the crisis was reopened yesterday when the chamber of deputies, in spite of government opposition, adopted a motion by 76 votes to 70, in favor of fixing the labor hours of miners. Subsequently a royal decree was drawn up in collaboration with the mining and labor councils. Later the cabinet held a conference and discussed the question of resigning, after which the premier, M. De Smat de Nayer, went to the palace.

Prayers for Peter the Great's Son.

St. Petersburg, April 12.—For the first time in history, a requiem mass was celebrated Thursday in honor of the czarevitch, Alexis Petrovitch whose tomb, under the tower of the fortress of St. Peter and St. Paul, has been restored at the order of the emperor, Nicholas, and it was attended by a number of conservative members of the lower house. Alexis Petrovitch was a son of Peter the Great. His father ordered his execution because of his participation in reactionary plots to destroy his reforms.

FISH ELECTROCUTED.

Three Men Used Unique Means for Catching Finny Tribe.

Pontiac, Mich., April 12.—Learning that three men were carrying loads of freshly caught fish to Detroit markets, and that these fish showed no signs of either hook or spear, coupled with another story that three men were daily observed acting in a suspicious manner at Pine Lake, Deputy Game Warden A. E. McClintock got busy.

He arrested Frank Sharrow, aged 28 years; Lew Smith, aged 30, and Henry Cuehlke, aged 40, all of Detroit, charging them with catching fish by unlawful means.

"The fish had been electrocuted," says McClintock. "The men attached a wire, 800 feet long, to a D. U. R. feed line. This they stretched to the lake. Here 100 feet more were added and circled about in deep parts of the lake. With thousands of volts of current along the wire the fish were helpless. When they swam within a short distance of it they were stunned and floated to the surface, where they were scooped in by the bushel."

The Detroit trio pleaded guilty before Justice Snowden, who fined them $11.45 each.

THROWN INTO JAIL.

Port Huron Italian Charged With Attempted Murder.

Port Huron, Mich., April 12.—Frank Scarlatta, aged 22, a former Detroit barber, was arrested here Thursday afternoon on a charge of attempted murder, made by Lewis Vaudedel, aged 42, of this city. Both men are Italians.

Vaudedel says that Scarlatta entered his home yesterday afternoon while he was shaving, and after an argument over an $18 debt due him, the latter grabbed the razor and cut his throat. Vaudedel is hardly able to talk from the effects of the wound, but will recover. Scarlatta was on a Rapid car, bound for Detroit, when taken in charge by Deputy Sheriff James Reynolds.

Soon after being lodged in jail he became insane through fear, thinking that he had killed Vaudedel. Scarlatta was arrested in Port Huron several months ago and was taken to Detroit and charged with larceny. He was later released and has resided in Port Huron until the present time.

KILLED IN ELEVATOR.

Prominent Grand Rapids Man Meets Terrible Death.

Grand Rapids, Mich., April 12.—Luther J. Stevenson, president and manager of the Commercial Credit Co., of this city, was instantly killed shortly before 8 o'clock last evening, in an elevator accident in the Murray building.

Mr. Stevenson had been at work in his office on the upper floor and was on his way home. He took the elevator to come down to the first floor When the car reached the first floor Mr. Stevenson attempted to step out, but the car continued on down and he stumbled and fell, the elevator catching him on the head and crushing his skull so that death was almost instantaneous. His wife was at the theatre when the accident happened. Mr. Stevenson was well known in business circles and is survived by a widow and three sons. He was about 40 years of age.

Mr. Stevenson was the first man in the United States to make a success of a retail commercial agency.

MICHIGAN BRIEFS.

Mina Beurkens, of Grand Rapids, a young married woman and a mother, is said to have confessed to throwing her infant in a pond in the old stone quarry. Its remains were found later. Warrants for her and her husband Anthony's arrest are out.

What seemed at the time to be a case of love at first sight, culminated in the happy marriage of Rev. A. A. Rose, pastor of the Baptist church, at Rochester, to Miss Alice Higgins, an active worker in her husband's flock. Rev. Rose went there a few months ago.

Stricken with tuberculosis while 3,000 miles away from home and relatives, John Willis Huntoon, who went to Ballard, Wash., eight years ago, hurried home to die on the old farm where his father lives, near Muskegon. He visited his old haunts and friends and died in two days.

Officers at Flint claim that John Bradley, sentenced to from six months to 15 years for breaking in Thomas Doyle's saloon, is the most troublesome and uncleanly prisoner ever behind local bars. While being taken to Ionia he made a break for liberty and nearly made good.

The old adage that it's an ill wind which blows no one good is illustrated in the final settlement of the recent street car strike at Kalamazoo. For the first time in years there is a feeling of kindliness between the M. U R. and the public, who see that the new company is endeavoring to give best possible service.

The breach of promise suit, brought by Mrs. Hattie Eernsberger against Isaac P. Jennings, both of Fenton village, has been settled out of court. The plaintiff asked for damages to the amount of $10,000, but it is claimed that no money figured in he settlement. Mr. Jennings was in jail for some time.

Bank Closes Its Doors.

St. Joseph, Mo., April 12.—The Bank of Conception, in Clyde, Nodaway county, has closed its doors by order of the secretary of state. The liabilities are given at $120,000 with assets almost equal to that amount. The depositors will be paid in full.

Gets 99-Year Sentence.

Joplin, Mo., April 12.—Fred W. Troy, a traveling photographer, who shot and killed his wife, and mortally wounded Ralph Guin in this city, New Year's day, pleaded guilty to second degree murder Thursday, and was sentenced to 99 years in the penitentiary.

Paris Banker Killed.

Paris, April 12.—Emil Benoist, a well-known banker of this city, was shot and killed Thursday in the office of a financial newspaper of which he was the editor. The assassin, a discontented customer, named Carroll, fired 10 shots from a revolver point blank at M. Benoist.

SHORT TALKS BY L. T. COOPER.

INTERNAL PARASITES.

Cooper's New Discovery has taught me many things. Not least of which is that parasites or tape worms as they are called are responsible for an immense amount of suffering. Thousands of these creatures have been brought to me by people who have taken the New Discovery and I now know that an immense amount of supposed stomach trouble is caused in reality by one of these parasites. A man or woman may be afflicted in this manner for years and not realize the true cause of their suffering. When I first sold Cooper's New Discovery I did not know that the medicine would remove this trouble. I have since found that it invariably does so. The following letter is a fair sample of the symptoms as experienced by an individual thus affected:

NICK EMMERICK.

"I was always tired. My stomach bloated and the slightest exertion made me sick, weak and dizzy. My appetite was variable and a good nights sleep was unknown to me. When I awoke in the mornings I had a bad taste in my mouth and a coated tongue. I heard of the wonderful benefits that were being derived from Cooper's New Discovery, and decided to try it."

"The horrible tape worm, sixty feet long that had been sapping my life away, passed from my system alive and squirming after I had taken three doses. Now I have a splendid appetite, every trace of stomach trouble has disappeared and my digestion is good. I sleep well and am gaining in strength every day." Nick Emmerick, 1344 Louis Ave., Milwaukee, Wis.

We are authorized agents for the Cooper medicines. Call and let us tell you more about them.

IN PITIFUL CONDITION.

Kingston Falls to Survive the Recent Earthquake Disaster.

Kingston, Jamaica, April 12.—It is nearly three months since the pounding, devastating earthquake laid this beautiful English city of the West Indies in ruins, and slowly the conviction is forcing itself even upon Jamaicans that Kingston will ever be rebuilt. Except that the streets have been cleared of debris, the city lies today in practically the condition that the earthquake left it on January 14.

There is no money in the island. Not a man in Kingston but suffered, and most men lost their all. The insurance companies, without exception, have refused to pay any earthquake claims, and investors of all nations, are giving the island a wide berth.

This stand of the insurance companies has resulted in an epidemic of incendiary fires. Many owners of property damaged by quake and fire, made desperate by their failure to collect insurance indemnities, fired their buildings that they might be completely destroyed to enable them to make a claim for fire damages not connected with the earthquake.

Kingston's only hope is a loan from the imperial government, and this is rather a forlorn one.

The gloom of the great disaster of January 14 still hangs over the city.

WIN FIRST GAME.

Detroit Team Vanquishes Cleveland at Opening Battle.

Detroit, Mich., April 12.—To the tune of 2 to 0, the Detroit baseball team started in on its season's campaign toward the American league pennant. Cleveland was the defeated team, and over six thousand shivering fans, from the benches, saw them go down and out.

With the appearance of the first Tiger on the field yesterday afternoon voices were raised in loud acclaim. By the time Manager Jennings had gotten busy batting balls about the infield, a positive roar proceeded from the stands. When Umpire Sheridan called "play ball," 6,232 people were crowded into the grounds and more were coming.

Not once, except in moments of tense interest, did the yelling abate. Sometimes it swelled into a thunder-like roar of triumph, and again it became a sullen growl of disapproval. But mostly it was the glad cry of the victor. Thus the season's work began.

Episcopal Minister Deposed.

New York, April 12.—Rev. W. Howard Mears, curate of St. Matthews episcopal church, who was arrested by the police at a house in the tenderloin district, March 12, last, where he had gone in company with a negro woman, was Thursday deposed from the ministry by Bishop Greer, following a report by a committee of inquiry appointed to investigate the conduct of the preacher on the occasion in question. The committee reported that the curate had violated his sixth ordination vow, which requires that a clergyman "as far as in him lies, shall make himself a wholesome example and pattern to the flock of Christ."

Animal Voices.

A cow will moo about an octave; a dog will bark a fourth or fifth of an octave; a horse's neigh is a descent on the chromatic scale, while the donkey will bray in octaves. No donkey has ever yet given evidence of proficiency in the study of voice production.

Success.

The Youth—Yes, I'm in business for myself, but I don't seem to be able to meet with any success. The Sage—Nobody ever meets with success, young man. He must overtake it.

Mrs. Myron Hughes.

Adah Jane, the eldest daughter of Sylvester Erskine, was born Feb. 10, 1874, her death occurring Saturday morning at her home in Tecumseh after a brief illness. At the age of 18 months she was left without a mother and came to live with Mr. and Mrs. I. P. Keyser, an uncle and aunt, with whom she lived until her marriage, with the exception of seven years of her life. She was a graduate of the Tecumseh high school and attended the State Normal two years. Prior to her marriage to Myron J. Hughes, which occurred Oct. 26, 1903, she was an efficient employee of the Bell Telephone Co She was a member of the Presbyterian church of this place.

Mrs. Hughes was taken ill Thursday evening and in spite of all the tender loving care that could possibly be given her, the beautiful life went out of its suffering body to that home whose path is unknown, Saturday morning. By her unexpected and tragic death, not only her own home but every home in the community is saddened.

The funeral was held from the residence Monday afternoon and was largely attended. The casket was completely wreathed with floral tributes which gave silent testimony of the deep love and affectionate regard of the people of the community for this lovely woman whose life was of such a character as to merit the respect of everybody. The remains were laid at rest at Brookside.

Mrs. John Schreder.

Mrs. John Schreder was born in county Antrim, Ireland July 12, 1851, thus she would have been 56 years old had she lived till next July. She came to Tecumseh at the age of 15 in which community she has since resided.

She was united in marriage to Mr. Schreder 31 years ago last December, the 16th. This union is blessed with six children, Lovisa, Lavina, Charles, Lydia, Margaret and Blanche. Theirs has been a happy beautiful family life, this is the first intrusion of the dreaded enemy Death. Mrs. Schreder was a member of the First Presbyterian church. Her christian experience was real and vital, it brought comfort and rest in her struggle with pain.

She was a constant sufferer during the last few years of her life, while she never was very vigorous. Her contest for life was a valiant one, aided by physicians and kind, careful nursing and thoughtful home attention could bestow. Her call from the Master came, she was ready and drifted peacefully from this world into the presence of her Saviour. She was conscious to the last and had made full preparation for her own funeral services. Despite the pouring rain a large company of friends gathered to pay their last respects to one loved by the entire community.

CARD OF THANKS.

To our friends who so kindly assisted us during the illness and death of our beloved wife and mother, we wish to extend our heartfelt thanks.

AND FAMILY.

PREVENT SMUT

THE WM. HAYDEN MILLING CO., Tecumseh, Mich. have secured the agency of

"SPOROCIDE"

that will positively prevent smut in oats. Guaranteed or money refunded. The treatment costs but 10c per acre.

In 150 tests made by substantial farmers who used Sporocide in 1906, the average increase in yield per acre was 10¼ bushels, or a net gain of from $3 to $4 per acre on an outlay of 10c. This is worth looking into. Write for testimonials.

MINSTREL SHOW

Given for the benefit of the TECUMSEH BASE BALL Association at the New Bradley on Tuesday night. A decided success.

An unusually large crowd greeted the home talent minstrel show which was given at the New Bradley Tuesday evening for the benefit of the base ball association. Long before six o'clock every seat down stairs had been sold. The orchestra of nine pieces under the direction of Charles Skinner furnished extremely good music. W. W. Hicks acted as interlocutor. The end men, Harry McManus, Tom Wilson and Martin Zimmerman, Will Fisher, Wade Jones and Will Barrett were all good.

The opening chorus "Dixie" of thirty voices was fine. This was followed by B. J. Pulver, who rendered "In the Golden Autumn Time, My Sweet Elaine." Will Fisher sang the "Whole Dam Family." Although the song was not unfamiliar to the audience, it was enjoyed immensely and Mr. Fisher was obliged to respond to an encore several times. "Clover Blossoms" sung by W. E. Slayton was good and when encored a quartette composed of B. J. Pulver, W. E. Slayton, Floyd Slater and Levi Hayden sang the chorus.

The solos of Floyd E. Slater, W. E. Barrett and Harry McManus were delightfully rendered. The solos 'Love's Sorrow" by W. S. Dickinson, "Where the Southern Roses Grow" by Shelton Southwick, "Bonnie Jean" by Clarence Symonds, "I've got a Little Money and I've Saved it all for You" by Tom Wilson and "The Moon has his Eyes on Yoh" by Lavern Hopper completed the first part of the program and were much enjoyed by their listeners.

In the olio the specialties were fine. The buck and wing dance by Harry McManus was good and also his monologue in which he appeared as the Irish comedian and sang "All In, Down and Out." Will Fisher's stump speech brought the house down. Kirby Wilson as the dude sang "Vacation Time" and was heartily applauded. Zimmerman and Wilson's sketch was very funny and received applause. Elmer Mellon as the Dutch comedian and Roy Snell's specialty were also worthy of mention. Clarence Symonds and Sheldon Southwick gave a very funny sketch entitled "A Special Sale."

The entire show was a great success, the association clearing about $190. J. M. Jones & Son were instrumental in making the affair a success, giving a great deal of their time in instructing and assisting the company.

Wedding Bells.

A quiet but very pretty and charming little wedding was that which was celebrated at the home of Mr. and Mrs. O. H. Bliss of Lincoln street and Jackson boulevard, Chicago, at 7:30 o'clock on Saturday evening, the 6th of April. The happy contracting parties were Mr. Charles D. Klappich and Miss Florence K. Titus of Tecumseh, Michigan. The Rev. Will Hallowell Bliss, cousin of the bride, officiated using the beautiful and impressive Episcopal marriage ceremony.

Earle Porter Bliss, also a cousin of the bride, was best man and gave the bride away. Miss Madalin Bliss, the beautiful little daughter of Chas. Leslie Bliss of Berwyn, one of Chicago's pleasant suburbs, acted as ring bearer gracefully preceding the bridal procession, carrying the ring nestled in the heart of a huge American Beauty rose, the long stem of which was further adorned by a massive bow of ribbon, the same color of the rose. Miss Ida May Craggs presided at the piano rendering the wedding march, the well known Wagner composition in a most graceful and artistic manner.

The ceremony and congratulations over, a dainty wedding supper followed after which an hour of music and delightful social intercourse was enjoyed by all, then amid a shower of rice, best wishes and affectionate adieus, Mr. and Mrs. Charles D. Klappich took their departure leaving on the 10:30 train for their home in Tecumseh, Mich., where they are now receiving the congratulations of their many friends.

GOOD FACTORY FOR TECUMSEH

In Good, Easy Sight.

Wednesday every member of the Business Men's association received a circular explaining how another good factory can be secured for Tecumseh. This proposition has been and will be thoroughly investigated by the Business Men's association and if the men of capital are willing, it will be secured for Tecumseh.

The great success only a few months since of securing for a permanency in Tecumseh of the Anthony Fence Co., has sharpened the appetite of Tecumseh men for "more worlds to conquer" but this is the first opportunity that has been offered to secure an institution that looked first class. More will be heard of it soon.

Porter J. White's latest success.

Porter J. White, the popular and talented actor, has scored a great success in his portrayal of Bertuccio in "The Fool's Revenge" in which he is starring this season. Mr. White's fool is said to be one of the most powerful impersonations seen on the stage in many years. The character is one which taxes the resources of the actor to the utmost but Mr. White presents it with an ease and charm so naturally and lifelike that the most exacting critic finds little to cavil at. "The Fool's Revenge" has in consequence been playing to capacity everywhere, a testimonial to the popularity of both star and play. Mr. White will present the play here Tuesday, April 16 and a fine production is promised.

"BLUE DEVILS"

Get rid of indigestion and things will look bright and joyous.

Even in the present era of prosperity and good times everything appears black to those people who are suffering wretchedly from some form of indigestion. Where digestion is quick, complete and easy there is a joyous and hopeful outlook, but indigestion causes depression.

The want of a safe, effective cure for sick headache, indigestion and stomach troubles, was always felt until the prescription known as Mi-o-na stomach tablets was put up in popular form and proved its invariable success in the many forms of indigestion.

After a few days' use of Mi-o-na stomach tablets the headache, dizzy feeling, drowsiness, bad taste in the mouth, coated tongue, nervousness, sleeplessness, distress after eating—all these symptoms of a weak stomach—will disappear and perfect digestion and a good skin will show that the vital machinery is once more running smoothly.

Mi-o-na is to be taken before each meal and it will stimulate the secretive and digestive juices and strengthen the whole of the digestive system so that the unpleasant full feeling will be absent and indigestion prevented.

Mi-o-na stomach tablets are sold only in a neat metal box convenient for the vest pocket and cost 50 cents. C. A. Wright has seen so many cures made by Mi-o-na stomach tablets that he gives a guarantee with every box that the money will be refunded if the remedy fails to give satisfaction.

IF WOMEN ONLY KNEW.

What a heap of happiness it would bring to Tecumseh homes.

Hard to do housework with an aching back

Brings you hours of misery at leisure or at work

If women only knew the cause, that backache pains come from sick kidneys, They'd save much needless woe

Doan's Kidney Pills cures them

Tecumseh people endorse this.

Mrs. Mary Edwards of Logan street, Tecumseh, Mich., says: "I feel that I cannot praise Doan's Kidney Pills too highly as they have been of great benefit to me. I had suffered a great deal from kidney trouble for some time brought on by lifting and a heavy cold. It kept getting worse until I was confined to my bed most of the time. At night I could not sleep as the action of the kidneys were so frequent. I tried nearly every known remedy but received no relief until I tried Doan's Kidney Pills. They proved to be just what my condition required and the use of three boxes effected a complete cure. I advise all sufferers of kidney trouble to try Doan's Kidney Pills."

For sale by all dealers. Price 50 cents Foster-Milburn company, Buffalo, N. Y., sole agents for the United States. Remember the name Doan's, and take no other.

To be a great man it is necessary to turn to account all opportunities.

Heavy, impure blood makes a muddy, pimply complexion, headaches, nausea, indigestion. Thin blood makes you weak, pale, sickly. Burdock Blood Bitters makes the blood rich, red, pure—restores perfect health.

When we hear that we have made an impression some of us wisely refrain from guessing what kind.

"Dr. Thomas' Eclectric Oil is the best remedy for that often fatal disease—croup. Has been used with success in our family for eight years."—Mrs. L. Whitcomb, Buffalo, N. Y.

There is a great deal to admire in the woman who is never satisfied unless she is "babying some one."

A knowledge of "birth stones" of the different months never helps anyone to wear diamonds.

Rest is the great restorer. We tire our muscles by exercise and then rest to restore them; yet a great many of us do not stop to think how little rest we give to our stomachs. As a usual thing no part of our bodies is so generally overworked as our digestive organs. A tired and overworked stomach will give signs of distress to which we pay no heed until at last dyspepsia takes hold. Indigestion is just a warning and if we heed the warning we can easily avoid further consequences. Kodol is a most thorough stomach relief. It digests what you eat and gives the stomach the needed rest and greatly assists in restoring it to its normal activity and usefulness. Kodol is sold on a guarantee relief plan. It is sold by B. J. Pulver.

Laxative Iron-ox Tablets

Cure Biliousness

The most common causes of biliousness is some perversion of the functions of the liver, or the retention of bile in the bile duct.

YELLOW SALLOW SKIN IS AN INDICATION OF BILIOUSNESS.

"Laxative Iron-ox Tablets are the best laxative I have ever used. They have cleared up my yellow skin as no other remedy has ever done, and I am so thankful that when I commenced using them." (Capt.) J. O. Culver, Soldier's Home, Bath, N. Y.

Laxative Iron-ox Tablets tone and strengthen the bowels, and stimulate the secretions of the liver. If the bowels and liver are active and working harmoniously, waste matter and poisons which cause biliousness, stomach trouble, headache, backache, colds and rheumatism cannot accumulate in the system. 37

The Best Laxative for Children.

Parents should see to it that their children have one natural, easy movement of the bowels each day. Do not dose the child with salts or griping pills, as they are too powerful in effect, and literally tear their little insides to pieces, leaving the bowels weakened and less able to act naturally than before. Laxative Iron-ox Tablets tone and strengthen the bowels, and stimulate all the little organs to healthy activity. Chocolate coated tablets, easy to take, never gripe or nauseate. 10c, 25c and $1.00.

Commissioners Notice.

STATE OF MICHIGAN, county Lenawee, ss.

In the matter of the estate of AUGUST DASHER, deceased.

The undersigned having been appointed by the probate court of said county, commissioners to receive, examine and adjust all claims and demands of all persons against the estate of said deceased, do hereby give notice that we will meet for that purpose at the office of Sylvester P. Hosmer in the village of Tecumseh, Lenawee county, Michigan, on the 8th day of April, 1907, and on the 3rd of October, 1907, at 9 o'clock in the afternoon of each said day.

And that six months from the 3rd day of April 1907, are allowed by said probate court for the creditors of said estate to present their claims to us for examination and allowance.

Dated April 3, 1907.

SYLVESTER P. HOSMER,
CHARLES A. BURRELL,
Commissioners.

Mortgage Sale.

Whereas default has been made in the payment of the money secured by a mortgage dated the 13th day of April, 1905 executed by Eva Siler of Riga Township, Lenawee County, Michigan, to Albert Collins of Macon township, Lenawee County, Michigan, and which said mortgage was recorded in the office of the Register of Deeds of Lenawee County Michigan, in Liber 108 of Mortgages on page 190 on the 14th day of April A. D. 1905 at 10:15 o'clock A. M.; and whereas the amount claimed to be due on said mortgage at the date of this notice is the sum of Four Thousand One Hundred Sixty Dollars and Fifty-four cents ($4160.54) of principal and interest and the further sum of Twenty-five Dollars ($25.00) as an attorney fee stipulated for in said mortgage, and which is the whole amount claimed to be unpaid on said mortgage and no suit or proceeding having been instituted at law to recover the debt now remaining secured by said mortgage of any part thereof, whereby the power of sale contained in said mortgage has become operative.

Now therefore, notice is hereby given, that by virtue of the said power of sale, and in pursuance of the statute in such case made and provided the said mortgage will be foreclosed by a sale of the premises therein described at public auction, to the highest bidder, at the east front door of the Court house in the City of Adrian in said County of Lenawee, on the 29th day of April next, at 10 o'clock in the forenoon of that day which said premises are described in said mortgage as follows to-wit:—Being that part of section three (3) of Town Five (5) South, Range Five (5) East which is bounded as follows: Commencing at the North west corner of said section three, thence running East seventy-five rods and twenty-one links; thence South sixty-seven rods and seven and one fourth links; thence West seventy-seven rods and nine links; thence North sixty-six rods and twelve links to the place of beginning. Also all that other tract or parcel of land situated in the township of Macon Lenawee county, Michigan, bounded and described as follows to-wit:—By a line commencing sixty-six rods and twelve links South of the Northwest corner of section three (3) Town Five South, Range five East, thence running East one hundred and sixty rods; thence South forty and one half rods; thence West one hundred sixty rods; thence North forty and one half rods to the place of beginning. Containing in both parcels above described Seventy-three acres of land more or less.

Women as Well as Men Are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty cent and one dollar size bottles. You may have a sample bottle by mail, free, also a book of valuable information pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers cured. In writing, Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Sour Stomach

No appetite, loss of strength, nervousness, headache, constipation, bad breath, general debility, sour risings, and catarrh of the stomach are all due to indigestion. Kodol relieves indigestion. This new discovery represents the natural juices of digestion as they exist in a healthy stomach, combined with the greatest known tonic and reconstructive properties. Kodol for dyspepsia does not only relieve indigestion and dyspepsia, but this famous remedy helps all stomach troubles by cleansing, purifying, sweetening and strengthening the mucous membranes lining the stomach.

Mr. S. S. Ball of Ravenswood, W. Va., says: "I was troubled with sour stomach for twenty years. Kodol cured me and we are now using it in milk for baby."

Kodol Digests What You Eat.

Bottles only. Relieves indigestion, sour stomach, belching of gas, etc.

Rheumatism

I have found a tried and tested cure for Rheumatism! Not a remedy that will straighten the distorted limbs of chronic cripples, nor turn bony growths back to flesh again. That is impossible. But I can now surely kill the pains and pangs of this deplorable disease.

In Germany—with a Chemist in the City of Darmstadt—I found the last ingredient with which Dr. Shoop's Rheumatic Remedy was made a perfected, dependable prescription. Without that last ingredient, I successfully jeeted many, many cases of Rheumatism; but now, at last, it uniformly cures all curable cases of this heretofore much dreaded disease. Those sand-like granular wastes, found in Rheumatic Blood, seem to dissolve and pass away under the action of this remedy as freely as does sugar when added to pure water. And then, when dissolved, these poisonous wastes freely pass from the system, and the cause of Rheumatism is gone forever. There is now no real need—no actual excuse to suffer longer without help. We sell, and in confidence recommend

TOWNS DESTROYED

Mexico Receives Terrible Earthquake Shock.

PEOPLE FLEE TO COUNTRY

Chilpancingo Completely Shaken to Pieces—Feared Many Were Killed in Other Places—Telegraph Wires are Down.

Chilpancingo, Mex., April 16.—This city has been completely destroyed by one of the most serious earthquakes that has ever visited this section. The known dead number eleven and the badly injured 27.

Among the dead is the wife of Postal Inspector Leopoldo Lopez Guerra, and the child of Jose Aleman, the postmaster of the city. Jose Lopez Martinez, manager of the federal telegraph office, was struck on the head by a block of stone and badly injured.

A panic prevails everywhere and people are fleeing to the open country. The earth continues to rock at half-hour intervals, and many minor shocks are completing the work of destruction of the first earthquake.

All telegraph communication with the outside world ceased shortly after 11:50 o'clock Sunday night when the first shock was felt. The telegraph operators have installed temporary quarters in an open square.

Word has reached here that the town of Chilapa, 42 kilometers to the northeastward, has also been destroyed. As yet no details have been received as to the number of the dead and wounded, but it is feared that the number will be large.

Visited Once Before.

The city is the capital of the state of Guerrero, and four years ago was visited by an earthquake which killed and wounded many of its inhabitants and destroyed a large part of the town. The population of the town is 7,498, and until the panic into which the citizens have been thrown abates, it will be impossible to state accurately to just what extent the recent earthquake has decreased it.

The population of the city of Chilapa is 15,000, and that place is the home of the bishop of the catholic church, who administers the ecclesiastical affairs of the entire population. No word has been received from the bishop's palace, and it is not known at this time whether or not he was a victim of the shock.

Midway between the cities of Chilpancingo and Chilapa, is located the city of Tixtla. This is a prosperous and progressive community, and as no word has been received from that place it is feared that it also has been destroyed. According to the movements of the earthquake, Tixtla would be in its direct line, and if the city has escaped, it has been only by a miracle.

The following message was sent the federal telegraph office in Mexico City from Chilapa:

"Our boys are working in a public garden. A terrible panic prevails, as the earth continues to tremble at regular intervals. Send us tents that we may establish an office out in the country."

All communication with the west coast has been cut off since the moment of the first big shock, and it is not known to what extent that region suffered. The neatest big town, Acapuco, which is 131 kilometers to the southwest of this place, has not been heard from.

City of Mexico, April 16.—Word from the center of the great destruction of the earthquake of Sunday night, was first given to this capital by the Associated Press, after repeated trials made during Sunday night and Monday to establish communication with the stricken districts. As yet, wires to the section are working badly and no exact estimate of the number of the dead has been received. It is believed, however, that the total death list will be large.

There were no deaths in Mexico City, and beyond damaged plaster and cracked and fallen walls, the property loss will be insignificant. Owing to the long duration of the shock, this is considered most remarkable, and is only accounted for by the peculiar swell-like motion of the earthquake, which was regular and from east to west.

Michael Goldsmith, secretary of the Ohio Federation of Labor, and well known labor leader, was arrested in Cleveland, O., Monday night on a warrant charging him with embezzling $400 from the funds of the Bartenders union. Goldsmith collected the dues from the members. He was released on bail.

House Opposed to Language in Senate Resolutions.

CONSIDERED SAD RHETORIC

Disinclined to Refer to Roosevelt as "Fearless One"—Legislature Plans to Entertain Nation's Chief During His Coming Visit.

Lansing, Mich., April 16.—The house delivered what some consider a rebuke last night to the senate, for the language of a resolution inviting President Roosevelt to visit the house and senate in joint sessions when he comes to Lansing next month. The resolution read:

"Whereas, That fearless leader and young giant of the western world, Theodore Roosevelt, president of the United States, has signified his intentions of attending the semi-centennial celebration of the Michigan Agricultural college at Lansing, Friday, May 31, therefore be it

"Resolved by the senate that a committee of the legislature, consisting of three senators and five representatives be appointed to act on the part of the state with the committees appointed from the M. A. C. from the city of Lansing and from the Lansing business men's association, to make suitable arrangments to receive and entertain the president during his stay in the city of Lansing."

That "fearless leader" phrase caused some of the members to protest when Reading Clerk Alec Smith got out the sentence in his Lyceum style. The members feared at first that some one was trying to arrange for a joyful reception to that other "fearless leader," William Jennings Bryan. Said Rep W. J. Galbraith:

"Who is to blame for that sad rhetoric?" No one wanted to admit being responsible. Rep. Greusel sent up an amendment providing for asking the president to meet the legislature in joint session. The amendment was adopted, and Rep. Galbraith arose again and remarked:

"This is rather a delicate matter, but it seems to me that if this resolution goes out in its present form we will become the laughing stock of the whole country. It's exceedingly sophomoric, to put it as mildly as you can. I move to strike out that 'fearless leader' and 'young giant of the western world,' and simply refer to Mr. Roosevelt as president of the United States."

Primary Bill Delayed.

Consideration of the primary election bill which was to have been taken up on Wednesday has been deferred by the house until a week from Thursday. Rep. L. D. Dickinson, of Eaton, who had largely o do with the construction of the bill, was called away last night by the serious illness of his mother.

At his request the bill was put over, although this rather disarranged the week's work. Gov. Warner was expected to send in a special message, but it is probable that he will not do so now until nearer the time for the bill to be taken up. State Highway Commissioner Earle secured permission of the house last night to have a hearing on his good roads proposition in the hall on Wednesday evening.

The liquor committee of the senate, before whom the big Detroit delegation appeared last week in support of the local option bill, where the smallest district that could by a majority of the voters banish all saloons is an election district, will report out the bill this week. At that the committee does not unanimously approve the bill, but the members prefer to leave to the entire senate the determination of its fate.

The bill will come before the senate for a vote in the shape in which the anti-saloon league, its sponsor, had it introduced. It means that if the bill becomes a law an election need not be held to banish barrooms from an election precinct or a ward, town, township or county.

If the anti-saloon people can get the signature of a majority of the voters of a district, a circuit judge will verify the signatures from a poll list. Then it is up to the judge to issue a decree to close up saloons permanently, and that is all there is to it.

In the closing hours of the session of last week's senate, Senator Jenks, of the Saginaw-Huron district, introduced a bill which is likely to get the liquor interests going. It provides for an increase of the saloon tax from $500 to $1,000, and requires that every boat whereon liquor is sold that touches at any Michigan port, must take out a full year's license, as also every buffet car where liquor can be purchased.

Rescues Children From Fire.

Grand Haven, Mich., April 16.—The farm residence of Edward Milleman in Grand Haven township, burned on Monday with nearly all its contents. In saving his children, Edward Milleman was severely burned about the face. It is feared he will lose his eyesight as a result of the burnes.

Blaze at Midland.

Midland, Mich., April 16.—The Midland county court house, which is to be replaced by a $60,000 building, caught fire last night, but it was extinguished before much damage was done. This is the second fire within three weeks.

GETS VETERAN'S JEWEL.

Charlotte Man Has Been Member of I. O. O. F. 50 Years.

Charlotte, Mich., April 16.—In honor of the fiftieth anniversary of the admission of J. W. Ells, of this city, to membership in Amphyction lodge, I. O. O. F., the organization presented him last night with a veteran's jewel. Mr. Ells is 81 years old and is one of the best known and honored elderly men of the city. He has helped institute all the Oddfellow lodges in the county and all sent representatives to last night's affair. Grand Secretary Wilder, of the grand lodge, made the presentation speech.

Gets Rhodes Scholarship.

Marquette, Mich., April 16.—Friends of A. K. Whallon, last year a member of the faculty of the Marquette high school, have been informed that he has been selected for one of the Rhodes scholarships at the University of Oxford, England. Mr. Whallon came to Marquette from Hanover college, an Ohio institute. He passed the Rhodes scholarship examinations before coming here, but was not selected that year as one of the American students to attend the famous English college. Last fall he entered the theological seminary at Princeton university. In the past year he again took the Rhodes scholarship examinations, passing them with much credit, and this time he has been among the number selected to enter Oxford.

Boy Puts Out Fire.

Flint, Mich., April 16.—Promptness of action on the part of Ed. Longmore, elevator boy at the Dryden hotel, in which are located the office rooms of the leading professional men of the city, and the club rooms of the B. P. O. Elks, 222, saved the building from what might easily have been a serious fire. Smelling smoke, Longmore made an investigation, with the result that he found the basement on fire. Hastily turning in an alarm, he grabbed an extinguisher, and with his shoulders smashed in the door, succeeding in getting the flames under control before the arrival of the department. The fire caught from a pile of oily rags.

Saginaw Pioneer Dead.

Saginaw, Mich., April 16.—Aaron A. Penney, aged 90 years, one of the earliest settlers of the Saginaw valley and a prominent mill operator and property owner, is dead at his home here of pneumonia. Mr. Penney came to this place in 1848 and cleared a farm in what is now South Saginaw. He was one of the first to open up salt well, of which he made a success, and later commenced lumber and sawmill operations.

Measles Epidemic Over.

Flint, Mich., April 16.—Work in the city schools was resumed Monday, after two weeks' vacation, the last week being occasioned by a serious outbreak of measles. It was stated by officers yesterday that about 90 per cent of the pupils are back in their accustomed places.

Court House for Midland.

Midland, Mich., April 16.—The proposition to bond the city for $60,000, which was thought to have been voted down at the last election, was Monday found to have won by a majority of 31 votes, according to the report of the board of canvassers. It was at first believe that the measure had lost by at least 100 votes, and there is almost general satisfaction at the latest news.

Train Partially Leaves Track.

Jackson, Mich., April 16.—The Michigan Central flyer on the Grand Rapids division, due to arrive in this city at 2:40 p. m., was derailed near Rives Junction, at 1:25 Monday, three coaches leaving the track. No one was injured, and aside from ripping up the track for some distance, no serious damage was done.

WARNS THE CONGRESS

National Arbitration Conference Assembles in New York—Carnegie, in Address, Speaks Words of Praise of Nation's Chief and German Emperor.

New York, April 16.—Warned by President Roosevelt and Secretary of State Elihu Root that if success is to crown the efforts of those who are working for peace among the nations of the world, their endeavor must be along practical lines; that they must not, by insisting upon the impossible, put off the day when the possible can be accomplished, the National Arbitration and Peace conference, which is meeting in this city under the presidency of Andrew Carnegie, began Monday its real activities with two crowded sessions in Carnegie hall.

Secretary Root also took occasion in his speech to point out the propositions which the United States government will have to make at the coming conference at The Hague. He warned his hearers not to expect too much at this second conference. The president, in a letter to the congress, expresed the hope that the coming conference might result in the adoption of an international arbitration treaty. Secretary Root, after seconding this hope, declared the United States thought it proper to urge against the discussion of the subject of the limitation of armament of the nations on land and sea, and the abolition of the practice of using force in the collection of debts owed by one nation to the citizens of another.

Kaiser Holds the Palm.

Mr. Carnegie, in an address to the congress, paid a tribute to President Roosevelt, and expressed the wish that Mr. Roosevelt might be the peacemaker of the future. He declared, however, that Emperor William is the man, among all men, who holds the peace of the nations in his power. In this connection, Mr. Carnegie said it was injust to speak of the emperor as a menace to the peace of Europe, adding that in twenty years upon the throne, the German ruler had spilt no blood, nor caused an international war.

At the afternoon session the speakers were Secretary Root, Governor Charles E. Hughes, of New York; Mayor George B. McClellan, of New York city, and Mr. Carnegie.

Last night the speakers included Baron d'Estournelles de Constant, a member of the French senate and head of the International Conciliation committee, and Secretary Oscar S. Straus, of the department of commerce and labor, who spoke upon "The peace of nations and peace within nations." Mr. Straus also spoke of the Nobel peace prize, which last year was conferred by the Norwegian storthing upon President Roosevelt. The people throughout the world, the secretary declared, applaudingly approved the selection.

SAME LINE OF DEFENSE

Will Be Followed in Thaw Case at Next Trial.

New York, April 16.—"If another trial is held, it has been agreed that the same line of defense as that used in the first trial will be followed. Evelyn Thaw will tell her story again, but her testimony will be greatly strengthened by documentary evidence that was not used before."

This is the statement credited to Lawyer Dan O'Reilly, of Harry K. Thaw's counsel. It has been reported that O'Reilly would be chief of the defense when the trial is called again, but this report has not been confirmed, and it was even stated semi-officially, that none of the lawyers who officiated at the last trial had been dispensed with by Thaw. On the other hand it was said that several of them had been paid the stipulated fees, and, while there would not be a formal announcement of their dismissal by Thaw, they would not re-appear in the case.

As to Mr. O'Reilly's reference to documentary evidence, it was said last night that he referred to letters written to Evelyn Nesbit by Stanford White.

BABES MUST DIE.

Relief Committees Unable to Furnish Supplies to Little Chinese.

Shanghai, April 16.—The sum of $5,000 received from the United States by the famine relief committee Monday was used to purchase half a million pounds of dried potatoes, which were rushed to the front.

A dispatch was received from a Chinese official offering to put, for the first time in history, steamboats above the locks on the Grand canal, cutting down the time of the transportation of food to the famine districts from thirty to eight days.

Further particulars of the distress existing show that the people are eating the green scum from the ponds, with clay and the hulls of rice. A farmer who fell at the city gates from weakness due to the lack of food, lay on the road for 24 hours and then died. Two villagers on reaching their doorsteps fell dead from starvation.

The relief committee has been able to secure enough milk for one depot to feed one hundred babies until the harvest. The committee, however, has been compelled to leave about 400 other babies in that district to die.

Pacific Fleet Becomes Fact.

Washington, April 16.—For the first time in the history of the American navy there has come into existence "the Pacific fleet," comprising three squadrons, one with headquarters at San Francisco and two in Asiatic waters. Admiral J. H. Dayton Monday cabled the navy department from Manila that he has hoisted his flag on the armored cruiser West Virginia, as commander-in-chief of the entire Pacific fleet. In organization the new fleet will correspond to the Atlantic fleet under command of Admiral Evans.

NEWS IN BRIEF.

Miss Florence Montagu of Chattanooga, Tenn., was married in Florence, Italy, Monday to Count Posolini.

Miss Florence Montagu of Chattanooga, Tenn., was married in Florence, Italy, Monday, to Count Pasolini.

Fred A. Busse was installed as mayor of Chicago at the regular meeting of the city council Monday. His inauguration marked the accession of the first republican mayor to hold the office in ten years, and Mr. Busse becomes the first four-year-term mayor in the history of the city.

Henry G. Bailey was hanged in Wethersfield, Conn., Monday morning at the state prison. Henry G. Bailey of Middletown killed George H. Goodale, who employed him on a small farm near Middletown, on July 6, last. He was arrested in Canada. Robbery was the motive of the murder.

Giuseppe Gaspiro was killed and ten other Italian laborers were injured in a collision between construction trains on the new Philadelphia & Western railroad Monday night, just outside of Philadelphia. A locomotive, tender and flat car, going west from the terminus of the road at 69th and Market streets in the city, ran into a similar train coming east.

George W. Roosevelt, the American consul-general in Brussels, is dead. Mr. Roosevelt was a cousin of President Roosevelt. His end came unexpectedly. He was under treatment early in February for intestinal trouble and his condition was then serious. He recovered, however, and on February 14 his condition had so improved that hopes for his complete restoration to health were entertained.

According to a few statements issued by the bureau of immigration of the department of commerce and labor in Washington, the total immigration to the United States from all countries for the six months ending with March last, aggregated 549,137 persons, which is an increase of 75,821 over a like period in 1906. The total number of immigrants from Russia for the six months ending with March last, was 100,244, being an increase of 21,631 over the corresponding period in 1906.

"Why not Work Together?"

EDITOR HERALD:—In your issue of Friday, March 29, I find an article with the above heading which article is, in substance, a plea for better roads, an endorsement of H S Earl and his work as state highway commissioner for the state of Michigan.

With all due regard for the wisdom of editors in general and the editor of the "Old Reliable" in particular. I still think that there are two sides to this road question and ask permission to briefly present the other side. While I fully agree with you as the fact that our public highways need improving, I am not so sure as to the manner of making the improvement.

Who is this man Earl and what is this great road reform that he advocates so strenuously? Mr. Earl is, and has been for some years a resident of the city of Detroit. So far as I am able to learn he has no property interests outside of the city. A few years ago as member of the state legislature he drafted and succeeded in having passed a bill providing for a uniform grade of highway throughout the state, said grade to be 16 feet wide from outside to outside of gutter, the dirt to be piled high in the middle and covered with a foot of gravel or crushed stone and all to be thoroughly rolled and packed when made. That would make a very delightful automobile road, while it lasted.

The Honorable Horatio S Earl and a company of brother "sports" starting out from the city of Detroit, and riding thr ugh the rural districts on such a road at the rate of 120 miles every 60 minutes would have great fun and leave in their wake a trail of dead hens, dogs and babies and the adjacent fields would be full of runaway teams, broken mowing machines, overturned loads of hay and broken legged farmers.

Brother Earl would certainly have a good appetite after riding up to the straits and back on such a road. But—before next season's sporting season opened, that dream of highway—dream indeed!—would have to be built all over again. That narrow grade and imperfect drainage would never stand the strain of Michigan frosts and Michigan spring rains. It would simply "squash out" and become a mortar bed.

That bill also provides that any township in the state that so desires may change from the old system of highway labor to money tax. Very good. Nothing wrong with that. That is simply self government. However, in passing allow me to call your attention to the fact that that several townships, including the townships of Seneca and Palmyra, in our own county have given the money tax plan a fair trial and have gone back to the old plan of highway labor. Why? They have felt the burden of added taxation and are not able to discern any improvement

But that clause of the bill as it stands is well enough. But the Honorable Horatio is not yet satisfied! He is so concerned in the welfare of the poor old Michigan farmer that he proposes to take him by the neck and by main force lift him out of the mire and clay and place him on the beautiful Earl highway that has been built at a cost of a few thousand dollars per mile. Where does the highway lead to? To many a Michigan farmer this would lead to the poor house because the sheriff would be compelled to sell the farm to get money to pay the tax that built the highway. That is no stretch of the imagination.

Scores of farmers have been sold out by the sheriff in the state of Ohio when a similar law was in force as a compulsory law. Probably most of them had other debts but they could have pulled through but for the added burden of the heavy highway tax. True, this bill provides that the state shall pay a certain share of this tax. Yes, but who pays the state tax? The farmer pays his full share. Another clause of that bill created the office of state highway commissioner and ever since that bill went into effect H. S. Earl has filled the office (or rather he has been the incumbent) at a salary of $3,500 per year.

At a recent meeting of the Tecumseh Grange this matter was fully discussed by such men as Dr. C. A. Waldron, D. T. Hall, John Boyce, Eugene Harris, L. H. McConnell, Lewis Waldron and C. H. Bramble. Practical business men all of them and all agreed that the farmers of Michigan would do well to sit up and take notice that if this bill once be comes a compulsory law it may not be so easy to repeal it. There will be a great money power behind it. One need not be a statesman to see that the Honorable Horatio is working, first for H. S. Earl and second for the great automobile interests of the city of Detroit.

As for your statement that all the good men refuse the office of pathmaster and that the position finally falls to the poorest man in the township, you are certainly mistaken. Take this list elected last election day. Willis Schreder, Wm. Lowry, John Nemire, John Hendershott, Frank Pratt, Jacob Rentschler Myron Mudgett, Clarence Allison, W. A. Cairns, W. J. Waldron, Joseph Gray Wm. McKendry, A. O. Howard, Fred Sheldon, Grant Toms, Geo. Reatoirre, Ed Koernig, Geo. Sanford, Wm. Ousterhout, Chas. Bird, Joe Russell, Albert Waring, Harold Hoag.

With three exceptions I am personally acquainted with each of them and I know them to be public spirited citizens who are interested in having good roads and I should not expect to have a "snap" if I went to work on the highway for any one of them. The township of Raisin contains 70 miles of highway which are kept in repair at an annual expenditure of $12—twelve days work—per mile.

The village of Tecumseh has 14 miles of streets which are kept in repair at an annual expenditure of (about) $200 per mile. No 60 rods of highway in the township of Raisin has been so nearly impassible this spring as has Evans street from the Lilley House corner to the Lake Shore depot. I am not criticising the street commissioner, either past or present, or any of his helpers. So far as I know they all earn their money. No commissioner can improve Evans street very much until it has better drainage.

I am simply stating facts in proof of the statement that the average farmer does a full honest days work on the highway and that he gets just as good results from the present system of highway labor as he would by paying out his hard earned dollars. Certainly the average farmer is far more capable of doing intelligent work on a piece of road that he travels every season of the year than State Commissioner Earl or any other man who sits in a city office and builds roads on paper.

FRESH MOIST

Be Sure Your Fine Cut is Fresh and Full Weight

You can't be sure of a fresh or a clean chew when you buy your tobacco out of an open bucket or in a cheap, wax paper package—you know that.

And if you think a minute you'll know why such tobacco is usually dry, tasteless and dusty—and short weight in the bargain. But when you buy a package of

BLOT

CHEWING TOBACCO

you can easily see how it must have kept fresh, moist and clean and sweet, just as it left the factory—the new heavy paper, tinfoil-wrapped package that fits the pocket, is sure protection against dust or dryness—and a sure guarantee of the best of fine cut in the best chewing condition

Buy a package of "Blot" and treat yourself to a really good chew. The revenue stamp on every package guarantees full weight.

CATARRH CAN BE CURED.

Kill the germs by breathing Hy-o-mei. Gives quick relief.

Many people who have suffered with catarrh for years naturally feel that the disease cannot be cured and become discouraged.

Their failure to get relief is due to the fact that they have not used the right remedy. Catarrh is an affection of the head, throat and lungs and cannot be cured by stomach dosing.

The only scientific and natural treatment for this disease is Hy-o-mei, which is breathed through a neat pocket inhaler, so that its healing medicated air reaches the most remote air-cells, kills all catarrh germs and restores the mucous membrane of the nose, throat and lungs to a healthy condition.

Hy-o-mei is the only cure for catarrh that has ever been sold with the understanding that it was to cost absolutely nothing unless it cured. C. A Wright sells Hy-o-mei in this way and is always ready to refund the money if it does not relieve and cure catarrh.

The healing and antiseptic balsams of Hy-o-mei perform their purpose to perfection and by using this remedy for a few times each day, you can soon cure yourself of any catarrhal troubles.

A complete Hy-o-mei outfit consisting of a bottle of Hy-o-mei and an inhaler costs but $1.

Weak Lungs

NEED VINOL

its cod liver oil elements heal and strengthen the lungs

Many people inherit weak lungs which are likely to be attacked by consumption. So also are lungs weakened by disease or by a stubborn hacking cough.

Vinol, which is a real cod liver preparation with all the useless oil eliminated and tonic iron added, strengthens weak lungs and gives one the power to throw off wasting diseases.

We ask every person suffering from weak lungs, stubborn hacking coughs or any wasting disease to try Vinol on our guarantee.

KEEP THE KIDNEYS WELL.

Health is worth saving and some Tecumseh people know how to save it.

Many people take their lives in their hands by neglecting the kidneys when they need help. Sick kidneys cause much suffering and ill health but there is no need to suffer when all diseases due to weak kidneys can be cured by Doan's Kidney Pills. Here is the statement of a Tecumseh citizen:

E. H. Hode, living on West Chicago street, Tecumseh, Mich., says: "I had suffered from kidney trouble for about two years. While working for the Lake Shore railroad I was exposed to all kinds of weather and contracted a cold which settled in my kidneys. The pains were so severe that I could not stoop or lift anything. At times I had severe pains in my kidneys similar to a knife thrust. I used a number of highly recommended remedies but received only temporary relief. Finally I began using Doan's Kidney Pills and received much benefit so I continued until I was cured. I have recommended Doan's Kidney Pills to others and will continue to do so."

For sale by all dealers. Price 50 cents. Foster-Milburn company, Buffalo, N. Y., sole agents for the United States. Remember the name Doan's, and take no other.

You can't please everybody. A cheerful person is a pessimist's idea of a fool.

Constipation causes headache, nausea, dizziness, languor, heart palpitation. Drastic physics gripe, sicken, weaken the bowels and don't cure. Doan's Regulets act gently and cure constipation. 25 cents. Ask your druggist.

Whipping a little man does your reputation as a fighter no good.

Never can tell when you'll mash a finger or suffer a cut, bruise, burn or scald. Be prepared. Dr Thomas' Eclectric Oil instantly relieves the pain—quickly cures the wound.

People will treat you all right until they become familiar.

The wonder grows every day how many wicked deeds a man can keep covered up and still look innocent.

Kodol for dyspepsia clears the stomach and makes the breath as sweet as a rose. Kodol is sold by druggists on a guarantee relief plan. It conforms strictly to the National pure food and drugs law. Sold by B. J. Pulver.

INTERNATIONAL PEACE.

Daughters of Revolution Adopt Important Resolutions.

Washington, April 16.—The continental congress of the Daughters of the American Revolution Monday adopted, by a unanimous vote, a resolution in favor of international peace. This was the principal feature of the afternoon, the greater part of which was taken up with the roll call of the delegates. Rep. Richmond P. Hobson, of Alabama, who addressed the congress in behalf of peace, was delegated as the special envoy to present the resolutions to the international peace congress in New York city.

The resolution sets forth the regret of the daughters' congress that, on account of its present meeting, it could not accept the invitation to participate directly in the arbitration peace congress, that, on account of its present meeting, it could not accept the invitation to parcipate directly in the arbitration peace congress, and endorses the Barthodt resolution adopted at the London congress of the inter-parliamentary union in 1906.

On behalf of the continental congress, Mrs. McLean, the president-general, said it was an unusual honor for any women's organization to be invited to participate in a movement looking to universal peace among the nations of the earth.

Last evening the daughters attended a musical reception by the memorial continental hall committee, the proceeds of which are to be devoted to the general building fund.

MANCHURIA EVACUATED.

Russia and Japan Turn Country Over to China.

New York, April 16.—Dispatches received from St. Petersburg, Tokio and Pekin show that the evacuation of Manchuria by the Russians and Japanese, as agreed to under the Portsmouth treaty, and the re-possession of that vast domain by China, has been accomplished under the terms the agreement between Russia and Japan, fixing yesterday, April 15, as the limit of time for the actual transfer.

Rest is the great restorer. We tire our muscles by exercise and then rest to restore them; yet a great many of us do not stop to think how little rest we give to our stomachs. As a usual thing no part of our bodies is so generally overworked as our digestive organs. A tired and overworked stomach will give signs of distress to which we pay no heed until at last dyspepsia takes hold. Indigestion is just a warning and if we heed the warning we can easily avoid further consequences. Kodol is a most thorough stomach relief. It digests what you eat and gives the stomach the needed rest and greatly assists in restoring it to its normal activity and usefulness. Kodol is sold on a guarantee relief plan. It is sold by B. J. Pulver.

Five Persons Killed in Catastrophe on Great Northern.

St. Paul, April 16.—Running at a speed of 40 miles an hour on a straight track, the Great Northern westbound "Oriental Limited," which left here for Pacific coast points Sunday morning, was derailed early Monday at Bartlett, N. D. Five persons were killed and a score or more injured, some of them seriously.

After the wreck a gas tank exploded and the train took fire, seven passenger coaches being destroyed, the sleeper and observation cars escaping the flames. There is said to be some evidence that the rails had been tampered with. Officials of the road say that the track in this vicinity had been in apparently first-class condition, and they are unable to account for the wreck on any other theory than that it was the deliberate attempt of miscreants to wreck the train.

The dead: W. B. Jones, mail clerk, Grand Forks; four unidentified foreigners, believed to be Greeks.

The wreck occurred on the line dividing Nelson and Ramsey counties, the mail car completely jumping over the engine and landing in Ramsey county, while the remaining section of the wrecked train burned in Nelson county.

Many thrilling escapes were reported.

CHICAGO SCANDALIZED.

Police Confess Contributing to Local Political Campaign Funds.

Chicago, April 16.—Chicago's police department contributed thousands of dollars to the democratic campaign fund in the recent mayoralty campaign, and have contributed in a like manner, to whichever party was in power as long as the older officers on the force can remember, according to revelations made Monday before the civil service commission, by police officials.

Among the officers who offered this testimony to the inquisitorial body were Inspectors Revere and Kelly, Captain McWeeney and Lieutenant Jenkins. Captain McWeeney, who several days ago refused to talk on the subject, confessed yesterday that he had aided in the collection of large amounts of money to be used in the recent city election.

According to the civil service commission, every man who engaged in the collection of the fund—even the patrolmen who contributed—is made liable to indictment by the grand jury under the provisions of the civil service act.

The commission has signified its intention to sift the matter to the bottom, but it is said, will not prosecute the under officials, who, it is asserted, merely carried out the commands of higher officers.

Wakeful?

Sleeplessness Is a Sign of Nerve Trouble and Should Be Looked To.

There are three different manifestations of sleeplessness.

First, hardly to sleep a wink all night, second, to lie awake a long time before falling asleep; third, to fall asleep soon, waking up after several hours and then find it hard to sleep again."

They mean that somewhere in the nerve fibres, somewhere in the brain cells, somewhere in the blood vessels that carry blood to the brain, something is radically wrong, and must be righted, or the end may be worse than death.

To right it, take Dr. Miles' Nervine.

Some other symptoms of nerve trouble are: Dizziness, Headache, Backache, Worry, Fretfulness, Irritability, Melancholy, Lack of Ambition.

They indicate diseases which may lead to Epilepsy, Fits, St. Vitus' Dance, Nervous Prostration, Paralysis, Insanity.

Nothing will give such quick and lasting relief as Dr. Miles' Nervine.

"My husband had been sick for weeks, could not sit up to have his bed made. With all the medical help we could get he continued to grow worse. He could neither sleep or eat. Our baby girl was sent away, and all callers barred, because he could not stand a bit of talking. I read of a case of nervous prostration cured by Dr. Miles' Restorative Nervine. We began giving it to him, and in a few days he was able to be dressed. From that time he steadily improved. Nervine saved his life."—MRS. A. G. HASKIN, Freeville, N. Y.

Thousands Have Kidney Trouble and Never Suspect It.

How To Find Out.

Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

What To Do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes.

You may have a sample bottle and a book that tells all about it, both sent free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention this paper and don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y.

Heart Strength

Heart Strength, or Heart Weakness, means Nerve Strength, or Nerve Weakness—nothing more. Positively, not one weak heart in a hundred is, in itself, actually diseased. It is almost always a hidden tiny little nerve that really is all at fault. This obscure nerve—the Cardiac, or Heart Nerve—simply needs, and must have, more power, more stability, more controlling, more governing strength. Without that the Heart must continue to fail, and the stomach and kidneys also have their same controlling nerves.

This clearly explains why, as a medicine, Dr. Shoop's Restorative has in the past done so much for weak and ailing Hearts. Dr. Shoop first sought the cause of all this painful, palpitating, suffocating heart distress. Dr. Shoop's Restorative—this popular prescription—is alone directed to these weak and wasting nerve centers. It builds; it strengthens; it offers real, genuine heart help.

If you would have strong Hearts, strong digestion, strengthen these nerves—re-establish them as needed, with

Are Patent Medicines Frauds?

We are often asked the above question, and our answer has invariably been that no medicine that gives satisfactory results could be fraudulent. We could not afford to sell fraudulent medicines. Our business depends on pleased customers—in fact any business does. Therefore, we would take an enormous risk did our customers. We are very careful of what we guarantee, and we not fulfil every promise made when we do guarantee an article we must know it pretty well—what it contains and how it is made. We have in mind the Rexall Mucu-Tone, of which we are selling large quantities at this time of the year. Mucu-Tone is one article that we can recommend over our counter and know that ninety-eight per cent. of its purchasers are going to be benefited and will return to our store pleased customers. Mucu-Tone is a positive cure for internal scrofula or what is commonly called Catarrh. It is without a doubt the peer of all tonics for any one who is suffering from a run-down condition, can't work, feels constantly tired or suffering from the more plainly described symptoms of Catarrh—such as stopping of the nose, cold in the head or bad cough."

It must be remembered that Catarrh is not confined to the nose and throat. It usually starts there, but it leads more often to serious trouble, particularly the wasting of tissues, as in the case of little Miss Dillon, of Albany. Here is a letter from her father:

"My little girl had catarrh so badly that the disease had begun to eat into the cartilage of the nose. Snuffs and instruments failed to do more than give temporary relief. I saw the advertisements of Rexall Mucu-Tone, but I could not believe that anything taken in the stomach could cure the sore membranes of the nose. However, I took advantage of your free trial offer and my girl began taking your remedy according to directions. I want to say right here that Mucu-Tone is certainly the greatest medical discovery of the times, and to thank you for the liberal offer that first induced me to give it a trial. Mucu-Tone has cured my daughter's catarrh completely. The discharge has stopped altogether, and her breath is as sweet as can be. Again thanking you, MAT. DILLON, 24 N. Swan St., Albany, N. Y."

We are selling a large trial bottle of Mucu-Tone for fifty cents on the famous Rexall guarantee of your money back if you are not satisfied. We promise that one bottle will put flesh on your bones and bring new vitality to your system.

A REASON

The United Drug Company, manufacturers of the Rexall Remedies, for whose preparations we are agents in this city, make 200 remedies, one for each ill. Each one is especially prepared to cure one disease, and that only. This is an age of specialists. You don't contract with a plumber to build your whole house, do you? Why should you contract with one proprietary medicine to cure all your troubles?

Oftentimes you run across a building contractor who has a separate plumbing department, and so on, each of which devoted to its own plastering department, his own painting department, and so on, all of which build the house. This is just what the United Drug Company is doing for you in the medicine line. They have cut down profits; they manufacture your Rexall Remedies—over 2,000 retail druggists are the only intermediate agents. These druggists profit that stand between The United Drug Company and the patent. Could the United Drug Company, of which we are a member, afford to make one poor medicine that one poor medicine would ruin the sale of common sense 25¢ you know the formulas of them so implicitly that we stand back of them, with our guarantee to refund you your money if they do not benefit you.

FUMES OF SULPHUR TAKES OVER OFFICE

Followed the Great Earthquake in Southern Mexico.

AN UNUSUAL PHENOMENON

Air Filled With Sickening, Sulphurous Stench—Believed Death List Will Be Over 100—Mexico City in Communication With Stricken Towns.

City of Mexico, April 19.—The Associated Press has at last been in communication with several towns in the district most affected by the recent earthquake.

These telegrams make it certain that the death list will exceed one hundred. There are a number of small towns yet to be heard from, but up to date the fatalities at these places have ranged from nine to twelve, and the injured from 30 to 40.

Through an error made in transmission of a telegram from the city of Chilapa, Thursday, the city in the state of Guerrero, which was almost totally destroyed, the telegram was made to read that 33 bodies had been taken from the ruins and 779 injured had been transferred to the hospitals. Later the telegram was corrected to read that 33 persons were injured and 779 buildings destroyed.

Sickening Odor.

One peculiar phenomena which has been just made known is that after the first great shock the air was filled for many miles with a sickening, sulphurous odor. This caused great distress to the survivors. There are many speculations as to the cause of this, and some consider it as a proof that the earthquake had its origin in some subterranean explosion. For reason considerable anxiety will be felt until news is received from the sections surrounding the active volcanoes of Colima and Jurrillo.

Even the water in the streams was made sulphurous. The telegram from Chilpancingo says:

"In the beginning the earth movement was oscillating and then changed to trepidatory. Nobody could tell how long it lasted on account of the intensity of the phenomena, but it must have been more than four minutes. Dust was there was a very pronounced odor in the air. On the following day almost everybody complained of headaches. In some parts of the city the odor could be detected when excavations for water were made. On the night of April 14, the same odor was detected on the road to Acapulco, and in the streams as far as Agua del Perro, 61 miles from here.

"There are ten dead, among them being the wife of Inspector of Postal Service Senor Leopoldo Lopez Guerra, and a child of eight years, son of the postmaster; Senor Jose Aleman, who also perished, and Mrs. Inez Morales Bonilla.

Many Buildings Ruined.

"Up to the present it is impossible to calculate the amount of property loss, because, with the exception of the city hall and about 20 other houses, the whole city is in ruins.

"Almost every family lost part of its furniture, and the business houses suffered serious losses.

"The shocks continued at long intervals, and, although not strong, they spread panic among the inhabitants. There was no disorder nor were there any acts of pillage. Everybody is trying to help the sufferers. The authorities are aiding the people to the best of their ability. Wednesday night there was another shock at o'clock, accompanied by subterranean noises."

From Chilapa came this telegram:

"The number of injured in this town is 33. For the most part they are of the poorer class. A baby was killed by falling walls. Thirty-one houses were destroyed. Seven hundred and seventy-nine houses are partially destroyed, including the telegraph office. The total loss of property, including the cathedral, the various churches, the city hall and other buildings amounts to over $2,000,000.

"The whole population is panic-stricken, and nobody is thinking of rebuilding the destroyed houses.

"Since Sunday 25 distinct shocks have been felt."

A movement is unde way in the city of Mexico to funish relief to those who were rendered homeless and destitute in Guerrero. Plans are being made for the gathering of a substantial sum.

Naples, April 19.—The royal yacht Victoria and Albert, with the king and queen of England on board, arrived here last evening. Their majesties, who are preserving the strictest incognito, were received by the duke and duchess of Aosta.

BEECHMAN WINTHROP QUITS

Regis H. Post Becomes Governor of Porto Rico.

Inaugural Ceremony Takes Place In Municipal Theater in San Juan—Secretary Taft Present—Retiring Governor and Taft Party Sail.

San Juan, P. R., April 19.—Regis H. Post was inaugurated governor of Porto Rico Thursday, in succession to Beekman Winthrop, who retired to become assistant secretary of the treasury at Washington. Chief Justice Quinones, of the supreme court of the island, admisintered the oath of office.

The ceremony took place in the municipal theater, which was crowded for the occasion. Secretary Taft was among those present, occupying a box with Mrs. Winthrop, wife of the retiring governor, and Mrs. Post. The members of the supreme court, the executive council and the house of delegates attended in a body. The foreign consuls also were present, as was a large number of representative business and professional men from all parts of the island.

Delivers Farewell Address.

The ceremonies were opened by an invocation by the Rt. Rev. W. A. Jones, bishop of Porto Rico, after which Mr. Winthrop delivered a farewell address to the people of the island. At the close of his remarks, the retiring governor was given a touching ovation.

The occasion was brilliant and impressive, and the inauguration was more elaborate than any previous induction into office. Mr. Post is the fourth civil governor of this island since 1900, when Charles H. Allen was inaugurated. He is the 125th man to fill the governorship in the last 400 years.

At the conclusion of his inauguration address, Mr. Post reviewed a parado of the military, the insular police, and members of the navy, in which a number of school children participated.

Mr. Post has been active in the administrative and political life of this island since his appointment to the position of auditor in 1903. He subsequently became secretary of Porto Rico and president of the executive council. His appointment as governor is generally approved. He is the author of no less than 70 laws for the insular government.

In his inaugural address, Gov. Post declared his intention of following the policies of his predecessor.

Taft Party Sails.

Secretary Taft and his party sailed for home on the dispatch boat Mayflower at noon Thursday, accompanied by Beekman Winthrop, the retiring governor of Porto Rico, and Mrs. Winthrop, Mrs. Taft and Miss Marjorie Ide. An immense crowd of people bade the secretary farewell. The insular troops escorted the party from the palace, through the streets lind with people, waving good bye to the Winthrops.

Mr. Taft and his party returned here Wednesday night from Guayma, where Judge Munoz gave him an informal reception. The secretary made a speech at Ateno, where an elaborate luncheon was served, but he did not refer to the citizenship question, dwelling solely on the prosperity of the island.

Tooth Pulled; May Die.

Marshall, Mich., April 19.—Charles Weimer, of Newton township, went to Burlington Thursday to have a molar tooth extracted, and upon his return fell suddenly unconscious. The attending physician reports that his patient is suffering from concussion of the brain and does not express hope of his recovery.

Saginaw Man Named.

Washington, April 19.—The secretary of the interior Thursday appointed John J. Granville, of Saginaw, to be superintendent of irrigation on the Fort Hall Indian reservation in Idaho, at $2,500 a year. This appointment is in the Indian service and is under the Indian bureau.

Bitten by a Spider.

"Through blood poisoning caused by a spider bite John Washington of Bosqueville, Texas would have lost his leg which became a mass of running sores had he not been persuaded to try Bucklen's Arnica Salve. He writes 'The first application relieved and four boxes healed the sores.' 25c at C. A. Wright's.

MAKE BINDER TWINE

Prisoners of State Will Do So in the Future.

HOUSE PASSES MEASURE

Another of Governor's Favorite Bills Becomes Law—Reconsideration of Bass Ball Bill Refused by House—Senate Committee May Kill It.

Lansing, Mich., April 19.—One more of Gov. Warner's favorite measures has been approved by the house, the representatives passing the bill to establish a binding twine plant in the state prison, Thursday afternoon, by a vote of 78 to 3.

If the senate does not demur, the state will soon be embarked in the manufacturing business, as the bill was given immediate effect. When the measure was taken up there was practically no question as to what would be the result, but Rep. Galbraith, of Houghton, and Rep. Miller of Detroit, harried the big, inert majority for an hour and a half before the roll was called.

The pair made Rep. C. D. Campbell, of Kent, the introducer of the bill, a target for a series of printed questions and a sharp attack on the merits of the proposition. The result was nothing.

Offered Amendment.

Rep. Grant Hudson wanted to amend the bill to provide that the twine should be sold only to citizens of the state for cash or upon good security for any credit extended. His amendment was turned down, after Rep. Campbell had explained that it was necessary to allow the sale of the twine outside the state, because the trust might cut the price in Michigan, and if the state's twine could not be marketed outside, the business would be ruined.

This is a provision of the bill the governor considers very essential. Other amendments suggested were refused. Rep. Miller offered an amendmnt to prevent the twine being sold outside the state and declared the board of control of the prison might discriminate against the people of the state without this amendment.

He failed, and then Hanlon, of Williamston, asked to have an amendment made to require security for all twine sold on credit. His proposal went the way of the others.

Gives Farmers Preference.

Just before the vote on the final passage of the bill was taken Representative S. H. Kelley sent up an amendment providing that farmers of the state should have the preference in buying their binding twine. The word citizens was substituted for farmers to avoid making the bill class legislation and the amendment was adopted. The roll call for nays came from Representatives Greusel, Galbraith and Miller, otherwise everyone stood by the governor. The bill was given immediate effect.

The house Thursday afternoon, by a vote of 35 to 33, refused to reconsider Rep. Scott's bill passed on Wednesday, which leaves it to the Detroit common council to say whether or not the Tigers can play Sunday ball at Bennett park.

Efforts to recall it developed an amusing situation. Rep. Scott pleaded with members to stand by him and refuse the reconsideration, because if the bill was reconsidered a lot of his Detroit friends would be telling him that he hadn't made good. This appeal secured for him votes of members who would have rather had the bill recalled and killed, but then, Rep. Scott is well liked.

Senators Disturbed.

The most amusing feature, however, is that the Detroit senators are disturbed because the bill was not strangled in the house. Now that the bill is coming to the senate, they do not see how they can satisfy those of their constituents who want Sunday ball and also the Sunday observance people, to whom the very suggestion of a Sunday game gives a shiver.

It is not improbable that the situation may be relieved by the committee in the senate, to whom it may be referred, pigeon-holing it in the committee room, so that it will not come to a vote on the floor of the senate.

Met With Peculiar Accident.

Standish, Mich., April 19.—James Cameron is in a critical condition as the result of a peculiar accident. While caring for his team in the yard, a live wire touched his hand and he was knocked down. This frightened the horses, and when help reached him he was lying under their feet while they were litrally walking upon him. His hands and feet were badly burned by the electricity, and he is injured internally by the trampling of the horses.

DEADLOCK EXISTS.

Wisconsin Legislature Unable to Select Successor to Senator Spooner.

Madison, Wis., April 19.—A deadlock exists in the contest for the seat in the United States senate, occasioned by the resignation of Senator John C. Spooner. After several caucuses by the republican members of the legislature, who are in the majority, and the taking of two formal ballots in joint session, there appears no sign of an election. There are ten candidates, five of whom lead with about an equal number of votes.

Isaac Stephenson, the wealthy lumberman of Marinette, and who has been a staunch supporter of United States Senator Robert M. LaFollette, both on state and national issues, in Thursday's joint ballot received 19 votes, being tied with Congressman John J. Esch. Irvine L. Lenroot, a former speaker of the assembly, and also a strong adherent of LaFollette, received 18 votes, as did also Congressman H. A. Cooper. William H. Hatten, of New London, came next with 15 votes. Emil Baensch, of of Manitowoc, and F. C. Winkler, of Milwaukee, both so-called "stalwarts," received six and three votes respectively, with the remaining republican votes scattering.

The democratic votes, 24 in number, have thus far been cast for George W. Bird, of Madison, while the social democrats have been supporting Assemblyman J. P. Rummel, of Milwaukee.

Stolen Money Recovered.

St. Paul, April 19.—The $25,000 stolen fom the office of the Northern Express Co., at the Union depot Tuesday night, was Thursday recovered by the police. John Gunderson, the suspected robber, who was arrested on Wednesday, confessed Thursday to the police where he had hidden the money. The officers, who were sent to the place indicated by Gunderson, found the money in three packages, two of which contained $10,000 each and one containing $5,000. One of the large packages was found under a pile of dirt in Jackson street, near the Jackson street cut. The other two packages were found under the platform at the Great Northern shops in the vicinity of the Jackson street cut. Gunderson, when arrested, was apparenly in a drunken stupor, and all day Wednesday he continued in that condition, and stolidly refused to ackowledge any connection with the robbery. Thursday he seemed to suddenly realize the situation he was in, and told all he knew about the robbery, and the money was soon recovered.

Skip School and Go Sailing.

Marine City, Mich., April 19.—The historic high school row in this city has broken out in a new spot, and in spectacular fashion. Five Marine City boys, some of prominent families, are sailing in the steamer Wm. B. Reis, because they refuse to attend the high school under the regime of the new superintendent, W. G. Riggs. Four of the boys are deckhands and one is second cook. The boys left here to join the Reis at Manitowoc, where she was being fitted out. They are all friends of ex-School Superintendent Markham, who was deposed.

Lumber Firm's Offices Burn.

Manistee, Mich., April 19.—The two-story brick office building of the R. G. Peters Salt & Lumber Co., situated at Eastlake, about four miles from this city, was destroyed by fire Thursday. The loss is estimated as $8,000 with $5,000 insurance.

Dr. Haugh Electrocuted.

Columbus, O., April 19.—Dr. Oliver Crook Haugh, of Dayton, convicted of the murder of his father, mother and brother, at Dayton, O., on the night of November 4th, 1905, was electrocuted in the annex at the Ohio penitentiary a few minutes after midnight. Dr. Haugh never admitted the crime for which he was sentenced to death. He has never discussed it, so his attendants say, since he entered the annex. The murder of his parents and his brother occurred November 4, 1905. The Haugh's home, at Dayton, was burned, and when a search of the ruins was made, the bodies of the elder Haugh, his wife and a son were found. Circumstances indicated that the family had been murdered and the house burned to conceal the crime. Dr. Haugh's defense was insanity, but he was legally declared sane. It was brought out, however, that he was addicted to the use of a subtle drug, known as hyoscienehydrobromate.

Fire in Laundry Caused Deaths.

Montreal, April 19.—Fire Thursday afternoon, in the plant of the Canada Steam laundry, caused the loss of three lives, two men and a women, and the injury of 12 others, one of whom, a woman, may die. A quantity of benzine in the building caused the fire to burn furiously and to spread rapidly, and a panic among the employes, of whom there were 30 women and 10 men, resulted. A number of them jumped from windows, and six women who had made their way to a fire escape on the third floor, leaped to the ground before they could be rescued. When the flames were gotten under control the bodies of two men and a woman were found burned beyond recognition. In the meantime about a dozen injured women and girls had been taken to the general hospital, nearby.

Governor for New Mexico.

Washington, April 19.—Gov. Hagerman of New Mexico, against whom charges were preferred, has tendered his resignation, and the president on Thursday announced the appointment of Capt. George Curry, governor of Samar province, Philippine Islands, as governor of New Mexico in Hagerman's place Hagerman was recently called to Washington to answer to charges which related to the transfer of territorial lands to a Pennsylvania development company. The charges, he declared, were the result of political intrigue.

Hagerman succeeded Miguel A. Otero as governor of New Mexico. He was second secretary of the embassy at St Petersburg while Mr. Hitchcock was ambassador.

Sensational Suicide.

Philadelphia, April 19.—Mahlin F. Ludwig, aged 22 years, a clerk in the bureau of standards at Washington, shot and killed himself in the Pennsylvania railroad station here Thursday. Ludwig, whose home was in this city, recently suffered a nervous breakdown and was granted a leave of absence. He came here last night, accompanied by his 14-year-old brother, Norman. They were met at the station by Howard, another brother. Mahlin greeted Howard affectionately, and after kissing him, thrust his gold watch and $240 into the hands of Norman, telling him to hold them safe until he returned. He then went into a retiring room and shot himself in the head. He was hurried to a hospital, but died a few minutes after being admitted.

Further Trouble in Odessa.

Odessa, April 19.—Serious disturbances have again broken out in this city. Wednesday several members of the Union of Russian People, attacked workmen along the harbor front who refused to join the union, killing two and wounding five of them. No arrests were made. The workmen at once retaliated by going on strike, demanding that the members of the union be disarmed. The authorities, however, declined to grant this demand. Thursday the railroad laborers joined in the strike, with the result that the harbor is entirely closed and all exporting is at a standstill. The situation is causing immense losses to trade.

Asks to Have Self Fired.

Milwaukee, April 19.—Chief of Police John T. Janssen, of this city, wrote a letter Thursday, asking his own suspension from office. The letter is addressed to Mayor Sherburn M. Becker. The mayor and the police chief have been in conflict ever since the mayor was elected to office, a year ago. Chief Janssen's letter is understood to be a part of a plan by the chief to straighten out the differences between himself and the mayor. Chief Janssen has been at the head of the police department of Milwaukee 20 years. He joined the force 30 years ago.

Leaves Saint's Bones as Legacy.

Detroit, Mich., April 19.—By the will of the late Carlos Libert, who died A[illegible] was filed for probate Thursday afternoon, a portion of the bones of St. Philomena, encased in a reliquary, are bequeathed to Rev. Peter Grand, of this city. The document goes on to state that the bones were found in the catacombes of St. Priclilla at Rome, 95 years ago, and that their authenticity is vouched for by a written statement made by the cardinal in charge of relics, at Rome, the original of which is given to the priest.

Gives Up Poor Farm Job.

Ithaca, Mich., April 19.—At a meeting of the superintendents of the poor on Wednesday, the fight over the position of keeper of the poor farm, which has raged for several months, was ended. William Seaman, who has held the poor farm against the wishes of a majority of the superintendents and considerable legal advice, has stepped down and out.

Strike on Grand Trunk.

Montreal, April 19.—A strike has been practically declared by the machinists of the Grand Trunk in Canada who are members of the International Machinists' association. Under the new law the men cannot go out, however, until the minister of labor has had an opportunity to adjust the dispute. The men want a 15 per cent increase in wages.

May Die of Burns.

Pontiac, Mich., April 19.—Mrs. Jane Winkley, an aged woman residing at 318 South Johnston street, was perhaps fatally burned Thursday noon, when the gasoline stove in her home exploded. She rushed into the street with her clothing in flames, which were extinguished by passersby. The house was only slightly damaged.

Roberts—Anglemeyer.

The home of H Brant Roberts was the scene of a pretty wedding Wednesday evening at 8 o'clock, when his daughter, Bertha M., became the wife of Frank Anglemeyer of Clinton. Mendellsohn, played by Miss Hazel Roberts and Chas. Skinner announced the approach of the bridal party.

The bride walked with her father, who gave her in marriage. She was preceded by her sister, Miss Blanch Roberts of Grand Rapids, who acted as maid of honor Before a bower of green and white, ferns and palms being used with carnations, the groom with his brother, Bert Anglemeyer, of Clinton, as best man, awaited them. Rev. For of the Presbyterian church of Tecumseh, joined the couple in marriage, using the ring service Marcus Fisher acted as ring bearer, carrying the ring in the heart of a calla lily.

The bride wore a handsome gown of white embroidered swiss and carried lillies of the valley. Her maid of honor was gowned in pink silk mull and carried a huge bouquet of pink roses. After congratulations a three course supper was served in the dining room under the direction of Mrs Mattie Those assisting in the serving were Nelle Stringham, Nettie Kaiser, Leora Boyd, Bess Babcock and Lula Aylesworth. The decorations in the room were pink carnations, pink candelabra illuminating the room.

Many handsome gifts tell of the regard in which the couple are held by their friends. Mr. and Mrs Anglemeyer left that evening for a week in Chicago, after which they will be at home to their friends in Clinton. Among the guests present from out of town were Miss Nelle Stringham of Carson City, Miss Jennie Force of Weston, Mr. and Mrs. Wm Phillips, Mr. and Mrs. Henry Way, Frank Gray, Mr. and Mrs. Ed Young and son, Oral, of Clinton.

There Was No Mission.

The Rev. Eugene Vetromile, an Italian priest who was the pastor for many years at Eastport and who was well known for his missionary labors among the Passamaquoddy Indians and also for his educational work in their language, having compiled a dictionary and a grammar in that tongue, was extremely conservative in all matters relating to his church and was violently opposed to anything that might change its routine. A young lady of his congregation once urged him to establish a mission in Eastport in order to rouse some of the lethargic members of the church whose spiritual condition the good father had been deploring.

"No, no," he replied, with his quaint accent. "I do not approve of missions. Dey make de excitement, but their effects are not lasting."

"Oh, yes, they are," she insisted.

"Well, in that case, you do not need one, for you had one dree years ago!" —Boston Herald.

Shoe Etiquette in India.

Indians take off their shoes when there is a farash upon which they have to squat. The mud from the shoes would spoil the sheet. A native visitor to a European should on no account draw his shoes, there being no farash. If any deputy magistrate does so he is a cringing slave, imitating the sahib's chaprasee and showing that he is as humble as Ram Bakhsh before the sahib. If his socks are torn and the toes are out it is a regular insult to the sahib.—Lahore Tribune.

MICHIGAN BRIEFS.

Mrs. Kate Schnapka is in the asylum at Kalamazoo, and, her husband declares, was sent there because she "tried to collect a $500 draft for a neighbor." The husband is trying to get her out.

Will Carleton, the Michigan poet, will be the "star" home-comers' day at Adrian, June 27. He has notified the committee that journeyed away to Brooklyn to ask him, that he would be on hand.

James E. Newman, president of the Portland Milling Co., died suddenly of heart disease early Thursday morning. Had been in milling business in Portland since early childhood. Later he had taken up his residence in Lansing, but retained his interest here.

Arthur H. Smith has been elected secretary of the new board of commerce for Ann Arbor. Walter Mack is president; H. H. Seeley is vice-president, and E. F. Mills is secretary. The board will encourage factories to come here and will advertise Ann Arbor as an educational center.

Neighbors Thursday found the dead body of Bruno Kettle, a bachelor farmer, who lived alone, hanging in his home near Hart. He had been dead about eight hours. It is said that $200, a gold watch and a revolver are missing from the home, and as there was no known motive for suicide, foul play is suspected.

Earl F. Flanders of Battle Creek had his teeth extracted, a fluid being used to prevent pain. His face began to swell soon after, and finally the bone and flesh began to rot. Flanders was taken to Ann Arbor, but received no encouragement. Battle Creek physicians will watch every development, hoping to save Flanders' life. Meanwhile investigation is threatened

When he died in the jail at Pontiac, Alphonso Plouffe had $50 in the jail safe. A local saloon firm claim it was their money, stolen by Plouffe. The officials want to apply it on Plouffe's funeral expenses. The saloonists say it is tough enough to be robbed of money without having to stand the expenses of burying the robber.

SHORT TALKS BY L. T. COOPER.

CONSTIPATION.

I can tell a person who is constipated on sight. Their complexion is pasty or yellow. Their eyes are dull and they look and feel sleepy. No wonder they do. The bowels are a sewer. They carry away the poisonous refuse. If they dont act the poisonous matter is absorbed by the body, and headaches, dullness, bad complexion and eventually serious troubles result.

SAMUEL BOOREN.

There is no better rule for good health than that the bowels should move every day at the same hour if possible. Regularity can be acquired by making a habit of this. Foolish people neglect this and when chronic constipation effects them they take pills every few days to force the bowels to perform their natural function. As years go on they require more and more pills. This should be stopped. Cooper's New Discovery will build up the stomach and cause the bowels to act naturally. While taking the medicine get the habit of regularity, then gradually stop taking the medicine.

Here is a sample of letters from those who have tried it:

"For sixteen years I have suffered from stomach and liver trouble, and chronic constipation. I had frequent headaches and always felt tired and worn out. I heard of Cooper's New Discovery and began its use. After I had finished one bottle I was wonderfully improved. Constipation gave way to a pleasing regularity of the bowels and I ate better, slept better and felt better than I had for months. It is the greatest medicine I have ever known." Samuel Booren. 1742 Munsey Ave., Scranton Pa.

Our customers who have used them say the Cooper medicines do the work. We sell them.

ROUND ABOUT US.

Salaried positions are being offered to the coming graduates of the Medical Department from all over the country. The bulletin board of the department displays over forty letters, representing in all about 100 positions with compensation ranging from several hundred to fifteen hundred dollars annually. Hospital internes are in especial demand, although there are also many places open to those showing efficiency in laboratory technique. Positions are offered in insane asylums, marine hospitals and maternity homes, several universities offer assistantships and there are letters from the citizens of several towns seeking to induce some graduate to settle for practice among them.—Michigan News Letter.

Two of the Lake Shore officials were riding east on last Thursday morning's passenger train and were seated on the rear platform examining the receeding track. They were near the Fay's lake road crossing east of Brooklyn when one of them pointed out fresh gouges in the ties with the remark that a car must have lately jumped the track. Presently their own train came to a stand still and they went forward to find that a wreck had been narrowly averted. The front trucks to the engine tender had left the rails but were held from overturning by two big iron chains which coupled them with the engine. Traffic was delayed only a short time while repairs were made.—Brooklyn Exponent

John T. Clark received two cars of feeding cattle from Chicago this morning. One car of white faced Herefords and one car of black Angus. Mr. Clark had these cattle billed out by the Michigan Central to have them come by way of Jackson but the company refused to receive them for shipment that way and had them sent over the Lake Shore. Had they come via Jackson, then the trip would have been made in 27 hours, but this way he claims they were over 40 hours on the road, being brought up this morning by the gravel train and he will make it cost the Lake Shore $100 per car, as the law says stock must not be on the road over 36 hours without unloading.—Clinton Local.

Circuit Court.

The case of Agnes Showalter, formerly of Tecumseh, vs. the Modern Woodmen of America, will go to the jury today The suit is brought to recover $1,000 insurance policy issued to the plaintiff's husband, Robert Showater, while he was conductor on an electric line between Wyandotte and Detroit. The defense claims that he agreed in his application that he would not go into any more hazardous employment, such as railroading without understanding that it would limit the liability of the company and make the policy void in case he was killed while railroading. In September, of 1903, he became a brakeman on the D., T & I and was killed on February, 1904. In this city, when his foot became caught in a frog near the Brick and Tile plant and the engine backed some cars over him. The plaintiff admits that Showalter was killed while in a prohibited employment, but claimed the defendant has waived its right to forfeiture, because of the company accepting premiums after Showalter went to work as a brakeman and also because of furnishing proofs of death —Adrian Telegram.

PREVENT SMUT

THE WM. HAVDEN MILLING CO., Tecumseh, Mich. have secured the agency of

"SPOROCIDE"

that will positively prevent smut in oats. Guaranteed or money refunded. The treatment costs but 10c per acre.

In 150 tests made by substantial farmers who used Sporocide in 1906, the average increase in yield per acre was 10¼ bushels, or a net gain of from $3 to $4 per acre on an outlay of 10c. This is worth looking into. Write for testimonials.

An Onsted bride who is being initiated into the mysteries of farm life, having but recently moved onto a large farm near Sand Lake, left her doors open during the recent warm spell while she was engaged in attending some duties in another part of the house and upon returning to the dining room some minutes later imagine her surprise upon discovering a faithful old biddy quietly seated among her best china on the side-board preparing to deposit a two cent egg there. It was the work of a diplomat to get the old hen out of doors without causing a down-fall or a break-up of China.—Onsted News.

AROUND TOWN

A Visit to the ANTHONY FENCE CO.

To see their New Loom.

The other day I was down at the Anthony Co's. plant to see their new loom which is made to weave chicken fence as well as the regular full width fence and saw the whole five looms running at full capacity making Anthony fence by the mile. The shop is now running with two shifts of men 24 hours a day and are still over 3 months behind on their orders. I tell you this is a great factory, it is well built for the purpose intended. In it a great roll of wire fence is handled as easily as a bale of sheep twine and as rapidly.

In coming out of the factory I met John Combs, who was last month elected president of the village council. Now John Combs is manager of the sales department for the Anthony Fence Co. and if they can manufacture fence as fast as he can sell it the fence factory is an assured success and by working 24 hours a day and building new looms all the time they are making a great combination in the fence business.

President John Combs has enjoyed a great school and should make a fine head for the village. He has served two years in the state legislature, lived several years in the city of Adrian, sold fence for the Anthony Fence Co. and has so far withstood all this temptation. The HERALD now thinks he is well schooled to be president of the village of Tecumseh. At the same time he was elected the village voted to build a sewer but said not a word where or when the sewer should be built. All the vote stated was that a sewer should be built. Now it is up to the council to do the rest.

I asked John Combs what he thought about the sewer and he said, "I am for the sewer first, last and all the time, because I think Tecumseh needs a sewer more than any other improvement, and it must be built in time and in my opinion there never can be a better time than now. No matter at what time a sewer is built there will always be some people who will not have the money, but at this time no men in Tecumseh who desires to work need be idle, but I am also in favor of going at the work in the right way, making all preparations and doing it right. When the council brings this matter up as they should do, so if anything is done this year I shall endeavor to suggest what shall be done and the way to commence."

Tecumseh only needs a sewer to make it the best kept and most beautiful town in Michigan, and the present council with John Combs as president, the HERALD thinks is the best one to proceed with it, "Ready for the motion."

BRONCHIAL COUGHS.

Breathe Hyomei's healing air and all irritation will be quickly cured.

The most irritating and annoying form of cough is that termed bronchial. People subject to bronchial troubles whenever there is a change in the weather or they are exposed to a draft will "catch" a bronchial cough, which is very disagreeable, irritating and annoying.

Bronchial troubles cannot be cured by stomach dosing. The medicated air of Hy-o-mei is the only treatment that reaches the affected parts and gives relief and cure. It destroys all the disease germs that are present in the nose, throat and lungs, soothes and relieves the irritated mucous membrane in all parts of the bronchial tubes and quickly overcomes the irritation.

Bronchitis is really an inflammation of the mucous membrane lining the air passages and is purely a local disease, so that it needs a local treatment like that afforded by Hy-o-mei.

If there is any doubt in your mind as to the power of Hy-o-mei to cure bronchial troubles so that the system will resist coughs and colds, the unusual way in which it is sold by C. A. Wright should dispel that doubt. He agrees to refund the money to any purchaser of Hy-o-mei who is not perfectly satisfied with the results following the use of the remedy. He takes all the risk and if the remedy does not help you it does not cost a penny, while if it cures, the expense is nominal, for a complete Hy-o-mei outfit is sold at only $1.00.

Resolutions.

Whereas, it has pleased the Great Chief to remove from our midst our beloved and highly esteemed sister, Adah J. Hughes,

Resolved, that while we bow in humble submission to Him, "Who doeth all things well," we deeply regret the sudden death of our beloved sister.

Resolved, That we, as members of Josephine H. Hall Temple, No. 49, do offer our heartfelt sympathy to the bereaved husband and friends. That are Charter be draped for a period of sixty days, a copy of these resolutions be spread upon the minutes of this Temple and a copy sent to the bereaved husband and friends.

"Sunset and evening star,
And one clear call for me;
And may there be no moaning of the bar
When I put out to sea.

Twilight and evening bell,
And after that the dark;
And may there be no sadness or farewell
When I embark.

For though from out our bourne of time and place,
The tide may blow me far;
I hope to see my Pilot face to face
When I embark."

"Pneumonia's deadly work

Had so seriously affected my right lung" writes Mrs. Fannie Connor of Georgetown, Tenn., "that I coughed continuously night and day and the neighbors prediction—consumption—seemed inevitable until my husband bought me a bottle of Dr. King's New Discovery which in my case proved to be the only real cough cure and restorer of weak lungs." When all other remedies fail you may still win in the battle against lung and throat troubles with New Discovery, the real cure. Guaranteed by C. A. Wright, druggist. 50c and $1.00. Trial bottle free.

DON'T DIE AT 45.

Cure the indigestion which is so liable to lead to apoplexy.

Rush of business, eating too fast and too much, excesses of any kind, soon result in indigestion. Then when the digestive organs cannot care for the food properly the coats of the blood vessels in the brain get little nourishment, become brittle and finally yield to the fierce blood pressure. One is then said to have a "shock," to be paralyzed, or to die from apoplexy.

People suffering with headache, giddiness, palpitation, sleeplessness, bad taste in the mouth, drowsiness, coated tongue, distress after eating, specks before the eyes and any other of the many distressing results of a weakened stomach, should profit by the discovery of Mi-o-na stomach tablets.

In recent years the greatest advance in medicine has been in the study of diseases of digestion and nutrition and no other prescription has proven itself of as much value as Mi-o-na. It is relied upon as a certainty today in relieving the worst troubles of digestion and assimilation and making a complete cure.

The strongest proof that can be offered in substantiation of the claims that Mi-o-na will cure the worst forms of stomach trouble, cancer excepted and give immediate relief in indigestion is the guarantee that C. A. Wright gives with every 50 cent box of Mi-o-na to refund the money unless Mi-o-na cures. A guarantee like this must inspire confidence in Mi-o-na. C. A. Wright takes the whole risk and the remedy will not cost you a penny unless it cures.

The best Laxative for Children

FOR SALE BY H. J. PULVER, Druggist.

Kindness of any transcript must be expressed in terms of the recipient, not of the donor.

KEEP THE KIDNEYS WELL.

Health is worth saving and some Tecumseh people know how to save it.

Many people take their lives in their hands by neglecting the kidneys when they need help. Sick kidneys cause much suffering and ill health but there is no need to suffer, when all diseases due to weak kidneys can be cured by Doan's Kidney Pills. Here is the testimony of a Tecumseh citizen.

E. H. Hyde, living on West Chicago street, Tecumseh, Mich., says: "I had suffered from kidney trouble for about two years. While working for the Lake Shore railroad I was exposed to all kinds of weather and contracted a cold which settled in my kidneys. The pains were so severe that I could not stoop or lift anything. At times I had severe pains in my kidneys similar to a knife thrust. I used a number of highly recommended remedies but received only temporary relief. Finally I began using Doan's Kidney Pills and received much benefit so I continued until I was cured. I have recommended Doan's Kidney Pills to others and will continue to do so."

For sale by all dealers. Price 50 cents. Foster-Milburn Company, Buffalo, N. Y., sole agents for the United States. Remember the name Doan's and take no other.

You can't please everybody. A cheerful person is a pessimist's idea of a fool.

Constipation causes headache, languor, dizziness, dullness, heart palpitation. Doan's physics gently, sicken, weaken the bowels and don't cure. Doan's Regulets act gently and cure constipation. 25 cents. Ask your druggist.

Whipping a little man does your reputation as a fighter no good.

Never can tell when you'll mash a finger or suffer a cut, bruise, burn or scald. Be prepared. Dr. Thomas' Eclectric Oil instantly relieves the pain—quickly cures the wound.

People will treat you all right until they become familiar.

The wonder grows every day how many wicked deeds a man can keep covered up and still look innocent.

Rest is the great restorer. We tire our muscles by exercise and then rest to rest rejuvenate. Yet a great many of us do not stop to think how little rest we give to our stomachs. As a usual thing no part of our bodies is so generally overworked as our digestive organs. A tired and overworked stomach will give signs of distress to which we pay no heed until at last dyspepsia takes hold. Indigestion is just a warning and if we heed the warning we can easily avoid further consequences. Kodol is a most thorough stomach relief. It digests what you eat and gives the stomach the needed rest and greatly assists in restoring it to its normal activity and usefulness. Kodol is sold on a guarantee relief plan. It is sold by B. J. Pulver.

An Ideal Laxative.

Physics and Cathartics which purge, unload the bowels, and give temporary relief, but irritate, and weaken the digestive and excretive organs. Laxative Iron-ox Tablets are as different in effect as truth is from falsehood. They nourish the bowel muscles and nerves, giving them strength and vigor to do the work nature intended, thus effecting a permanent cure in perfectly safe and natural means. The best laxative for children. Chocolate coated tablets, easy to take, never gripe or nauseate. 10c, 25c and $1.00 at all drug stores.

Mortgage Sale.

Whereas default has been made in the payment of the money secured by a mortgage dated the 12th day of April, 1905 executed by Eva Siber of Rich Township, Lenawee County, Michigan, to Albert Collins of Macon township, Lenawee County, Michigan, and which said mortgage was recorded in the office of the Register of Deeds of Lenawee County Michigan, in Liber 46 of Mortgages on page 19 on the 15th day of April A. D. 1905 at 10:15 o'clock A. M. and whereas the amount claimed to be due on said mortgage at the date of this notice is the sum of Four Thousand One Hundred Sixty dollars and Fifty-four cents ($4160.54) of principal and interest and the further sum of Twenty-five Dollars ($25.00) as an attorney fee stipulated for in said mortgage, and which is the whole amount claimed to be unpaid on said mortgage and no suit or proceeding having been instituted at law to recover the debt now remaining secured by said mortgage or any part thereof, whereby the power of sale contained in said mortgage has become operative.

Now therefore, notice is hereby given that by virtue of the said power of sale, and in pursuance of the statute in such case made and provided the said mortgage will be foreclosed by a sale of the premises therein described at public auction, to the highest bidder, at the east front door of the Court house in the City of Adrian in said County of Lenawee, on the 29th day of April next, at 10 o'clock in the forenoon of that day which said premises are described in said mortgage as follows to-wit: Being that part of section three (3) of Town Five (5) South, Range Five (5) East which is bounded as follows: to-wit: Commencing at the North west corner of said section three, thence run ing East seventy-five rods and twenty-one links; thence South sixty-seven rods and seven and one fourth links; thence West seventy-seven rods and nine links; thence North sixty-six rods and twelve links to the place of beginning.

Jim Chambers is visiting his daughter, Mrs. Will Allen, in Ann Arbor.

Walter Bailey and family entertained friends from Saline last Sunday.

A baby girl was born to Mr. and Mrs. Hovie Needham, April 12th.

John Roberts and family have moved into Will Pupard's house.

Mr. and Mrs. C. L. Morgan spent Sunday with their son Percy, and family.

Archie Chambers of Vassar, is visiting among Macon friends and relatives.

Paul Oven of Ann Arbor, came to Macon Saturday and remained over Monday to attend the funeral of his aunt, Miss Charlotte Oven.

M. V. Sickly, who has been home from the west for a few days, has gone on another Texas trip, but expects to return about the first of May and bring his wife and her sister, Mrs. Matilda Lindsley, with him.

Mr. and Mrs. Maynard Hatch of Niles, Mich., brought the remains of their 10 months old daughter to the home of their parents, Mr. and Mrs. Saml Hatch, last Monday and the funeral was held from the home Tuesday afternoon, Rev. Scarlett officiating. The bereaved parents have the sympathy of their many Macon friends.

Miss Charlotte Oven, who went to Petoskey 3 years ago to make her home with her niece, Mrs. Angie Sonsendet, suffered a stroke of paralysis April 12th and died one week later, never gaining consciousness. The remains were brought here for burial Monday morning. The funeral was held from the home of J. C. Mills at 10:30 o'clock the same day. Rev. E. M. Moore had charge of the services. Miss Oven has spent the greater part of her life in the vicinity and had many warm friends who deeply mourn her loss.

Prof. Gaskell met with a very painful accident last Saturday while loading some of his household goods to move into the Betser house. Raynor Scudder and Vern Sage assisted him using the latter's team. They had loaded several pieces of furniture when Mr. Gaskell threw some stove pipe into the wagon. This frightened the horses and they started out on a lively run. He tried to climb up and grab the lines but fell and two of the wheels passed over him, one across the chest, cracking a rib and bruising him badly and the other across the ankle. He was carried into the house and Dr. Morden summoned, who made him as comfortable as possible. Later he was taken to the home of Mrs. Lizzie Davenport. It seems a miracle that he escaped instant death for he is a very small man. The two stoves were thrown from the wagon and completely demolished.

The Best Laxative for Children.

Parents should see to it that their children have one natural, easy movement of the bowels each day. Do not dose the child with salts or griping pills, as they are too powerful in effect, and literally tear their little bodies to pieces, leaving the bowels weakened and less able to act naturally than before. Laxative Iron-ox Tablets tone and strengthen the bowels, stimulate all the little organs to healthy activity. Chocolate coated tablets, easy to take, never gripe nor nauseate. 10c, 25c and $1.00.

JEROME SUMMONS JURORS,

Scandal May Be Brewing as Result of Thaw Case.

New York, April 19.—It was announced Thursday that the district attorney had begun the investigation of a report that one of the jurors in the recent trial of Harry K. Thaw had been "approached" by a policeman before the trial closed.

Henry C. Brearly, one of the jurors, had an interview with District Attorney Jerome late yesterday at Mr. Jerome's office. Later it was announced that several other of the Thaw jurors would be asked to come to the district attorney's office today and tell that, if anything, they knew of the report in question.

It was reported that a policeman talked with a juror on one of the walks the jury took from the criminal courts building to the Broadway Central hotel.

ECZEMA CAN BE CURED

Eczema is the most stubborn form of skin disease, but a permanent cure can be accomplished through our Internal and External Treatment.

EXTERNAL TREATMENT — Wonderful Dream Salve used according to directions kills the disease germ, softens the dry, scabby condition, absorbs the watery contents of the cuticle elevations, heals the base of the skin, restoring the diseased surface to a healthy, normal condition and appearance.

INTERNAL TREATMENT—W. D. S. Pills keep the bowels active and doing their work of cleansing the system, purifying the blood, and improving the general health.

Detroit, Mich., Oct. 27, 1906.

Gentlemen:
I have been troubled with eczema for fourteen years, I tried hundreds of salves, lotions, washes, mineral baths and x-ray treatments. I had just expended $99.00 with a skin specialist without success when I was told to try your treatment. I followed directions faithfully and in less than four weeks the spot had entirely disappeared.
Yours truly,

FATHER OFFERS REWARD.

Sweetheart of Missing Lora Bryant Is Absent From Home.

Ypsilanti, Mich., April 19.—With absolutely no clue as to the whereabouts of Miss Lora Bryant, the Normal school girl, who disappeared Monday, the residents of this city are circulating a subscription paper by which they expect to raise $1,000 for the purpose of hiring experienced detectives in an endeavor to locate the missing girl.

Mr. Bryant, the girl's father, has offered a reward of $50 for information leading to the whereabouts of his daughter.

"I think Lora is all right," is his only answer to inquiries. Miss Warner, the girl's roommate and lifelong chum, seems to be breaking down under the strain, although she assumes an air of one who has no anxiety as to Miss Bryant's whereabouts.

When asked if she believed that her had accompanied Miss Bryant when she disappeared, Miss Warner declared she did not, and said that her brother was in South Bend, Ind., and she would prove it.

There was a large party dragging the Huron river again Thursday, but as in other attempts, absolutely no clue as to the girl's actions on the day of her disappearance was discovered.

Dowling, Mich., April 19.—Lora Bryant, the missing Ypsilanti Normal college girl, on account of whose mysterious absence alarm is being felt, college town Monday as though she had dropped through the earth, "kept company" here with William Warner, aged 27, two years older than the missing girl.

And William Warner is not here. It would be too much to say that he has disappeared, but he left last Friday, two days before Miss Bryant disappeared, and he has been as silent since as has the girl. He gave it out that he was going to Flat Rock, Ind., to work with a construction crew. He is an engineer and works on the home farm here winters. The last his parents saw or heard of him was when he left for Hastings to take the train, and just how to reach him the family say they don't know.

When you need a pill, take a pill, and be sure it's an Early Riser. DeWitt's Little Early Risers are safe, sure, satisfactory pills. The pills with a reputation. They do not gripe or sicken. They are sold here by B. J. Pulver.

When a man talks about his principles he usually means his prejudices.

Kodol for dyspepsia cleans the stomach and makes the breath as sweet as a rose. Kodol is sold by druggists on a guarantee relief plan. It conforms strictly to the National pure food and drugs law. Sold by B. J. Pulver.

Thousands Have Kidney Trouble and Never Suspect It.

How To Find Out.

Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

What To Do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or, bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes.

You may have a sample bottle and a book that tells all about it, both sent free by mail, Address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention this paper and don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y.

Heart Strength

Heart Strength, or Heart Weakness, means Nerve Strength, or Nerve Weakness—nothing more. Positively, not one weak heart in a hundred is, in itself, actually diseased. It is almost always a hidden tiny little nerve that really is all at fault. This obscure nerve—the Cardiac, or Heart Nerve—simply needs, and must have, more power, more stability, more controlling, more governing strength. Without that the Heart must continue to fail, and the stomach and kidneys also have these same controlling nerves.

This clearly explains why, as a medicine, Dr. Shoop's Restorative has in the past done so much for weak and ailing Hearts. Dr. Shoop first sought the cause of all this painful, palpitating, suffocating heart distress. Dr. Shoop's Restorative—this popular prescription—is alone directed to these weak and wasting nerve centers. It builds; it strengthens; it offers real, genuine heart help.

If you would have strong Hearts, strong digestion, strengthen these nerves—re-establish them as needed, with

KENT CITY IS IN RUINS

Flames Lay Low Nearly All Business Places.

MANY RESIDENCES ALSO GO

Conflagation Started by Spark From Locomotive—Grand Rapids Fire Department Called Upon — Several Families Homeless.

Kent City, Mich., April 23.—Thirty-two buildings, including most of the business places and residences, are the harvest of a fire which started at 9 o'clock Monday morning, from a spark from a Pere Marquette engine. A north wind swept the blaze over the village ,threatening to wipe it off the map, but assistance from Grand Rapids and the best efforts of every able resident got it under control about 2 o'clock. The damage will aggregate $100,000, probably half covered by insurance. The work of rebuilding will be started immediately.

The fire started in O. A. Fuller's furniture store and the flames quickly spread to both sides of Main and Church streets, and enveloped the whole business district. H. S. Powers' general store, J. C. Barham's, Grant Cook's barber shop, I. S. Bowen's Kent City hotel, Elmer Fonger's general store, W. L. Church's implement store, Peter Anderson's blacksmith shop, A. L. Power's cheese factory, H. J. Kelly's wagon shop, the Rudell cremery, the postoffice, the M. E. church and the town hall are destroyed, leaving only one meat market, a hardware store and a general store.

These are the homes destroyed: Residences of C. F. Parks, W. W. Butler, M. D. Gardner, A. H. Smith and 15 others.

Kent City has a population of about 300 and fully 150 are homeless, though their more fortunate fellow citizens have given them shelter.

Formed Bucket Brigade.

As the fire spread, citizens dropped everything and formed a bucket brigade. W. R. Roach, who is building a big addition to his cheese factory, had his superintendent lay off the men to fight the fire. Pails of water had little effect and Grand Rapids was appealed to for aid. The city responded with a fire engine, which arrived on a special train about noon. The Grand Rapids firemen made engine connections with Ball Creek, running through here, and after an hour and a half, some evidences of headway were apparent. The buckets were kept in use all the afternoon, and the engine worked most of the night.

The people were at first panic stricken, but order was soon restored, when assurances of safety were given. The business men called an impromptu meeting and organized for relief reducing thing to an admirable [illegible] that the unfortunate victims were provided for. No one was hurt and no cases of illness due to shock are reported.

A pathetic feature of the fire is the fact that fire-fighting apparatus was ordered last week, the purchase price having been raised by subscription. The village is not incorporated, but the business interests are organized, and plans for an early start at rebuilding are being favorably discussed here.

All telephonic connections with other cities are cut off, the exchange having been in the burned district.

Don't Care to Teach Filipinos.

Washington, April 23.—Not a resident of Michigan has shown the desire to go this year to teach in the Philippines. This striking comment on the scarcity of teachers in the Wolverine state has been brought out through the difficulty the government is experiencing in finding pedagogues Two examinations have already been given to all of the regular civil service examination points, and in Michigan the commission might as well have saved itself the trouble. And now, with 120 teachers desired, only a few more than 60 have been selected, and a third country-wide examination has been decided upon. All of the other middle western states have thus far beat Michigan in responding to the call.

No Venue Change for Thaw.

New York, April 23.—District Attorney William Travers Jerome stated last night that he had no intention of either asking for or consenting to a change of venue for the next trial of Harry K. Thaw. "There is no reason why the case shouldn't be tried in New York," he said. "I shall certainly not ask for a change of venue and will just as certainly fight an application for a change if the defense makes one."

LABOR FELT THE BLOW

England's Economic Plan Deprives Men of Living.

IDLE ONES MARCH STREETS

Unemployed, From Woolwich Arsenal, Appeal to Premier Campbell-Bannerman—Big Demonstration Takes Place in London.

London, April 23.—The "Cry of the unemployed" was raised in London again last night when several thousand skilled workmen, who had been discharged from Woolwich arsenal as an outcome of War Secretary Haldane's scheme of reducing military expenses, marched with bands and banners the long distance from Woolwich to the house of commons to impress their grievances upon the government. The complaints of the men are far-reaching, representing not only loss of employment but the wiping out of their savings invested in little properties located in the historical and heretofore prosperous town of Woolwich.

Some of the discharged men had been employed in the arsenal at Woolwich for not less than 30 years. A number of printers and other trades-men, laborers and citizens joined the procession, which was further augmented by a strong body of workers from the army clothing factory at Pimlico. The entire eight miles of march was thickly lined with spectators.

The procession, which was perfectly orderly, was halted at St. George Circle, one mile from the houses of parliament, and from here a deputation of picked men proceeded to the house of commons to lay the grievances of themselves and their comrades before Premier Campbell-Bannerman.

The premier received the deputation in a private room, War Secretary Haldane and Baron Tweedmouth, first lord of the admiralty, being present. William Crooks, members of the house of parliament for Woolwich, introduced the deputation and the men explained their grievances. The premier made a sympathetic reply, and assured the men of the government's anxiety that these inevitable discharges should entail as little hardship is possible.

Secretary Haldane then explained the necessity of the reduction in military expenditure and the need of bringing things down from the inflated position which obtained during the late war. He said there must be even further reductions, but promised that every scrap of work possible would be given to Woolwich. Lord Tweedmouth then promised to do whatever was possible in behalf of the navy department, and the deputation withdrew.

Actor Leaped Overboard.

London, April 23.—The members of the theatrical company who are to present "Mrs. Wiggs of the Cabbage Patch," at Terry's theatre here, arrived in London last night by the steamer Minneapolis. The report that Mr. Percy Janis, who was to play the cripple in this piece had jumped overboard the night of April 16, was confirmed. No reason, whatever, for the suicide could be found. Mr. Parker, a fellow actor, who occupied the same stateroom, said Mr. Janis came in soon after midnight of the 16th and prepared to go to bed. He seemed restless, however, and donning slippers, an overcoat and a cap, went for a promenade on deck. He never was seen again. His clothing was found on deck.

"Dr." Carver Captured.

Battle Creek, Mich., April 23.—The authorities have received a telegram from Deputy Sheriff James Elliot, of this city, in Fort Smith, Ark., that he had arrested "Dr." John Carver, wanted in this city, Hanover, Detroit and Port Huron on bigamy charges. He wired that he was awaiting requisition papers. For two months Deputy Elliott has been dogging Carver's tracks, and trailed him on the last track from Memphis, Tenn., to Fort Smith.

Bitten by a spider.

Through blood poisoning caused by a spider bite John Washington of Bosqueville, Texas would have lost his leg which became a mass of running sores had he not been persuaded to try Bucklen's arnica salve. He writes "The first application relieved and four boxes healed the sores." 25c at C. A. Wright's.

RAILROADS ATTACKED

Minnesota Legislative Committee Doesn't Spare 'Em.

BONDED FOR TWICE VALUE

Finds Cost of Building and Equipping $27,000 Per Mile, Which Capitalization is $50,000—Astounding Report is Filed With State Senate.

St. Paul, April 23.—Railroad property in Minnesota is valued at $215,000,000 by the Sundberg Investigating committee, which returned its report to the Minnesota state senate Monday. This is approximately $27,000 a mile. The property is capitalized to the extent of about $400,000,000, or $50,000 a mile on an average. The net earnings, according to the committee's findings, averaged over $5,000 a mile last year or 18 per cent on the committee's valuation.

The committee, which consists of Senators Sundberg, Cashman, Kanestorp, Nelson and Sageng, recommends that a "committee or commission of three be empowered to investigate generally into the capitalization of the railroads of Minnesota and the relation of stocks and bonds bear to the value thereof, and the enactment of such appropriate legislation as the conditions disclosed demand."

How They Figured It.

The report says that to arrive at the cost of reproducing and equipping the different lines in their present condition the committee considered:

"First, the original cost of construction; second, the cost of improvements, betterments and equipment added since; third, the cost and character of the lines recently built; fourth, the expense of operating and the earnings under existing rates; fifth, the stocks and bonds and the value and water thereof; sixth, the geography of the line and the judgment displayed in its location."

A large section of the report is devoted to a drastic review of the Chicago Great Western. This road, it says, "was built by A. B. Stickney, who raised the funds by acquiring, organizing, re-organizing and 'Harrimanizing' divers and sundry corporations of Minnesota, Iowa and Illinois." The capital stock and funded debt of the road is $143,668 a mile, and the committee figures its value at $28,000 a mile.

In its latest report, the Chicago Great Western company certified that line and equipment costs $33,011 a mile, and in detail of its statement there is an item, "purchased of constructed road, $66,994.63 a mile." This would mean $50,000,000 for the whole line.

In 1891 there was reported for the "purchase of constructed road, $6,313,191.52." It was then 815 miles long. "Fifteen years later," says the committee, "this elastic item had been stretched to $50,594,344.28, but the whole line had shrunk sixty miles in length. It has been watered too much."

Bloody Deed of Terrorists.

Lodz, Russian Poland, April 23.—Thirty terrorists, armed with automatic pistols, held up a carriage in Rokicin street last night in which a portion of the funds derived from the government sale of spiritous liquor was being transported to the bank. The carriage was escorted by soldiers. The terrorists threw a bomb which detroyed the vehicle, killed three of the accompanying soldiers outright and mortally wounded five more, as well as the coachman and a government employe, who had the money in charge. They secured $2,000 and made their escape.

Finally Choose a Senator.

Providence, R. I., April 23.—After 13 weeks of deadlock, during which time 56 ballots had been cast for candidates for United States senator to succeed George Peabody Wetmore, the executive committee of the republican state committee Monday declared in favor of Col. Samuel Pomery Colt, of Bristol, and urged that all republican members of the general assembly cast their votes for Col. Colt, who throughout the contest has been supported by a majority of the republican members of the legislature. The declaration in favor of Col. Colt was carried by a vote of 9 to 4.

Roosevelt Plans Vacation.

Washington, April 23.—President Roosevelt will leave Washington for his summer home at Oyster Bay June 12. This is much earlier than has been the practice of the president to leave Washington for the summer, but he feels that public business is in such shape that he can conveniently do so. He looks forward to a long period of rest and recreation.

THOUGHT KING BEGGAR.

Unthinking Monk Made a Mistake Which Much Amused Great Britain's Ruler.

Naples, April 23.—The king and queen of England, who arrived here on the royal yacht Victoria and Albert, spent Monday in sight-seeing. They visited various points of interest in the city and incidentally had an experience which amused King Edward greatly and which brought consternation to an unthinking monk.

The incident occurred in front of the church of Santa Chiara. Their majesties approached with the intention of visiting the edifice, but found it closed, as the monks in charge were taking their midday meal. A member of the royal party knocked on the door for admittance. A monk came to the door, and thinking those outside were beggars, did not trouble to open it, but called out so they might hear: "Begone in peace; there is nothing for you here."

This remark amused King Edward immensely, and he laughed heartily. The visitors then knocked again and explained their desire to visit the church; but the sacristan, irritated at their persistence, shouted out: "Don't bother me; this is no time for sight-seeing. The brothers are at lunch!"

At this moment, Gen. Salsa, who was passing, recognized the visiting sovereigns, and peremptorialy ordered the monk to open the door. This he did, and when he learned the identity of those who had knocked for admittance, his embarrassment knew no bounds.

In a dispatch from Pekin, the correspondent of the London Times says that Sir Chentung Liang-Cheng, the Chinese minister at Washington, is to return to Pekin. He probably will be given the posts vacated by Tang-Shao-Yi, namely, president of the board of foreign affairs, and comptroller-general of maritime customs. Sir Chentung Liang-Cheng will be succeeded by Liang Tun Yen, at present customs official at Tientsin. Liang Tun-Yen is a Cantonese and a graduate from the University of Yale.

Three Men Drown.

Chester, Pa., April 23.—Three persons were drowned Monday in the Delaware river, a few miles below this city, by the capsizing of the schooner Eben. The drowned men were Archibald McBride, George Edger and Edward Murphy, all of Philadelphia. Six other persons who were on the schooner when it capsized, were rescued. The men left Philadelphia early in the afternoon for Mahon's ditch, in the Delaware bay, for a load of oysters. When off Lincoln park, a few miles above this city, the craft was struck by a stiff breeze which threw the vessel on its side. Before the captain could right the schooner, another gust of wind struck it and the boat capsized. The three men who lost their lives were in the cabin.

THE GOOD COUNTERFEIT

By JEROME P. GORIN

Copyright, 1906, by Jerome P. Gorin

IN the year 189— there were two banks in B—ville, a thriving little city situated within 200 miles of New York; one a rather insignificant affair; the other, Bethany Bros., a remarkably wealthy and prosperous concern for so small a place.

Friday morning, Oct. 5, when Mr. Charles, the old cashier for Bethany Bros., endeavored to open the big safe the lock would not respond to his manipulations, and the hour for commencing business found Bethany Bros. in the embarrassing predicament of having no money with which to pay checks.

Early in the morning a stranger called, wanting change for a hundred dollar bill. He stood around quite awhile listening to the bankers' excuses to customers and others.

"The lock won't work. We can't open the safe," repeated James Bethany for the fiftieth time, "but a man from the safe makers will be here at 7 o'clock, and tomorrow we will be all right."

The safe was in plain sight, and, as usual, the maker's name was lettered on it.

The stranger expressed sympathy and showed his interest by asking many questions and telling of similar cases that had come to his knowledge. He took the noon train for New York, but before leaving he sent a long telegram in cipher to one William West, 11 R— street, New York.

The fact that he sent a telegram did not come out, however, until after the mischief had been done.

At 7 o'clock that evening both the Bethany brothers and Mr. Charles were at the railroad station, and when the train stopped a man, carrying a large and a small valise, stepped off. On being accosted by James Bethany he said he was the person expected.

After he had eaten supper all four repaired to the bank.

It was 3 o'clock in the morning before the safe was opened and the lock put in order and oiled.

"Gracious!" exclaimed Mr. Charles. "I didn't suppose it would take half so long."

The expert explained that it was a very fine lock, almost never getting out of order, but when once it did go wrong was very difficult to manipulate and adjust.

He set it on a new combination and gave the numbers on a card to Mr. Charles.

When all was finished he presented a form of receipt, printed expressly for his firm, which Bethany Bros. signed, showing that he had done the work, how long it took, what was the matter, etc. The bill for his services and expenses, he said, would be sent by mail. Then the man, whose name was Meinert, went to bed at the hotel. The next day, Saturday, at noon, he left for New York.

The bank opened as usual Saturday. And to dispel any doubt as to its solvency the counter was piled high with currency.

Monday morning when Mr. Charles opened the safe he found only a few dollars in specie and a slip of paper on which was scrawled, "You should change your name to E. Z. Mark & Brother."

After the first shock was over, which caused consternation bordering on panic in the town, telephonic communication was had with the safe makers and the New York police.

The Bangup Safe company said that their man had not yet returned, but they wouldn't listen for a moment to any doubts of his honesty.

The next day they telephoned that Meinert had reported at the office in such condition that he could hardly walk or talk.

His story was as follows:

"On the train, in the seat just in front of me, were two men, who from their conversation I learned were in the L— Safe company. One of them was going to Elmira on the same errand as my own, to open a safe. The other was a salesman on his way to Chicago. He asked me for a match and gave me a cigar. They were extremely pleasant, and pretty soon we were all three talking safe business. After smoking the cigar I don't remember anything except vaguely that one of them got off the train with me and we had something to drink. When I came to my senses Monday afternoon I was in a cheap hotel in Buffalo. I couldn't move or speak, but a doctor came and got me on my feet. The landlord said a man claiming to be my brother brought me there early Saturday morning in a cab, saying I was on a spree; that he had to go to Cleveland, but would be back Tuesday. He paid three days' board for me. When I found my satchels were missing I suspected that one of the men had taken my place at B—ville and that the bank had been robbed. All my money was gone, but the landlord bought me a ticket to New York and put me on the train. I was very foolish and shall never get over it."

The amount stolen was in the neighborhood of $[illegible]0,000.

It didn't take me—I, M. Sharp of the detective firm of Good & Sharp—two minutes to solve the correct theory of the way the thing had been done.

The stranger who wanted a hundred dollar bill changed was the head of a gang of three bank burglars. His business was to go about the country locating banks easy to rob and that would probably yield a good haul. He happened into Bethany Bros. just in the nick of time, took in the situation at a glance and telegraphed his pal, West, full information and instructions. West and the other member of the gang shadowed Meinert from the Bangup people's office to the train, bought two tickets to Buffalo, planted themselves in the seat in front of Meinert and lured him into conversation. They were provided with drugged cigars and liquor, and, as they expected, Meinert fell into the trap. After gaining possession of his satchels and credentials the rest was easy. One of them took Meinert to Buffalo, so thoroughly drugged that he could not regain consciousness for two or three days. Then the other personated him at B—ville. The gang leader did not go to New York, but got off about halfway and boarded the train his pals and Meinert had taken. He went a few miles beyond B—ville and joined the man who had taken Meinert's place, on the noon train Saturday, both getting off at the next station. There they bought a cheap horse and buggy and Saturday night drove into B—ville and committed the robbery, which, as they had the combination of the safe, was the easiest sort of an affair. Monday morning, when the crime was discovered, they were in Chicago, New York, Canada or anywhere else they chose to go.

The case was plain enough, but catching the criminals and recovering part of the money was not accomplished for months and was brought about only through a sad incident—a lapse of honesty.

As has been said, the robbers took all the money except some small change—that is, all the good money. There were a number of counterfeit bills in the safe that had been accumulating for years which the robbers apparently didn't think they needed, although they evidently had handled them.

While looking sadly over these bills, the only ones left, Mr. Charles exclaimed:

"Why, they took the good counterfeit twenty—the Wilkesbarre bill!"

"What's that?" I asked quickly.

Mr. Charles repeated what he had said, adding that the bill in question

I PUT A PISTOL TO HIS HEAD.

was the best counterfeit he had ever seen.

"Do you remember the number?" I inquired.

"We have it in the letter book," he replied. "We sent the bill once to the Wilkesbarre bank to see what they thought of it."

On looking it up he found that the number I wanted was 127.

"The upper left hand corner was torn off, and there was a letter S written in ink on the back in the lower left hand corner," said Mr. Charles.

I jotted all that down, but observed:

"I can't believe they would take a bill marked like that, and a counterfeit to boot."

"It was there last week," asserted Mr. Charles, "for I remember showing it to a traveling man from Boston who had a counterfeit five passed on him the day before. He wanted my opinion of the five, and then I showed him the Wilkesbarre twenty and put it back on the pile of bad money in this pigeonhole."

From the moment the bill was first mentioned one of the clerks, a young man who had been with the bank about a year, seemed ill at ease. He turned pale and finally blurted out.

"Yes, they took it, but it was in the middle of a package of good money. I took $20 of good money Saturday and substituted the counterfeit for it. I thought I could replace it today." And he burst into tears.

So they did take it, said I to myself, and, what is better, they don't know they have it and may pass it out, not noticing that it is bad.

Bethany Bros. were members of a bankers' association that vigorously prosecuted bank crooks, and through it nearly every bank in the country was asked to look out for the counterfeit twenty, fully described in their circular, and to keep the matter from the newspapers so that the robbers would not be notified, in which case they would of course destroy the bill.

I wrote the treasury department at Washington requesting immediate information if the bill should ever be sent to them.

Ten months to a day after the date of the robbery I received word from Washington that they were bringing the counterfeit twenty to a bank in a town on Cape Cod.

The next day I stepped up to the cashier of that bank and showed him the message.

"That bill was deposited," said he, "by Mr. Bixby, who keeps a little hotel around the corner, and he redeemed it a few minutes ago. He told me he got it from a minister who is spending his vacation here. The way I remembered whom I got it from is the corner was torn off, and I charged 10 cents for that. Mr. Bixby didn't want to pay it, but when I showed him a package of mutilated currency I was putting up that day to send to Washington for redemption he said he guessed it was only fair to pay something toward the expense of having it redeemed."

On inquiry I learned that this bank was not in the association and had not received the circular.

Then I called on Mr. Bixby.

Mr. Bixby said he had given the bill back to the minister and pointed him out to me sitting on the veranda.

The minister had the counterfeit in his hand and was looking ruefully at it when I introduced myself.

"I got this the other day," said he, "from a man whom I married in the parlor of the hotel. He was a stranger here—so am I—and he asked the landlord to direct him to a clergyman's house, saying he wished to be married. The woman was with him, and as I was standing by Mr. Bixby referred him to me. We got the license, I performed the ceremony and he gave me this bill as a fee. I never saw him before and don't know where he is staying or whether he is still in town or not."

His description of the man tallied fairly well with the appearance of one of the gang, and as he felt sure he would know him if he saw him again we started out to walk about the town, which was fairly swarming with summer boarders. Stopping at the office where the marriage license had been procured, I compared the signature with the writing on the slip left in the safe and decided they had both been written by the same hand. The name signed was William Weston, not quite, or rather a little more than, William West.

We failed to find him, and I returned to the hotel for supper.

He's gone, I concluded dejectedly. Then a thought struck me. He may have designs on a bank here. If so, this being Saturday, tonight is the very time he would select to do the job.

As there was only one bank of any consequence in the place—the one that had had the counterfeit twenty—I went at once to the cashier's house. He was not at home, but would be at 10 o'clock. I waited till he came.

"Yes," said he in response to my question; "such a man as you describe came into the bank the other day with a cheap time lock appliance which he said would work as well as the very costly ones. He argued that as my bank is situated no sane burglar would attempt to blow open the safe, therefore the danger was that I might be compelled to open it at the muzzle of a gun. As there have been so many cases like that recently, I let him show me how his device worked. He put it on and set it for ten minutes. In five minutes I tried to open the safe, but could not; after ten minutes it opened. Thursday and again Friday he set it for 8 o'clock the next morning, and it worked all right both times. This afternoon when we closed he oiled everything up and set the thing for 8 o'clock Monday morning. If it works all right I am to pay him $50 for it."

"You opened the safe several times in his presence?" I asked.

"Yes, sir," replied the cashier.

"The inner compartment where you keep your cash too?"

"No; only the outer door. At first he wanted to put the appliance on the inner lock also, but—

"Then the combination is the same on both locks," I interrupted.

"How do you know that?" asked he in astonishment.

"How did you happen to tell the man so?" was my reply.

He stared at me in amazement.

"Come to think, I did tell him. He said to me, 'Of course the inner combination is different from the outer,' and I said it was at first, but as I got confused sometimes with two sets of figures I had it changed to correspond with the outer one."

"And after that he didn't think it necessary to have his contrivance on the inner lock?"

"No, sir. He said if they couldn't open the outer door they couldn't the inner, of course."

"Quite evident," I replied.

"He stood behind you pretty close when you opened the safe two or three times?" I asked.

"Yes, sir. But he would have to have a remarkable memory to remember the combination. It took me two weeks to memorize it. It is quite complicated," said he with a tinge of pride in his tone.

"His memory would suffice, but he didn't trust to it," said I. "You don't know, I suppose, whether he had his hands in his pockets while you were working the combination?"

"Yes; he did," spoke up the cashier's son, a foxy faced young man, who was employed in the bank. "He kept his hands in his side coat pockets all the time."

"And he had a little pad in his pocket on which he wrote the numbers as well as how many turns to the right or left after each number. He's got the combination all right," said I.

The old cashier looked at me curiously and doubtingly.

"And some time tonight," I continued, "he will open the safe, but we will catch him in the act."

"But the time lock is set for Monday morning," he replied dubiously.

I suppressed a smile and asked him who set it.

"The man set it himself. Mr. Mulright, his name is," he answered innocently.

I could see that he didn't more than half believe me, but my suspicions, or else his old New England pride was aroused and he wouldn't admit that he had been gulled by a sharper.

However, at 1 o'clock that night Mr. Mulright forced a back window of the bank, opened the outer door of the safe and was working rapidly at the inner when I put a pistol to his head and requested him politely to elevate his hands.

A few minutes before I had slipped up behind his accomplice watching outside and choked him so quickly he couldn't utter a warning cry. It didn't require ten seconds to confirm my suspicions that the accomplice was his woman companion in male attire, and more or less of a green hand at that.

The pair turned state's evidence, and before long we caught the rest of the gang. About $48,000 of the $60,000 stolen was finally recovered.

Nero and Big Noses.

Nero never liked a person with a large nose. He flippantly told the sorrowing relatives of Plautus—whom, it is alleged, he killed—that it was only on inspecting the corpse that he discovered that Plautus had so large a nose, and if it had been pointed out before he would have certainly spared his life. "Life with such a nose," coolly added Nero, "would have been ample penance for any crime."

Balloon Took Lengthy Flight.

Manawan, N. J., April 23.—A balloon which left Philadelphia at 12:45 o'clock Monday afternoon, landed here at 2:15, having covered the sixty miles in an hour and a half. In the gondola were A. R. Hawley, a New York broker, and Arthur T. Atherholt, of Philadelphia. It was Mr. Hawley's seventh balloon trip, while Mr. Atherholt had made three previous aerial voyages. The balloon reached an altitude of 12,000 feet. The sight of open water and a fear that the strong wind might carry the balloon out to sea, caused the determination to land. The balloon landed in a creek and both occupants were rather severely shaken up when the basket struck, but were not seriously injured.

Chief Payne was called out of bed at two o'clock yesterday morning by the nightwatch at the Coldwater Cooperage works, who complained that a man had been prowling about the works in a suspicious manner. Payne went at once to the factory and after a hunt found the fellow sleeping off a jag in the dry-kiln. He was taken to the lockup and this morning pleaded guilty in Justice Blye's court to a charge of being intoxicated. In default of $10 with which to pay a fine he is spending 20 days in jail. He gave his name as Chas. Allen.—Coldwater Courier.

D. T. & I. is threatened by Ohio Grain Dealers.

Unless the officials of the Detroit, Toledo & Ironton begin immediately to supply box cars for the use of grain shippers along its line to eastern markets, Attorney General Ellis will bring a quo warranto suit to oust the company from the state. This was agreed to in Columbus yesterday by the shippers and state officials after a hearing lasting five hours

Grain shippers on the line complained that the company would not permit its cars to go off the line and they (the shippers) were restricted thereby in their markets. Frank Durbin, general counsel of the D., T. & I. agreed at the conference yesterday that the road would permit its box cars to be used for grain shipments, all such cars to be permitted to go off its line. It is, said, however, that if the company in any manner fails to keep its agreement the attorney general will be requested to bring the suit and compel the road to live up to its charter granted by the state as a common carrier.—Toledo Blade.

We Make Nice Flour

There's no question about it.
We have every facility for doing it.
We have the mill, the wheat and the "know how."
We'd be foolish to make poor Flour.
There's no demand for poor flour.
There is a demand for good Flour.

TECUMSEH CHIEF

IS GOOD FLOUR.

We call it TECUMSEH CHIEF because that is a good name for it. It's the best part of the wheat, and we would no sooner allow an inferior grade of wheat, or inferior milling in the manufacture of TECUMSEH CHIEF that would stain its reputation, than you would allow anything to happen that would ruin your good name.

TECUMSEH CHIEF Flour is for sale by all grocers! but if yours does not sell it, buy it at the mill.

A LETTER

Telling of his trip to Long Beach and San Pedro written by

HARRY BROWN

A former Tecumseh Boy, now residing at Los Angeles.

Los Angeles, Cal., Apr. 8 1907.

Earl M. Brown, Tecumseh, Mich.

MY DEAR BROTHER:—I will try to tell you about our trip to Long Beach and San Pedro last Sunday. Eugene came down from Riverside to spend the day with us. We met him at the Salt Lake depot at 8:30 and after walking around the city awhile we decided to go over to Long Beach. We left the Pacific electric station at 10 o'clock and arrived at Long Beach, a distance of 40 miles, an hour later.

After strolling along the beach awhile and watching the large crowd of people in bathing, we decided to have some of the sport ourselves. So we rented bathing suits and went in the ocean. There were about 200 people in the surf. I thought it would be great fun to ride the waves when they came in, but I changed my mind slightly as I met the first one and it was a big one too. The young lady who was with me, told me to jump just as the wave reached me and then I wouldn't get my head wet, but would ride over the wave all right. I jumped too soon and when I came down the wave struck me and of course I was caught. After my first experience I got along all right.

About 2:30 we left for San Pedro on the Orient, an excursion launch. Before leaving we sat on the pier and watched an ocean liner come in. After reaching San Pedro we went out about a mile from the harbor to see this boat, which we found was the "Ohio," just arrived from Honolulu on an excursion tour. She was a large one and loaded with passengers. On arriving at San Pedro we went on one of the large freighters that had just arrived from Tacoma, Washington, loaded with lumber and logs. With the captain's permission we visited the cabin, dining room and all the main parts.

About four o'clock we left for Long Beach on the launch "Nellie," reaching our destination at 4:45 when we boarded a street car at once for home. Another place of interest that we have visited is the Cawston ostrich farm near Pasadena. The birds of which there are many kinds, some from Africa and some from Australia, are about 5½ feet tall. They make a noise like an elephant when they call. Some of them were paired off in separate departments and were named as follows, Mr. and Mrs. General Roberts, President and Mrs. Roosevelt, etc. Under the last two names some one had written, "Alice where art thou?" We looked for Alice but could not find her.

From here one can see Mt. Lowe in the distance, while here we climbed a small mountain. I descended on the other side towards Pasadena, which is about three miles from the ostrich farm. We walked through acres of orange and lemon groves before we reached the beautiful city, where we stayed about an hour, and then returned to Los Angeles arriving at 5:30 in time for dinner. It was certainly a fine trip. Hoping to from you soon I remain,

Your brother,
HARRY C. BROWN.

WOMEN PAY MORE.

Why insurance companies discriminate against the gentler sex.

Medical examiners of insurance companies say that the reason a woman pays more for the privilege of insurance than a man, is from the fact that women more readily fall victims to indigestion and stomach troubles and the fatal ailments that spring from these causes.

All persons, they say, who have a weakened digestive system and suffer from sick headache, dizzy spells, distress after eating, specks before the eyes, bloating, nervousness, sleeplessness and the many other symptoms of indigestion, soon lower the tone of the whole system and are most susceptible to a fatal illness.

For curative power in all stomach troubles, nothing else is as safe yet effective, nothing else can be thoroughly relied upon to relieve all troubles from indigestion as Mi-o-na. It is unlike any remedy heretofore known and is really one of the valuable discoveries in modern medical science.

It is not the acute attacks that influence the insurance examiners alone, but the constant feelings of weakness, headaches, indigestion and stomach troubles—these things, physicians say, kill more people than many more serious diseases.

To escape this condition of ill health, to enjoy one's food and yet never suffer with indigestion, a person should use Mi-o-na stomach tablets. They are not a mere digestive tablet, but strengthen and restore to natural action the stomach and bowels and effect a complete cure in even the worst form of stomach troubles.

C. A. Wright sells Mi-o-na in 50-cent boxes under a guarantee to refund the money unless it does all that is claimed for it.

Southern Michigan Sodedule.

Chairman Frank of the Southern Michigan league committee has submitted proofs of two schedules for this season's games, one of which will no doubt be adopted in a few days. One schedule provides for a three game series and the other for a two game series. The former seems to be more in favor and is quite likely to be the one adopted. The approved and official schedule will be given to the press as soon as all plans are perfected.

Nathan Austin.

Nathan Austin, aged 77 years, 11 months and 5 day, died at his home in Brownville Sunday of paralysis. A wife and five children are left to mourn his death. The funeral will be held Wednesday at 11 o'clock at the Free Methodist church at Azalia. Rev. Eddinger of Tecumseh, will officiate.

"Pneumonia's deadly work

Had so seriously affected my right lung" writes Mrs. Fannie Connor of Georgetown Tenn., "that I coughed continuously night and day and the neighbors prediction—consumption—seemed inevitable until my husband bought me a bottle of Dr. King's New Discovery which in my case proved to be the only real cough cure and restorer of weak lungs." When all other remedies fail you may still win in the battle against lung and throat troubles with New Discovery, the real cure. Guaranteed by C. A. Wright, druggist. 50c and $1.00 Trial bottle free.

Sixty-fourth Anniversary.

Richard Harkness and wife of this place, celebrated the 64th anniversary of their marriage Saturday, April 20th, at the home of their grandson, Walter F. Causie, near Jackson, Mich. There were present the aged parents, he in his 87th year and she in her 84th year. One son, David Harkness and wife, two daughters, Mary C. Wood, of Tecumseh, and Lydia M. Causie and husband, the grandson and wife at whose home the gathering was held, five other grandchildren and one great grandchild, besides three invited guests, friends of the family, making 18 in all.

After a bountiful dinner had been served a short religious service was held, consisting of scripture reading, prayer, etc. and singing "God be with you till we meet again." The occasion was enjoyed by all present.

The man who really enjoys fighting is not much good for anything else.

BRONCHIAL COUGHS.

Breathe Hyomei's healing air and all irritation will be quickly cured.

The most irritating and annoying form of cough is that termed bronchial. People subject to bronchial troubles whenever there is a change in the weather or they are exposed to a draft will "catch" a bronchial cough, which is very disagreeable, irritating and annoying.

Bronchial troubles cannot be cured by stomach dosing. The medicated air of Hy-o-mei is the only treatment that reaches the affected parts and gives relief and cure. It destroys all the disease germs that are present in the nose, throat and lungs, soothes and relieves the irritated mucous membrane in all parts of the bronchial tubes and quickly overcomes the irritation.

Bronchitis is really an inflammation of the mucous membrane lining the air passages and is purely a local disease, so that it needs a local treatment like that afforded by Hy-o-mei.

If there is any doubt in your mind as to the power of Hy-o-mei to cure bronchial troubles so that the system will resist coughs and colds, the unusual way in which it is sold by C. A. Wright should dispel that doubt. He agrees to refund the money to any purchaser of Hy-o-mei who is not perfectly satisfied with the results following the use of the remedy. He takes all the risk and if the remedy does not help you it does not cost a penny, while if it cures, the expense is nominal, for a complete Hy-o-mei outfit is sold at only $1.00.

MRS. SARAH J. WINDROM

Mrs. Sarah J. Windrom of Chicago, cousin of Zachary Taylor, twelfth president of the United States, and grandniece of Alexander Hamilton, who signed the Declaration of Independence, says:

"Vinol is a Godsend to old people. I am 76 years old, but have a hearty appetite, sleep soundly, and feel active and well today, thanks to Vinol. When I was young cod liver oil was dispensed in a greasy, unpalatable form, and it fairly gagged me to get it down. Vinol is entirely different, very palatable and nourishing to impoverished blood. It is the finest tonic and strengthe[illegible]ator I ever used in my life."

Vinol is a real cod liver preparation, from which the useless oil has been eliminated and tonic iron added.

Try Vinol on our guarantee.

CURED TO STAY CURED.

How a Tecumseh citizen found complete freedom from kidney troubles.

If you suffer from backache
From urinarp disorders
From any disease of the kidneys
Be cured to stay cured.

Doan's Kidney Pills make lasting cures.

Tecumseh people testify.

Here's one case of it:

Orson Austn, retired, living on Logan street, Tecumseh, Mich., says, "I hold the same high opinion of Doan' Kidney Pills today, (Dec. 10th, 1906) as when I gave a statement for publication some 5 years ago. Prior to that time. I had been troubled with a very bad case of kidney disease. The distressing pains I had in my back in my back and shoulders, were at times almost unbearable. Rheumatism also settled in my hips and limbs which increased my misery. I could not get my proper rest or sleep during the night on account of the too frequent action of the kidney and the passages were attended by a burning and smarting sensations which were very painful. I think my trouble was brought on by an injury which I received in the army and had gradually become worse. I knew Doan's Kidney Pills were good for such troubles so I began using them. I noticed the good effects in a very short time and thus encouraged I continued until a complete cure was affected. My advice to all kidney sufferers is to give Doan's Kidney Pills a trial and I know they will not be disappointed with the results."

For sale by all dealers. Price 50 cents Foster-Milburn company, Buffalo, N Y., sole agents for the United States. Remember the name Doan's, and take no other.

Negroes Will Eat Molasses.

New Orleans, April 23.—Announcement was made last night that nine negro inmates of the parish jail will be used by the state board of health in a five weeks' test, to learn whether sugar molasses as it has been manufactured in Louisiana for many years is injurious to human health. Sulphuric acid is used in the Louisiana process and the use of this chemical was recently stopped under an interpretation of the pure food law. The experiment consists in feeding the negroes plenty of molasses and making blood tests. President Iron of the state board, said that no possible harm could come to the negroes.

Nothing Doing in House.

Lansing, Mich., April 23.—Rep. J. B. Knight, of Dickinson county, attempted to induce his fellow members last night to begin holding forenoon sessions, but could not find enough ambitious colleagues to put his motion through. There was barely a quorum present last evening. Detroit members sent up to the speaker's desk numerous petitions for the passage of the Weiss civil service bill. Francis Deto, of Holland, a house messenger, fell and broke one of the bones in his shoulder while scuffling. Dr. Abrams, a house member, reduced the fracture.

Rest is the great restorer. We tire our muscles by exercise and then rest to restore them; yet a great many of us do not stop to think how little rest we give to our stomachs. As a usual thing no part of our bodies is so generally overworked as our digestive organs. A tired and overworked stomach will give signs of distress to which we pay no heed until at last dyspepsia takes hold. Indigestion is just a warning and if we heed the warning we can easily avoid further consequences. Kodol is a most thorough stomach relief. It digests what you eat and gives the stomach the needed rest and greatly assists in restoring it to its normal activity and usefulness Kodol is sold on a guarantee relief plan. It is sold by B J Pulver.

Your Heart.

When Your Heart Fails to Pump Your Blood, Trouble Results.

Have you heart trouble?

You have, if you find it hard to breathe after walking up stairs, exercising, etc. If you have pain in your left side, in chest, back or shoulder. If you suffer from cold extremities, pale face, blue lips, dry cough, swollen ankles.

If you have fainting spells, breast pang, palpitation, redness of the face, discomfort in sleeping on one side.

The only scientific treatment for this whole train of troubles is Dr. Miles' New Heart Cure.

Dr. Miles' New Heart Cure is the prescription of a famous specialist, whose great success in treating obstinate nervous heart disease has made his name pre-eminent in the medical and scientific world.

The medicine will cure you. We know it. We want you to prove it. If first bottle does not benefit, your druggist will give you back your money.

"I have for several years suffered at times with heart trouble. I got so bad I could not sleep half the night, and had to sit up on the side of the bed lots of times to get breath. Three of my brothers have died of heart trouble, and I thought I was going the same way, but about two and a half years ago I got a pamphlet about Dr. Miles' New Heart Cure and thought I would try a few bottles. After using them I recovered, and have had better health since then than before for several years. I can heartily recommend them for heart trouble."—REV. JERRY HURT, Pastor Baptist Church, Hurt, Kans.

Spring Time Need of a Good Tonic

We often have people come to our store for something to brace them up.

We always recommend Rexall Mucu-Tone as the ideal remedy, with the result that they invariably come back, not for more money, which we have always guaranteed to return in case of dissatisfaction, but to speak in the most appreciative terms of this wonderful remedy, and to thank us for having urged them to take it for their spring-time ailments.

Rexall Mucu-Tone is a nutritive tonic, body builder and blood purifier.

It has won the highest praises not only here, but all over the country.

It cleanses the mucous membranes of the body, drives out the poison, builds up the wasted tissues.

Because it does all this, Mucu-Tone is to our nation the ideal spring tonic. The very first dose of Mucu-Tone braces you up, while three or four weeks of it in tablespoon doses three times a day will make you feel like a new person.

It will rebuild your whole system, making you fairly bubble over with good spirits, buoyancy and vigor of perfect health.

If you are feeling badly, are afraid you are going to be sick; if you are run down and miserable generally, our advice is to take a fifty cent bottle of Mucu-Tone. If it doesn't straighten you right up and make you feel better than you have in months, we will promptly return you your money.

He Attacks Cardinal Gibbons.

Rome, April 23.—There have been received in this city the proof sheets of a second article written by Paul Sabatier, the French historian, and editor of the Annals of St. Francis, in answer to the statement issued by Cardinal Gibbons in December last, concerning the situation of church and state in France. The writer advises the cardinal, who he says "is so proud of the separation between church and state in America," to read the papal bulls which absolutely condemn separation. Mr. Sabatier declares also that "the holy see tolerates and endures separation in America because it has to."

Taft Party Reaches Washington.

Washington, April 23.—Secretary of War Taft and party arrived at the Washington navy yard on board the Mayflower last night, after an absence of exactly a month, on a trip that included Panama, Cuba and Porto Rico. The secretary and Mrs. Taft were immediately driven to their residence. Former Governor of Porto Rico, Beekman Winthrop and Mrs. Winthrop were guests of the secretary on the return trip. The others in the party included Reps. Burton of Ohio, and De Armond of Missouri, Senator Kittredge of South Dakota, and Miss Marraite Ide.

Dead Man Is Blamed.

New London, Conn., April 23.—Local United States Steamboat Inspectors Withey and Steward have made public their findings in the steamer Larchmont disaster on the night of Feb. 11, when upwards of 100 lives were lost in the sinking of the steamer after collision with the schooner Harry Knowlton in Block Island sound. Responsibility for the collision is laid upon Pilot John L. Anson, of the Larchmont, who was drowned, and Capt. George W. McVey is practically exonerated. The schooner is declared to have been sailed in full compliance with the navigating rules.

Gimbel's Wounds Proved Fatal.

New York, April 23.—Benedict Gimbel, the Philadelphia merchant, died in St. Mary's hospital, Hoboken, early Monday. The body was taken to Philadelphia in the afternoon. The coroner was called to the hospital, but as the case was plain, a certificate of death, giving suicide as the cause, was given and the body turned over to the family. Gimbel cut his throat and neck with broken glass in a Hoboken hotel, after having been arrested and released on bail.

Gen. Porter Sails.

New York, April 23.—Gen. Horace Porter of New York is the first of the United States delegates to The Hague conference to leave for Europe. Gen. Porter sails today on the Kronprinz Wilhelm. After visiting his daughter in Switzerland and making an automobile trip, Gen. Porter will proceed to The Hague for the sessions beginning June 15. The other American delegates and the technical staff will sail so as to assemble at The Hague shortly before the day of opening.

Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring Your Kidneys. The mild and the extraordinary effect of Dr. Kilmer's **Swamp-Root**, the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all Druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Weak Women

To weak and ailing women, there is at least one way to help. But with that way, two treatments must be combined. One is local, one is constitutional, but both are important, both essential.

Dr. Shoop's Night Cure is the Local.

Dr. Shoop's Restorative, the Constitutional.

The former—Dr. Shoop's Night Cure—is a topical mucous membrane suppository remedy, while Dr. Shoop's Restorative is wholly an internal treatment. The Restorative reaches throughout the entire system, seeking the repair of all nerve, all tissue, and all blood ailments.

The "Night Cure", as its name implies, does its work while you sleep. It soothes sore and inflamed mucous surfaces, heals local weaknesses and discharges, while the Restorative, eases nervous excitement, gives renewed vigor and ambition, builds up wasted tissues, bringing about renewed strength, vigor, and energy. Take Dr. Shoop's Restorative—Tablets or Liquid—as a general tonic to the system. For positive local help, use as well

PROPHETESS STARTS FUSS

Claims Having Received Message From God Calling for Dr. Kellogg's Expulsion From Adventists' Church.

Battle Creek, Mich., April 23.—Quite a sensation was caused here Monday at a public meeting of Seventh Day Adventists, when a statement, claimed to be a message received from God by Mrs. Ellen G. White, the prophetess of the church, was read. The "message" called for the expulsion of Dr. John H. Kellogg, Professor Franklin Belden and several other prominent members from the church.

Dr. Kellogg and his supporters decline to concede the divinity of Mrs. White. On the other hand, the supporters of the prophetess are seeking a re-incorporation of the church, under which they would make allegiance to Mrs. White obligatory. Professor Belden has secured an injunction against the re-incorporation plan, and the uproar at Monday's meeting was suppressed by use of the argument that any radical action taken at the present time might have a bad effect on the pending litigation.

Fined for Speaking to Wife.

Detroit, Mich., April 23.—Charles Kaiser, a butcher, was Monday fined $15, with the option of 10 days in jail, by Judge Donovan, for violating an injunction restraining him from molesting his wife. The latter is complainant in a divorce suit and said on the stand that on April 9 her husband assaulted her on the street while she was with several girl friends. Kaiser denied the charge, and declared that he had only asked about the welfare of the baby.

MOB ATTACKED HIM.

Became Infuriated at Motorman of Street Car.

FOR RUNNING OVER A BOY

Passengers Threw Him to Ground and Almost Trampled Out His Life—Took Reserve Force of Policemen to Rescue Him.

New York, April 26.—The sight of the horribly mutilated body of a 16-year-old boy, who had been ground to death under its wheels, last night transformed the passengers of a Coney Island surface car into a maddened mob, which beat into unconsciousness and might have killed the motorman but for the arrival of the police reserves, who clubbed the infuriated mob back. In the crowd was the father of the victim, who until order had been restored, was unaware that his son had been killed.

The car, operated by George Decker, was moving through Franklin avenue, Brooklyn, when Edward Kelly, in play, ran out of a side street onto the track. The car struck him and he fell in such a position that the wheels severed his head and legs. As the car stopped abruptly, its passengers swarmed out. An instant later they vented their rage upon the motorman, who was dragged from the platform and thrown on the pavement were he was trampled upon. Nearby policemen, unable to check the riot, summoned reserves who beat back his assailants and hurried the senseless motorman to a hospital, where he may die.

Will Visit Washington.

Washington, April 26.—Arrangements have been made at the navy department for the entertainment of the officers of the foreign warships assembled at Hampton Roads for the Jamestown exposition. The program includes a visit to Washington under the escort of officers of the United States navy and their entertainment while in this city as guests of the nation.

The first party will leave Norfolk next Monday evening on one of the regular steamers and will spend Tuesday and Wednesday in this city, returning to Norfolk Thursday morning. This party will include all foreign flag officers and captains acting singly, with their staffs, and the flag officers and staffs of the United States vessels. They will be received at the White House Tuesday morning, and it is probable that dinner will be given in their honor by the president and Mrs. Roosevelt. At subsequent periods during the exposition, the other officers of the foreign warships will be brought to this city and entertained by officers of the United States navy.

Socialist Colony Put Out of Business.

Bellingham, Wash., April 26.—"Equality," a socialist colony, established in 1897, has been wiped out of existence by a court order, Judge Joyner, of Skagit county, directing that the property be sold to pay the colony's debts. The property consists of 600 acres of land, a saw mill, a printing plant and twenty dwellings. The colony was established by an organization known as the Brotherhood of the Co-operative Commonwealth, of which many prominent socialists were members. A portion of colonists adopted the doctrine of free love.

Trouble on the Ranges.

Montrose, Colo., April 26.—While on their way to the sheep range in this county with a large herd from Frisco, Utah, three herders, Grover Cornell, Peter Swanson and Al Swanson, were set upon by seven masked men Wednesday night, at White Water, Colo., 55 miles west of here. Peter Swanson was mortally wounded, and his companions bound hand and foot and left helpless on the prairie. The shooting has stirred the cattlemen and sheep owners of this section to high indignation.

Ludington Lid on.

Ludington, Mich., April 26.—The lid has been screwed down tight in Ludington for the first time in many years. Sunday tippling must be stopped, according to Mayor Granam. Saloon-keepers will hereafter be obliged to turn a deaf ear to the hushed entreaties of thirsty crowds. This condition has been brought about by liquor dealers themselves. The city council has passed an ordinance limiting the number of saloons in the city to 24, the present number doing business.

TEST VOTE IS TAKEN

House Will Likely Pass Reform Primary Election Bill.

FINAL DECISION NEXT WEEK

Legislators, in Voting On Amendment, Show How They Stand — People Will Get Choice of United States Senator by Direct Vote.

Lansing, Mich., April 26.—The house of representatives Thursday agreed, in a committee of the whole, to amendments to the primary election law, the biggest contest of the session. One amendment provides the party nomination on candidates for United States senators and another eliminates the requirement that candidates for governor must get forty per cent of the vote as well as a plurality, to be nominated. The latter amendment removes all possibility of a nomination being made in a convention. The passage of the bill is deferred until Tuesday.

After a long tedious afternoon devoted mostly to listening to the familiar voice of Reading Clerk Smith, who was interrupted occasionally by some member, the count of noses came on the proposal to cut out the clause requiring candidates for governor to have at least 40 per cent of the vote of the party at the primaries.

Twelve Didn't Vote.

There were 44 votes in favor of cutting out the clause, and 36 against. Twelve members dodged the proposition. The ballot was taken in committee of the whole, so there was no roll call, but the administration men stood to their places as a rule, and the governor and his friends are confident that the bill is safe. So far as being a legislative battle with any exciting features, yesterday afternoon was a fake.

The house did not display interest in the bill, until Rep. A. J. Waters, of Ann Arbor, sent up an amendment providing for the nomination of United States senators. Waters' move made necessary an entire change of program by the administration men.

They had decided the night before not to amend the Dickinson bill, but to substitute the senate bill which includes the senatorial proposition and conforms more closely to the administration plan. Gov. Warner and several of his friends conferred for a moment as Waters sent up his amendment, and then decided to drop the original plan and stand by Waters and the Dickinson bill.

After Rep. Waters had spoken in favor of his amendment, Galbraith opened the battle for the opponents of the bill. A number of speakers for and against followed. There were endeavors made to stir up some excitement, but aside from the flurry caused by Galbraith, no one succeeded.

Doctored Up Bill.

The amendment was adopted by yells of "aye," with only a few "nays" heard. The administration men then set to *rearing the bill.* It was amended to provide that all political parties must nominate United States senator, governor and lieutenant-governor under the primary system. Rep. Dickinson moved to strike out the 40 per cent clause There was more talk, and then the vote was taken which gave those favoring the bill their victory.

Rep. Campbell, of Kent, broke into the limelight by proposing an amendment relative to the vote on United States senator. The amendment provided that the legislature must elect the candidate receiving a plurality of the vote cast for United States senator in a plurality of state senatorial districts.

Forger Goes Free.

St. Joseph, Mo., April 26.—W. N. Harroun, formerly president of the Harroun Elevator company, of Kansas City and St. Joseph originally charged with forgery in the third degree on seven counts, pleaded guilty in the criminal court to forgery in the fourth degree on three counts, and was sentenced to serve six months in the county jail for each. Harroun was then admitted to parole. Harroun had been tried on one of the original counts and convicted. The case was reversed by the supreme court. Of the six remaining counts, three were nolle prossed by the prosecuting attorney.

President Attends Opening of Jamestown Exposition.

LARGE PARTY GOES WITH HIM

Exercises Attending Opening of Norfolk Show Include Review of Vessels of War, Receptions, Speeches and Luncheons.

Washington, April 26.—President Roosevelt, members of his family and a party of friends left the Washington navy yard at 3:10 o'clock Thursday afternoon aboard the yacht Mayflower for a visit to the Jamestown exposition. They are to return Sunday morning. On Saturday the president and Mrs. Roosevelt are to make a trip up the James river on the dispatch boat Sylph.

The congressional party, comprising a joint committee of the senate and the house and their families, preceded the presidential party Thursday morning; Secretary and Mrs. Metcalf and others left earlier in the afternoon on the United States steamship Dolphin, and the diplomatic corps members are to be the guests of the Jamestown ter-centennial commission, followed last night.

President's Party.

The president's party was made up as follows, in addition to himself: Mrs. Roosevelt, Justice Moody of the supreme court, Secretary Loeb, Assistant Secretary Bacon and Mrs. Bacon, Assistant Secretary Latta, Mrs. Ralph Cross Johnson, Captain Lee, one of the president's military aides; Captain Key, one of the president's naval aides; Lieut.-Commander Long, and Dr. Ohnesorg, U. S. N.

A large crowd assembled at the navy yard to see the distinguished guests depart. The president and Mrs. Roosevelt, with their children, reached the yard about 3 o'clock, and were met by Commander Leutz and Captain Long, of the Mayflower and by a welcome from the buglars of the marines, a detachment of which was drawn up on the wharf. As the president ascended the gang plank the band aboard the vessel played the "Star-Spangled Banner," and the president flag was hoisted to the fore mast. It took but a very few minutes for the vessel to be loosed from her moorings, and the president and his guests, standing on the after starboard side of the ship, waved a goodbye to the crowd. As the ship pulled out a president's salute of 21 guns announced the president's departure.

Warned Crowd Back.

While the arrangements were being made for the vessel's departure, the crowd, among whom were a number of children, surged near the ropes which held her, notwithstanding the warnings of the officers. The president showed deep concern for their safety, and, advancing to the rail of the vessel, admonished the children to keep back.

The president will take an important part in the opening of the exposition and the exercises incidental thereto, which are to begin soon after he arrives at Hampton Roads today.

There is to be the review of the assembled men of war and the reception of the flag officers and commanding officers of the foreign ships. Later the president is to leave the Mayflower and is to be met at the end of the governmnt pier by the officers of the exposition and a military escort, and will be saluted by the United States artillery stationed on the exposition grounds. An hour later he is to go to the reviewing stand on Lee's Parade in the rear of the auditorium building; where a program of exercises including the addresses of President Tucker, of the exposition, and of President Roosevelt, and the pressing of the gold button opening the exposition, are to take place.

Will Be Parade.

In the afternoon there is to be a lunch to the president and his party in the auditorium building, review of a parade of the soldiers and sailors and the national guard, and a reception to the president by the officers and directors of the Jamestown Exposition company, after which, at 5 p. m., the president returns to the Mayflower. In the evening, at 8 o'clock, the president and Mrs. Roosevelt go to dine with President Tucker at his home in Norfolk.

Saturday will be a day of comparative rest for the president, he and Mrs. Roosevelt taking a trip up James river on the dispatch boat Sylph, returning to Hampton Roads in time to board the Mayflower so as to start for Washington about 7 o'clock in the evening. The Mayflower is scheduled to reach Washington Sunday morning about 10 o'clock.

Secretary of the Treasury and Mrs. Cortelyou, the assistant secretary of war, Mrs. Oliver and Misses Oliver, the secretary of the interior and Mrs. Garfield, the secretary of commerce and labor and Mrs. Straus, the assistant secretary of the treasury and Mrs. Winthrop, the chief of the staff of the army and Mrs. Bell, Assistant Secretary of State and Mrs. Wilson, and substantially all the members of the diplomatic corps in the city, left Washington at 6 o'clock last evening on the steamer Newport News. They will arrive in Norfolk shortly before 8 o'clock this morning.

CARVER RELEASED.

Fort Smith Justice Lets Much-Wanted Man Go.

Marshall, Mich., April 26.—Sheriff Graham, who was preparing to go to Fort Smith, Ark., with requisition papers for "Dr." Jay Carver, he of many aliases, and who was being held there on a charge of defrauding a Hanover woman he "married" and then disappeared with her money, has received a message that a justice has released Carver. The alleged bigamist and fraud is said to have proved an alibi. What this means is not yet understood here. He was being held, technically, on a fugitive warrant.

Deputy Sheriff Elliot, who trailed Carver from Tennessee, and nabbed him at Fort Smith, wires that he will remain there, awaiting developments, and keep tab on the elusive Marshall "doctor," so Sheriff Graham has postponed his trip. Carver dare not leave the state, or Elliot would immediately re-arrest him.

Fires Twenty Pupils.

Monroe, Mich., April 26.—An even 20 of the high school boys of this city stand suspended from school, and they are having a jolly little vacation. Superintendent Frederick Tooze, an Ypsilanti graduate, says that the boys, all members of a high school fraternity, insulted him, and he turned out nine of them Wednesday and 11 more Thursday morning. The boys are members of the freshmen, sophomore and junior classes. While an entertainment for pupils of the lower grades was in progress, Tuesday night, the boys congregated before the school house, it is claimed, and raised a disturbance. Inasmuch as the trouble occurred in the evening, some citizens are of the opinion that it was an affair for the city authorities and not the school superintendent to deal with. The fathers of some of the suspended boys are members of the school board.

Gets $750 for False Arrest.

Detroit, Mich., April 26.—Mary J. Baker, who sued Geraldine and Frank Smith, 73 Winder street, for $10,000 in the circuit court, alleging they procured her arrest falsely and fraudulently, was given a verdict by jury for $750 Thursday afternoon. The plaintiff sold about $1,000 worth of furniture to the Smiths, with whom she lived. Later the Smiths believed that the furniture did not belong to her, and procured her arrest for obtaining money under false prentenses, there being no conviction. Among the furniture the Smiths bought, they believed *they recognized a chair owned* by a former roomer. Failure to substantiate their charges brought down a law suit.

Men Held for Stealing.

Battle Creek, Mich., April 26.—A sensation was created here last night by the arrest of Nelson Dygert and Ray Hough, employes of the Michigan United Railway company, and their confession to stealing. Dygert is an assistant master mechanic and Hough was a motorman until Sunday night. Dygert, it is said, took wire and metal from the car barns, keeping this up for weeks, and Hough is alleged to have snatched forty half dollars in an envelope in the paymaster's office. The company hired detectives to look into the metal stealing, and would not believe Dygert a thief until he confessed.

Found in Detroit.

Detroit, Mich., April 26.—Frank Fairchilds, 45 years old, an inventor who escaped from the state hospital for the insane at Pontiac, Wednesday, by lowering himself from an upper window with a rope made of bed sheets, was caught Thursday morning at Michigan avenue and Griswold street by Deputy Sheriff John Cahill. He was held at the sheriff's office awaiting the arrival of a guard from the hospital.

A Proclamation by the Governor.

To the people of the state of Michigan, greeting:

It was a progressive and enlightened public sentiment that brought about the observance of Arbor day. Responsive to that sentiment I hereby designate Friday, May third, nineteen hundred seven, as Arbor day in and for the state of Michigan.

The reasons why this day should be observed by planting trees, vines and shrubs appeal to every home loving citizen of Michigan. It is not given to all to own a portion of the soil from which comes the sustenance for all and it is the duty of those who do to make more attractive and beautiful that rich heritage Michigan's pioneers redeemed from the wilderness By planting trees about the homes and along the highways this can be done.

Not alone in the family or by the individual should Arbor day be celebrated and observed. Those in charge of our public schools can and should arrange a program of exercises for this day that will impress upon the minds of our youth the duty we owe ourselves and posterity. We should leave this earth more beautiful than we found it. By planting and caring for the trees we are making our homes more beautiful, our state more attractive and utilizing one of God's best gifts to His children.

In testimony whereof I have hereunto set my hand and caused the Great Seal of the State to be affixed, this sixteenth day of April, in the year of our Lord one thousand nine hundred and seven, and of the Independence of the United States the one hundred and thirty-first. FRED M. WARNER,
Governor.

By the Governor,

George A. Prescott, Secretary of State.

J. D. Robtoy has declared war on parlor matches for Saturday evening his house had another experience similar to the one that proved so costly two years ago. One of the roomers struck a match to light her gas, the head flew off into a couch and set fire to the draperies. Luckily this time Mr. Robtoy and his son were at home and able to pitch the couch outdoors before the flames spread to the rest of the room.—Saline Observer.

The Best Laxative for Children.
Parents should see to it that their children have one natural, easy movement of the bowels each day. Do not dose the child with salts or griping pills, as they are too powerful in effect, and literally tear their little insides to pieces, leaving the bowels weakened and less able to act naturally than before. Laxative Iron-ox Tablets tone and strengthen the bowels, and stimulate all the little organs to healthy activity. Chocolate coated tablets, easy to take, never gripe or nauseate. 10c, 25c and $1.00.

Boyd-Pyle.

On Wednesday evening occurred a very pretty home wedding when Miss Ethel Boyd and John E Pyle of Newmarket, Ind., were united in marriage at the pleasant home of Mr. and Mrs. Thos. Boyd, in the presence of only the immediate relatives of the bride. At 7 o'clock, the appointed hour, the bridal couple, unattended, took their places under a canopy of lace and smilax, where the marriage vows were exchanged, Rev. H. K. Fox of the Presbyterian church officiating. The ring service was used.

The bride was neatly gowned in white silk mull with lace trimmings and carried a bouquet of white carnations. After receiving the congratulations of their friends a three course supper was served by Miss Florence Haynes and Julia Tilden. The presents were both useful and costly and give evidence of the high esteem in which these young people are held Mr. and Mrs. Pyle will make their home for the present with Mr. and Mrs. Boyd.

Library Notes.

We would call the attention of the readers to some very interesting articles beautifully illustrated and especially to one on the Hopi Indians and their strange cliff homes, which are described in the April number of the Craftsman.

The Technical World, one of the best magazines on the rack, is full of good things well worth your time to look over.

Nearly 450 cards have been issued by the library in the past month and there are considerably over 300 regular readers Pretty good for house cleaning time but we would like to see the number doubled.

A valuable addition has been made to the public library by David McNair of Leadville, Col., consisting of three volumes of Civil War history and 36 finely bound volumes of Scribner Century and St. Nicholas magazine. That the library appreciates the gift goes without saying for no class of reference is more useful or consulted by a greater number of people than files of magazines while the St. Nicholas is a constant source of delight to the younger readers and we are sure that the board, the patrons of the library and the librarian whose duty so often lies in finding material for their use, are grateful to Mr. McNair for his liberality.

Order of the Eastern Star.

One of the most interesting and enjoyable meetings of the Eastern Star was that held in their rooms last evening. From 6:45 until 8 o'clock an informal reception was held in the lodge rooms as a courtesy to Mrs. Emma Coobock, Grand Worthy Matron of Hartford, Mich., after which the work of initiation was exemplified upon Miss Ida Rector and Curry Hicks. At the close of the initiation Mrs. Coobock gave a very pleasing address and highly complimented the order on their manner of conducting the work and their drills.

It was also decided at this meeting to accept the invitation extended by the Adrian chapter to attend the convention to be held in Adrian May 20 for the purpose of forming a county association of the Eastern Star chapters A banquet served in the spacious dining room brought the meeting to a close. The guests in attendance from away were Mrs S. W McClure of Cleveland, Mrs. R. M Rulison and Mrs Bert Tate of Clinton, and Vern Smith of Adrian

PREVENT SMUT

THE WM. HAVDEN MILLING CO., Tecumseh, Mich. have secured the agency of

"SPOROCIDE"

that will positively prevent smut in oats. Guaranteed or money refunded. The treatment costs but 10c per acre.

In 150 tests made by substantial farmers who used Sporocide in 1906, the average increase in yield per acre was 10½ bushels, or a net gain of from $3 to $4 per acre on an outlay of 10c. This is worth looking into. Write for testimonials.

The appeal of the townships of Clinton, Tecumseh, Raisin and Macon from the assessments of $250 each levied against them seven years by County Drain Commissioner Franklin D. Teachout, at the time of the application for the Little Raisin drain was made, came up for hearing on briefs in the supreme court Tuesday of last week. Jas. Hatch of Macon, took an appeal from the original assessment. The board of review appointed by the judge of probate affirmed the assessment. The four towns then filed a bill in chancery and took out an injunction restraining the construction of the drain. Three years ago the matter was heard in the circuit court and the bill was dismissed. Then the townships appealed to the supreme court.—Adrian Times.

Hough-Fosdick.

A very pretty home wedding took place at the residence of Mr. and Mrs. S. L. Shutts Wednesday at noon, the contracting parties being Miss Tillie Hough and Doane Fosdick of Saline. About 25 invited guests assembled in the parlor and at the hour of 12 the bride and groom, unattended, took their places and were joined in holy wedlock by Rev. Ward of the Methodist church. The bride was becomingly attired in a travelling dress of brown and carried a handsome bouquet of carnations tied with lengths of narrow ribbon.

After congratulations a three course dinner was served in the dining room. Many pretty and useful gifts were received, showing the esteem and regard in which they are held by all. Mr. and Mrs. Fosdick left on the 1:37 for a several days' visit in Jackson, after which they will be at home to their many friends in Saline.

Among those from out of town who attended were Mrs. Louis Fabrique and baby of Clinton, Mrs. Lloyd Shutts of Grosse Point, Mrs. John Saal and Leonard Conklin of Detroit.

BRONCHIAL TROUBLES.

Readily yield to soothing, healing treatment of Hyomei.

Bronchial troubles are purely local. They cannot be helped by stomach dosing. They are caused by irritation in the air passages and can be relieved and cured by medicated air alone. In this lies the secret of the great success of Hy-o-mei in the treatment of bronchial troubles.

The Hy-o-mei medication, laden with nature's remedies, is breathed through the neat pocket inhaler that comes with every outfit, reaching every part of the bronchial tubes and killing at once the disease germs. It allays all irritation and heals the inflammation of the mucous membrane with astonishing rapidity.

Treatment with sprays, douches and atomizers in bronchial troubles is condemned by the best physicians, as they cause further irritation.

The first breath of Hy-o-mei's medicated air seems to soothe the inflammation, stop the cough and thus relief soon becomes permanent and a cure results.

Hy-o-mei has made many remarkable cures in the worst and most chronic forms of bronchial troubles and is sold by C. A. Wright with the same guarantee as he gives when Hy-o-mei is purchased for catarrh, that is, to refund the money in case the remedy does not give satisfaction. The complete outfit costs but $1.00.

A MEETING

Of the

BUSINESS MEN'S ASSOCIATION

Was called for last

TUESDAY EVENING

Which was responded to by the attendance of over 40 members.

The object was to talk over the raising of money to secure for Tecumseh the factory to manufacture high class toys for the eastern market. Robert T. Carr, representing the company, was present and explained the situation.

It seems that in order to secure the company Tecumseh people must buy ten thousand dollars of the stock of the concern. The business is all ready to move as soon as this stock is sold and will commence with the employment of about 30 people. J. H. Smith, Alfred James, P. W. A. Fitzsimmons, Fred B. Wood and C. A. Bidwell were appointed on a soliciting committee to raise the funds necessary.

To keep Tecumseh in the present good financial state it is at the present time; new factories are necessary and now the only question is to pick out the right ones and get them.

"Pneumonia's deadly work

Had so seriously affected my right lung" writes Mrs. Fannie Connor of Georgetown Tenn., "that I coughed continuously night and day and the neighbors prediction—consumption—seemed inevitable until my husband bought me a bottle of Dr. King's New Discovery which in my case proved to be the only real cough cure and restorer of weak lungs." When all other remedies fail you may still win in the battle against lung and throat troubles with New Discovery, the real cure. Guaranteed by C. A. Wright, druggist. 50c and $1.00. Trial bottle free.

DON'T PUT IT OFF LONGER.

Get rid of indigestion at once by using Mi-o-na.

Either through slackness or carlessness hundreds of people slowly poison themselves by chronic indigestion. By neglecting to cure at once any sluggishness of the important organs of digestion the system is filled with fermenting and decaying food that results in sick headaches, heartburn, bad taste in the mouth, coated tongue, specks before the eyes, sleeplessness, nervous troubles and the many other symptoms that are the direct result of indigestion.

The want of a perfectly safe yet effective cure for indigestion and stomach troubles in their many forms was felt up to the time of the successful investigations that resulted in the production of Mi-o-na stomach tablets. They quickly cure the worst cases of indigestion, and the pain and distress which are often felt after meals disappear in a very few days—such is the wonderful curative power of Mi-o-na.

The old fashioned medicines for stomach troubles merely digest the food, while Mi-o-na strengthens the digestive organs so that they soon become able to care for the food that is eaten.

Mi-o-na stomach tablets cost but 50c a box and do more real good than a dozen boxes of the ordinary digest tablets. C. A. Wright gives an absolute, unqualified guarantee to refund the money if Mi-o-na fails to cure.

COME IN AND SEE THE SEPARATOR THAT SEPARATES

The Improved Frictionless Empire

Your cream—all of it—from the milk. That separates you from the most work. That separates you from the least money. That separates you from all worry.

Selection of cream separators for this store was made only after a careful consideration of all lines. It was determined to have nothing but the best.

That's Why You Find the Empire Here.

You do not buy a separator as a straw hat to throw away at the end of the season. It is a permanent investment. You want returns. The guarantee of the makers and the guarantee of the store go with the Empire Separator. You will get returns in all the cream, in the best cream—no taint—no odor—in easy running, in easy cleaning, in simple operation—no complicated machinery to get out of order and worry the life out of you. But you are not asked to believe all this without seeing.

Come in and See How the Empire Works.

It almost runs itself. The bowl revolves with so little friction that it runs a full half hour after you stop turning the crank. And it is just as simple as it is easy. Nothing to get out of order, and no complicated parts to wash. Come in and see it.

Get also a supply of the sensible, interesting dairy literature free to you, waiting for you at this store. It doesn't take up much space and it's good reading. You'll be convinced.

SHORT TALKS BY L. T. COOPER.

NERVOUSNESS.

Nervousness makes people miserable blue, and unhappy. They think something terrible is going to happen. At night they toss and worry and are not rested. They tire easily and haven't much energy. They think many things are the matter with them—Consumption, Kidney trouble, or twenty other diseases. It's just stomach trouble nothing else in the world. Two bottles of Cooper's New Discovery will put the stomach in shape in three weeks. I know this because I've seen it tried a thousand times. Then all nervousness will disappear. I know this too, because I've seen it happen a thousand times. Here's a letter I got the other day:

MRS. W. J. SCHAURER.

"My system was badly run down and my stomach and nerves in an awful shape. I could not digest my food, was always tired and would often feel faint and dizzy."

"I had heard so much of your New Discovery medicine that I began taking it. Relief and strength and happiness were found in the very first bottle and the benefit I have received from it has been truly wonderful. I am no longer nervous, my appetite and digestion are good and I eat everything and sleep well." Mrs. W. J. Schaurer, 229 Guthrie St., Louisville, Ky.

We sell Cooper's New Discovery. It makes tired, worn out, nervous people happy.

CURED TO STAY CURED.

How a Tecumseh citizen found complete freedom from kidney tuoubles.

If you suffer from backache
From urinarp disorders
From any disease of the kidneys
Be cured to stay cured.

Doan's Kidney Pills make lasting cures.

Tecumseh people testify.

Here's one case of it:

Orson Austn, retired, living on Logan street, Tecumseh, Mich., says, "I hold the same high opinion of Doan' Kidney Pills today, (Dec. 10th, 1906) as when I gave a statement for publication some 5 years ago. Prior to that time, I had been troubled with a very bad case of kidney disease. The distressing pains I had in my back in my back and shoulders, were at times almost unbearable. Rheumatism also settled in my hips and limbs which increased my misery. I could not get my proper rest or sleep during the night on account of the too frequent action of the kidney and the passages were attended by a burning and smarting sensations which were very painful. I think my trouble was brought on by an injury which I received in the army and had gradually become worse. I knew Doan's Kidney Pills were good for such troubles so I began using them. I noticed the good effects in a very short time and thus encouraged I continued until a complete cure was affected. My advice to all kidney sufferers is to give Doan's Kidney Pills a trial and I know they will not be disappointed with the results."

Pale, Thin, Nervous?

Then your blood must be in a very bad condition. You certainly know what to take, then take it—Ayer's Sarsaparilla. If you doubt, then consult your doctor. We know what he will say about this grand old family medicine.

This is the first question your doctor would ask: "Are your bowels regular?" He knows that daily action of the bowels is absolutely essential to recovery. Keep your liver active and your bowels regular by taking laxative doses of Ayer's Pills.

Many a life comes to naught because an interrogation point takes the place of a period.

Rest is the great restorer. We tire our muscles by exercise and then rest to rest re them; yet a great many of us do not stop to think how little rest we give to our stomachs. As a usual thing no part of our bodies is so generally overworked as our digestive organs. A tired and overworked stomach will give signs of distress to which we pay no heed until at last dyspepsia takes hold. Indigestion is just a warning and if we heed the warning we can easily avoid further consequences. Kodol is a most thorough stomach relief. It digests what you eat and gives the stomach the needed rest and greatly assists in restoring it to its normal activity and usefulness Kodol is sold on a guarantee relief plan It is sold by B J Pulver

PILES
CAN BE CURED

Both internal and external piles quickly yield to our "special method" of treatment which is known to but a few Physicians of wide research and experience in the treatment of Piles or Hemorrhoids. **Internal Piles** consist of a tuft of capillaries, which bleed profusely when the patient is constipated.

External Piles are nothing more or less than tags of protruding skin, easily inflamed, very painful, and itch intensely at times. Piles are the result of an inactive liver, or constipation, sometimes both.

W. D. S. Pills remove the primary cause by regulating the liver and bowels and thereby assist Wonderful Dream Salve in reducing the congestion and soreness. Wonderful Dream Salve draws out all the inflammation, and heals the diseased parts without pain, loss of time or inconvenience.

Our "Special Method" mailed free to those purchasing Wonderful Dream Salve and W. D. S. Pills for the treatment of Piles.

If this combination internal and external treatment fails to cure, your money will be refunded. 10c, 25c and $1.00. Guaranteed under the "Food and Drugs Act."

Big Shortage Discovered.

Woonsocket, R. I., April 26.—A shortage of about $92,000 in the accounts of Woonsocket Electric Machine & Power Co., was revealed on Thursday by the issuance to the stockholders of the company of a circular letter announcing that a heavy shortage had been discovered. The letter, which was issued by order of the directors, further stated that the resignation of Levi Cook Lincoln, secretary-treasurer and general manager of the company had been accepted. Recently negotiations have been under way for the sale of the business to the firm of Estabrook & Co., and the circular says that the alleged embezzlement will not interfere with this sale, although the stockholders may be called upon to make good any deficiency.

Canada Buys Buffalo Herd.

Denver, April 26.—A message was received here Thursday that the Pablo herd of buffalo on the Flathead reservation, Montana, has been sold to the Canadian government. The bulls will be removed to Canada about May 1, and the cows and calves will be sent north in July. There are between 400 and 500 buffalo in the herd, which is the largest in the world. The price is said to be $150,000.

Chili is Shaken.

Valparaiso, Chile, April 26.—Three vigorous earthquake shocks were felt here on Thursday morning. No damage has thus far been reported.

Mortgage Sale.

Whereas default has been made in the payment of the money secured by a mortgage dated the 17th day of April, 1906 executed by Eva Siler of Riga Township, Lenawee County, Michigan, to Albert Collins of Macon township, Lenawee County, Michigan, and which said mortgage was recorded in the office of the Register of Deeds of Lenawee County Michigan, in Liber 151 of Mortgages on page 190 on the 14th day of April A. D. 1906 at 10:15 o'clock A. M; and whereas the amount claimed to be due on said mortgage at the date of this notice is the sum of Four Thousand One Hundred Sixty Dollars and Fifty-four cents ($4160 44) of principal and interest and the further sum of Twenty-five Dollars ($25 00) as an attorney fee stipulated for in said mortgage, and which is the whole amount claimed to be unpaid on said mortgage and no suit or proceeding having been instituted at law to recover the debt now remaining secured by said mortgage or any part thereof, whereby the power of sale contained in said mortgage has become operative.

Now therefore, notice is hereby given, that by virtue of the said power of sale, and in pursuance of the statute in such case made and provided the said mortgage will be foreclosed by a sale of the premises therein described at public auction, to the highest bidder, at the east front door of the Court house in the City of Adrian in said County of Lenawee, on the 29th day of April next, at 10 o'clock in the forenoon of that day which said premises are described in said mortgage as follows to-wit:—Being that part of section three (3) of Town Five (5) South, Range Five (5) East which is bounded as follows: Commencing at the Nort west corner of said section three, thence running East seventy-five rods and twenty-one links; thence South sixty-seven rods and seven and one fourth links; thence West seventy-seven rods and nine links; thence North sixty-six rods and twelve links to the place of beginning. Also all that other tract or parcel of land situated in the township of Macon Lenawee county, Michigan, bounded and described as follows to-wit:—By a line commencing sixty-six rods and twelve links South of the Northwest corner of section three (3) Town Five South, Range five East, thence running East one hundred and sixty rods; thence South forty and one half rods; thence West one hundred sixty rods; thence North forty and one half rods to the place of beginning. Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle free by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

OLDEN NUGGETS FOR SALLOW PEOPLE

Sour Stomach

No appetite, loss of strength, nervousness, headache, constipation, bad breath, general debility, sour risings, and catarrh of the stomach are all due to indigestion. Kodol relieves indigestion. This new discovery represents the natural juices of digestion as they exist in a healthy stomach, combined with the greatest known tonic and reconstructive properties. Kodol for dyspepsia does not only relieve indigestion and dyspepsia, but this famous remedy helps all stomach troubles by cleansing, purifying, sweetening and strengthening the mucous membranes lining the stomach.

Mr. S. S. Ball, of Ravenswood, W. Va., says: "I was troubled with sour stomach for twenty years. Kodol cured me and we are now using it in milk for baby."

Kodol Digests What You Eat.

Bottles only. Relieves indigestion, sour stomach, belching of gas, etc.

Weak Women

To weak and ailing women, there is at least one way to help. But with that way, two treatments must be combined. One is local, one is constitutional, but both are important, both essential.

Dr. Shoop's Night Cure is the Local.

Dr. Shoop's Restorative, the Constitutional.

The former—Dr. Shoop's Night Cure—is a topical mucous membrane suppository remedy, while Dr. Shoop's Restorative is wholly an internal treatment. The Restorative reaches throughout the entire system, seeking the repair of all nerve, all tissue, and all blood ailments.

The "Night Cure", as its name implies, does its work while you sleep. It soothes sore and inflamed mucous surfaces, heals local weaknesses and discharges, while the Restorative, eases nervous excitement, gives renewed vigor and ambition, builds up wasted tissues, bringing about renewed strength, vigor, and energy. Take Dr. Shoop's Restorative—Tablets or Liquid—as a general tonic to the system. For positive local help, use as well

FINALLY KILLS HER.

Enraged Prussian Lover Followed Girl to America.

SECOND ATTEMPT AT MURDER

Tragic Affair Occurs in Philadelphia—Young Woman Came to This Country to Escape Attentions of Man, But Is Slain by Him.

Philadelphia, April 30.—Martha Korais, a comely Prussian girl, was shot and instantly killed here Monday under unusual circumstances, by Franz Endrukat, an enraged lover, who after murdering the girl, sent a bullet into his own brain, inflicting a wound from which he cannot recover.

Endrukat, who was angry because the girl would not marry him, followed her to this country from the province of Pomerania, in Rheinish Prussia, where four years ago he attempted to kill her by beating her over the head with a hatchet. After this attempt he cut his throat in an effort to end his life, and after lying for four months in a hospital, according to the information given to the coroner, he was sentenced to one year and eight months' imprisonment. How he got into this country with a penal record has not been ascertained.

She was School Teacher.

After the assault in Europe, Miss Korais, who was the daughter of a physician, and a school teacher, came to Philadelphia. Endrukat, despite the refusal of the girl to marry him in his native country, followed her to America and to Philadelphia. He went to work at Cramp's shipyards, and boarded in the northern section of the city. Miss Korais secured a place as maid in the home of August Ramstein, in the southern section of the city.

Endrukat met the girl by chance in the street on Easter, and immediately endeavored to renew his attentions. He was repulsed. He followed her about and threatened to kill her unless she married him. Finally Miss Korais caused a warrant to be issued for his arrest, but at the last minute, she declined to prosecute him.

Endrukat Monday met Miss Korais and followed her from the home of her employer to a nearby bakery, and again pressed his suit. The girl told him she would sooner die than marry him, whereupon he drew a revolver and sent two bullets into her brain. He then turned the weapon upon himself and sent one of the leaden missiles into his head, falling unconscious across the body of the girl. Endrukat is 33 years of age, and his victim was 22.

LIGHT PEACH CROP.

Prof. Taty of M. A. C. Finds Many Trees Dead.

Plainwell, Mich., April 30.—Prof. L. [illegible] Taty, of the State Department, and also of the M. A. C., has been making a tour of western Michigan to get a line on the peach crop, and on the occasion of his visit to this vicinity he stated that Michigan was due for a peach famine this year, the lightest crop of many years being the prospect.

While indications in this immediate vicinity are not particularly discouraging, he stated that at Fennville, the seat of Allegan county's peach business, the crop would be only from 40 to 50 per cent. Around Benton Harbor, South Haven and Covert from 80 to 90 per cent of the peach trees are dead, the severe cold weather of this spring proving fatal. At Fennville many of the peach buds were killed, but the trees themselves did not suffer so heavily.

The peaches are not the only fruit to suffer, grapes around Benton Harbor being badly damaged, it is reported, though at Paw Paw, Fennville and Lawton the prospects are good. There will be a fair crop of sour cherries, but the sweet variety have suffered.

Flood Drove People Into Trees.

Oklahoma City, Okla., April 30.—With Lightning creek out of its banks and the Canadian river rising steadily, the people in the lowlands of Capital Hill, a suburb, are facing a situation that may become critical if the heavy rains of the last 24 hours continue. The lowland has been converted into swamp; crops have been ruined, and much stock has been drowned. No human lives have been lost so far as can be learned. Residents of the bottoms were forced to leave their homes Sunday night, and several persons were kept in trees all night. One house floated down the Canadian river with a family inside. The occupants were rescued.

Lightning Fires Many Buildings Throughout State.

FARM ANIMALS CREMATED.

Shoe Store in Grand Rapids Burned—Lightning Gave Inmates of Port Huron Hospital Bad Scare—Flames on One Home Quenched by Rain.

Grand Rapids, Mich., April 30.—The terrific electrical storm which raged through this section of the state Sunday night and Monday morning, worked havoc, particularly among the farmers, destroying many barns and a large number of horses and cattle. At Burton Heights, this city, lightning struck the barn of Frank Benedict and Claude Kleth, destroying them completely. A shoe store belonging to Seemstra & Stillard was burned, with $2,000 loss, and no insurance.

Alto, Mich., April 30.—Lightning struck and destroyed the barn of Emanuel Yeiter, near this place. Ten horses and a valuable Jersey bull were cremated. His buggies, grain and hay were also burned. The loss is $3,000, with but $800 insurance.

Holland, Mich., April 30.—A large barn belonging to Cook Bros., on a farm near by, burned after being struck by lightning Sunday night, consuming 19 head of horses, six cows $1,000 worth of hay and all farm implements. The loss is some $5,000.

Reed City, Mich., April 30.—Nineteen head of cattle, two horses and 16 sheep were cremated with the burning of Julius Blank's barn on his farm here Sunday night. The fire was caused by lightning.

Cedar Springs, Mich., April 30.—Charles Shaw's barn was hit by lightning and four horses and three cows were burned to death. The loss is $3,000.

Port Huron, Mich., April 30.—Lightning crashed down on the Port Huron hospital here Monday, and while it did little actual damage, threw the patients into a furor of excitement and many thronged the corridors. The fire department quenched the blaze and about $200 will cover the damage.

The home of George Wade was struck near the same time and the front of the building torn completely off. Mrs. Wade and three-year-old Harold were in the house, but escaped injury. A cat, sleeping on a bed, had its tail burned off.

Allegan, Mich., April 30.—Lightning struck the large barn on the F. Hilber farm in Monterey. It was consumed, with all the contents, save the live stock. Loss about $1,500.

Owosso, Mich., April 30.—The residence of former Sheriff Daniel J. Gerow was struck by lightning last night during the electrical storm and the heavy downpour that followed extinguished the blaze before it had done much damage.

TEACHER MISSING.

Evart Schoolma'am Last Seen Starting for Her School.

Evart, Mich., April 3.—A mystery that has aroused the whole of this village is the sudden disappearance of Miss Ina Moore, age 21, the daughter of Henry Moore, a well-known farmer living 10 miles south of this village. Miss Moore, who is a school teacher started for her school at 6 o'clock Monday morning.

When she did not appear at her school at the opening hour, the children became alarmed and notified some neighboring farmers. It was found that she had left her home as usual. A search was at once started, but every effort has thus far proved fruitless.

Scores of people hunted through the woods and swamps in the vicinity to no avail. Nobody seems able to furnish the slightest clue as to her possible whereabouts. She is one of the most popular young ladies in her community and considered as a model young woman.

Bitten by a spider.

Through blood poisoning caused by a spider bite John Washington of Bosqueville, Texas would have lost his leg which became a mass of running sores had he not been persuaded to try Bucklen's arnica salve. FACTIONS FALL OUT.

Hondurans Now Begin Fighting Among Themselves.

A REGULAR COMIC OPERA.

Three Presidents Sought to Rule the Country for Period of Fifteen Days Each—Followers Wage War in the Streets—Nicaraguans Stop It.

Puerto Cortez, Honduras, April 23, via New Orleans, April 30.—Fresh fighting has occurred in Honduras, the latest being a battle in the streets of the capital city between the factions of the vicorious Honduran rebels, who a few weeks ago, helped Nicaragua overthrow the government.

A letter which escaped the censorship and arrived here, says that the troops of the junk opened hostilities among themselves on April 8. The fighting was brought on because of a somewhat unusual kind of government which the leaders had tried. Three of these leaders, Rasoles, Bustillo and Castro, agreed to take turns as president, each serving fifteen days. It developed, however, that each during his term attempted to strengthen his party by dividing up the patronage where it would do him most good. Finally the friends of Polycarpo Bonilla proclaimed Bustillo provisional president without any 15-day clause, and the opposing factions did the same for Rosales. Then fighting began.

Troops of both sides occupied what is known as university place, adjoining the palace. Rosales, from a window of the presidential palace, shouted to his partisans to open fire. The other side replied, merchants shut up their shops, and a battle was on in the principal business streets of Tegucigalpa. Badly aimed bullets showered upon the houses, but caused only seven deaths.

An almost comic opera ending closed this battle, when General Leguel R. Davila, who is now provisional president, rushed among the combatants and persuaded their leaders to stop the fighting.

Later another battle was started near the town, but this time the Nicaraguan invaders marched up and literally arrested all the troops of both factions. This effectually stopped the fighting. Not a shot was fired by the Nicaraguans. Later Davila became president with the faction leaders holding the ministerial offices.

The Nicaraguans continue to police the capital, and it is safe to say that if President Zelaya withdraws his force from Honduras, the strongest faction will take possession and proclaim a president of its choice. These same conditions may make it necessary for the American gunboats to continue indefinitely their protection over foreign interests.

Taft Predicts Canal's Early Use.

Cincinnati, O., April 3.—"If the Panama canal is not completed within eight years from now, I shall be greatly disappointed. If it is completed in less time than that, I shall not be greatly surprised." This statement, made last night by Secretary of War Taft, before the Business Men's club, brought forth unroarious cheers, the 600 members of the club who were gathered inside the banquet hall rising and cheering the statement and the speaker with tremendous enthusiasm. The banquet tendered to the secretary by the Business Men's club, came as a climax to the last of the three days of his present western trip.

Shoots Husband, Son and Self.

Providence, R. I., April 30.—Her mind unbalanced, it is believed, because of long-continued nervous trouble, Mrs. Louisa Holden, 40 years of age, last night shot and almost instantly killed her husband, Lee S. Holden, then turned the revolver on her son, Louis A. Williams, 15 years old, shooting him in the head, inflicting a fatal wound. She then shot herself in the head, dying at the Rhode Island hospital. The boy's death is expected at any time. The tragedy occurred at the home of the Holdens, 97 Taber aveaue. The husband is a member of the firm of Smith & Holden, dealers in oils and paints, and the family is well known.

Men Kill Sheep With Dynamite.

Cheyenne, Wyo., April 30.—An explosion of dynamite at John Linn's sheep camp in Trapper Creek, Big Horn county, Sunday night, killed 700 sheep and completely destroyed camp wagons and other possessions of the camp. The story of the outrage was told Monday by a herder, who said that a band of masked men raided the camp, and after binding him securely, arranged for the work of destruction.

NEARLY ENDED DUMA.

A Member of Lower Russian House Kicked Up Fuss With Ministry.

St. Petersburg, April 30.—A savage attack made Monday on the army and the government by the socialist member, M. Zuraboff, during the first executive session of the lower house of parliament, which was devoted to a debate on the bill fixing the number of recruits to be called to the colors, caused a rupture between the ministers and the duma, which for a time threatened to precipitate the dissolution of the house.

After M. Zuraboff's harangue, in which he declared that under an autocratic regime the army was worthless except against the people, and that it was beaten whenever it engaged in a foreign war, the ministers withdrew from the house and served an ultimatum on President Golovin that unless the offensive expressions were retracted by M. Zuraboff and the rule providing for temporary suspension was applied against him, they would sever all future relations with the duma.

M. Golovin was unable to have the demand complied with, as the radicals supported their colleague solidly, and the Poles refused to vote. The suspension and formal rebuke of Mr. Zuraboff, however, was pronounced by the president of the chamber, but this failed to satisfy the ministers, who subsequently ordered the government experts to withdraw from the evening session of the budget commission.

Immediately after adjournment, Premier Stolypin, who had not been present during the incident, summoned an extraordinary session of the cabinet, which apparently brought matters to an issue between the premier and the reactionary members of his ministry. What transpired is not known, but later Premier Stolypin summoned M. Golovin and informed him that the incident had caused serious friction in the cabinet. He hoped, however, a way would be found to arrange matters without fatal consequence to the duma.

Gage Has Two Wives.

Grand Rapids, Mich., April 30.—By a decision of Judge Perkins in the circuit court here Monday, Adin Gage, a local insurance man, is made possessor of two "wives." At present Gage is on a honeymoon, and does not know of his great fortune. Recently Gage secured a divorce from Florence Gage. A few days after he married Grace M. Mohr, of Grass Lake. The divorce was granted in default. The defendant, Florence Gage, not putting in her appearance. Mrs. Gage, No. 1, declares she was not notified of the suit pending against her. Her attorney says she had been. On this technicality Judge Perkins reversed the decree. This makes the former Mrs. Gage the legal wife and places the bride in an unpleasant predicament.

America Leads Painting Exhibit.

Paris, April 3.—President Fallieres and his suite, accompanied by the representatives in France of foreign nations, including Henry White, the American ambassador, Monday afternoon inaugurated the spring exhibition of the Society of French Artists in the Grand Palais. Today is varnishing day and on Wednesday the exhibition will be opened to the public. It is the unanimous verdict of the critics that the exhibition of paintings and sculptures surpasses any seen in a dozen years. America, for the first time, leads all foreign countries, both in the number of works displayed and in excellence. This is recognized and a prominent place has been accorded the American canvasses. England secures second place.

Mitchell Operated On.

Spring Valley, Ill., April 30.—John Mitchell, national president of the United Mineworkers of America, was operated upon Monday for strangulated hernia. The operation was performed at St. Margaret's hospital here and was successful. The patient is resting easy and no danger is anticipated.

Laura Didn't Want to Return.

Hastings, Mich., April 30.—George E. Bryant, the father of the Ypsilanti Normal girl, who was located, after a week's unexplained absence, in Helena, Mont., left this city Friday morning for Hlena to bring his daughter back. A dispatch received here Monday from the father stated that the young woman was not inclined to return to Michigan but that he had persuaded her to come, and that they will arrive here the last of this week.

Body Is Identified.

Grand Rapids, Mich., April 30.—A body which was found floating in the river south of here Sunday has been identified as that of Kleeman Stanulis, a Lithuanian, who boarded with friends in this city. The cause of the drowning remains a mystery, but it is alleged that he was a hard drinker and it is supposed that he threw himself in the river while in a fit of despondency caused by drink. He disappeared about March 15. He had no relatives in this country except one brother in Pennsylvania.

Besides this, Mr. Solomon has a nugget of gold 1⅝ inches long, besides many specimens of gold dust, which he washed out in Alaska, Idaho, British Columbia and other gold fields.

Teacher Sues for Damages.

Battle Creek, Mich., April 30.—Suit for $10,000 against Principal Paul T. Hickey, of the high school, is being prepared by attorneys for Ward M. Mills, deposed teacher of physics and science. Mills charges slander in commencing the suit, but what his charges are before the board of education, in seeking an investigation, are not made public. Mills says the evidence will make the people sit up and take notice, coming from students rather than himself.

A Proper Punishment.

"You're not going to bar me out, are you?" the newly arrived spirit pleaded.

ROUND ABOUT US.

Brooklyn will have a base ball team this summer. There as never much doubt on the subject, and now its a cinch. A meeting of the fans was held on Tuesday evening at the council rooms after the council had adjourned, and the second meeting for enthusiasm seemed to put it all over the deliberations of municipal legislators. Joe North was elected president of the association and Harvey Blanchard secretary and treasurer. As manager C. E. Teachout was elected.—Brooklyn Ex.

John Krueger employed by the city met with a painful accident Tuesday morning. Mr. Kreuger was engaged in picking up refuse about the city with a team that formerly belonged to the fire department. The team became frightened at the puffing engine which is being used for the tearing up of Broad street for the paving and started on a run down Broad street. Near the post office Mr. Krueger was thrown from the seat against the stone curbing. He was taken to Dr. Morden's office; there was found a severe three cornered wound in the right side of his forehead and a bad cut above his right eye. Later he was removed to the home of his son, Ed, 97 East Butler street. The team was stopped at the head of Broad street by an unknown colored man.—Adrian Press.

On Monday last, at receiver's sale, the Globe Fence property was sold to a committee representing the stockholders, the plant being valued at $12,500. The business was, as we understood it, placed in the hands of a receiver in order that the title might be such that a consolidation with other interests is possible. There will be a meeting of stockholders May 3d, at which time it is hoped that arrangements can be made to bring the Boley Fence Co., of Sandusky, Ohio, to this city and that business will be resumed.—Hudson Post.

A gift coming to one unexpected or unsolicited usually gives a recipient more real pleasure than it otherwise would. A trip to England would be enjoyable under any circumstance, but to have one's transportation cost them nothing must give one more real pleasure. We congratulate Rev. and Mrs. Ashby on their good fortune and commend the Congregational society on their thoughtfulness and liberality.—Clinton Courier.

WASHINGTON LETTER.

(From our regular correspondent.)

Secretary Taft has gone to Ohio and interest is on tip toe with reference to what he may say in reply to Senator Foraker. Judge Taft is very popular in Washing where he is known and loved. With the newspaper fraternity he is on the best of terms and there is great confidence that he will not blunder but say and do the correct thing and this in spite of his inexperience on the hustings. It is suspected in fact known, that there is a strong predilection for him throughout the country, not perhaps on his own account but because it is believed he is the choice of the President. There are doubtless millions of people who if they cannot have their preference and vote for Roosevelt for another term will solace themselves by the next best thing in voting for the man in whom he has faith and whom he recommends.

The friends of the President are loth to give up the idea that he himself may still be induced to run and are trying to harmonize the third term and anti-third term movements by calling the proposed term "second elective term." It is argued that as the President has been elected to the office but once he has served but one "elective term" and is eligible for the office again. It seems comparatively easy to convince the country that this fully covers the situation but the difficulty seems to be to persuade the President. It is thoroughly apparent that he does not want the office again, probably mainly because he thinks it is opposed to the spirit of the traditional limitation of the presidential term and also because he would like a rest after his seven years of onerous, nerve racking work. He is reported to have said when spoken to on the subject that he was not tired of his "job" and that he did not think that another term would kill him but that it probably would shorten his life by ten years and he could not spare that many.

Washington has been practically deserted this week on account of the opening of the Jamestown exposition which was formally accomplished by the president Friday. The presidential party left on the Mayflower Thursday. A little later the diplomatic corps and the congressional parties sailed. The president was accompanied by his wife and two sons and a number of naval officers. A large crowd had gathered at the navy yard and were rewarded by not only seeing the president but hearing him give orders to the seamen who were working to release a yacht from its moorings for the direction of a cruiser yacht where some children were in danger and not until he saw that they were safe did he bow and wave his hat in salutation to the cheering crowd.

The president's boys, Archie and Quentin, are as natural as any boys one could find in any country town and apparently feel no exultation from being the president's sons. This trip to Jamestown is as much of a treat to them as to any boy in the land. As soon as they were on the Mayflower they lost interest in the crowd and descended to see what made "the wheels go round" and by the time they reached Jamestown they had a pretty good idea of navagation.

The President's day in Jamestown was a strenuous one and on account of the heat and the crowds must have been an exhausting one. The Exposition is not really ready yet just as no exposition has ever been ready at the time of opening but there will be a stream of visitors passing through Washington to the big fair from this time on all through the summer. Nearly all of the excursion tickets to Jamestown will provide trips to or stop overs at the Capital so that the visitors will in reality have the benefit of a great deal of sightseeing. As a matter of fact the exposition if any were to be held in this section should have been at Washington where the hotel service and accommodations for a big crowd would have been adevuate. But since it was decided to put it in that little "neck of the woods" it is fortunate agreeable that the majority of the visitors will also have an opportunity of seeing the Capital.

The unpreparedness of the exposition at its opening was to be expected but in respect of unreadiness the Jamestown exposions exceed all the others that have taken place since the Centennial at Philadelphia. There is not the least doubt but that next September will see it incomplete and the sanity of attempting to have a world's fair at this place will be the theme of objurgation with every one who attempts to go there or to live after he gets there.

Doing business again.

TECUMSEH LODGE NO. 69 F. & A. M.

Pays a Fraternal Visit to Milan Lodge, No. 323, F. & A. M.

About 85 members of Tecumseh Lodge No. 69 F. & A. M., left Tecumseh, April 24, on a special train over the D. T. & I. R. R. arriving at Milan at 7 p. m. and were met at the station by the officers and members of the Milan Lodge who escorted them to the Masonic hall. After inspecting the various rooms connected with the fine lodge room proper and exchanging fraternal greetings, the lodge was opened and the third degree conferred by Tecumseh lodge.

At the conclusion of the degree work about 250 Masons, including visitors from Detroit, Dundee, Tecumseh, Britton, Ridgeway and Ohio were escorted to the banquet hall when a sumptuous banquet was served by the ladies of the Eastern Star. The tables were laden with an abundance of good things. The banquet hall was decorated in a very tasteful manner with ferns and flowers. An orchestra furnished fine music during the entire time.

After the inner man had been satisfied, the toastmaster introduced the several speakers of the evening and the feast of reason and flow of soul that followed was heartily enjoyed by all present. A smoker brought the evening's entertainment to a close and at 1 o'clock the members of Tecumseh lodge boarded their train for home all agreeing that Milan lodge and the ladies of the Eastern Star had furnished the best and most entertaining outing that Tecumseh lodge had ever enjoyed.

K. O. T. M. M. entertain.

The K. O. T. M. M. entertained the members of the Hive and a few friends at Witherell hall last evening. A program had been prepared, but owing to the stormy evening the program committee was disappointed in several of the numbers. The few numbers given were greatly enjoyed by all present. Each one responded to an encore. Program as follows:

Music—Boys' quartette.
Rec.—Anna Ferguson.
Song—Mary Kriedler.
Song—Ella Hodges and Metta McKinney.
Music—Quartette.

Dancing and card playing was enjoyed at the close of the program, Mayme Kaiser and Will Coller furnishing the music for the dancing.

Men who are looking for work now seem to be praying they won't find it.

Neil Hiser's little son, who lives between here and Dundee, was bitten by a dog owned by Dr. Haynes the first of the week. The dog was sent to Ann Arbor for examination but up to yesterday no word had been received that it was rabid. A message to the Sun from the doctor states that the bite the Hiser boy received was an insignificant affair no marks being visible the next day. Dundee has had quite a mad dog scare lately, a dog owned by Wm. Moore going mad also a pup and cow owned by Clarence Stowell. It is now thought that the scare is about over.—Petersburg Sun.

SELECTING THE PRESENT

Latest book is the most beautiful we ever issued.

Pictures in natural colors of 97 presents for the users of Arbuckles' ARIOSA Coffee. Will be sent free to any one who writes for it.

Do you realize what a great business this Arbuckles' ARIOSA Coffee is? As many as 30,000 letters for presents are received here in a day. In a year we despatched four million individual presents to our customers—presents that brought letters of thanks and appreciation in return.

Here is one from Mrs. De Jamette:

"I appreciate highly the beautiful presents sent me from you from time to time and will say that your coffee is the leading brand on the market,* * * the purest, best and healthiest coffee ever made. I have been a user of it for 25 years and will want it as long as life lasts. The coffee is worth three times its present market value."

Millions of persons in every part of the country drink no other Coffee, and swell the sales of Arbuckles' ARIOSA until they exceed the combined sales of all the other packaged coffees.

Arbuckles' ARIOSA is the best Coffee for you, saves your money, and gives you presents besides. Speak softly but plainly to your grocer man if he tries to sell you bulk coffee. Tell him you know.

If your grocer won't supply, write to ARBUCKLE BROS., New York City.

A Chew of Blot Touches the Right Spot

Of course you want your fine cut chewing to be clean and fresh, wherever you buy it, every time you buy it.

Then don't buy fine cut out of an open bucket nor in one of those cheap wax paper packages where dryness and dampness, dust and dirt have had every chance to ruin any flavor it ever had. Always ask for

BLOT
CHEWING TOBACCO

and you are sure of a fresh and moist, clean, sweet and tasty chew every time. You can see there is no chance for Blot Fine Cut to get dry, nor any possibility of dust or dirt getting in—the new heavy paper, tinfoil-wrapped package that fits the pocket absolutely prevents it, and keeps the tobacco in good condition until you've chewed the last bit of it.

The revenue stamp on every package guarantees full weight.

A dollar spent for Tecumseh Chief Flour is a 100 per cent investment. The Wheat from which it is made is the product of your own farms, and the flour from this wheat comes back to you with the least possible expense; nothing to add for freight, or any of the many items of expense which must be added to keep the army of men engaged in handling and transporting grain and flour from place to place.

Be Wise To-Day.

Foreign flour cannot give you 100 cents for the dollar, for you must pay freight one way--perhaps two, and commissions, besides you are buying the product of some one else's farm, perhaps outside the state. We guarantee to please you, and the "other fellow" cannot do more, but must charge more.

Dr. Jennings Trains Starfish to Turn Somersaults.

Dr. Herbert S. Jennings, associate professor of physiological zoology at John Hopkins university, Baltimore, has reported upon his experiments in training starfish to turn somersaults and do other tricks. He found that 12 lessons sufficed to teach starfish what to do so long as the experimenter was near but in his absence the fish refused to use their acquired habits.

In regard to his training experiments he says:

"In righting itself when turned on its back a starfish may use any pair from its 5 rays to attach itself and then by pulling it turns a somersault thus returning to its natural position. In successive trials different pairs of rays may be used.

The starfish readily acquired what may be called temporary habits. In one case it was trained to use a pair of rays never used naturally. After 12 lessons the starfish had adopted the habit. It was allowed to right itself 8 times in succession and in every case it used a pair of rays that it had been taught to use."

"There is no doubt by beginning with young specimens and continuing well planned training for a long time marked results could be reached The starfish is the lowest animal in which habit formation has been demonstrated."

The Detroit Journal of April 23 contained the above article. Dr. Jennings is well known in Tecumseh, being a son-in-law of Mrs. Charles Burridge.

Tecumseh Presbyterian Missionary Society.

At the home of Mr and Mrs. Richard Gillespie last Friday evening, April 26, occurred the regular meeting of the missionary circle of the Presbyterian church of Tecumseh. The following program was given:

Topic, Up to date Equipments, Literature, etc.

Value of Missionary Literature—Rev Fox.

Review of Dr. Grenfell's Parish—Miss Alice Angell of Adrian.

The report of the Presbyterian delegate, Mrs. F. D Rector, was listened to with great interest. This meeting was held at Palmyra a short time ago. Miss Dingman's committee served refreshments at the close of the work of the society. On May 31st a meeting will be held, the topic being Cuba. At this time Miss Lena Smith will give a talk on "Our church in Cuba."

"Pneumonia's deadly work

Had so seriously affected my right lung" writes Mrs. Fannie Connor of Georgetown Tenn., "that I coughed continuously night and day and the neighbors prediction—consumption—seemed inevitable until my husband bought me a bottle of Dr. King's New Discovery which in my case proved to be the only real cough cure and restorer of weak lungs." When all other remedies fail you may still win in the battle against lung and throat troubles with New Discovery, the real cure. Guaranteed by C A. Wright, druggist. 50c and $1.00 Trial bottle free.

Schedule is now Complete. Meeting held in DOWNEY HOUSE

At Lansing yesterday now completed work of League.

An all day session of the schedule committee of the Southern Michigan league was held yesterday at the Downey House in Lansing, completing the work of the playing dates of the league. In a few days the schedule will be ready for publication. The opening of the season will be on May 14 and each club will have 112 games. The start is as follows:

May 14-15.
Kalamazoo at Tecumseh.
Mt. Clemens at Flint.
Jackson at Bay City.
Battle Creek at Lansing.
May 16-17.
Tecumseh at Battle Creek.
Bay City at Kalamazoo.
May 18-19.
Tecumseh at Jackson.
May 21-22.
Lansing at Mt. Clemens.

All of the cities had representatives present, to whom all openings were satisfactory. The schedule that was adopted contemplates series of two games largely, it having been decided by the various towns that longer appearances of visiting clubs as a regular order is not desirable.

The holiday arrangement went through without a hitch. This was simplified by alternating as much as possible—two towns that are neighbors playing each other in one place in the forenoon and in the other in the afternoon—and by balancing the Saturday and Sunday engagements. Tecumseh is the only club that does not get a home holiday. Its management waived these dates because of the big list of Sunday bookings and the naturally superior drawing power of larger cities than the "big little town." The holiday dates are

MEMORIAL DAY.
Flint vs. Bay City, alternating.
Battle Creek vs. Kalamazoo, alternating.
Jackson at Lansing.
Tecumseh at McClemens.

FOURTH OF JULY.
Flint vs. Bay City, alternating.
Battle Breek vs Kalamazoo, alternating.
Tecumseh at Lansing
Mt. Clemens at Jackson.

LABOR DAY.
Flint vs Bay City, alternating.
Mt. Clemens at Kalamazoo.
Tecumseh at Battle Creek.
Lansing vs Jackson, alternating.

Tecumseh Grange.

Regular meeting of the Tecumseh Grange No. 156 Friday evening. Following program:

Music—Grange.
Reading—Mrs. Fred Aylesworth.
Vocal solo—Mrs. D R Hall.
Rec —Winnie Johnson.
Question, That our present legislature represent the people, if not, what is the remedy?—L. M. Waldron, Jas. Cupples leaders.
Paper—Hazel Hall.
Second chapter of the serial story—C. H Snedicor.
Song—Grange.

Mrs. Cynthia Dibble.

The death of Mrs Cynthia Dibble of Holloway, occurred at the home of Miss Letty Young, who was caring for her, in Tecumseh yesterday morning of peritonitis following an operation. The remains were taken to Halloway, where the funeral will be held tomorrow.

She leaves two children to mourn her loss, Mrs Rose Curtis of Adrian, and Jas. Dibble of Holloway.

BRONCHIAL TROUBLES.

Readily yield to soothing, healing treatment of Hyomei.

Bronchial troubles are purely local. They cannot be helped by stomach dosing. They are caused by irritation in the air passages and can be relieved and cured by medicated air alone. In this lies the secret of the great success of Hy-o-mei in the treatment of bronchial troubles.

The Hy-o-mei medication, laden with nature's remedies, is breathed through the neat pocket inhaler that comes with every outfit, reaching every part of the bronchial tubes and killing at once the disease germs. It allays all irritation and heals the inflammation of the mucous membrane with astonishing rapidity.

Treatment with sprays, douches and atomizers in bronchial troubles is condemned by the best physicians, as they cause further irritation.

The first breath of Hy-o-mei's medicated air seems to soothe the inflammation, stop the cough and thus relief soon becomes permanent and a cure results.

Hy-o-mei has made many remarkable cures in the worst and most chronic forms of bronchirl troubles and is sold by C. A. Wright with the same guarantee as he gives when Hy-o-mei is purchased for catarrh, that is, to refund the money in case the remedy does not give satisfaction. The complete outfit costs but $1.00.

A BEAUTIFUL STORE ROOM

Is the new place occupied for the first time yesterday by

B. J. PULVER

Some three months since B. J. Pulver, the druggists, purchased of Geo. Merrit the store building used by him for so many years as a tobacco store and since that time Pulver has been making the old tobacco store into a modern drug store. Last Saturday the work was all completed and yesterday he moved the drug stock in. To successfully do a job of this kind, three things are necessary, time, patience and money and Mr. Pulver used liberally all of these.

Both ends of the store are plate glass. The fixtures are all newly made to his order by Jas. Schappie & Co. of Delta, Ohio, and in all it can truly said to be the best fitted drug store in Lenawee county now suitable for use during his life time and as "Ben" is still a young man the fittings are so complete that it will be modern for many years to come. Such a business place is not only a credit to B. J. Pulver but to all Tecumseh and nothing but success is the wish of everyone.

While blowing up stumps with dynamite Monday afternoon Michael Wurster and F. Higgins of Manchester met with a serious accident. A charge of dynamite was placed under a stump and the fuse lighted. The charge failing to explode they placed dry grass upon the fuse which they supposed had gone out and tried to ignite it by blowing. The result was an explosion which literally tore their faces in pieces and rendered them unconscious.—Chelsea Standard-Herald.

Adrian Times: While on her knees in prayer, Mrs. Frank Taylor, a well-known colored woman of this city, fell over dead from heart disease in the Salvation Army barracks here Tuesday night. Some time ago the woman was burned so badly that her life was despaired of and it was thought by those who saw her then, that she was saved only by prayers.

DON'T PUT IT OFF LONGER.

Get rid of indigestion at once by using Miona.

Either through slackness or carlessness hundreds of people slowly poison themselves by chronic indigestion. By neglecting to cure at once any sluggishness of the important organs of digestion the system is filled with fermenting and decaying food that results in sick headaches, heartburn, bad taste in the mouth, coated tongue, specks before the eyes, sleeplessness, nervous troubles and the many other symptoms that are the direct result of indigestion.

The want of a perfectly safe yet effective cure for indigestion and stomach troubles in their many forms was felt up to the time of the successful investigations that resulted in the production of Mi-o-na stomach tablets. They quickly cure the worst cases of indigestion, and the pain and distress which are often felt after meals disappear in a very few days—such is the wonderful curative power of Mi-o-na.

The old fashioned medicines for stomach troubles merely digest the food, while Mi-o-na strengthens the digestive organs so that they soon become able to care for the food that is eoten.

Mi-o-na stomach tablets cost but 50c a box and do more real good than a dozen boxes of the ordinary digest tablets. C. A. Wright gives an absolute, unqualified guarantee to refund the money if Mi-o-na fails to cure.

WEAK KIDNEYS MAKE WEAK BODIES.

Kidney diseases cause half the ills of Tecumseh people.

As one weak link weakens a chain so weak kidneys weaken the whole body and hasten the final breaking down.

Overwork, strains, colds and other causes injure the kidneys and when their activity is lessened the whole body suffers from uric poison.

Aches, languor and urinary ills come with a tendency toward diabetes and Bright's disease. There is a help Doan's Kidney Pills act directly on the kidneys and cure every kidney ill. Tecumseh cures are the proof.

John B. Smith, deputy sheriff, living on east Chicago street, Tecumseh, Mich., says: "I have suffered a great deal from pains in the small of my back and about the kidneys and at times it was very hard to do my farm work. On bending over I would be siezed with dizzy spells and spots of fire would flash before my eyes, at night I was restless. I doctored a great deal but got no relief. Finally I read of Doan's Kidney Pills and I tried them. In a short time Doan's Kidney Pills had effected a complete cure and I will always recommend them."

DOCTOR IS HELD.

Mystery in Death of Edith Presley, of Lansing.

Detroit, Mich., April 30.—Miss Edith A. Presley, 25 years old, proofreader in the senate in Lansing, died in Hope hospital, 1146 Third avenue, run by Dr. Horton-Barr, at 12:15 Sunday afternoon from peritonitis, brought on by what is supposed to have been a criminal operation.

Coroner Parker is investigating the case, and Prosecuting Attorney Geo F. Robison has ordered the detention of Dr. G. A. Fritch, Baker street and Trumbull avenue, who is locked up in the Central station to await the outcome of the post-mortem of City Physicians Forbes and Stapleton, is the undertaking establishment of X B. Konkel, 1496 Michigan avenue.

Miss Presley came to Detroit a week ago Friday, ostensibly for the purpose of being treated for some ailment of the stomach, her relatives say, and she became a patient in Hope hospital the following Monday. She was operated on and died Sunday.

The death of Miss Presley was reported in Lansing, where she was very well known and decidedly popular, but no details were given. Inquiry in Detroit hospitals finally revealed her whereabouts.

Lansing, Mich., April 30.—The death of Miss Edith Presley, secretary to proof-reader, has caused universal profound sorrow for her, and indignation against those responsible for her death.

A week ago Friday, Miss Presley told E. V. Chilson, secretary of the senate, that she had to go east on important business. He told her that her work was important and that he could hardly get along without her at this time. She said her brother could do the work as well as she could; that her business was urgent, but that she expected to be back in a week or so.

It was generally thought that Miss Presley was suffering from stomach trouble. She was unusually popular with all capital city folk.

Allege Diekema's Election Illegal.

Grand Rapids, Mich., April 30.—Charging that the election of Gerrit J. Diekema to congress is illegal, a movement has been started to prevent the secretary of state from issuing a certificate of election to the republican candidate. The move is by republicans who were opposed to Mr. Diekema. It is said that legal advice has been procured, and it is stated the best attorneys in Grand Rapids declare that the election was illegal, because there was no registration, as required by law.

For Pain

Take a Dr. Miles' Anti-Pain Pill, and the Pain will disappear Like Magic.

Not by paralyzing the nerves and glands, like opium, morphine, cocaine, and other dangerous drugs, but by increasing the natural secretions.

This action is obtained as a result of modern discoveries in medicine, making it possible to relieve pain without bad after-effects.

You can safely depend upon Dr. Miles' Anti-Pain Pills to relieve and cure such pains as Neuralgia, Headache, Stomachache, Menstrual Pains, Rheumatism, Backache, Toothache, etc.

They will also, by their calming action on the nerves, almost instantly relieve such distressing feelings as Dizziness, Car-Sickness, Indigestion, Irritability, Sleeplessness, Nervousness, etc.

Not merely do they relieve, but they also absolutely cure, because by persevering in their use, you do away with the cause.

Dr. Miles' Anti-Pain Pills are guaranteed that first package will benefit, or your money back. Never sold in bulk.

"I am thankful for the good Dr. Miles' Anti-Pain Pills have and are doing me. Ever since the war I have had spells of severe throbbing headache, caused by catarrh, until six years ago, I began taking Anti-Pain Pills, the only remedy that ever gave me relief. Since then I have not had one hard attack, because I take a Pill and it overcomes the difficulty."—GEO. BAUNDERS, Greensburg, Ind.

Mayor Doesn't Stop Play.

Detroit, Mich., April 30.—Mayor Thompson assured the colored citizens who called upon him Monday to protest against the production of "The Clansman," that he will suppress the play if a committee of three, selected by him, report unfavorable to the show after witnessing the opening production at the Detroit opera house. Fully 150 colored men and women called on the mayor, and their best speakers urged the city's executive to prevent the first production of the play. The mayor refused to take such drastic action, and the delegation expressed itself as satisfied with his ultimate verdict that he will stand by the decision of the three committeemen. The first performance took place last night, and the mayor's committee is expected to report on the matter today.

Belgian Miners Entombed.

Liege, Belgium, April 30.—Eighteen miners Monday were cut off by a flood in the Angleur pit, near this city. Two hundred others succeeded in making their escape. The flood took place without warning in a gallery 200 feet from the surface. A majority of the men who escaped were dashed to the bottom in the shafts, whence they were hoisted to the surface. The entombed men were prevented by falls of earth from making their way out. Relays of salvagers, with apparatus, are endeavoring to reach their comrades, and the mine officials are hopeful for their success.

Riot at Ball Game.

Wheeling, W. Va., April 30.—A riot occurred Monday in the eight inning of the Wheeling-Springfield Central league game. An official of the Springfield club and Umpire Llewellyn got into an altercation over a decision, during which several hundred spectators crowded upon the field and began fighting. Several spectators drew revolvers and serious trouble was averted by the arrival of officers. Warrants were sworn out last night charging several spectators with carrying concealed weapons.

FELL TWELVE STORIES.

Elevator in New York Building Took Terrible Drop.

New York, April 30.—Sirag Mouradian, an Armenian, died in Bellevue hospital last night, as the result of an elevator accident in the Park building, East 19th street, Monday.

The elevator operator started the car up with four men and several packags of rugs aboard. He tried to stop at the fourth floor but the mechanism failed to work, and the elevator went at high speed to the top of the building, where the impact parted the cables, and the car fell 12 stories to the cement sub-basement. The car was demolished and all the occupants injured. Mouradin's skull was fractured.

The agent of the building, Oscar F. Shaw, Jr., was placed under arrest, on a charge of criminal negligence.

NEWS IN BRIEF.

Fire Monday night completely destroyed the Union City Chair Co., at Union City, Pa., several small adjacent structures and damaged the Union City electric light plant, causing a monetary loss estimated at over $300,000.

Mrs. Leila J. Frazer, 35 years old, wife of Gen. James C. Frazer, of Morgantown, W. Va., of Gov. Dawson's staff, died Monday at Mudlavia Springs, Ind., of acute pneumonia fever. She was the first woman in West Virginia to be admitted to the bar, and practiced law in partnership with her husband.

By the collapse of a section of seats in a tent in which Hargraves' circus was playing in White Plains, N. Y., Monday, a large number of persons were injured. One woman is believed to have been fatally injured. Five others are in the hospital. The falling of the seats was followed by a panic in which many women and children were trampled on.

L. D. Strong, manager of a large mercantile store in Macon, Ga., walked into the printing office of Henry D. Smith, in that city Monday, and fired five bullets into Smith's body. While the tragedy was enacted, a grand jury found an indictment against Smith for seduction of Miss Lillian Strong, sister of the slayer. A coroner's jury returned a verdict of justifiable homicide under the "unwritten law."

Two men are dead and five others injured as the result of the explosion of a boiler of a locomotive on the Cranberry Lake railway, near Watertown, N. Y., Monday. The fireman, John Storms, and a peddler were killed. Bert Keyes, engineer; William Reynolds, paymaster, and three members of a fishing party were injured. The engine which worked by cog wheel, with nine flat cars, was ascending a steep grade when the explosion occurred.

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, or the kidneys themselves break down and waste away cell by cell.

Bladder troubles almost always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's **Swamp-Root**, the great kidney, liver and bladder remedy.

It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

GOLDEN NUGGETS FOR SALLOW PEOPLE

The man who is really in love pays very little attention to the ability of his sweetheart as a bread maker.

Rest is the great restorer. We tire our muscles by exercise and then rest to restore them; yet a great many of us do not stop to think how little rest we give to our stomachs. As a usual thing no part of our bodies is so generally overworked as our digestive organs. A tired and overworked stomach will give signs of distress to which we pay no heed until at last dyspepsia takes hold. Indigestion is just a warning and if we heed the warning we can easily avoid further consequences. Kodol is a most thorough stomach relief. It digests what you eat and gives the stomach the needed rest and greatly assists in restoring it to its normal activity and usefulness. Kodol is sold on a guarantee relief plan. It is sold by B J. Pulver.

A LIBERAL MAJORITY

Is Given Dickinson Primary Election Revision Bill.

HOUSE VOTE STOOD 74 TO 7.

Includes Provisions for Nomination of Candidates for United States Senators and Eliminates Act Requiring Percentage of Votes for Nomination.

Lansing, Mich., May 3.—The Dickinson bill to reconstruct the primary nomination law of 1905 with a provision in it for the nomination of candidates for United States senators at primaries, passed the house on third reading Thursday afternoon by a vote of 74 to 7. The clause requiring that a candidate must receive a percentage of votes to be nominated is eliminated.

The penalty clause which is pretty severe, remains as it was in the bill when originally drafted.

Two amendments were made to the bill during the afternoon. One by Rep. Guy Miller, is, as he explains, to make it unlawful for a newspaper owner or manager who may be a candidate for office to say anything complimentary about himself in his own paper. Rep. Miller's amendment reads:

"Every person, who directly or indirectly pays for space in any newspaper which space is used or intended to be used for the purpose of assisting or hindering the nomination of any candidate to any office, whether local, state or national, and every person, being the owner or part owner of any newspaper or interest therein, or in any company owning any newspaper or controlling the same, who uses newspapers for advertising purposes in order to assist him in securing the nomination to any office."

Colby Turned Down.

Miller's amendment was adopted on a rising vote, 57 to 21. Rep. Colby then said that to be consistent the house should also amend the bill to save candidates from advertising by posters, lithographs, circulars and the like. To this end he proposed an amendment that no candidate must use a piece of campaign printed matter bigger than 2 1-2x4 inches. His amendment was rejected.

Rep. A. J. Waters renewed his amendment, which was rejected in committee of the whole, to require 20 per cent of the votes at a primary to nominate. It failed, 46 to 38, a two-thirds vote being necessary to carry it.

An amendment by Rep. Colby, so that Detroit and Wayne county can nominate local candidates on the same day the state office candidates are nominated, carried, although Dave L'Esperance threw a lemon at it.

As soon as the result of the vote was announced, L'Esperance jumped with another lemon. He gave notice that he would, the following day, (today) move to reconsider the vote by which the bill was passed.

The house had a session in the morning.

The bill to reorganize the national guard passed the house in committee of the whole, amended so that second lieutenants shall be elected by companies instead of appointed by the governor, as the bill orginally provided that all officers should be. With the governor empowered to appoint every officer many privates would never have any show for a commission. An effort will probably be made before the bill is finally adopted to retain to the companies the right to elect also first lieutenants and captains.

The house Thursday held the first morning sitting since the session began in January.

Another Flees While Under Fire.

Howell, Mich., May 3.—For the second time in three years a superintendent of the city lighting and water works has left town while his accounts were being investigated. The first man to leave was D. Hartnell, and he is supposed to be somewhere in Canada. He never came back. The latest man to leave without the knowledge of the council is Willis Adams, Hartnell's successor. A tip reached members of the council on Thursday that Adams had packed his household goods and had them awaiting shipment at the Pere Marquette depot. These men immediately hied to the freight house and found Adams' effects checked to Detroit. Adams and his wife could not be located, and it was found later that they had left town. Adams' effects are being held. It is stated on authority that there hasn't been a satisfactory statement made of the financial conditions of the commission for three years.

STATUE IS UNVEILED.

General McClellan, Done in Bronze, Is Revealed.

APPROPRIATE CEREMONIES.

President Roosevelt One of the Speakers—Regulars and Militia in Imposing Military Parade—Army of Potomac in Annual Reunion.

Washington, May 3.—With appropriate civic and military ceremonies and in the presence of a distinguished audience, the heroic equestrian statue in bronze of Major-General George B. McClellan, erected under the auspices of the army of the Potomac, was unveiled here Thursday. President Roosevelt made the principal speech and with General Frederick D. Grant on his right and Governor Stokes, of New Jersey, on his left, witnessed an imposing military parade of regulars and militia.

Mrs. McClellan, the general's widow; Mayor George B. McClellan, of New York, son of the general, and Dr. George McClellan, of New Jersey, a nephew, who pulled the string releasing the flags in which the statue was enveloped occupied seats on the president's stand. The diplomatic corps, the army and navy and civil and military were largely represented at the gathering.

General Dwight Presided.

Brig.-Gen. Henry C. Dwight, United States volunteers, the president of the Society of the Army of the Potomac, presided. As the great national flags which enveloped the statue swung to the breeze, there was an exclamation from the vast assemblage, accompanied by the firing of a salute and the playing of "Star Spangled Banner."

Major-General J. Franklin Bell, chief of staff of the army, was in command of the military parade, which consisted of three divisions, made up of infantry, artillery and cavalry of the regular army, the national guard of the District of Columbia and the Third regiment of infantry of the New Jersey national guard; battery A, of the field artillery, and two troops of cavalry from that state, in command of Brig.-Gen. Dennis A. Collins.

The president delivered a typical speech, in which he touched upon a variety of subjects, including war, peace, national pride, the family and the qualities that make for brotherhood and fraternity.

General Horatio C. King, the secretary of the Society of the Army of the Potomac, read a history of the statue which is by Frederick MacMonnies, the American sculptor residing in Paris. The statue commands an imposing position at the intersection of Connecticut avenue and Columbia road in the northwestern section of the city. The equestrian group is cast in standard bronze and is fourteen feet in height. The rider is in field costume, in repose. The horse is slightly in action. In and around the spot where the monument stands was encamped in 1861 a large part of the army which McClellan commanded in the peninsula and subsequently in the Antietam campaigns. Both sides of the pedestal are decorated with bronze trophies, in relief, representing cannon, flags, arms, etc. At each of the four corners of the base of the pedestal there is a bronze eagle. These eagles bear in their beaks heavy garlands of oak and laurel, in bronze, which extend around the four sides of the pedestal.

General Sickles Not Present.

Major-General Daniel E. Sickles, U. S. A., retired, from his home in New York, sent a letter of regret at not being able to come because of an indisposition, and declared that no commander enjoyed more the confidence of his troops that General McClellan.

Major-General O. O. Howard, U. S. A., retired, followed the president in a warm tribute to his former friend, General McClellan, whose acquaintance he made back in 1850.

General Grenville M. Dodge, U. S. V., because of illness, was unable to be present. His address was read in part by General King. It was a defense of the policy adopted at the beginning of the civil war of placing at the head of the union arraies one commander-in-chief to control their campaigns and movements in the field.

A narrow escape.

G. W. Cloyd, a merchant, of Plunk, Mo., had a narrow escape 4 years ago when he ran a jimson burr into his thumb. He says "the doctor wanted to amputate it but I would not consent. I bought a box of Bucklen's arnica salve which cured the wound." 25c at C. A. Wright's.

MUST GET TOGETHER.

France and United States at Odds on Tariff.

FRANCE IS READY TO ACT.

Foreigners, However, Stand Opposed to Entrance of American Meats, and Propose to Raise Tariffs on Shoes and Cotton Seed Oil.

Washington, May 3.—The attitude of the French government in declining to accept as sufficient for import purposes, the tag of the agricultural department affixed to fresh meats, has convinced the state department officials that the time has arrived when the effort must be made to reach a general agreement with France to govern the trade relations between the two governments.

It is believed that the present attitude of the French customs officials is the result of extreme conservaism rather than any actual opposition to the modern American method of meat inspection and certification. Hence it is believed that the present issue is not a serious one.

It has, however, served to direct the attention of the officials of the necessity of framing a program for the treatment of all these issues that are developing between France and the United States. Consul General Mason at Paris has called the attention of the state department to the importance of a measure now pending before the French chambers, increasing by more than 400 per cent the tariff duties on American cotton seed oil, which, of course, is practically a prohibitive rate. Another French proposition to which Mr. Mason calls attention would, without doubt, completely wipe out the flourishing and growing American shoe trade with France for it proposes an increase of duty of 60 per cent. These are indications of a purpose to similarly increase the duties on American grains and flours and other agricultural products, and further indications that general pressure is to be brought to bear upon America, not only by France—the second of European nations to take this position—but by the majority of the continental powers to secure special tariff concessions as the price of admission to their own ports of American products.

In view of the failure of congress to assent to any of the proposed reciprocity treaties to which the state department had committed itself in principal notably in the case of the pending French treaty, the officials are embarassed in laying out a course of action that will prevent a general tariff war.

Paris, May 3.—The Associated Press is able to announce authoritatively that France will welcome any action by the United States looking to the creation of a joint tariff commission, similar to the one which sat at Berlin, with a view of reaching a mutually satisfactory basis of settlement of questions in dispute. The present French government strongly favors a regime of reciprocal concessions, but at the same time it appreciates the strength of the demand of the French protectionists in favor of higher duties and the sentiment in favor of reprisals on the part of some French exporters, because of what they term vexatious administrative regulations at New York.

In order to avoid drifting into a tariff war, therefore, the government considers the time opportune for representatives of the two countries to meet and consider the whole subject.

Spaniards Go to Hawaiian Isles.

Washington, May 3.—Frank P. Sargent, commissioner-general of immigration, was notified by cable of the sailing Thursday of the Steamer Kumeric, from Funchal for Honolulu, with 1,050 Spanish immigrants, all intending to locate in the Hawaiian islands.

Fled in Their Night Clothes.

Durham, N. C., May 3.—Fire last night destroyed the Hotel Carrolina, a four-story frame structure, located in the center of the city, entailing a loss of $175,000, fully covered by insurance. There were 50 or 75 guests all of whom escaped without injury. Some of them escaped in their night clothes, losing all of their possessions.

Determined to Drown.

Cleveland, O., May 3.—A man, believed to be C. G. Stickle, a traveling man of Pittsburg, jumped from what is known as "Suicide Pier" early on Thursday, after having tied a 50-pound iron bar around his neck. He sank instantly to the bottom. His body was fished up with hooks after an hour's work.

VERDICT RETURNED.

"Baroness" De Massy Convicted of Manslaughter in New York.

New York, May 3.—"Baroness" Anisia Louise de Massy, the pattern designer, tried for the killing of Gustav Simon, a shirtwaist manufacturer, was convicted of manslaughter in the first degree, with a recommendation of mercy. The jury, to which the case was given at 3 o'clock Thursday afternoon, returned a verdict a few minutes before midnight and the prisoner was remanded to the tombs until May 9th, for sentence.

Gustav Simon, a wealthy shirtwaist manufacturer, was shot in his office on Nov. 19, and died a few hours afterward. Mme. de Massy, known as "Baroness" de Massy, was employed by Simon as a shirtwaist designer, and was arrested while leaving the building in which Simon's office was located, a few minutes after the shooting. She acknowledged she had a disagreement with Simon over a question of wages and had left the manufacturer's office a few minutes before her arrest, but has consistently maintained throughout the trial that she had nothing to do with the shooting.

There were but a few spectators in the court room to witness the midnight scene when the jury brought in its verdict. When the prisoner was brought in she was very pale, but appeared calm and faced the the jury without apparent emotion.

"We find the defendant guilty of manslaughter in the first degree, and recommend that the mercy of the court be extended to her," was the verdict read by Foreman Chaffee.

Mme. de Massy received the verdict calmly. Judge Blanchard, after the usual formalities, remanded the prisoner to the tombs to await sentence on May 9.

Balloon Went Up Nearly Two Miles.

St. Louis, May 3.—A balloon trip of almost three hours' duration and devoid of mishaps was made Thursday by Alen R. Hawley and Leo Stevens of New York, in the Orient, the balloon in which Mr. Hawley made his trip alone to Carrollton, Ill., last Saturday. The Orient got a splendid start, rising straight up until a northwestern air current was encountered at an altitude of about 2,000 feet. The two aeronauts were plainly visible and could be distinguished throwing out sand in their efforts to rise higher. Finally the balloon passed from view, and late in the afternoon Mr. Hawley telephoned that they had landed in a field about eight miles northwest of St. Louis. He stated that after passing through the clouds the warmth from the sun expanded the gas and the balloon reached an altitude of a mile and three-quarters. After drifting slowly for almost three hours, the aeronauts decided to land, as they were covering no distance. The deflated balloon was shipped back to St. Louis last night, and the aeronauts returned.

Death List Numbers 14.

Charleston, W. Va., May 3.—Three more bodies were removed from the Whipple shaft late last evening, making a total of 14 victims. The mine has been thoroughly explored and all who were working on the day of the accident have been accounted for.

NEWS IN BRIEF.

The West Australian government has refused an application to set aside a million acres of land for use as a Russian Hebrew settlement.

The Grant Cabin association was chartered Thursday by Circuit Judge Withrow, of St. Louis. The purpose of the association is to create an endowment fund of $50,000 to preserve a log cabin built by President Grant, near St. Louis.

Sir Chentung Liang-Cheng, the Chinese minister, took luncheon with the president Wednesday. The minister has been promoted to an important position in his country, and took occasion to say that good-by before leaving for China.

Arthur McEwen, chief editorial writer of the New York American, and well known through out the west in journalistic circles, died suddenly Wednesday at Hamilton, Bermuda. Heart failure was the cause of death, according to a cablegram received in New York.

Mrs. J. H. French, 5719 Delmar avenue, St. Louis, Thursday reported to the police the loss of jewels valued at $89,000. Mrs. French concealed the jewels in a waste paper basket. Her small son burned the contents. She searched the alley where the paper was burned, but found no trace of the jewels.

Deafness cannot be cured.

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

A drunkard feels very virtuous when abusing a dope fiend.

A little Kodol taken occasionally, especially after eating, will relieve sour stomach, belching and heartburn. J. B. Jones, Newport, Tenn., writes: "I ate—three one dollar bottles of your Kodol positively cured me of dyspepsia, and I can recommend it as that was three years ago and I haven't been bothered since with it." Kodol is guaranteed to give relief. Sold by B. J. Pulver.

A man is not as apt to lie about his age as a woman, but he evens the score by telling about his salary.

Kidney complaint kills more people than any other disease. This is due to the disease being so insidious that it gets a good hold on the system before it is recognized. Foley's Kidney Cure will prevent the development of fatal disease if taken in time. Sold by all druggists in Tecumseh.

Gossips never secure "permanent jobs."

DeWitt's carbolized witch hazel salve does not merely heal on the surface; it penetrates the pores and promptly relieves pain caused by boils, burns, scalds, cuts and skin diseases. It is especially good for piles. Beware of imitations. Sold by B. J. Pulver.

KING & KOMBS

The Mayors of

ADRIAN AND TECUMSEH

Were together at Tecumseh yesterday.

Early yesterday forenoon the HERALD man looked out on the street and saw W F King, mayor of Adrian, accompanied by John Combs, mayor of Tecumseh. The two men did not walk very fast as they were stopped in front of every store by some one who knew Mayor King and he seemed to know every man in Tecumseh. It really seems that Mayor King is the best known man in Lenawee county and why should he not be for he is noted in three different ways, as a Mason, as a man and as a chess player. Among Masons he is known all over the whole country, as a chess player there is no better in Michigan, as a man he is honor itself and loved by every one who knows him.

Some weeks since the ladies of the Monday club had the promise that W F King would come to Tecumseh and speak to them about Scotland and his late trip over there, but the date was never filled out and so he came over to talk to the Federation which included ladies of both clubs and yesterday he did this and the talk was highly enjoyed by nearly every member of both clubs at the hospitable home of Mr. John F. Hicks on Union street. Mr. and Mrs. W F King were the guests of Mr. and Mrs. John Combs and enjoyed a delightful visit

WALTER GREGG

Of Adrian, has leased the

PATTERSON HOUSE

At Tecumseh. He and Mrs. Gregg will arrive here Thursday.

After remaining closed up for 20 years, the Patterson House at Tecumseh will be opened up some time next week at a first-class $2 per day hotel. Walter Gregg, only son of Mr. and Mrs. C. W Gregg of this city, has leased the property with furnishings for the next three years and tomorrow will leave with his wife to open up his hotel at Tecumseh.

The deal has been brewing for some little time but for various reasons the representatives of the estate and Mr Gregg could not get together but yesterday the papers were signed up and Tecumseh is to have another hostelry with Walter Gregg in charge

Mr. and Mrs. Gregg are moving their furniture today and hope to get away by tomorrow. Since they have been here they have made many friends in a social and religious way and their unannounced departure from the city will come as a regret to their many friends.

While the hotel has been closed, so to speak, the owners have been living in it and have been keeping numerous roomers, but it is said that meals have not been served there for the past 20 years. At that time it is said that the proprietors of the Lilley house used to pay the proprietors of the Patterson house to keep out of the hotel field.

It is not expected that the name of the hotel will be changed, but that it will, after a sleep of 20 years be known once more as the Patterson house. The property is on Chicago street, and it is said to be the best hotel building in the city.—Adrian Times

Yost-Leonard.

Last Saturday evening, April 20, at their own home on North Summitt street, occured the wedding of Miss Gertrude Yost and Clinton M. Leonard. Only the immediate relatives of the contracting parties were present. Rev. L. M. Riley, the new pastor of the Methodist church, performed the ceremony.

Miss Yost is the daughter of Mr. and Mrs. Jacob Yost, who recently moved to Garden City. She is a charming and accomplished young woman. Mr. Leonard is a promising young man of good qualities. He is a trusted employ of the Wells Produce Co. They went to housekeeping at once.

The Traveler joins with their host of friends in wishing them much joy.—The Arkansas City Traveler.

Mr. Leonard formerly resided near Tecumseh and is well known here. He is the son of Frank Leonard, now of Arkansas City, Kansas.

One of the largest mortgages ever filed in Jackson county is one by the Rabst Brewing Co., of Milwaukee, Wis. in the sum of $3,500,000. The mortgage runs to the Wisconsin Trust Co. It is given in order that the stock of some of the stockholders may be purchased by other stockholders who comprise the company. The mortgage has to be filed in every county where property is owned by the company and will cost a small fortune in fees. It is typewritten, covering 121 pages and is bound in morocco.—Chelsea Herald.

There was once a sporting parson at Eastington, a place on the English coast, which was a favorite landing place for woodcocks at the time of their immigration to England. When the birds arrived, exhausted by their long flight, everybody in the parish, including the parson, at once turned out to join in the sport of knocking them down with sticks. One Sunday the people were in in church and the parson in the pulpit, when the church door was cautiously opened and a head appeared with a beckoning finger. "Cocks is coom." The parson hurriedly shut up his sermon case. "Shut the door and lock it," he cried to the clerk. "Keep the people in church till I've got my surplice off. Let's all have a fair chance."—Ex.

The poet Lowell asked "What is so rare as a day in June?" And the answer is: a right down good detective story. Lippincott's magazine is therefore lucky to secure for the complete novelette in its May issue one that is up to the top notch. "The Moyett Mystery," by Nevil Monroe Hopkins, is an exceptionally original in scheme, yet quite within the realm of reason. A satisfying conclusion is reached through rapid-acting scenes of thrilling obscurity.

Wreck on Lake Shore.

The Lake Shore local freight from the north Wednesday afternoon while taking the siding at the north end of the yard, spread the rails on the passing track and derailed the rear trucks of the engine and five cars of merchandise, one car stock and the caboose. The track was torn up for 600 feet and the train looked like a rail fence when it stopped.

The derailed train did not obstruct the main track, however, and traffic was in no way delayed. The wrecker arrived from Air Line Junction at 7 p. m. with a force of men to clear up the wreckage which was completed at 12 o'clock midnight. A large force of section men worked all night repairing the track.

Town Federation.

The annual meeting of the town federation was held at the home of Mrs. J. F Hicks yesterday afternoon at 2:30, about 50 being in attendance. Mrs. Tiffany, the president, presided. After the regular business of the federation, the following officers were elected for the ensuing year:

Pres.—Mrs. N. A. Howland.
Vice Pres—Mrs B. Hurrey.
Sec.—Mrs A W Mills.
Treas—Mrs J. J Belchel.

Mayor King of Adrian, was then introduced by the president and gave a very interesting talk on Scotland, the people and their habits. Mr. King recently visited that country and brought many views of the prominent cities and their buildings of interest back with him, which he exhibited to the ladies. Among those views which were of great historical interest were those of Lochs Lomond and Katrin, as at these Lochs was laid the scene of the Lady of the Lake.

The talk was interspersed with short stories to illustrate the character of the people of Scotland. Light refreshments were then served after which the ladies dispersed, each one expressing a desire to hear Mr. King again in the near future.

THE OLD RED MILL BRIDGE

Went out

WEDNESDAY NIGHT

And now the people of Macon, who desire to visit Tecumseh must come over Evans Creek by way of the lower bridge.

The part commonly known as the middle bridge, which is built on the dam went out Wednesday night. This dam belongs to the Smith estate and the going out of the dam causes some damage to the electric light plant for it is not capable of furnishing light to the streets and to all the village lamps and power to the wire plant at the same time. What arrangement will be made the HERALD was unable to find out yesterday nor yet today.

Geo. Smith says that many times the water has been 18 to 20 inches higher than it was Wednesday night and the dam held all right.

About 15 years ago a new bridge was built. Alfred James was president of the village council at that time and claimed that the township owned this bridge and should pay for the new one, but the council would not stand for this dicision and as near as can be found out the township paid only about $250 toward the new bridge. The loss of the dam is of course on the Smith estate or Electric Light Co, but of course the rebuilding should commence at once to keep the Macon trade from going to Clinton.

About 1870 the whole dam and bridge went away the last time, this was when Hammilton, the miller, was drowned. Miss Julia Hough thinks it is about 30 years since this time but Alfred James places the date about 1855. Anyway the accident of Wednesday night was an unfortunate affair and can but cause much loss and inconvenience.

We read in the Quincy Herald that one of the R. F. D. carriers has ordered a Victor automobile, for use during pleasant weather on his mail route and that the other carriers contemplate doing the same in the near future, if this auto proves successful. The automobile may be all right in pleasant weather, but just ask any of the boys how they would have liked to run one of the pesky things over some of the roads that we were afflicted with a while ago. When roads get so bad that a horse can't navigate them, what would a poor auto do?—Blissfield Advance.

NOON IN TECUMSEH

What is going on in town when the clock strikes 12.

Noon, the dinner hour, the hour of comfort, of pleasure and relaxation—the one hour in 24 which comes to men and women of every station with greater similarity than the hour of any other function in life.

Promptly as the clock strikes 12 in Tecumseh the shadows on anxious faces turn to lines of good will and if billinous hot bread, pies, spices and other indigestibles were excluded there would be no such words as dyspepsia or indigestion in the dictionary.

But the contrary is true and medical science has to step in and aid the man or woman who has been too busy to pay proper attention to health.

The greatest step forward in medical discovery is Mi-o-na, which cures all stomach and digestive troubles.

In hundreds of the best homes in Tecumseh and adjoining towns the handy little tablets, so pleasant to take, yet effective, have given quick and lasting relief in indigestion and that disagreeable full feeling after eating.

Mi-o-na acts very gently. Much of its wonderful power over indigestion comes from its uniform but sustaining action. The required stimulating and strengthening is given to the important organs of digestion without producing the slightest weakness or reaction.

A 50 cent box lasts for a couple of weeks and will ward off a dozen attacks of indigestion. C. A. Wright gives a guarantee, absolute and unqualified, with every box of Mi-o-na to refund the money if it does not give satisfaction.

MAY PARTY

Given by the young ladies of Tecumseh.

WILLETT'S FULL ORCHESTRA

Of Adrian, Furnished the Music.

They May party given at Witherell hall Wednesday evening by the young ladies of Tecumseh was a pleasant affair in every way. Sixty couples enjoyed the dances until 3 o'clock. Willett's full orchestra of Adrian, furnishing the music in their usual pleasing manner. The hall was handsomely decorated in festoons of crepe paper in the delicate shades of blue, lavender, pink, yellow and green, white being used also.

These colors were also used in bunting to screen the orchestra and relieved with palms. The reception hall and the card room were decorated with these colors but were made particularly attractive with cosy corners, easy chairs, divans and couches. An elaborate luncheon was served in the Odd Fellow hall by the members of the Rebekah lodge.

Those from out of town who attended the May party were Edith Shull, Raymond Mills, Finley DeSpelder, of Ann Arbor; Clara Mulligan, Bertha and Fred Savage, Gertrude Bowen, Mr. Clement, Shirley Bowen, of Adrian; Mae Kopke of Holloway; Donald Heesen of Lansing; Geraldine and Mildred Heesen of Toledo; Hazel Exelby of Britton; Earl Bartlett, Catherine Clark, John Clark, of Clinton; Charles Waring of Dundee; Sherman Camburn of Tipton.

My best friend.

Alexander Benton, who lives at Fort Edward N. Y., says: "Dr. King's New Discovery is my best earthly friend. It cured me of asthma 6 years ago. It has also cured my son's wife of consumption. The first bottle ended the terrible cough and this accomplished the other symptoms left one by one until she was perfectly well. Dr. King's New Discovery's power over coughs and colds is simply marvelous." No other remedy has ever equaled it. Fully guaranteed by C. A. Wright, druggist. 50c and $1 Trial bottle free.

The man who realizes the cowardice of people can always put up a great bluff.

FOR OUR READERS.

To prove that Hyomei will cure catarrh every reader of the Herald can have one on guarantee.

Is there any doubt in your mind as to the power of Hy-o-mei, the medicated air treatment, to cure all catarrhal troubles the offer made by C. A. Wright should expel that doubt. He gives his personal guarantee with every dollar outfit of Hy-o-mei he sells to refund the money unless it gives satisfaction. He takes all the risk of cure and no reader of the HERALD can afford to suffer longer with catarrh when an offer like this is made.

With every outfit is a pocket inhaler and Hy-o-mei breathed through it reaches the most remote air-cells of the nose, throat and lungs, destroying all germs and healing the irritated membrane.

Hy-o-mei gives you a health giving climate in your own home so that when you breathe its medicated air your nose throat and lungs will be filled with air like that on the mountains where grow balsamic trees and plants which purify the air with their antiseptic fragrance so healing to the respiratory organs.

You will notice benefit from the first use of Hy-o-mei and it will not take many days' treatment to convince you that in this remedy you have found a complete and lasting cure for all catarrhal troubles.

SHORT TALKS BY L. T. COOPER.

DEBILITY.

Many people who talk to me say: "I feel half sick all the time. I dont just know what's the matter with me." This is general debility. It's very common. People who get in this shape have my sympathy. They aren't sick enough for bed so they drag around and their families get exasperated with them.

E. McDADE.

There are two causes for this condition; bad habits and a weak stomach. By bad habits I mean eating irregularly and too fast and not chewing the food thoroughly. The stomach gives out and loss of appetite, billiousness, constipation, and general debility result. First get the stomach in shape and then be more careful in the future, and the worn out, despondent, half sick feeling will be a thing of the past.

Two bottles of Cooper's New Discovery will put the stomach in shape. Common sense will do the rest. There are fifty thousand people in this country who know this to be true because they've tried it.

Here's a letter from one of them:

"I was all run down from overwork, lost ambition and energy and could not sleep. It was difficult for me to attend to my work owing to that tired-out feeling. I secured two bottles of the New Discovery medicine and determined to try it. The result delighted me for renewed strength and vigor and energy came with the first few doses. It's effect was different from anything I had ever taken. I finished the two bottles now and feel well and strong again." E. McDade, 839 Dix Ave., Detroit, Mich.

We hear favorable reports of these famous medicines every day. Ask us about them.

JOHN J. ORR.

WEAK KIDNEYS MAKE WEAK BODIES.

Kidney diseases cause half the ills of Tecumseh people.

As one weak link weakens a chain so weak kidneys weaken the whole body and hasten the final breaking down.

Over work, strains, colds and other causes injure the kidneys and when their activity is lessened the whole body suffers from uric poison.

Aches, languor and urinary ills come with a tendency toward diabetes and Bright's disease. There is a help. Doan's Kidney Pills act directly on the kidneys and cure every kidney ill. Tecumseh cures are the proof.

John B. Smith, deputy sheriff, living on east Chicago street, Tecumseh, Mich., says: "I have suffered a great deal from pains in the small of my back and about the kidneys and at times it was very hard to do my farm work. On bending over I would be seized with dizzy spells and spots of fire would flash before my eyes, at night I was restless. I doctored a great deal but got no relief. Finally I read of Doan's Kidney Pills and I tried them. In a short time Doan's Kidney Pills had effected a complete cure and I will always recommend them."

For sale by all dealers. Price 50 cents Foster-Milburn company, Buffalo, N Y., sole agents for the United States. Remember the name Doan's, and take no other.

Does Your Heart Beat

Yes, 100,000 times each day. Does it send out good blood or bad blood? You know, for good blood is good health; bad blood, bad health. And you know precisely what to take for bad blood—Ayer's Sarsaparilla. Doctors have endorsed it for 60 years.

One frequent cause of bad blood is a sluggish liver. This produces constipation. Poisonous substances are then absorbed into the blood. Keep the bowels open with Ayer's Pills.

An Ideal Laxative.

Physics and Cathartics which purge, unload the bowels, and give temporary relief, but irritate, and weaken the digestive and excretive organs. Laxative Iron-ox Tablets are as different in effect as truth is from falsehood. They nourish the bowel muscles and nerves, giving them strength and vigor to do the work nature intended, thus effecting a permanent cure by perfectly safe and natural means. The best laxative for children. Chocolate coated tablets, easy to take, never gripe or nauseate. 10c, 25c and $1.00 at all drug stores.

The Best Laxative for Children.

Parents should see to it that their children have one natural, easy movement of the bowels each day. Do not dose the child with salts or griping pills, as they are too powerful in effect, and literally tear their little insides to pieces, leaving the bowels weakened and less able to act naturally than before. Laxative Iron-ox Tablets tone and strengthen the bowels, and stimulate all the little organs to healthy activity. Chocolate coated tablets, easy to take, never gripe or nauseate. 10c, 25c and $1.00.

Show on Cattle Farm.

Chicago, May 3.—The initial performance of "101 Ranch," portrayal of everyday life on a western ranch, was given at the Coliseum here last night. The new wild west show is different from its predecessors, as no attempt is made to make the performance spectacular. There are the usual cowboys, ponies and Indians, but nothing is attempted beyond an exemplification of every-day life on the famous "101 ranch," near Pliss, Okla. After a two-weeks' engagement here the show will go to the Jamestown exposition. During the performance last night an Indian chief and a cowboy started from the arena to ride to Washington with an invitation for President Roosevelt to attend one of the performances to be given at Jamestown. These messengers will sleep out, cook their own meals and otherwise comport themselves as was the custom in the early days before the railroads.

Fairchild to Be Arraigned.

New York, May 3.—Counsel for the defendant arranged with the district attorney's office Thursday for the appearance, next Monday, of Charles S. Fairchield, former secretary of the treasury, who, in December last was indicted on six counts charging forgery in the third degree. The case grew out of what came to be known as the "Prussian bond transaction" of the New York Life Insurance Co.

Mr. Fairchild then a trustee of the New York Life, was in Europe when indicted, but returned to this country six weeks ago. He will be arraigned before Justice Greenbaum in the criminal branch of the supreme court.

Family Sadly Stricken at Sea.

New York, May 3.—Four deaths, three in one family, were recorded on the White Star liner Baltic's log when the ship landed at her dock from Liverpool last night. In the steerage, Gustace Syenson was bringing his wife and nine children to America. Three of the children were taken ill with laryngitis and died. They were buried at sea. The fourth death was that of Mrs. M. A. Robbins of Boston, who succumbed to an acute kidney trouble.

Several hundred members of the societies of the armies of the Ohio, Cumberland and Tennessee, who are here as the invited guests of the Army of the Potomac, with their hosts, and members of the Grand Army of the Republic and army and naval officers, attended a reception given at the Library of Congress last night in honor of the veterans. The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, or the kidneys themselves break down and waste away cell by cell.

Bladder troubles almost always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's **Swamp-Root**, the great kidney, liver and bladder remedy.

It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake; but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

PASS MILITARY BILL

House Gives Simpson's Meas- Unanimous Vote.

SENATE MAY DEVELOP FIGHT

Provide $40,000 Annually for Erecting Armories—Primary Bill Will Be Considered This Week—Anti-Saloonists Working Hard.

Lansing, Mich., May 7.—The military bill which is intended to give a new lease of life to the Michigan National Guard passed the house last night by a unanimous vote, and was given immediate effect.

No changes were made in the bill, Rep. N. F. Simpson, of Van Buren, who has handled it so successfully in the house, insisting that the amendments proposed might better be considered in the senate committee than in the house at this late stage.

He won his point and the bill was put through without a word of comment. It provides $40,000 annually for erecting armories, $10,000 to each company. There is also provision made for paying the enlisted men for attending drill.

In it present form the bill requires the election of second lieutenant of companies and the promotion of all officers above that rank by seniority. Any officer above the rank of captain, however, is eligible to appointment as brigadier-general.

It is expected that there will be a fight in the senate over the matter of election of officers unless differences are ironed out before the bill comes up there.

Lansing, Mich., May 7.—It is expected that the primary election bill will be up for consideration in the senate early this week and once more the boxers will line up, not to defeat the bill, but to make it as inefficient as possible, before getting under cover on the final roll call. There will have to be some amendments made to the bill, it is said, but the administration men claim they will be in control and able to handle the bill.

Lansing, Mich., May 7.—The state anti-saloon league people are now going to use all their power to secure the passage of their new bill known as the Agens-Luger, which they are substituting for the Lugers bill that has created such a flurry. The new bill does not cover nearly as much as the Lugers bill. Here are the essential features in it:

Applies only to townships, incorporated villages and cities of the fourth class.

On petition of 40 per cent of the electors the question of saloon or no saloon must be submitted.

Once carried, the proposition cannot be resubmitted for two years.

Continuous prohibition for six years is enough to make it permanent.

Misdemeanor to influence voters to sign or refuse to sign petitions, or to influence a person to vote yes or no.

Where the law has been adopted druggists must file statements weekly with the county clerk containing the names of persons to whom liquor was sold.

Three Children Burned Alive.

Sault Ste. Marie, Mich., May 7.—A special to The News here from Blind River says that three children were burned to death in a house there yesterday while the mother was away. The oldest was five years, the youngest six months. The mother, a widow named Dominique, went to a neighbor's after building a big fire in the stove, leaving the children in the house. In a short time he place was discovered on fire by neighbors, but they were unable to rescue the little ones.

Russian Town Destroyed.

Warsaw, May 7.—Fire today totally destroyed the town of Tyrsowce, in the province of Lublin. Three thousand persons are homeless.

Retreat Patient Killed.

Dearborn, Mich., May 7.—P. A. Lundergan, a patient at St. Joseph's retreat, while out for a walk Sunday morning with other patients in charge of an attendant, was struck by an Ypsi-Ann interurban car and killed. The accident occurred below the Rouge bridge. Lundergan was 40 years old, and his home was in Mason, O. He was the fourth man to be killed by this car in two years.

STATEMENT BY SECRETARY

While Cold Weather Retards Seeding Somewhat, a Few Days of Sunshine Will See Planting in Full Progress —Canadian Reports Gloomy.

Chicago, May 7.—Reports of damage to the crops, which have been so numerous of late, owing to the unseasonable weather and the ravages of bugs, having been greatly exaggerated, and for purposes, according to James Wilson, secretary of agriculture, who last night said, in part:

"Spring seeding is a little backward on account of the cold weather, but there is plenty of time between now and the last of September to grow a crop of all kinds of grain. In Minnesota and the Dakotas, where we raise most of our spring wheat, seeding has been delayed about two weeks; but, with a few days of sunshine, planting will be in full progress.

"While the weather has been unseasonably cold in some grain regions, still it has not been severe enough to retard plowing and my advices are that the ground in those states has been nearly all made ready to receive the seed. We will have warm weather in a few days, and I don't see what is to prevent a normal crop of spring wheat in the United States.

"In the southwest there have been numerous rumors for the last three weeks of serious damage wrought by ege to the winter wheat have been grossly exaggerated.

"From my knowledge of the southwest, where so much of our winter wheat is grown, the advices I have at hand lead me to believe that the southwest will have its usual crop this year. This applies to oats and corn as well as to wheat.

"Taken as a whole, I see no cause for complaint, and I think it will be found, when thrashing time comes, that all this cry of crop damage has been made for a purpose."

Kansas City, May 7.—T. J. Broadnax, president of the Kansas City board of trade, said yesterday:

"There seems to be a difference of opinion among the dealers as to damage to crops in this part of the southwest as the result of the recent cold rains and freezing weather. The opinion predominates that the grain has not suffered as much as reported. It will be a week before anything definite is known."

Roger Woodman, of the Price Current, said yesterday: "There is not much in the stories of reported crop damage in the northwest."

G. V. Flack, of the Midland Elevator Co., who returned yesterday from a trip through the Kansas fields, said:

"I do not believe there has been any great damage to the wheat crop in Kansas. Reports from our agents in northern Kansas show that while wheat has not made progress in the past week, it has not deteriorated any, and I think that with a few days of warm weather now the crop will show great improvement. We have received no reports of damage by bugs in the northern half of the state."

St. Paul, May 7.—A special to the Dispatch from Winnipeg, Man., says: "Crop prospects for western Canada at the present time are bad and it is doubtful if much seeding has yet been done, despite reports to the contrary. Last night snow fell throughout the west, again delaying farming operations when good weather was so badly needed."

Obelisk Completed.

Branford, Conn., May 7.—The obelisk which will be set up to commemorate the opening of the Sault Ste. Marie canal has been completed at one of the local quarries, and is ready for shipment. The shaft is of hammered Stony Creek red granite, is 45 feet long, 5 feet 3 inches square at the foot, tapering to a dimension of 1 foot square and is then finished to a point; it weighs about 60 tons.

A narrow escape.

G. W. Clovd, a merchant, of Plunk, Mo., had a narrow escape 4 years ago when he ran a jimson burr into his thumb. He says "the doctor wanted to amputate it but I would not consent. I bought a box of Bucklen's arnica salve which cured the wound." 25c at C. A. Wright's.

TORNADO IN TEXAS

Several Villages Reported as Wiped Out.

TWO HAVE BEEN KILLED

Many People Injured—Enormous Damage to Property and Live Stock—Telephone and Telegraph Wires Down, Making Details Meagre.

Fort Worth, Tex., May 7.—A storm of wind and rain which was general throughout a considerable area of northern Texas yesterday, and which at some places assumed the proportions of a tornado, according to meagre reports received here last night, resulted in the loss of at least two lives, the injury of many other persons, and great damage to property and crops. Several villages were wiped out, but because of the prostration of both telephone and telegraph wires, details are almost impossible to obtain.

At Deport, 20 miles from Paris, the storm passed northeast, cutting a path 100 yards wide. The business part of Deport was not touched, the damage being in the residence quarter. The Baptist parsonage was blown to pieces. R. H. Bryson's residence was demolished and several other residences were damaged. No one was hurt. Crops were damaged and many fences and barns were blown away.

It is reported that at Halesboro, the wife and child of Andrew Bell were hurt. A terrific wind passed over Sulphur Springs.

West of Sulphur Springs, the wind assumed the proportions of a tornado, carrying great property damage.

A passenger train on the Cotton Belt was held up by the train crew until the storm passed. The engineer could see the twisting cloud as it swept across the tracks and cut a swath through the country. As soon as the storm passed, the train proceeded and no one was hurt.

Antioch, 7 miles north of Sulphur Springs, was almost destroyed. This is in the tornado belt and most of the homes are provided with storm cellars. To this fact is due the escape of a number of those in the path of the storm. The home of William Lemmons was destroyed, entailing a loss of $10,000. Three barns on the places were destroyed and some live stock killed. A tenant, Barzil, with his wife and seven children, saw the torm coming and ran for the cellar. Barzil was crushed by flying debris. Five of the children reached the cellar in safety but Mrs. Barzil and two of the children were fearfully injured.

The home of James Ferguson was destroyed and Mrs. Ferguson hurt by flying debris. Ben Pogue and his wife were hurt when their home was blown down, but it is thought they may recover.

Several other persons were injured at Antioch. Crops in the path of the storm, which was unusually wide, were destroyed.

Bird Wright, 300 population, was destroyed, and one resident was killed, while at least one other was fatally hurt. Crawford Martin and L. P. Connor were seriously hurt, and may die.

Ellen Terry Again Married.

New York, May 7.—Announcement was made yesterday that Ellen Terry, the English actress, is again a bride. She was married to James Carew, her leading man, in Pittsburg, on March 22. Mr. Carew made the announcement. The ceremony was performed by a justice of the peace. Mr. Carew is 35 years old, while the bride is 59. She has already been married twice. Nevertheless it is understood by all their friends that it was purely a love match, the beginning of which was soon after their first meeting. Mr. Carew, who is a native of Indiana, is well known on the stage.

Carries Record-Breaking Cargo.

Port Colborne, Ont., May 7.—The blockade caused by the breaking of the bridge at Welland has been raised, and boats Monday were moving through the canal as usual. The Canadian steamer Iroquois, which passed down yesterday, had on board 81,000 bushels of wheat, the largest grain cargo ever carried through the Welland canal.

Fifteen Men Killed in "Quarrel."

Tunis, Algeria, May 7.—A sanguinary quarrel Monday between a band of Kabyles and a number of phosphate miners from the Methoula mine, resulted in the killing of 15 men and the wounding of many more. Troops finally restored order.

PREACHER'S SAD FATE.

After a Trial Sermon He is Rejected; Killed During Night.

Grand Rapids, Mich., May 7.—Rev. Henry Bryant, a negro Baptist preacher from Bridgeport, O., was found dead Monday morning in a folding bed which had shut during the night, breaking his neck.

Bryant's fate is unusually sad, as he leaves a widow and eight children destitute. The circumstances attending his visit here, too, were pathetic. The minister died with a disappointment in his heart.

He had come here to preach a trial sermon at the Messiah African Baptist church, with a view of accepting a call as pastor to that congregation. liked, but it was decided to turn him He preached his sermon, and was well down with the explanation that the church couldn't afford to pay him a living salary, considering his large family. A collection was taken to defray his expenses home to Bridgeport.

He went to the home of James Boyd, a member of the church, intending to go back to his family in the morning.

TRAIN PILE-UP KILLS ONE.

Peculiar Accident on Lake Shore at Kalamazoo.

Kalamazoo, Mich., May 7.—One man killed outright, another said to be badly hurt, a residence cut in two, 19 cars piled in an indiscriminate mass, street car service crippled and interurban traffic tied up is the result of a freight wreck on the Lake Shore railroad in this city at 1:30 yesterday morning. A double-header freight crashed into a street sweeper.

The dead man is Abner Wenger, fireman, of Elkhart, Ind., and the injured man is John V. Brownell, street sweeper. He is in Borgess hospital, suffering from a broken arm, bruises, a scalp wound and possible internal injuries.

The house that was cut in two is that of F. S. Daniels. The derailed train lopped off the kitchen and dining room.

Will Operate on Ward.

Lansing, Mich., May 7.—Rep. C. E. Ward is seriously ill with appendicitis. This is the statement of Dr. Scidmore last night after a conversation with his legislative colleague, Dr. Abrams, and Dr. Goff, of Bancroft, Rep. Ward's own physician. Dr. Abrams said: "Mr. Ward is not so well as when I saw him on Friday night. The slight symptoms of appendicitis which were then present have become very marked. It was necessary to pack him in ice last night and I think he should be operated upon today."

Croswell Will Bond.

Croswell, Mich., May 7.—At a special meeting held here yesterday to decide whether the town would bond for $18,000 for paving and improving the streets only 25 votes opposing the proposition were cast, making the decision to bond almost unanimous.

Just two years from the day of its beginning, Battle Creek's elegant new postoffice, and Calhoun's only federal building, was completed and ready for occupancy. It was commenced May 4, 1905. The building cost $105,000 and is 106 feet long and 76 feet wide.

Turkish Troops Annihilated.

London, May 7.—It was announced Monday afternoon in a special dispatch from Constantinople that seven battalions of Turkish troops have practically been annihilated during a battle with rebels in the province of Yemen, Turkish Arabia. The commander-in-chief of the Turkish forces is urgently calling for reinforcements. The outbreak in Yemen began about 12 years ago. The Turks have repeatedly announced that the Arabs were crushed, but the revolt has always been renewed. The full strength of a Turkish battalion is 922 men of all ranks.

Deafness cannot be cured.

By local applications as they cannot reach the diseased portion of the ear There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

ROUND ABOUT US.

Emmet Brink, an employe of the city of Coldwater, was recently placing a carbon in a street lamp when he received a shock and had his hands badly burned He was thrown to the ground unconscious and the fall released his hands or he would have been killed as the wire carried a voltage of 2,000. He soon revived and was able to go to work but it was a narrow escape. He did not know that the wire was charged as the circuit is not run during the day but the trouble is laid to a cross wire.—Hudson Post.

Saturday afternoon as Mrs J. E Haviland was standing near her north kitchen door a bullet came whizzing through the door, missing her head only by a few inchrs and lodged in the wall opposite. The ball was of 22 caliber, so of course it was not fired very far away. Nobody seems to know just where the bullet came from but it was evidently fired by some one close by and was carelessly aimed toward the Haviland home. This careless handling of firearms in the village should be stopped at once by the authorities.—Onsted News.

A 3 months old pup belonging to Tom Wilson near Cone went mad last Saturday and bit Mrs. Wilson on the hand and arm, their daughter Ada, aged 13, on the hand, and their hired man, Ed Briggs, on the hand A horse and some pigs were also bitten The dog was immediately killed and its head taken by Thos Carman, brother of Mrs. Wilson, to Ann Arbor, where an examination proved beyond doubt that the pup was mad. Mrs. Wilson and daughter and their hired man were taken to Ann Arbor Wednesday for treatment and it is hoped that nothing serious will develop. —Petersburg Sun.

LITERARY NOTES.

Staggering to our matter of course ideas on the punishment of crime is Brand Whitlock's article "What good does it do?" in the May number of Everybody's. The brilliant young Mayor of Toledo, presents what is usually termed the idealistic view with a cogency and power of conviction that are bound to arouse discussion.

The May number of the Metropolitan Magazine is a garden number and the article by Jas Anderson, "The Gardeners," is a garden feature of the issue A charming feature it is with its honest call to the city worker, to arouse himself and realize how beautiful and beneficial tue country is. The illustrations of this article are in keeping with it and are unusually striking.

* * *

Mary Fenollosa who wrote "Truth Dexter" and "The Breath of the Gods" contributes to the May Smart Set one of her most delightful stories of Japan —a love story full of delicate humor and subtle analysis. She has called it "Cupid San" and no more charming piece of fiction has recently appeared. No magazine publishes such a wide variety of stories and the May issue is a fine one.

* * *

"Henry James— in His Own Country" "is a study, in the May Putnam's, of the effect upon the American press of the recent sojourn of Mr. James in America after an absence of many years, during which he has made his home in England. The writer, Mr. H. G. Dwight, is a great admirer of the distinguished novelist and his comments upon these newspaper criticisms are by no means lacking in humor.

In many respects the May Atlantic is memorable for its contributions about the late Mr. Thomas Bailey Aldrich. Mr. Bliss Perry contributes a biography and study of Mr. Aldrich and his writings, There also appear two brief poems of "occasional" quality on Mr. Aldrich's death. These are "The Poet's Sleep," by Richard Watson Gilder and "The Shawdow on the Flower," by Edith M. Thomas,

The May issue of McClure's magazine is both important and pleasing. The first article is C. P. Connolly's "The Fight of the Copper Kings," in which are described in a vivid manner the struggle between F. Augustus Heinze and the Amalgamated Copper Company, the picturesque campaign of 1900 and re-election of Clark to the Senate and the beginnings of the great legal battle over the Butte Hill. "The Reminiscences of a Long Life" by Carl Schurz give his personal experiences as a General in the Civil War, describe the great leaders and throw new light on many important events of the war.

The front cover page of the May American Boy with its fine illustration of a power boat scudding through the water, brings a foretaste of summer pleasures. The contents of the magazine will suit the taste of every healthy-minded reader. Increasing interest will be manifested in the continued chapters of the serials by Tomlinson, Sprague, Stratemeyer, Shute and Ellis. Boating and sailing occupies a prominent place, as there are articles on, Hints for Yachtsmen, giving the rules of the "road at sea," with information as to nautical terms, lights, buoys, etc.; Canoeing, How to build a Twelve foot Rowing Skiff and a fine story of a boat race entitled The Vindication of the Vesper.

Of the woman's publications which come to our tables The Ladies World always seems to offer the most for the most for the least—the stories are good, the special articles timely, the departments practical, the illustrations high class and the prices moderate. The May number just to hand opens with a paper treating Jamestown and the exposition in a very unusual and interesting way. A new serial by Hugh Pendexter, with illustrations by Pitney, opens attractively and the Princess and the Plowman comes to a conclusion. The fashion department is full of hints for summer clothes with appropriate paterns, There is a lesson on remodelling the wardrobe and the usual sensible helps in housekeeping, in the entertainment and care of children, in etiquette and the cultivation of good looks.

AMERICA'S MAJESTIC SEA LINE

Wonderful Array of Battle ships on Hampton Roads.

Never yet has Norfolk of old the port of naval rendezvous witnessed so imposing an assemblage of war craft as now lies in the harbor between Point Comfort and the exposition grounds. Though but the advance guard of the great gathering of fleets that will be here during the exposition, the fleet is impressive, not only for its number and power, but by reason of the fact that it is wholly American.

Sixteen first class battleships strung along a line extending three miles, with a number of secondary craft make up this stupendous array of the nation's ocean power, presenting a spectacle to stir the soul of patriotism. Other ships will join, lengthening this majestic line and never before have Americans been privileged to witness the power of the nation in such compact concourse. This fleet constitutes the greatest assemblage of American warships ever held.

It is the great new navy on parade; the new navy with which the nation has assumed the second place among the naval powers of the earth. The fleet is manned with over five hundred officers and thirteen thousand men. Twenty abreast this splendid host of American seamen on the march would take two hours to pass a given point. The passage through this formidable line on one of the many ferry boats that ply on Norfolk harbor, will arouse the amazed interest of the dullest and one feels that the nation can never go wrong while such ships and such men stand sentinels at its sea gates. There is already a grand exposition on the waters of Hampton Roads, worth alone a trip across the continent to witness.

One of the most important exhibits to be seen at the Marine appliance building, is a display of ordinance from the Vicker's Maxim Co., one of the largest manufacturers of guns and firearms in England.

Great importance is attached to the decision of this firm to participate in the ordinance exhibit at the exposition in that it is a recognition of the value to exhibitors to enter into the display of this line of manufactures.

The exhibit consists of one 6-pounder, semi-automatic gun with naval mounting and automatic pack gun, together with several pieces of lighter ordnance, also a display of saddlery and amunition.

The Capture of Jefferson Davis.

How Mrs. Davis prevented her husband from escaping in his flight after the fall of the Confederacy is told in Mrs. Avary's book, "Dixie After the War." After leaving Washington Ga., Mr. Davis had heard that marauders were in pursuit of his wife's cortege, and, turning out of his course he rode hard across country, found his family, conveyed them beyond the present danger, as he thought, and was about to renew his journey south. The party camped, when he was roused at dawn by his negro servant, who said troops were coming Mrs. Davis begged her husband to leave. His horses and weapons were near the road down which the cavalry was coming. In the darkness of the tent he caught up what he took to be his raglan, a sleeveless waterproof garment. It was hers. She then threw a shawl over his head. He went out of the tent, she keeping near. "Halt!" cried a trooper, leveling a carbine at him. Mr. Davis dropped his wraps and hurried forward. Mrs Davis saw the carbine, cast her arms about her husband and lost him his one chance of escape, for he might have slipped away in the dark.

Choice of Cow's Milk.

A writer states that where commercial value is the only point at issue a milk must have a high percentage of solids in order to be "good." This is not true, however, where weak digestion is to be dealt with. Skim milk contains nearly all the protein of the whole milk, but after the fat in the cream has been removed the milk loses half its fuel value. What is left, however, has a value equal to that of the whole milk for the building and repair of tissue, for the making of blood and muscle and bone, while it has half the value of the whole milk for supplying heat and muscular power. Buttermilk is practically sour skim milk. Other things being equal, the milk of a cow which gives a large quantity is preferable to that of a cow giving a small quantity. The former is sure to have a rugged constitution, good digestive power, depth of respiration and good physiological traits. A phlegmatic temperament in the animal is desirable.—Medical Record.

Exorbitant Premiums.

"What would you think of a 99 per cent premium?" said an insurance agent. "A premium of $99,000 on a $100,000 policy. Hardly worth taking out, eh?" Such a policy was once taken out, though, on a ship thought to be lost. It is a common thing on overdue ships to take out policies at 80 or 85 or 90 per cent. On the Bulgaria and the Croft in 1899 policies at 90 per cent were taken out, and on the Adelaide Mary, even after two of her lifeboats had been picked up, a policy of 92 per cent was issued.

Blue Ribbon Meeting.

To the many thousands who have been making an annual pilgrimage to Detroit during July no news could have been more welcome than the announcement that Blue Ribbon week will be restored at Grosse Pointe track. Conditions made the 1906 meeting an impossibility and the loss was all Detroit's, the Blue Ribbon meeting having grown to be the sporting event pre-eminent in the northern states.

Even now a number of fast harness horses are at work on the track and in various parts of the country hundreds of others are being pointed toward the rich events that will be decided at Grosse Points July 22 to 24. Of greatest interest is the $10,000 merchants' and manufacturers' stake for green trotters, the oldest and greatest classic of the turf. There is no event which the breeders and trainers so desire to win as the M. & M., and while other renewals have been uncertain at such an early period as this, the 1907 race promises to be the banner one of them all. There are 26 eligibles and in this lot a majority have shown ability to trot in 2:10 or better, so that with luck and good weather there is a reasonable chance that the time honored record for the event (2:08¼ by Eleata in 1901) will be relegated to the pages of the turf history.

The splendid list of entries for the M. & M., fortells a wonderful season of light harnessing, while other stakes compare favorably with the main attraction. The Chamber of Commerce for pacers has listed 21 and 16 in the Horseman and Spirit of the Times stake for 2:14 trotters. There will be 12 class races daily. Excursion rates are looked for and Detroit expects to again enjoy the gala Blue Ribbon week.

BASE BALL.

Tecumseh's Southern Michigan leaguers played their first game of the season in Adrian Sunday and trounced the Adrian Blues 15 to 0. The slaughter was all the more appalling from a local standpoint because most of the Tecumseh team was composed of Yannigans The heavy batting of Tecumseh was aided in producing runs by poor head work and ragged support on Adrian. Tecumseh's recruits handled themselves in good shape. Hildinger, formerly with Montpelier, starred at the stick, getting two singles and a double and the extra base hit drove in three runs. Capt. Slear made a difficult running catch in center, while Beasley, at third for Adrian, gathered in a one-hander that resulted in a double play, Tecumseh made two fast double plays. Following is the score by innings:

Innings	1	2	3	4	5	6	7	8	9	R	H	E
Tecumseh	3	1	0	2	0	0	1	4	4	15	13	1
Adrian	0	0	0	0	0	0	0	0	0	0	8	6

Batteries—Johnson and Mitchell, Kubitz, Mulbach and Gorman; Krueger, Hassett and Griswahn.

A Good Chew That Stays Good

There's a good reason why you always find Blot Chewing Tobacco just as fresh and moist, clean and sweet and tasty as it ought to be to be enjoyable—and you'll find that reason in the neat, heavy paper, tinfoil-wrapped package in which you now buy

BLOT

CHEWING TOBACCO

And it is for that very reason altogether better than any other package of fine cut chewing tobacco you can buy for 5c. When you buy tobacco out of an open pail or in a flimsy wax paper bag you shouldn't be surprised when it is dry and tasteless and dusty—think of the way it has been exposed.

Get Blot and you'll get the best—and in a package that keeps it best. The revenue stamp guarantees full weight.

An Honorable Statement.

Editor of the HERALD:—

The comment is being made by some of our citizens that the Anthony Fence Co is being furnished with light and power through my connection with that concern and to the detriment of our village lights. I wish to say right here that it is absolutely untrue and without any foundation whatever.

In this connection I wish to make this statement. I consider it clearly my duty as President of this village to first look after the interests of our citizens and the welfare of the village regardless of any private or personal interests that I may have.

It is also as clearly the duty of the Electric Co. to furnish the village with light and if it is possible to fulfill their contract with this village, in preference to any subsequent contract they may have made with any private concern or corporation. I am informed by the Electric Co., that they have not had sufficiet power since the dam went out to furnish lights for the village alone; that the power furnished the Anthony Fence Co. is so much less than is required by the village that the running of that plant has not deterred them in any way from lighting the village.

Our present condition is to be deplored. It is indeed a public calamity but the closing of our factories supplied by this power, throwing scores of men out of employment and subjecting those industries to heavy financial loss would be fully as great a calamity.

The darkness of our village for any length of time is dangerous and a menace to the public welfare of all citizens. Both the Electric Co and your village council understand this fully and are now doing and will continue to do everything in their power to overcome our present difficulties and bring speedy relief and protection to our village and its industries.

The destruction of the bridge is also a loss to the business interests of our village and a great inconvenience to public traffic. The township board and village council have already taken under advisement a new structure that will be built right and in such a manner that will avoid a similiar disaster for all time to come. A temporary bridge will be built as soon as possible for the convenience of the traveling public.

So far as I am concerned I am perfectly willing at any time to state my opinion or position upon all matters pertaining to the interests and welfare of this village and I believe that every member of your council will express the same sentiment. I ask our citizens to be reasonable and as patient as possible. There is much to do and it will require time to do it.

JOHN H. COMBS,
Village President.

Wit and Wisdom Banquet.

The 12th annual banquet of the Wit and Wisdom club occured at the home of Dr. L. G. North Friday evening May 2nd. At seven o'clock the members of the club and those taking part in the program sat down to a three course dinner. The tables were decorated with carnations and hypatica and the place cards were hand painted with violets. Frank Hurst acted as toastmaster in his usual happy manner introducing the following persons who responded to the question "Who's who" in the club.

The Doctor—Dr. L. G. North.
The Merchant—Mrs. Rosacrans.
The Dentist—Dr. E. D. Brown.
The Farmer—Albert Howard.
The Banker—J. H. Smith.
The Preacher—Rev. Ward.
The Teacher—Miss Cowan.

After these persons had tried to prove their calling was the all important one, Mrs. F. D. Rector in witty verse claimed for the housekeeper the highest place. Tansley's orchestra gave several selections during the evening. The secretary was instructed to send a letter of sympathy to Dr. and Mrs. Howell who were unable to attend on account of sickness. The club then adjourned to meet on the first Friday in June for their annual picnic.

JUNIOR RECEPTION

At the home of

DWIGHT CLARKSON

Friday evening in Honor of the Teachers and Seniors.

The juniors of the Tecumseh high school gave a reception in honor of the teachers and seniors at the home of Dwight Clarkson last Friday evening. The house was prettily decorated in the class and high school colors, the front parlor being in the junior colors, red and white, the back parlor in the senior's, green and white, and the dining room in orange and black, the high school colors. Palms were used in the various rooms.

At 8 o'clock the luncheon was served, the class officers and teachers being seated at a large table, while the others were served from the small tables. The menu consisted of salad, wafers, ice cream, cake and frappe, the ice cream being in the class colors. Dwight Clarkson acted as toastmaster, Earl McNeil responding to Our Teachers; Vernor Crane, The Juniors; Mildred Boyce, The Seniors; Leota Aten, The Boys; Roger Waring, The Girls; Chas. Ettinger, high School Days.

After the supper a social time was enjoyed and the following program rendered:

Violin Solo—Glenn Lanning.
Song—Floy Underwood.
Rec.—Olive McBride.

TEMPORARY BRIDGE

Now being constructed across the river to take the place of the

ONE WASHED AWAY

And according to "Uncle Bill Jordan" and Fred Teachout it will be ready for use this evening.

Last evening there was a large attendance at the council meeting and at the close of it a meeting was held with the town board to talk over this matter of the bridge, but it was simply a "starter" and nothing definite was decided as to where or how to build. The township board was united that a separate bridge should be built, but exactly where was the question undecided by both the council and township board. The Smiths will commence to rebuild the dam at once.

Of course these things cause changes and sometimes additions to the city force. The temporary bridge is built about 20 rods below the old one and until it is completed it necessitates running a ferry at the old place which is in charge of the Mulls, the "Captain" and "Admiral" who run the same night and day. Two good docks have been built, one on each side of the river and and on call one skipper or the other is always on hand to take you across.

Streets Lighted Last Night.

Last night the streets were lighted in the west end of town and tonight some of them will be run again in which end the HERALD does not know. It is to be hoped in both ends.

Base Ball.

A meeting of the board was held last evening to arrange for the opening day with Kalamazoo the 14th and 15th. Efforts will be made to secure a special train from Adrian.

NOON IN TECUMSEH

What is going on in town when the clock strikes 12.

Noon, the dinner hour, the hour of comfort, of pleasure and relaxation—the one hour in 24 which comes to men and women of every station with greater similarity than the hour of any other function in life.

Promptly as the clock strikes 12 in Tecumseh the shadows on anxious faces turn to lines of good will and if villainous hot bread, pies, spices and other indigestibles were excluded there would be no such words as dyspepsia or indigestion in the dictionary.

But the contrary is true and medical science has to step in and aid the man or woman who has been too busy to pay proper attention to health.

The greatest step forward in medical discovery is Mi-o-na, which cures all stomach and digestive troubles.

In hundreds of the best homes in Tecumseh and adjoining towns the handy little tablets, so pleasant to take, yet effective, have given quick and lasting relief in indigestion and that disagreeable full feeling after eating.

Mi-o-na acts very gently. Much of its wonderful power over indigestion comes from its uniform but sustaining action. The required stimulating and strengthening is given to the important organs of digestion without producing the slightest weakness or reaction.

A 50 cent box lasts for a couple of weeks and will ward off a dozen attacks of indigestion. C. A. Wright gives a guarantee, absolute and unqualified, with every box of Mi-o-na to refund the money if it does not give satisfaction.

Love may be ever so great, but must also be wise, to grow.

Farewell Reception.

A large number attended the reception given in honor of Rev. and Mrs. Fox at the Presbyterian church last Friday evening. When Mr. Fox came to Tecumseh to take charge of the work here last fall, he came with the understanding that in May, at the time of Mr. Dunning's graduation, that Mr. Dunning would again resume the pastorate of the church. During Mr. Fox's stay here, not only the members of his church, but others as well have become very much attached to him and dislike to see him go.

The pastors of the other churches were all present and expressed a desire to have Mr. Fox remain and it was suggested by them that the Presbyterians keep two pastors as there was work enough in so large a church. Mr. J. H. Smith responded as to how the church felt toward his going away and said that he voiced the wishes of every member of the church when he said they would like to keep both, but the pastors might not like the financial part. In behalf of the members of the church he presented Mr. Fox with a purse of money.

Light refreshments of ice cream and cake completed the evening. Just where Rev. and Mrs. Fox will go is not known positively, but he will undoubtedly accept a call from Indiana. Rev. Dunning and wife are moving to Tecumseh this week, where Mr. Dunning will begin his work next Sunday.

My best friend.

Alexander Benton, who lives at Fort Edward N. Y., says: "Dr. King's New Discovery is my best earthly friend. It cured me of asthma 6 years ago. It has also cured my son's wife of consumption. The first bottle ended the terrible cough and this accomplished the other symptoms left one by one until she was perfectly well. Dr. King's New Discovery's power over coughs and colds is simply marvelous." No other remedy has ever equaled it. Fully guaranteed by C. A. Wright, druggist. 50c and $1. Trial bottle free.

FOR OUR READERS.

To prove that Hyomei will cure catarrh every reader of the Herald can have special guarantee.

Is there any doubt in your mind as to the power of Hy-o-mei, the medicated air treatment, to cure all catarrhal troubles the offer made by C. A. Wright should expel that doubt. He gives his personal guarantee with every dollar outfit of Hy-o-mei he sells to refund the money unless it gives satisfaction. He takes all the risk of cure and no reader of the HERALD can afford to suffer longer with catarrh when an offer like this is made.

With every outfit is a pocket inhaler and Hy-o-mei breathed through it reaches the most remote air-cells of the nose, throat and lungs, destroying all germs and healing the irritated membrane.

Hy-o-mei gives you a health giving climate in your own home so that when you breathe its medicated air your nose throat and lungs will be filled with air like that on the mountains where grow balsamic trees and plants which purify the air with their antiseptic fragrance so healing to the respiratory organs.

You will notice benefit from the first use of Hy-o-mei and it will not take many days' treatment to convince you that in this remedy you have found a complete and lasting cure for all catarrhal troubles.

For a number of years I was bothered with a weakness of the bladder and my back ached all the time.

Sharp pains would attack me so suddenly at times that I would have to grasp something for support. I could not rest well at night and in the morning felt tired. I got Doan's Kidney Pills and used them, receiving great benefit as they rid me of the backache. I advise every sufferer from kidney trouble to give them a trial."

Defrauders Come to Trial.

Pittsburg, May 7.—The case of J. Jay Dull, Charles L. Close and Frank L. Emmett, former employes of the Shelby Steel Tube Co. of Greenville, Pa., charged with conspiracy to defraud the United States government, in connection with installing alleged defective tubes on the war vessels Pennsylvania, Louisiana, Maryland, Charleston, Nebraska, Minnesota, Vermont, Washington and Tennessee, was called yesterday in the United States district court before Judge Nathaniel Ewing. The alleged scandal has attracted attention for some years past. One of the defendants, Frank L. Emmett, has turned state's evidence and some sensational testimony is expected to develop during the trial The entire session Monday was occupied in the selection of a jury.

Soldier Murders and Suicides.

Washington, May 7.—William Parks, 47 years old, of Zanesville, O., an inmate of the National Soldiers' home here, yesterday shot and fatally wounded James Leslie, of Chicago, 30 years old, also an inmate, and afterwards committed suicide. Parks had been drinking and entering one of the wards of the hospital was directed to leave by one of the nurses, Sister Paula. Parks immediately drew a revolver and was about to shoot when Leslie stepped in between them, receiving the bullet intended for the nurse.

The Price of Peace.

The Hague, May 7.—Although the second international peace conference does not open until June 15, practically all the desirable hotel accommodation in this city already has been taken for the period of the peace conference, at prices treble and quadruple the usual rates. Many of the delegations have secured quarters at Scheveningen, a famous watering place within easy reach of The Hague. The American delegation will reside at the Hotel Des Indes, where their rooms alone, without service or food, will cost $260 daily.

Investigating Cruelty Charges.

Rome, May 7.—Giuseppe Garibaldi, a grandson of the celebrated Italian patriot, is on the isthmus of Panama charged by the Italian government with the temporary mission of investigating the reports that Italian workmen employed on the canal are subjected to hardships and even cruelties. With Signor Garibaldi's report before it, the Italian government will decide whether or not to revoke the existing ruling against Italians emigrating to the isthmus.

McIver Takes Last Journey.

New York, May 7.—Henry R. E. McIver, a soldier of fortune, whose exploits have been carried on in many lands, was found dead in bed in his home in West Twenty-second street Monday. McIver's exploits were made famous by a series of articles by a well known author, which recently appeared in a widely-circulated weekly.

A NERVE TONIC

for Over-Wrought Business Men

Business conditions today ask more of a man's vitality than ever before. It's one continuous drive at high tension, overtaxing the body and brain until a complete breakdown comes.

The nervous system suffers most of all. The demand upon it is the most relentless. To succeed in business today usually means to be a nervous wreck at forty, if not before.

For a man working day in, day out, under these conditions

Rexall Americanitis Elixir

is as necessary as food and drink. This unique medical discovery strengthens and tones the nerves to meet this unnatural demand upon them. It supplies to the body phosphorus in soluble form—a thing never before considered possible. Rexall Americanitis has accomplished wonderful results all over the country and its merits are now universally recognized. Get a bottle of this nerve tonic today. Note how quickly that feeling of nervous strain disappears.

The Story of Rexall

REX means "king," and the combination makes REXALL "king of all."

We have proven time and time again that Rexall Remedies are kings above all others.

For more than two years an expert travelled all over the world in search of extraordinary remedies. Wherever he heard of a wonderful cure of any nature he did not rest until he personally could see the effect of the prescription used. Where he found the remedy perfect he purchased the prescription, but it was never used as a Rexall remedy until the properties had been thoroughly analyzed by the chemists and physicians of the United Drug Company.

MANY STRIKES.

Labor Troubles Beginning to Develop Throughout Country.

San Francisco, May 7.—The labor situation in San Francisco showed no change from yesterday. The street cars were not running, the telephone service was crippled, thousands of iron workers were still holding out for an 8-hour day, and nearly all of the big laundries were idle. No attempt to run cars was made yesterday. Conditions were made more serious by the virtual suspension of telephone service.

San Antonio, May 7.—A special to the Express from Orizaba, Mex., says: Two thousand operatives of the Rio Blanco textile mills and 1,000 from the mills at Nogales are on strike, and the streets are thronged with excited and restless men, ready for an outbreak, held in check only by a large force of rurales. The trouble in the Rio Blanco mills is due, so the men charge, to the fact that they were required to do a large amount of extra work without pay. In the mills at Nogales a man fought with a fellow employe, and was arrested and discharged from the mills. His fellow workers demanded his reinstatement. When the demand was refused, they struck.

Chicago, May 7.—Some 400 bricklayers, allied trades and laborers, Monday, struck to enforce a Saturday pay day. The strike is the first of consequence to occur in Chicago since May 1. Among the public buildings on which work was brought to a standstill, is the new $5,000,000 county building, now nearing completion. Half a dozen school buildings in course of construction were also caught in the strike.

Pittsburg, May 7.—The strike of over 1,200 machinists in the Pittsburg district recently inaugurated, when their demands for a 10 per cent wage increase and shorter hours was refused, is gradually assuming a serious aspect.

For the first time since the establishment of the Pennsylvania state constabulary, the protection of that organization has been invoked in Allegheny county. Eight troopers arrived here yesterday and are stationed at the Mesta Machine works at West Homestead.

Connellsville, Pa., May 7.—Benjamin Carter, a negro strike-breaker, was stabbed in the back, two negroes were arrested for carrying firearms and members of the state constabulary were fired upon last night during a riot between white men and negro strike-breakers at the plant of the Sligo Iron & Steel Co.

The mills have been closed since April 13th until a few days ago, when several carloads of negroes were imported from Pittsburg.

More trouble is expected.

Omaha, Neb., May 7.—Three hundred and eighty men in the car repairing and the refining departments of the Armour & Co. packing plant walked out Monday. They struck for an increase in pay.

New York, May 7.—The longshoremen's strike which has been on for a week in Brooklyn and Manhattan, was suddenly extended yesterday when a number of men employed on the docks on the Hudson, both in New York and Hoboken, left their places. It is estimated that about 300 went out.

A strike of 350 laborers in the Havemeyer Sugar Refining Co.'s plant in Brooklyn, Monday, was attended with some disturbance which the police reserves were called upon to quell.

Saw Her Chance.

Wife—Mrs. Flareup threw a flatiron at her husband last night because he accidentally sat down on her new bonnet. Now, I couldn't do a thing like that. Husband—You couldn't? Wife—Of course not. I haven't any new bonnet.

NEWS IN BRIEF.

John I. Platt, editor of the Poughkeepsie Eagle, and one of the best known newspaper editors in the state, died in Poughkeepsie on Monday.

Miles Howard was killed and J. W. Barber was seriously injured Monday by being run down by a trolley car while walking along the track to their homes at Martins Ferry, O.

The imperial disciplinary court, at Berlin, Monday, sentenced ex-Gov. Horn, of the Togoland colony, to dismissal from the service because in 1903 he punished a native so severely that the man died from the effects.

Joseph Stanley and M. C. Smith, both white, of Pensacola, Fla., were arrested Monday charged with the murder of the Ackerman family. The family consisted of father, mother and seven children, whose charred bodies were found cremated in their home.

The League of American Sportsmen, the first of the many national bodies to meet at the Jamestown exposition this year, convened Monday in the auditorium on the exposition grounds. The meeting was called to order by G. O. Shields, the national president, with representatives from twenty states in attendance.

James Leftwich, a wealthy cattleman of Loco, I. T., and candidate for state senator on the Democratic ticket, yesterday shot and killed T. J. Clark, also a wealthy cattleman, at the entrance to the courthouse in Duncan. Both men were armed, but Leftwich was the quicker in drawing a revolver.

Japs Welcome Hero.

Missoula, Mont., May 7.—Gen. Kuroki and party, escorted by Gen. Arthur MacArthur and staff, who are on the way to Washington, Sunday made a short stay in Missoula. The occasion was a holiday for the Japanese of western Montana, who flocked to the station to welcome the war hero. Gen. Kuroki spoke briefly to his countrymen and received a large bouquet of carnations from Miss Mitsuko Yasumuta, daughter of a prominent Japanese resident.

Severe Hail Storm.

Cassville, Mo., May 7.—Allie Beeson, 16 years old, was rendered unconscious yesterday by falling hail, and she may die. At a late hour last night she was still unconscious. The hail storm was the most destructive ever known in Berry county. Ice balls as large as hen's eggs fell to a depth of two inches. In Cassville West windows are all broken. Trees are stripped of foliage and crops are greatly damaged.

NICARAGUA AND MEXICO BREAK.

All Diplomatic Relations Between Two Countries Severed.

Washington, May 7.—Although telegraph wires have not brought to Washington the actual news of the severance of diplomatic relations of Guatemala and Mexico, officials here have no doubt that Mexico took the action yesterday that will result in giving to the Guatemalan minister in Mexico passports for his withdrawal. The Mexican minister in Guatemala is now preparing to return home and the American charge, Philip Brown, secretary to the legation, has been instructed to look after Mexican interests in the Guatemalan capital upon the departure of the Mexican minister.

Ambassador Creel, of Mexico, has been in hourly anticipation of a message from his government informing him that the break had occurred between his country and Guatemala. He was advised that Guatemala had denied the request for the surrender of Gen. Jose Liara, who is suspected of being implicated in the murder in Mexico of former Minister Barillas of Guatemala and that there was no alternative but for Mexico to consider the refusal as an insult necessitating the discontinuance of relations between the two countries.

The severance of diplomatic relations does not mean war, although the fact that the countries adjoin causes great anxiety in that there may be at any time invasions by one or the other into the territory of the enemy by irresponsible bands and doubtless trouble would result that might easily end in declarations of hostilities. Officials of the state department intend to use their good offices in an effort to adjust the present difficulty.

(Bulletin.)

Mexico City, May 7.—Diplomatic relations between Mexico and Guatemala have not been severed. Tonight the sub-secretary of foreign affairs, Jose Algara, emphatically denied the report emanating from Washington to the effect that Minister Gamboa had been recalled.

Woman Smothers Flames.

Flint, Mich., May 7.—Mrs. G. C. Cowles, of this city, had a startling experience at her home in this city yesterday. She was engaged in her household duties, when her clothing caught fire from the kitchen stove. She had the presence of mind to grab a rug from off the floor and a table cloth, and wrapping both about her, smothered the flames.

Struck Down and Robbed.

Jackson, Mich., May 7.—J. W. L. Arthur, formerly part owner of the Blackman hotel, was set upon by highwaymen last night and robbed of 700, according to his story to the police. He says he was knocked down by a brick hitting him on the head. A deep scalp wound on his head bears out that statement. He says he has no idea of the identity of his assailant, and the authorities have no clue.

DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr Kilmer's Swamp Root, the great kidney, liver and bladder remedy.

It is the great medical triumph of the nineteenth century; discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, uric acid, catarrh of the bladder and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's **Swamp-Root** is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work and in private practice, and has proved so successful in every case that a special arrangement has been made by which all readers of this paper, who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root, and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The regular fifty-cent and one-dollar size bottles are sold by all good druggists. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Sour Stomach

No appetite, loss of strength, nervousness, headache, constipation, bad breath, general debility, sour risings, and catarrh of the stomach are all due to indigestion. Kodol relieves indigestion. This new discovery represents the natural juices of digestion as they exist in a healthy stomach, combined with the greatest known tonic and reconstructive properties. Kodol for dyspepsia does not only relieve indigestion and dyspepsia, but this famous remedy helps all stomach troubles by cleansing, purifying, sweetening and strengthening the mucous membranes lining the stomach.

"Mr. S. S. Ball, of Ravenswood, W. Va., says—I was troubled with sour stomach for twenty years. Kodol cured me and we are now using it in milk for baby."

Kodol Digests What You Eat.

Bottles only. Relieves indigestion, sour stomach, belching of gas, etc.

SITUATION IS GRAVE.

Serious Danger of Uprising in British India.

POLITICAL UNREST SPREADS.

Government Partly Cripples Rebels by Arresting and Deporting Lajpatria, Noted Leader — Troops Patrol Streets of Lahore.

Lahore, British India, May 10.—Everything seems to point to the imminence of a native outbreak here and the authorities are taking all the steps possible to suppress it by force of arms.

The political unrest is hourly assuming graver proportions. Bands of stalwart rustics, armed with bludgeons, who have been enlisted by the leaders of the sedition, are crowding into the native city; and troops of all arms, and bodies of police, mounted and dismounted, are being drafted into the city of Lahore from all parts of the province. The fortifications of Lahore have been subjected to a special inspection and the artillerymen have been reinforced.

Proclamation Issued.

The lieutenant-governor of the Punjab, Sir Denzil Ibbetson, is taking active measures to circumvent any possible outbreak. He has issued a proclamation prohibiting meetings of every kind, and solemnly warning the public not to attend any assemblages under pain of severe punishment. In addition, the lieutenant-governor has struck at the root of the revolutionary movement by causing the arrest on Thursday afternoon of a prominent lawyer, Lajpatria, who practiced in the chief court of the Punjab, and who was the leader, financier and organizer of most of the seditious demonstrations and revolutionary riots in the Punjab.

Immediately after being taken into custody, Lajpatria was deported to another province. His arrest caused a profound sensation among the Hindus, who hitherto had believed that the authorities would not dare to take such drastic action. Another revolutionary leader, for whose arrest a warrant has been issued, received an intimation of the action by the authorities, escaped from Lahore and is now in hiding.

Streets Quiet for Once.

The swift display of military force, combined with the arrest of Lajpatral, appears to have paralyzed the seditious movement.

The troops were out all night last night, but this city, which hitherto has been the scene of nightly excitement—inflammattory oratory and noisy processions—slept in unbroked stillness. The streets were utterly deserted.
